

Hood River Glacier.

HOOD RIVER, OR. MAR. 17, 1894.

THE MAILS.

The mail arrives from Mt. Hood at 11 o'clock A. M. Wednesdays and Saturdays, departs at 12 o'clock P. M. at the same days.
For Chewoweth, leaves at 8 A. M. arrives at P. M. Saturdays.
For White Salmon, leaves daily at 8 A. M. arrives at one o'clock P. M.
From White Salmon leaves for Fulda, Gilmer, Trout Lake and Glenwood, Monday, Wednesdays and Fridays.

SOIL TILTS.

Cambridge, N. O., C. A. B. meets at 8 o'clock P. M. on 17th of each month.
C. O. H. A. C. A. R. meets at 8 o'clock P. M. on 17th of each month.
M. B. F. meets at 8 o'clock P. M. on 17th of each month.
C. J. H. meets at 8 o'clock P. M. on 17th of each month.

BRIEF LOCAL MATTERS.

Gain, begins the month, Moraine Rauler.
Dorrance Smith will leave soon for Astoria.
The Langille House is again open for the summer.
Floating bath soap at the Hood River Pharmacy.
In two months the strawberries and cream will be ripe.
Mr. C. J. Grandall was down from The Dalles Wednesday.
Ground Sulphur for spraying at the Hood River Pharmacy.
S. E. Bartsness is agent for the Bridal Veil Lumber Company.
For sale cheap, a No. 5 Davis Stump Puller.
It is spring, that is to say, all Eastern Oregon is one vast spring.
Olinger & Bone have a car-load of wheat, both for seed and feed.
Master Sunday comes in the 25th, about as early as it can possibly fall.
Mrs. Hartley will go to Indiana in about three weeks to visit relatives.
A washout on the short line shut off the trains from the East Wednesday.
Mrs. Armor, who has been visiting in the East for some time, arrived home last Saturday.
Don't forget the sale of telephone poles at Olinger & Bone's stable at 10 o'clock this morning.
Dr. Snekaker, The Dalles dentist, was here several days this week, a strictly business visit.
Double moulded doors, \$1.75. All kinds moulding, cents per inch.
HOOD RIVER MFG. CO.

C. D. Hayner was in from his ranch near the mill, Wednesday, and reports over a foot of snow there.
All visible nature, that is, all visible from our front door, is Patriotic today, for it is all "wearing the green."
Petitions are being circulated asking that the time for paying taxes be extended to July 1st. It should be done.
There was a nice shower of rain one day this month, and you can name the day without consulting your almanac. It was every day.
The colony at White Salmon is beginning to materialize, five of the colonists being on the grounds, and more on the way.
Judge Henry has been putting in his time for the past week looking at the ceiling of his bed room. His sickness is not of a serious character.
Our "Whole Wheat Graham" is for sale at all the stores. We guarantee every sack to be made of clean No. 1 wheat.
HARRISON BROS.

Mr. P. A. Snyder has been employed to teach in district No. 2. He is a first-class teacher and the district is to be congratulated on securing his services.
The use of Hall's Hair Renewer promotes the growth of the hair and restores its natural color and beauty, frees the scalp of dandruff, tetter and all impurities.
A tramp sailor passed through Wednesday, coming from Portland. A sailor hunting a ship in Eastern Oregon is a strong comment on the season's rainfall.
C. M. Wolford and J. H. Dukas have traded their residence property here and have each moved into the other's old home, thus getting into each case, a new home. The English language is a daisy for nice distinctions of expression, and it is so here.

The heavy rains Wednesday night showed up disastrous results Thursday morning. At the Cascades a big landslide stopped traffic, and between here and The Dalles several smaller slides were equally effectual. Great damage is reported to the railroad line farther east.
It was Masons day here Saturday. Hood River lodge entertained a number of visitors from The Dalles and Cascades, and wound up its lodge work with a magnificent supper at the Mt. Hood. Some sixty members of the order were present, and the ladies of the Eastern Star were on hand in full force.
A friend came in from the east fork, this week, and in response to our soulful request for an item, told us that it rained Monday in his neighborhood hard enough to lay the dust. He also suggested that the next legislature should pass a law to make the grouse well-footed, as they mire now on the hillsides.

