Vote of 167 to 51.

Abuse the Deputies Rejected Motion

Restricting Jewish Immigration by a

BERLIN, March 8 .- During the debate

in the reichstag to-day the question of

restricting Jewish immigration was dis-

cussed. Herr Haas suggested that nat-

uralization should be made conditional

upon the national sentiment of the in-

dividual applying for it and upon his

ability to earn his living. Herr Reick-

ert declared Herr Haas wished to erect

a Chinese wall against free intercourse.

Dr. von Boetticher said it was contrary to the spirit of the commercial treaties

to prevent a Jew belonging to a contract

state from engaging in trade in Ger-

many. On the other hand, there was

nothing to prevent the government from

expelling a foreigner who infringed the

police regulations. Herr Hermes, amid

loud and unceasing interruptions, vio-lently attacked the anti-Semites, whom

he declared to be a disgrace to Germany and worse even than the Socialists.

NEWSPAPER LAWS.

What Has Long Been a Fiction Is Now Made a Crime.

WASHINGTON, March 7.- The assistant attorney-general for the postoffice department has made an important ruling in regard to what are known as "newspaper laws." These so-called laws pro-APPROPRIATION NOT ENOUGH experts are not as yet in a position to make a detailed statement. The stateliable for the prices thereol unless they give express notices to discontinue; that when they give notice to discontinue without paying arrearages or refuse to take papers from the office, the pub-lisher of a newspaper can have any one arrested for fraud who takes a news-paper and refuses to pay for it, and that is a dangerous trick to allow a subscrip-tion account to run on for six months or

355 girls of school age. The farmers about Silver Lake, Or., are desirous of establishing a creamery. The school census in Corvallis, Or., shows 352 females and 316 males; total 668. ed persons making inquiries and the public generally that there are no such

laws. The ruling just made, however, goes beyond this. It was to the effect that a publisher who makes a demand for payment of the subscription price of his paper through the mails, accom-panied by a threat of enforcing such pretended laws in case the demand is not complied with, may be prosecuted for attempting to obtain money under false pretenses, provided he knows that such so-called laws have no existence as laws or decisions in the courts.

THE WEATHER SIGNALS.

Successful Tests Made by the Bureau Officers in New York.

NEW YORK, March 8 .- A most sucessful test was made this evening of the new weather signals constructed by the weather bureau in the tower of the Manhattan Life Insurance Company's new building at 66 Broadway. The signals, red and white, are placed one above the other, 381 feet above the sea A public wool warehouse and market will be established at Baker City, Or. It will be 60x100 feet, of corrugated iron, The red strength of 64,000 candlepower. The red signal consists of ten It is said there is to be a boom in the arc lamps, each of 4,000 candle-power. Althouse mining district this year, and The white signal, which is placed above the red twelve leet, is made up of six arc lamps, each of 4,000 candle power. The test was made soon after 7 o'clock. Sergeant Dunn said he had men stationed at Newark, Rutherford, Long Island City, Hoboken and Brooklyn, who will report their observations of the sig-

SAN FRANCISCO, March 7 .- The Olymbuilt by the Union iron San Francisco, was accepted by the secretary of the navy on February 21, and on February 28 he forwarded a copy of the report made by the naval board of examiners to the local constructors, and congratulates the department on the ex-cellence of the ship. A copy has just been received by the Union iron works and it reads as follows: "The board congratulates the department on the addition of the Olympia to the navy of the United States, which with its great fighting power, speed and elegant appearance is a credit to the navy and American skill. It is with great pleasure that the board calls the attention of the department to the excellent work done by the Union iron works, their care in all the details of construction and the clean and finished condition of the ves-

