

# Hood River Glacier.

HOOD RIVER, OR. NOV. 11, 1893.

## A TERRIBLE EXPLOSION.

The explosion of dynamite on board the steamship at Santander, Spain, last week, was the most terrible thing of the kind that ever occurred. A fire breaking out on the ship while she was lying at the wharf caused a large crowd to gather. Twenty cases of dynamite known to be on board were at once taken ashore, but there were 480 cases more that did not show on the ship's manifest, and it was supposed it was all out of the ship. The fire soon got beyond control and in a short time the boilers exploded. The shock exploded the dynamite and the vessel was blown to pieces. Burning timbers were thrown high in the air, and descending on the houses, soon had the city on fire in hundreds of places. Hundreds of people were killed by the explosion and other hundreds by the descending ruins of the ship and cargo. Several hundred were thrown into the bay and drowned. In all over 1,000 persons were killed and as many more wounded, many of whom will die.

## CONCERNING TAXES.

The county court is in session, and we humbly suggest that it take a new departure, and when it whacks a man's tax up to double what it was fixed upon by the assessor, that it notify the party and give him a chance. The taxes of Wasco county are now little short of robbery, and if there is not a change soon they will amount to confiscation. So when a fellow gives in his property for all it is worth, and has it raised to double what it will sell for and then taxed 25 mills a the dollar, and all this without being aware of the fact that his assessment has been changed, it is pretty tough. We know one place here that last year was assessed at \$1400, and was sold soon after for \$50.

## THANKSGIVING.

Thanksgiving days are plentiful this year. The governor has appointed Thursday, the 23d, as a day for returning thanks for such blessings as we have received, and the governor especially recommends that the people send up a prayer for the democratic party. The president, as is customary, has set apart the last Thursday in the month, the 30th. So with two days, you pay your money and takes your choice. A happy compromise will be to celebrate both, if the turkey holds out. Here in Hood River we have so much to be thankful for that the two days will not prove sufficient. It will take that long to be properly thankful for being allowed to live in Hood River.

Sidney Dell has it again—that is to say, he is again troubled with a wild desire to write, and this time on the "financial question." It is a subject that is wonderfully attractive, and that's the reason we like to get a whack at it ourselves. We all like to write about the things we do not possess. Hence Sidney Dell and Moffet and the balance of us penny-a-liners can roll from \$40,000,000 to \$500,000,000 under our tongues and never gaud. And the whole "billin'" of us couldn't dig up half that sum.

Theodore Liebe, brother of Judge Liebe of The Dalles, was shot by Clinton Hess at Portland, Tuesday, the call entering the neck at the base of the skull and coming out below the right eye. As soon as the deed was done Hess turned the pistol on himself, blowing the top of his head off. Hess was married to Liebe's niece, was employed by Liebe, and being caught pilfering from him, was arrested and placed under bond for trial at the present term of court.

Crisp says the tariff laws will be changed immediately on the meeting of Congress in December, and that the changes will be radical! He intimates that the tax on tobacco and whisky will be doubled up and that possibly an income tax will be levied. The elections Tuesday will probably teach the democratic congressmen that they were elected on a tariff-repeal issue.

This year will certainly go down to posterity as the hoodo year of the century. Morning after morning the telegraph announces some horrible disaster, until they no longer attract more than a passing remark. There is an epidemic of disaster, in which the sea vies with the land in furnishing new and horrible examples.

The editor of the Portland Telegram states that one room in the art building at the world's fair was neatly papered with the front page of the great papers of the United States. It asserts that the Telegram was among them. That is really the newest bit of news in our gloaming contemporary and entirely unsuspected.

The financial situation is improving wonderfully since the repeal of the Sherman bill. On that day we had ten cents, and a recapitulation of our wealth three days after discovered a quarter. Gain, 50 per cent a day.

The time in which the Chinese may register has been extended six months.

## PEASE & MAYS.

### THE ELECTIONS.

The republicans held an election yesterday in about a dozen states. Ohio went republican by probably 80,000. New York downed Maynard democratic candidate for supreme judge by 90,000 solid votes, and elected Palmer secretary of state by 35,000, besides electing both houses of the legislature. Massachusetts is republican by 30,000. Pennsylvania woods were full of anti-democrats carrying the state by 125,000 or perhaps more. Iowa piled up 35,000 majority against Boies. South Dakota is close, with the republican candidates probably elected. Nebraska gives republican plurality of 2000 electing its ticket. Kansas shows large republican gains. As a tail to the republican kite just to steady it, Virginia and Kentucky went democratic.

