The duke possessed no fewer than seven seats, the cost of keeping up which alone must have been considerable. The duke had the patronage of over forty church livings, the annual total value of which exceeds £10,000 per

The founder of the house was William Cavendish, commonly supposed (according to Mr. Evans' "Old Nobility") to be identical with that Cavendish who wrote the "Life of Wolsey," and who has been immortalized by Shakespeare. The fifth duke was the husband of the duchess whose portrait was painted by Gainsborough, and about whom there is a story similar to that of one of the duchesses of Gordon of her kissing tradesmen to obtain votes. It was the sixth duke who formed the famous gardens at Chatsworth. The family motto, "Safe by being cautions," applies, most people will think, very fitly to the new duke .--

TROOPING TO THE CASEALGHEWAN

Why are American farmers trooping nto the Saskatchewan district of the Canadian Northwest Territories? The answer is simple. Settlers from the Eastern States are unable to find suitable unoccupied land in the Western States: the young men who were born and raised in the West look about for land and cannot find it near home, and of those who have land some have necessity for more. They want first-class farming land that does not require irrigation; they want rich grass land for their cattle, and they want it cheap. They find that they can attain such land in all quantities, some of it free and as much as they want at \$3 an acre, and that as a settler need pay only a tenth of the purchase money down, with nine years to pay the rest, his land increases in value far above the purchase price long before his payments are due. And the men of Washington, Oregon and Western States see by the map that they have not far to go; that lines run up from the boundary at several points to Calgary and Edmonton, and that the lands to be acquired are along the line of railway and within casy reach of a station. It is no wonder therefore that there is a quiet but extensive movement among Americon farmers to get to this Northern Alberta country, and that the Northern Alberta country, and that the lands from fifty miles north of Calgary to Edmonton on the Saskatchewan and beyond it are very eagerly sought. In several parts, where two years ago only a small railway station marked the district, mixed colonies of Canadians and Americans have now established themselves.

How Chicago Is Spelled.

In sorting over the letters for Chicago a man in the general Chicago office has kept an account of the number of different ways the word Chicago is spelled. Two Scared Indians.

Two Indians from the La Pointe reservation arrived in Bayfield a few days ago paralyzed with fear. They told a wonderful story of adventure. They had started on a hunt on Madeline island and intended to visit some friends. They camped on a spot about four miles from the village. At midnight the Indiana were aroused by a fearful struggle. Before them were two men and a woman battling, the contestants being covered with blood.

The Indians say the forms disappeared afterward, but the sounds and groans were kept up all night. People in that vicinity claim there has been a terrible murder committed on the island some time in the past, and that the "ghosts" of the parties were seen by the Indians. -Milwankee Wisconsin.