Bucklen's Arnica Salve.
The best salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hand, Chilblains, Corns and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by Hood River Pharmacy.

Jenness Miller's Style.
Mr. P. Chappell Browne, a Portland architect was here Wednesday, for the purpose of getting information concerning the proposed H. River school house in order to prepare plans and specifications therefor. He interviewed J. Lucas Henry, T. Calliope Dallas and G. Throkmorton Prather, the board of directors, and departed for home on the D. Layed passenger train Thursday morning.
All kinds of insect destroyers at the Hood River Pharmacy.

The Calico Social.
The calico social given by the young ladies of the U. B. church at the Langille house, last Friday evening, was a decided success. Fully one hundred persons were present, and the receipts amounted to \$23.50. The geographical conundrums were numerous, and some of them pretty transparent, but still many of them defied the crowd to solve. As the affair, like everything else in this health resort, occurred Friday evening, we were unable to, without neglecting our mail, observe what the females were doing, so cannot give the list of geographical representations. We only know that the heir to all our vast wealth provided himself with a piece of bed ticking cut as an arc of a circle and made it decidedly arctic for the guessers. Miss Callison captured the prize, a handsome cushion, by guessing 44, and Roy Slocum got inside of the distance polo second, with 12.

BORN.
In Hood River valley, March 13th, to Mr. and Mrs. George Brock, a son.
FOR SALE.
A new Montgomery Ward & Co. six-arm sewing machine, oak finish, six drawers and all the latest attachments. Price \$39. Inquire at this office.

FOR SALE.
A new Montgomery Ward & Co. six-arm sewing machine, oak finish, six drawers and all the latest attachments. Price \$39. Inquire at this office.
Those who have used Dr. King's New Life Pills know its value, and those who have not have not the opportunity to try it free. Call at the Hood River Pharmacy and get a trial box free. Send your name and address to H. E. Bucklen & Co., C. O., and get a sample box of Dr. King's New Life Pills free, as well as a copy of Guide to Health and Household Hygiene free. All of which is good to do you good and cost you nothing.

HOOD RIVER AGAINST THE WORLD.
E. OAKLAND, Cal., Mar. 7, 1894.
By reference to my diary I find since the 1st of December last to present date there has been three days and seven nights foggy, stormy and rainy more than half the time; so you see it's not all gold that glitters in California. I have worn my overcoat and wife her heavy cloak to keep warm. One requires more clothing, and warmer, than at Hood River. Mrs. Erwin, wife and I visited the U. S. government station at Berkeley, yesterday, and were shown much attention by the principal. The buildings are elegant. Three hundred acres belong to the institution. The geraniums and all tender plants were killed by the cold winter. In our trip to Monterey the surrounding hills were covered with snow, and we found our only comfort in heated rooms.
After a careful, impartial look at various sections in California, we find that supply and demand governs everything, and the former is very greatly overdone. Many fruit men have said to me that they would have been gainers if they had left their fruit to decay in the orchards. The small fruit grower here has millions of capital to contend with in his investments and struggles for a livelihood. Lands are extravagantly high and labor cheap. So, after a careful look, my son Matt, our son-in-law, R. R. Erwin, their families and wife and I are anxious to return to Hood River, to live and die and be buried in sight of Mount Hood.
WM. PENN WATSON.

FOR SALE.
Eighty acres, five miles from town; 40 acres in cultivation; 600 trees, principally apple, in full bearing. All fenced. Good house and barn. Three shares of water in Hood River Supply Co. go with the place. Good well and spring.
HARVEY CRAPPER.

NOTICE FOR PUBLICATION.
Land Office at The Dalles, Or., Feb. 1, 1894.
Notice is hereby given that the following named settler has filed notice of his intention to claim land, viz.: David Cooper, George Perkins, William Rodenbeck, George Wilber, et al., in the 1st, 2nd, 3rd and 4th sections of Township 41 N., Range 12 W., County of Hood River, Oregon, on April 25, 1894.

THE BEST MARKET FOR FINE TEA.
Outside their own countrymen, the Chinese growers find their best market for high class teas among the Russians. The Slavs consume an immense quantity of green tea, and the nobility pay tremendous prices for the pick of the market. — San Francisco Chronicle.

ONE ENGINEER'S EXPERIENCES.