### EDITOR GLACIER:

In answer to your request for individual opinion as to the best variety or varieties of apples to plant in this locality, I will give my experience with 100 trees planted in 1879. The following varieties were planted: Yellow Newtown pippin, 14; Gravenstein, 14; Twenty ounce, 4; Fall pippin, 7; Swaar, 7; Winter rambo, 7; Spitzburg, 7; Baldwin, 7; Roxbury russet, 7; Winesap, 7; Red cheek pippin, 7; Early harvest, 5; White bellflower, 7—total, 100. My trees were well cultivated for the first two years and made a good growth without the loss of a single tree during that time. I then went to Portland, remaining off my place three years, and in my absence my orchard might not have been well cared for, but the trees were all served alike.

Of the 100 apple trees planted in 1879 there remain to-day: Yellow Newtown pippin, 5; Gravenstein, 9; Twenty ounce, 2; Fall Pippin, 7; Swaar, 5; Winter rambo, 6; Spitzburg, 2; Baldwin, 4; Roxbury russet, 4; Winesap, 6; Red cheek pippin, 3; Early harvest, 3; Bellflower, none—making a total of 53 trees alive and bearing a crop this year of the 100 trees planted fourteen years ago.

My trees were sprayed four times during the past season for the codlin moth, but my loss from wormy apples in all varieties other than the Gravenstein and Winesap was heavy. The Gravenstein, for a summer and fall apple, of course stands at the head of the list. The tree is hardy and a prolific bearer, and we can raise more of them than any other apple. But for a winter apple it is not such an easy matter to decide. On my land I consider the winesap the most profitable of the winter varieties above enumerated. The tree is hardy, bears a full crop every year, and seems to be less affected by codlin moth than any apple on my place. The fruit is a nice red, the color now in demand, and if not allowed to bear too full, the apple is a good size.

S. F. BLYTHE.

In a private letter Dr. Jay Guy Lewis writes as follows from Chicago: "We will leave on about the 6th inst. with our victorious banners floating on the breeze with a record of eighteen medals of award in horticulture, nineteen in agriculture, four in mines, four in education, six in fishery, two in women's work and two in herbarium, outranking only the Pacific states and second only to New York and Illinois."

It is the unexpected that always happens. Instead of silver losing its value since the repeal of the Sherman bill, it has steadily advanced and is now worth three cents more an ounce than it was two weeks ago.

The democratic procession failed to get there on time. It was detained by a land slide. Home rule for Ireland has received a hard blow.

Congress adjourned sine die before election day. Had it waited until the returns came in it would have made it sine die.

### Reservation Boundaries.

From a tracing kindly furnished us by Captain Lewis of The Dalles Land Office, we find that the east line of the Cascade Forest Reservation follows the range line between ranges 8 and 9 east from the Columbia to the base line. This it follows east to the east line of range 10, and thence south on this line to township 4 south. The west line leaves the Columbia at Warrendale, runs east to about the line between ranges 7 and 8, thence to the base line, near said line; thence diagonally in a southeasterly direction through townships 1 and 2 south of 8 east to within a mile of the east line thereof, thence south past Mt. Hood. Townships 9 and 10 east, south of the base line, are in the reservation.

The man who buys shoestrings and other small articles from street fakirs doesn't always do so because he gets them, or thinks he gets them, cheaper. It is chiefly because men engaged in business are usually so absentminded that trifles of everyday use are never thought of unless they are pushed right under the business nose. As a rule the stuff bought of street vendors costs two to five times as much as it would in a legitimate store. But it is on this single weakness of mankind that the street fakir lives and thrives. A man will fool with a broken shoestring a dozen mornings before he will remember to get a new pair. Then suddenly during a busy day he runs against a shoestring peddler and buys a pair on the spot, paying double price for what his dealer would give him for nothing.

The fakirs thrive best in the closest and most busy centers. Down in Wall and Broad and New and Nassau streets, among the bankers and brokers and lawyers, who are too busy to think of suspenders and shoestrings and lead pencils, etc., the street fakirs fare well, for amid the roar of clashing millions the absentminded man clutches hastily on what comes uppermost, knowing that otherwise he'll forget all about it.

