

Hood River Glacier.

HOOD RIVER, OR. MAR. 17, 1894.

CONCERNING CANDIDATES.

Politics are growing more interesting as the conventions draw nigh. Whether the populists will place a county ticket in the race, or not, remains to be seen.

THE INCOME TAX.

Senator Sherman of Ohio is not now advocating an income tax. He is now said to be worth \$2,000,000, saved from his salary. In 1870 "Honest John" was of different opinion.

A DEAD REVOLT.

The revolution in Brazil is ended. De Gama Monday abandoned his own ship and took refuge in a "Portuguese man of war."

PLAIN FACTS.

We received Wednesday a communication from Mt. Hood with the above caption. The article did not bear the author's signature, and hence went into the waste basket.

There is mention of Hon. C. W. Fulton of Astoria as a possible candidate for congress in this district.

If honest Phil Metschan expects to succeed himself he had better get the state money out of the Merchants National bank in Portland and into the state treasury.

Most of our citizens received a postal card from the sheriff within the past week, stating that the happy recipient's taxes were so much, and that the same would be delinquent April 1st.

Senator White of California is a democrat with republican ideas, while Senator David B. Hill of New York is a democrat who advocates republican measures.

According to the Oregonian, the taxes in Multnomah county are being paid in an unprecedented manner. That paper, with its usual sapient remarks that "times are so hard that the tax payers have more money than they know what to do with, and hence blow it in for taxes."

The Oregon Bimetallic League organized recently in Portland is growing so rapidly as to cause alarm to senator Dolph's friends.

Pursuant to a call from the chairman, the democratic county central committee met at the court house in The Dalles March 10, 1894. There were present Charles Stewart of Falls precinct, F. M. Jackson of Hood River, Jeff Mosier of Mosier, E. Schutz of West Dalles, J. H. Philman of Trevitt, S. B. Adams of Bigelow, Ben Wilson of East Dalles, W. Ward of Deschutes, Aaron Frazier of Dufur by J. B. Condon, proxy, L. M. Woodside of Oak Grove, Ed W. Wingate of Antelope, H. F. Woodcock of Wamie; E. Schutz, Chairman, and J. H. Jackson, secretary.

The meeting was called to order by Chairman Schutz, and after a few appropriate remarks, the following business was transacted:

It was recommended by the chair that the apportionment for representation at the county convention be one delegate at large from each precinct and one for every forty votes cast at the state and county election in 1892 for A. S. Bennett for supreme judge, and one for each fraction of forty above twenty.

F. M. Jackson of Hood River moved that the representation be increased to one at large and one for each thirty votes cast for A. S. Bennett, and one for each fraction above fifteen.

J. B. Condon moved to amend the motion of Mr. Jackson and make the representation one delegate at large and one for each twenty votes cast for Bennett, and one for each fraction of twenty above ten.

F. M. Jackson of Hood River moved that the representation be increased to one at large and one for each thirty votes cast for A. S. Bennett, and one for each fraction above fifteen.

A motion was then adopted that the primaries be held in the different precincts on March 31, 1894, between the hours of 12 o'clock m. and 7 p. m., except in Wamie precinct, and it was agreed that Wamie hold its primary on the 29th day of March, and that all precinct elections be held as nearly as possible in conformity to the laws of the state governing general elections.

Upon the recommendation of the chair, the time fixed for holding the county convention will be April 10, 1894, and the convention will be held in the court house in Dalles City at 10 o'clock a. m. of said day.

It was moved by F. M. Jackson and seconded by J. H. Philman that the secretary of the committee be required to furnish a copy of the minutes of this meeting to the Hood River Glacier for publication. The motion was carried by a unanimous vote.

It was moved and seconded that the secretary be required to offer a copy of the minutes of this meeting to each of the county papers published in this city for publication. The motion was carried, and there being no further business, the meeting was adjourned without date.

J. H. JACKSON, Secretary.

A Californian, Mr. Thomas A. Faulkner, has written a book entitled "From the Ballroom to Hell." Faulkner is an old dancing master and his opinion concerning the ballroom is entitled to weight; but we rise to ask where he got his pointers on the other place.

A Household Treasure. D. W. Fuller of Canajoharie, N. Y., says that he always keeps Dr. King's New Discovery in the house and his family always found the very best results follow its use; that he would not be without it if procurable.

Spelling Is Dreams. That incorrect spelling may be said to be incoherent in the understanding seems to be proved by the fact that when bad spellers see inscriptions or written sentences in their dreams the words are misspelled as they would misspell them.