He Has Killed Twenty-two Persons, but Is Regarded as a Safe Man.
"Lafayette Truman, engineer of the Erie train that ran into the eastern Illinois train, has killed 22 men," said C. R. McCullough, a brother engineer of the Chicago and Erie road, at the Clifton. "but he continued in no case was he to blame and in every case he has been exonerated by the jury. Most of these killings were at railroad crossings and in other similar accidents where the engineer could not be held responsible. He is only a young man, but I want to relate two experiences of his which show him to be possessed of a marvelous presence of mind."
"In October, 1890, he was engineer of a train that was dashing through burning forests near Lima, O., at the rate of 60 miles an hour. That night the sky was concealed by black storm clouds, and before the burning district was reached the darkness had become so dense that the engine was practically blind. Then, as the train proceeded, the horizon became hazy and red. As the train sped on nearer the blood red clouds appeared to be falling about tumultuously, as if it were a sea of fire buffeted by angry winds. At length the train seemingly plunged into the heart of this forest of fire.
"There was a straight stretch of track continuing for seven miles. As the train dashed along, the fire sprang up in sheets from crackling, falling trees on either side, and above was a canopy of shifting, eddying red smoke. Down the track, beyond the reach of the headlight, there was only a red blur. A bridge spanning a deep river was ahead somewhere. Suddenly, immediately in front, Truman saw a shower of big sparks fly toward him, and in an instant he was reversing his engine, and the train was brought to a standstill just on the edge of the river. He had flashed over him when he saw the sparks that the bridge was burning, and that a spar had fallen, sending up as it went down a show of light. He saved the train and the lives of 300 passengers. There is not one engineer in a thousand who would have arrived at this conclusion so quickly that the additional traffic light was from the bridge burning. They would have supposed it was an inconsequential part of the phenomena and plunged on to destruction.
"The other incident, while not surrounded by the popular heroleic aspect lent by the forest fire and the run through it, was no less heroic and showed a far greater presence of mind. This was in Ohio, not near Hepburn. His train this time was running at about the same rate, five miles an hour, when the rods on each side of the engine broke, instantly killing the fireman and wrecking the cab. Truman, to save himself, jumped into the tender. And there he was isolated, as it were, the broken rods flying madly and beating deafeningly, and it was impossible for him to reach an airbrake with the train going at that speed. He is only a young man, but he did something then that many old engineers have since told me they would never have thought of. He got out his pocket knife and cut the hose, thereby applying the automatic brake, and succeeded in stopping the train. I would rather ride behind that man's conduct than Mr. McCullough, than any engineer in the United States. — Chicago Inter-Ocean, Nov. 2, 1893.

HOW TO PLAY WITH FIRE.

Tricks Performed With the Devouring Element and Their Origin.
Juggling with fire was practiced in very ancient times. Many of the tricks of that sort which are best known today were employed to deceive the vulgar thousands of years ago. There is nothing, even now, which does more to excite the astonishment of the ignorant than the breathing of flame, which is a deception handed down from remote antiquity.
When the slaves in Sicily rose in rebellion about 150 B. C. and took arms, revenge for the wrongs they had suffered, there was among them a Syrian named Ennus. He was a man of great craft and courage, and having seen much of the world he had become acquainted with a variety of little known arts. He pretended to have immediate communication with the gods, and as is usual in such cases, he confirmed his divine mission by miracles. When desirous of inspiring his followers with courage, he breathed flames and sparks among them from his mouth.
It is said that, in order to perform this marvel, Ennus pierced a nutshell at both ends, and having filled it with some burning substance he put it into his mouth and breathed through it. The same trick is performed much better nowadays. The juggler rolls together some flax or hemp into a ball about the size of a walnut, which he sets on fire, permitting it to burn until it is nearly consumed. Then he rolls about it more flax while it is yet burning, and by this means the fire may be retained in the ball for a long time. When he is ready to do his act, he slips the ball into his mouth unperceived and breathes through it. His breath revives the fire, so that sparks proceed from it, and the performer sustains himself so long as he inhales his breath through his nostrils only. By this art the Rabbi Bar-Cocheba, in the reign of the Roman emperor Hadrian, made the credulous Hebrews believe that he was the long looked-for Messiah.
Various theories have been advanced to account for the other feats mentioned. It will be remembered that during the middle ages the guilt or innocence of persons accused of crimes was often determined by ordeal, the defendant being obliged to hold a piece of red-hot iron in his hand. This was another case of juggling, such trials being conducted by priests who covered the hands of those whom they desired should escape with a protective paste. A solution of spermaceti in sulphuric ether, colored red with alkenet root, which softens at 70 degrees Fahr. and melts and boils with the heat of the hand, is supposed to be the substance which is used at Naples when the dried blood of St. Januarius melts spontaneously and boils over the edge of the vessel containing it. — Exchange.