### Electricity in Oyster Culture.

Electricity is about the last thing to be thought of in connection with oysters, yet a very close association between them has been established by M. Lacasse-Duthier, the well known authority on oyster culture. He makes use of the electric light in examining the stages of development through which the spawn passes. A glass cylinder is mounted in a cylindrical skeleton cage which serves as a support, and into this glass the water containing the spawn is placed. At the bottom is a silvered reflector, and the cover forms a parabolic reflector, in the center of which is fixed a small incandescent lamp. The reflector and sides of the glass cylinder act in such a way that but few rays of light emerge from the apparatus directly, hence the liquid is suffused with a soft illumination which is admirably suited to the examination of the contents. A modification of this little apparatus is now being employed in various researches into the life processes of ferments and the culture of microbes.—New York Telegram.

### The Evolution of the Sword.

As men in early times fought hand to hand, the oldest specimens of the sword are short; in fact, the sword is probably but an evolution of the club, which at first made of hard wood was gradually sharpened on one and then on both sides, so as to inflict a more deadly wound. Even today we find some savage races employing wooden weapons. Wood gave way to stone, which in turn was displaced by bronze, iron and finally steel. The sword increased in length as men became more civilized and showed a disposition to fight farther away from each other, which required more dexterity in the use of the weapon. Some specimens we have of swords of the Middle Ages are almost if not quite as long as the war riors who wielded them. During the Fifteenth century the science of fencing was invented, when the sword in the form of a rapier reached the highest point of development.—Kate Field's Washington.

J. F. WATT,

Physician and Surgeon HOOD RIVER, OR.

Is especially prepared to treat Diseases of Nose and Throat.

### A Copper Plated Ceiling.

The use of copper in decorative metal work is largely on the increase, by reason of the ease with which it can be used in various electroplating processes. The electrotyping of metal has been carried so far that entire shop fronts are constructed by this process. One of the ceilings of the Equitable building is made of electroplated copper on wood, which exhibits the capabilities of this beautiful method of interior decoration.—Decorator and Furnisher.

### A Curious Funeral Ceremony.

It is said that when Alaric, the conqueror of Rome, died that a river was turned aside to make place in its bed for his grave, and when he was buried the water was again let into its former channel, and the prisoners who had helped to bury him were killed, so that no one might find out where the conqueror of Rome was buried. The river thus turned was the Busento, and the place near Cosentino, Italy.—St. Louis Republic.

### NOTICE FOR PUBLICATION.

Land Office at Vancouver, Wash., Nov. 8, 1893. Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before W. R. Dunbar, Commissioner, United States Circuit Court for District of Washington at Goldendale, Washington, on December 22, 1893, viz:

Thurmon E. Wright, Purchase Application No. 420, under section 3, Forfeiture Act September 22, 1850, for the s. 1/2 of E. 1/4 and N. 1/4 of S. 1/4 sec. 11, T. 4, R. 12, E. 1/2, Willmer.

He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz: George B. Lyle, George A. Snider, John R. Simmons, Frank R. Reynolds, Lewis C. Wright, all of Lyle P. O., Wash.

George B. Lyle, Pre-emption Declaratory Statement No. 288, for the s. 1/2 sec. 8, T. 4, R. 12, east, will mer.

He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz: Thurmon E. Wright, John R. Simmons, Frank R. Reynolds, Lewis C. Wright, all of Lyle P. O., Wash.

George A. Snider, Purchase Application No. 387, under section 3, Forfeiture Act September 22, 1850, for the N. 1/2 of sec. 11, T. 4, R. 12, east, will mer.

He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz: John R. Simmons, Thurmon E. Wright, George A. Snider, Frank R. Reynolds, all of Lyle P. O., Klickitat county, Wash.

John R. Simmons, Purchase Application No. 439, under section 3, Forfeiture Act September 22, 1850, for the N. 1/2 of E. 1/4 of the 1/2 and the E. 1/4 of N. 1/4 sec. 11, T. 4, R. 12, east, will mer.

He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz: George B. Lyle, Thurmon E. Wright, George A. Snider, Frank R. Reynolds, all of Lyle P. O., Klickitat county, Wash.

John D. Geoghegan, Register, Notice for Publication, [Timber Land, April 24th, 1875.]