That is very interesting, said a friend, who was curious to see if by any chance correct orthography had been revealed to the dreamer along with his vision.

Two dirty, ragged, wicked little newsboys sat up in the gods' gallery. The play was "Hamlet." The curtain fell on the last act. Hamlet had killed the false Claudius; the Queen is dying by poison; Laertes writhed at the feet of the princely Dane, himself dying of secret hurts.

How Trees Restrict Winds. There are pines so lofty that they resemble cathedral towers, and roofs of a pine tree are peculiar and resemble the claws of birds.

Every Part of a Tree Is Useful. There are no parts of a tree that cannot be utilized for the benefit of man or animal and vegetable life, and neither the stem nor boughs are alike, yet neither can be said to differ in many of their characteristics and the elements governed by natural law.

No Hope. Frank—Do you know how I can cure May of loving me? Belle—No; if she loves you, her case is plainly hopeless.—Kate Field's Washington.

"For Years,"

Says CARLIE E. STOCKWELL, of Chesterfield, N. H., "I was afflicted with an extremely severe pain in the lower part of the chest. The feeling was as if a heavy weight was laid on a spot the size of my hand. During the attacks, the perspiration would stand in drops on my face, and it was agony for me to make sufficient effort even to whisper. They came suddenly, at any hour of the day or night, lasting from thirty minutes to half a day, leaving as suddenly; but, for several days after, I was quite prostrated and sore. Sometimes the attacks were almost daily, then less frequent. After about four years of this suffering, I was taken down with bilious typhoid fever, and when I began to recover, I had the worst attack of my old trouble I ever experienced.

At the first of the fever, my mother gave me Ayer's Pills, my doctor recommending them as being better than anything he could prepare. I continued taking these Pills, and so great was the benefit derived that during nearly thirty years I have had but one attack of my former trouble, which yielded readily to the same remedy.

AYER'S PILLS. Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Every Dose Effective

Working Days of the World.

"The Working Days of Different Nations" forms the subject of some interesting data given by a Polish statistician. Orthodox Russia, with her numerous saints' days and secular holidays, naturally stands at the head of the list as the least laborious of civilized nations.

The names of the countries enumerated, with the number of their statutory working days, are thus given: Interior Russia, 267; Canada, 278; Scotland, 275; England, 278; Portugal, 283; Russian Poland, 288; Spain, 290; Austria and the Russian Baltic provinces, 295; Italy, 298; Bavaria, Belgium, Brazil and Luxembourg, 300; Saxony, France, Finland, Wurtemberg, Switzerland, Denmark and Norway, 302; Sweden, 304; Prussia and Ireland, 305; United States, 306; Holland, 308; and Hungary, 312.

One of the most remarkable of trees or shrubs grows near some springs about 12 miles north of Tuscarora. It is six or seven feet high, with a trunk which at its base is three times the size of an ordinary man's wrist. It has numberless branches and twigs, and resembles somewhat the barberry. Its truly wonderful characteristic is its luminosity, which is so great that on the darkest night it can be plainly seen a mile away.

The foliage is extremely rank, and its leaves resemble somewhat those of the aromatic bay tree in shape, size and color. The luminous property is due to a gummy substance, which can be transferred to the hand by rubbing and with the transfer the phosphorescent light, while that on the leaf disappears.

English View of Our Cakes. The American is an admirable cook—in theory; in practice indeed he may fail. The rush of modern ideas is too great for him. The sewing machine, the reaper and the corn elevator take up too much time.

A Successful Artist. A clerk from one of the government departments was in Detroit recently visiting a friend.

Who's the party I saw with you yesterday? asked a citizen of the host. He's from Washington, was the rather indefinite reply.

Many women read a magazine sketch or a novel in the same feverish way in which they hurry from a committee meeting to a tea and from the tea to a reception.

Hard Water. Aunt Jane—Is the water where you live now soft or hard? Wes Niece—I guess it's pretty hard. The girl splattered some on the lamp chimney the other night, an it broke all to pieces.—Good News.

A Drawing Room Idyl. Stephon—Will you accept this ring as an emblem of my love, because it has no ending? Phyllis—No; because it is also an emblem of my love, for it has no beginning.—Harper's Bazar.

S.E. Bartmess.

DEALER IN FURNITURE AND ALL KINDS OF BUILDING MATERIAL.

Wall Paper, Paints, Oils etc. A large supply of, and Exclusive Right to sell JOHN W. MASURY'S Celebrated liquid colors and tinted leads. Undertaking a Specialty.