For general decoration few plants rival the fuchsia, and no house collection is complete without one or more varieties of this graceful flower. When a compact, bushy specimen is desired, pinch off the top of the plant when young. This will cause shoots to start out all along the stem. When the plant has sent up a leader a few inches high, pinch it off again, and thus repeat the operation of pinching while the plant is growing until the desired form is attained. On the other hand, fuchsias may be trained on trellises. Indeed this is preferred by many. They can be trained over an upright trellis, but Sheehan thinks that the best form is that of an umbrella. His directions are as follows:
Secure a strong, vigorous plant, and allow one shoot to grow upright until about two feet high; then pinch off the top of the shoot. It will branch out and form a head, each shoot of which, when sufficiently long, may have a fine thread or hair wire attached to the tip, by which to draw it downward; fasten the other end of the wire or thread to the stem of the plant, and all the shoots will then be pendent. When each of these branches has attained a length of eight inches, pinch off the tip, and the whole will form a dense head, resembling an umbrella in shape, and the graceful flowers pendent from each shoot will be handsome indeed. Remember to keep the stock clear of side shoots in order to throw the growth into the head.

REGULATOR LINE.
The Dalles, Portland & Astoria Navigation Co.
Through Freight and Passenger Line.
The steamer Regulator will run tri-weekly trips, leaving The Dalles Mondays, Wednesdays, and Fridays, connecting with steamer Dalles City. Returning, will leave Portland Tuesdays, Thursdays, and Saturdays, connecting with steamer Regulator at the Locks. All freight will come through without delay.
PASSENGER RATES.
One way \$2 00
Round trip 3 00
Freight Rates Greatly Reduced.
Shipments for Portland received at any time, day or night. Shipments for way landings must be delivered before 5 p. m. Live stock shipments solicited. Call on or address,
W. C. ALLOWAY, General Agent.

C. A. JONES, FRANK RODGERS,
JONES & RODGERS, Bar-Cocheba, Painters, Artistic Decorating, Frescoing, Paperhanging & Kalsomining. Strictly first-class work only.
HOOD RIVER, — OREGON.

Only the Scars Remain.
"Among the many testimonials which I see in regard to certain medicines performing cures, cleansing the blood, etc.," writes HENRY HUBSON, of the James Smith Woolen Machinery Co., Philadelphia, Pa., "none impress me more than my own case. Twenty years ago, at the age of 15 years, I had swellings come on my legs, which broke and became running sores. Our family physician could do me no good, and it was feared that the bones would be affected. At last, my good old mother urged me to try Ayer's Sarsaparilla. I took three bottles, the sores healed, and I have not been troubled since. Only the scars remain, and the memory of the past, to remind me of the good Ayer's Sarsaparilla has done me. I now weigh two hundred and twenty pounds, and am in the best of health. I have been on the road for the past twelve years, have noticed Ayer's Sarsaparilla advertised in all parts of the United States, and always take pleasure in telling what good it did for me."
For the cure of all diseases originating in impure blood, the best remedy is
AYER'S Sarsaparilla
Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.
Cures others, will cure you
T. C. DALLAS.
— DEALER IN —
Stoves and tin-ware, kitchen furniture, pruning tools and plumbers goods of all kinds.
Repairing of tinware a specialty.

Peculiarities of Growing Trees.
A tree has many peculiar characteristics, and some of them puzzle the scientists, as well as the chemist who makes the analysis. When the leaves drop off or a twig withers and falls, they leave a small scar which never disappears. A slight excrescence is left to record the existence of the missing member, just as a man who loses a toe or finger never gets rid of the scar. There is some times a tendency in trees of the oak and maple species to send out from their young limbs more wood than they can support, and this causes contraction at the point of insertion or from where the stems start out, and the fibers becomes sometimes twisted, so that it obstructs the flow of sap. The young limbs, in such instances withers and drops off, leaving all along the bough, small excrescences sufficiently large to account for the tapering of the portion of a branch where the death occurred. — Boston Transcript, Oct. 17, 1893.

