

# Hood River Glacier

HOOD RIVER, SAT., OR., APRIL 23, 1894.

Bertha Kreft, at The Dalles, Tuesday, was hit in the head by a rock carelessly thrown by some boys. It cut a gash in the scalp about an inch long. The little girl is about eight years old, and was playing in the school yard at the time.

J. E. Hanna has been a very sick man for the past ten days, but is somewhat better. His many friends will be pleased to learn even of a slight improvement, and we sincerely hope that by our next issue we can chronicle the fact that he is out of danger.

The Columbia is again on the rise. It is now nearly twenty feet above low-water mark, and it looks as though the regular spring rise was fairly on. There is an immensity of snow in the mountains, and if the Snake and Columbia send down their floods together, there will be remarkably high water.

The governors of Oregon have been John Whiteaker, from 1859 to 1862; Addison C. Gibbs, 1862 to 1866; George L. Woods, 1866 to 1870; Lafayette F. Grover, 1870 to 1877; S. F. Chadwick, 1877 to 1878; W. W. Thayer, 1878 to 1882; Zenas F. Moody, 1882 to 1889; Sylvester Pennoyer, 1889 to 1894.

Grant County News: Oregon needs a few more useless commissioners, and the following new officials are suggested in order to consume the surplus state funds: Cratie rabbit crusher, irrigation agitator, strike chaser, artificial rainmaker, alfalfa inspector, prune examiner, hop howler, and inspector of national forests reserved.

Many of our farmers are making solid improvements in building fences and securing a correct survey of their lands. Our surveyor, Mr. C. J. Hayes, has been busy for the last week or ten days in surveying lands for Messrs. Henckes, Sims, Jackson, Billings, Divers and Bowers, and is still at work. This is as it should be and shows enterprise in the right direction.

Last Saturday afternoon a bold robber went into the county treasurer's office in Portland and asked the clerk, Charles Malarkey, to change a \$20 piece. There was no one else in the office, and as Malarkey went into the vault to get the change, the man followed him, ordered him to throw up his hands, and as he did not do so, shot him. The robber got away with about \$500. Malarkey will recover.

Captain Ferguson of D company, went over to Klickitat county one day this week after a lot of hogs. It is rumored that in view of the possible coming of the "Industrial Army," he was fully convinced that it would be better to shoot them with a few sides of hog meat than anything else, hence this move in advance.

Dentistry. Now is the time to have your teeth attended to, as Dr. E. T. Carns, dentist of Portland, is in Hood River, and prepared to do all kinds of dental work. Prices cheaper than ever before. Teeth extracted without pain. Teeth on gold aluminum and rubber plates, gold crown and bridge work, all kinds of fillings. All work guaranteed. Dr. Carns will remain in Hood River until about May 1st.

FOR SALE. A thoroughbred Jersey bull, for sale cheap for cash. Also have several cows to dispose of. MRS. D. K. ORDWAY.

Poles and Polemics. The editor, in an unguarded moment, bought at sheriff's sale about 800 telephone poles, situated lying and being in Hood river and on the banks thereof. Since that time the Columbia has made three distinct and separate rises and Hood river too. Each time this purveyor of news gossip and information has been compelled to get in and hustle to save them. Such was the case Wednesday and Thursday, which is our excuse for the paucity of news in this issue. In a few weeks, when the gold-flecked strawberry gets a move on and the busy farmer gets time to come to town, we will be able to get out a paper. Until then we simply do the best we can and blow her up with Dallas' hand bellows. This ought to make the issue "breezy," but somehow, like soda water, the filling doesn't seem to stay. Besides all this, we have grown so tired of these telephone poles that we can't even tel-a-phony story.

C. E. Convention Items. The Regulator is expected to land the delegates at the depot landing. Remember the sunrise and evening services will be held in the U. B. church, and the forenoon and afternoon services in the Congregational church.

Five speakers from abroad are expected. Ten societies in the county have been asked to send five delegates each. Delegates will be designated by white badges. The U. B. society by red, the Congregational society by blue and the M. E. society by orange, while the reception committee will be recognized by their bouquets of Oregon grape.

Married Sixty Years. Mr. and Mrs. D. D. Rogers celebrated the sixtieth anniversary of their wedding at their home two miles west of Hood River, Tuesday. Though not of remarkable age, Mr. Rogers being 79 and his wife 77, the occasion is a rare one. Of their family, their sons E. C. and Charles and their families, a granddaughter, Mrs. Stella Gray, and a great-grandson, Mrs. Gray's 10-year-old boy, were present. Despite the busy time and demand of berry plants for every moment's care, nearly all the neighbors joined in celebrating the event with them. A fine dinner was served, and the occasion was thoroughly enjoyed by all.

A Household Treasure. D. W. Fuller of Canajoharie, N. Y., says that he always keeps Dr. King's New Discovery in the house and his family always found the very best results follow its use; that he would not be without it if controllable. G. A. Dykeman, druggist, Catskill, N. Y., says that Dr. King's New Discovery is undoubtedly the best cough remedy; that he has used it in his family for eight years, and it has never failed to do all that is claimed for it.

The Acme Tree Wash. The Hood River Pharmacy has taken the agency for the sale of the Acme Insecticide Compound, manufactured by Nasion Irwin & Co., Oakland California. Call on us for circulars and information.

J. SEULBERGER, NURSERYMAN, SREDBERGER AND FLORIST 509, 511 and 513 Seventh St., Oakland, Cal., May 1st 1893. Dear Sirs:—I have used your Acme Insecticide Compound, and have found it to be the most effective and cheapest remedy for destroying all kinds of pests to which plants and trees are subject. Can recommend it as a first-class article. Yours Truly, J. SEULBERGER.

In the year 1893 I used over a ton of Acme Insecticide for the black and brown scale, and this season I am spraying every tree I have in my orchard. My experience is that the Acme is the best wash that was ever put on the market, as it can be used at any time of the year without injury to the buds or foliage.

THE COMING MAN. Oh, not for the great departed Who formed our country's laws. And not for the bravest-hearted Who died in freedom's cause. And not for some living hero To whom all bend the knee. My muse would raise her song of praise—but for the man to be.

### Only the Scars Remain.

Among the many testimonials which I see in regard to certain medicines performing cures, cleansing the blood, etc., writes HENRY HUDSON, of the James Smith Woolen Machinery Co., Philadelphia, Pa., "I have been more than my own case. Twenty years ago, at the age of 15 years, I had swellings come on my legs, which broke and became running sores. Our family physician could do me no good, and it was feared that the bones would be affected. At last, my good old mother urged me to try Ayer's Sarsaparilla. I took three bottles, the sores healed, and I have not been troubled since. Only the scars remain, and the memory of the past, to remind me of the good Ayer's Sarsaparilla has done me. I now weigh two hundred and twenty pounds, and am in the best of health. I have been on the road for the past twelve years, have not used Ayer's Sarsaparilla advertised in all parts of the United States, and always take pleasure in telling what good it did for me." For the cure of all diseases originating in impure blood, the best remedy is