United States Land Office, Vancouver, Wash., Sept. 13, 1893. Notice is hereby given that in compliance with the provisions of the act of Congress of June 3, 1878, entitled "An act for the sale of timber lands in the States of California, Oregon, Nevada and Washington Territory," Charles A. Wood, of the County of Klickitat, State of Washington, has this day filed in this office his sworn statement, No. 104, for the purchase of the s. 1/2 of section 3, T. 4, R. 12, E. 1/2, township No. 4, north range No. 9, E. W. M. and will offer proof to show that the land sought is more valuable for its timber or stone than for agricultural purposes, and to establish his claim to said land before the Register and Receiver of this office at Vancouver, Wash., on Monday the 27th day of November, 1893.

He names as witnesses: William Kennedy, William Drano, John M. Couffer, George M. Berry, all of Chenoweth, Wash.

Any and all persons claiming adversely the above described lands are requested to file their claims in this office on or before said 27th day of November, 1893.

John D. Geoghegan, Register, Notice for Publication, Land Office at Oregon City, Ore., Nov. 25, 1893.

Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before the Register and Receiver U. S. Land Office at Oregon City Oregon on Oct. 23, 1893, viz:

Ed. App. No. 659 for the N. 1/4 of N. 1/4 sec. 2, T. 1, R. 8, W. 1/2.

He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz: Charles Stewart, William Friesel, Hans Weeks, Nick Weber, all of Cascade Locks, Wasco county Oregon.

Robert A. Miller, Register, Notice for Publication, Land Office at The Dalles, Or., Oct. 9, 1893.

Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before the Register and Receiver U. S. Land Office at The Dalles Or., on Monday Nov. 20, 1893, viz:

Ed. No. 693 for the W. 1/2 of N. 1/4 sec. 2, T. 1, R. 8, W. 1/2 and W. 1/2 sec. 2, T. 1, R. 8, W. 1/2.

He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz: Nelson Anderson, Herman Bertsch, Albert Bertsch, all of Felda P. O., Washington; Frank Shaw, of Glenwood P. O., Washington.

George Gerbing, Notice for Publication, Land Office at Vancouver, Wash., Oct. 7, 1893.

Notice is hereby given that the following named settler has filed notice of her intention to make final proof in support of her claim, and that said proof will be made before W. R. Dunbar, Commissioner, U. S. Circuit Court for District of Washington at Goldendale Washington on November 18, 1893 viz:

George Gerbing, Homestead Application No. 623 for the S. 1/4 of E. 1/4 of N. 1/4 sec. 2, T. 1, R. 8, W. 1/2 and E. 1/4 of N. 1/4 sec. 2, T. 1, R. 8, W. 1/2.

He names the following witnesses to prove her continuous residence upon and cultivation of said land, viz: Walter Bates, Rachael Rowlands, Harry Shank, William Kincaid, all of Salmon, Oregon.

John D. Geoghegan, Register, Notice for Publication, Land Office at Vancouver, Wash., Sept. 10, 1893.

Notice is hereby given that the following named settler has filed notice of her intention to make final proof in support of her claim, and that said proof will be made before the Register and Receiver U. S. Land Office at Vancouver, Wash., on November 13, 1893, viz:

Alice M. Wordsworth, H. E. 839 for the W. 1/2 of S. 1/4 sec. 11 and N. 1/4 of S. 1/4 sec. 21, T. 3, R. 1, E. W. N.

He names the following witnesses to prove her continuous residence upon and cultivation of said land, viz: Walter Bates, Rachael Rowlands, Harry Shank, William Kincaid, all of Salmon, Oregon.

John D. Geoghegan, Register, Notice for Publication, Land Office at Vancouver, Wash., Sept. 10, 1893.

Notice is hereby given that the following named settler has filed notice of her intention to make final proof in support of her claim, and that said proof will be made before the Register and Receiver U. S. Land Office at Vancouver, Wash., on November 13, 1893, viz:

Alice M. Wordsworth, H. E. 839 for the W. 1/2 of S. 1/4 sec. 11 and N. 1/4 of S. 1/4 sec. 21, T. 3, R. 1, E. W. N.

He names the following witnesses to prove her continuous residence upon and cultivation of said land, viz: Walter Bates, Rachael Rowlands, Harry Shank, William Kincaid, all of Salmon, Oregon.

John D. Geoghegan, Register, Notice for Publication, Land Office at Vancouver, Wash., Sept. 10, 1893.