The Word "Crank."
The word "crank" is an "old American word" it has been in common use in Derbyshire as long as I can remember, and it is still often heard. It is used to describe a man who has fads, fancies and notions outside the common run of those of his neighbors. A man with a bee in his bonnet is cranky, and so are those who ride hobbies of any kind.
This good old English, and having been kept alive and is now revived in America. Burton used it nearly 300 years ago in his "Anatomy." — Wendell Holmes, after tacitly accepting it as of American coinage, discovered and pointed out that Burton had used it according to its accepted meaning in America. — Notes and Queries.

A Curious Example.
A youth at Oxford, being examined in Paley, was asked if he could mention any instance of the Divine goodness which he had found out for himself. "Yes," the confirmation of the nose of the bulldog. Its nose is so organized that it can hang on to the ground, and yet breathe freely. But for this it would soon have to let go. The bull's point of view was "Yes, Reginald at all. — Twenty-five Years of St. Andrew's."

Not Very Wise.
Teacher: "Who was the wisest man that ever lived?"
Boy: "Samson."
Teacher: "No, he was the strongest."
Boy: "No, he was wise, he would not have let his wife cut his hair."
Boy: "That's so. He'd a-gone to a barber. — Good News."

PATENTS
TRADE MARKS, COPYRIGHTS.
CAN I OBTAIN A PATENT? For a prompt answer and an honest opinion, write to MUNN & CO., who have had nearly fifty years' experience in the patent business. Communications strictly confidential. A Handbook of information concerning Patents and how to obtain them sent free. Also a catalogue of mechanical and scientific books sent free.
Patents taken through Munn & Co. receive special notice in the Scientific American, and this are brought widely before the public with out cost to the inventor. This splendid paper, issued weekly, elegantly illustrated, and for the largest circulation of any scientific work in the world. \$3 a year. Sample copies sent free.
Building Edition, monthly, \$3 a year. Single copies, 25 cents. Every number contains beautiful plates, in colors, and photographs of new houses, with plans, enabling builders to show the latest designs and secure contracts. Address MUNN & CO., New York, 361 Broadway.

A man with a bee in his bonnet is cranky, and so are those who ride hobbies of any kind.
This good old English, and having been kept alive and is now revived in America. Burton used it nearly 300 years ago in his "Anatomy." — Wendell Holmes, after tacitly accepting it as of American coinage, discovered and pointed out that Burton had used it according to its accepted meaning in America. — Notes and Queries.

A Curious Example.
A youth at Oxford, being examined in Paley, was asked if he could mention any instance of the Divine goodness which he had found out for himself. "Yes," the confirmation of the nose of the bulldog. Its nose is so organized that it can hang on to the ground, and yet breathe freely. But for this it would soon have to let go. The bull's point of view was "Yes, Reginald at all. — Twenty-five Years of St. Andrew's."

Not Very Wise.
Teacher: "Who was the wisest man that ever lived?"
Boy: "Samson."
Teacher: "No, he was the strongest."
Boy: "No, he was wise, he would not have let his wife cut his hair."
Boy: "That's so. He'd a-gone to a barber. — Good News."

PATENTS
TRADE MARKS, COPYRIGHTS.
CAN I OBTAIN A PATENT? For a prompt answer and an honest opinion, write to MUNN & CO., who have had nearly fifty years' experience in the patent business. Communications strictly confidential. THE WORD "CRANK."
The word "crank" is an "old American word" it has been in common use in Derbyshire as long as I can remember, and it is still often heard. It is used to describe a man who has fads, fancies and notions outside the common run of those of his neighbors. A man with a bee in his bonnet is cranky, and so are those who ride hobbies of any kind.
This good old English, and having been kept alive and is now revived in America. Burton used it nearly 300 years ago in his "Anatomy." — Wendell Holmes, after tacitly accepting it as of American coinage, discovered and pointed out that Burton had used it according to its accepted meaning in America. — Notes and Queries.