Hood River Glacier. Sufficient Sum Appropriated to Build the Capitol. PUBLISHED EVERY SATURDAY MORNING BY OLYMPIA, March 8. - Scobey's bill. making an appropriation of \$500,000 to continue work on the capitol building the next two years, came up for consideration as the special order in the house at 2 P. M. The lobby was filled with residents of Olympia, a majority of whom were ladies, and great interest was manifested in the result. J. C. Taylor, of Pierce, started the ball rolling by offering an amendment which pro-vided that \$930,000 should be appropri-ated instead of \$500,000. The amendment was adopted, the friends of the measure accepting it with favor. Taylor had previously opposed the measure, but he with others of the opposition were willing to support it if a sufficient amount to complete the capitol were appropriated at one time. They beappropriated at one time. They be-lieved that an appropriation by each legislature tended to extravagance. Mor-gan of Walla Walla moved to lay the bill on the table. This motion was lost -23 to 44—the Populists supporting it. The bill was then put on its final pass-age Reform the rote Sanbay made age. Before the vote Scobey made a speech in favor of the bill. He said the amendment had been offered by certain JEWS IN GERMANY gentlemen who were previously opposed to the measure, but had now come to its support. Rogers, the Populist, made a long speech against the bill. He re-peated the argument made before the committee that the state was too hard up to expend money for a building at this time, and that the lands to be sold to raise the script fund world bet being An Old Subject Revived in the to raise the capitol fund would not bring a sufficient amount to make the bonds good. McArdle, under suspension of the rules, endeavored to amend the bill so CAUSED MUCH EXCITEMENT that laborers on the building should receive the pay usually given for such work by private individuals. The amendment was lost. Then, after numerous speeches, the vote was taken and the bill passed-49 to 21. IN THE IRON WORLD.

MADE IN ONE LUMP.

Uneasiness in Coke District Over Labor Troubles.

NEW YORK, March 8 .- The Iron Age to-morrow will say: The outlook is favorable for a moderate advance in Bessemer ore and there is little hope of by the above named military auditing any recovery in non-Bessemer ore. As a matter of fact, sales have been made to Eastern furnaces at figures lower than ever. This means there is a chance for higher cost of Bessemer pig, but little prospect through producers' necessities in foundry grades. Only a rush in the demand can bring that about. The coke situation is puzzling. There is unessities to renewed labor trous

is uneasiness as to renewed labor troubles and some evidence that producers are maneuvering for an advance. The purchases of Bessemer pig by the three leading Pittsburg concerns are estimated at an aggregate of about 125,000 tons, which clears the market for some time

Rector Ahlward, the notorious Jew-hater, indulged in a violent diatribe against the Jews, whom he repeatedly

POORLY MANAGED Muddled Condition of a Missionary Sc

Adjutant-General's Unbusiness-Like Extravagance.

The State of Washington Has a Debt Exceeding \$100,000 Because of Milltary Expenditures-An Absolute Lack of Economy.

OLYMPIA, March 7 .- The senate comnittee on appropriations recommended avorably payment of the following deficiency claims:

Total \$ 22,171 Accompanying the recommendation were reports from the committee on the military and tide lands deficiencies. Regarding the military deficiency the committee said: "We find the deficiency in the military

department over the appropriations made in 1893 to be about \$43,000. This is in great part represented by claims against the state as yet unaudited. These claims are as a rule just claims held by individuals in all parts of the state, and upon being audited by the military board, which consists of the governor, state auditor and adjutantgeneral, should be paid from the military fund. However much we may question the expediency, advisability or necessity of maintaining this large outlay, the fact remains that the parties holding these claims dealt with the state in good faith, expecting to be paid, and we therefore recommend that the above appropriation be made, to be used in tak-ing up such claims only as are approved

board. "In an examination into the financial management of the military department the appropriation committee has been overwhelmed by an apalling exhibition of recklessness, extravagance and inca-pacity on the part of the adjutant-general. He is practically the business head of the military organization. He is a member of the military board, which makes the expenditures, and also a member of the military auditing board, which passes upon these expenditures, so that he can justly be considered the responsible head in the management of our military finances. An examination of the records for the past four years has to come. A good deal of work is in sight in fin-ished iron and steel. St. Louis has 44,-000 cars to place. It is estimated thus far that orders for 27,000 cars have been far that orders for 27,000 cars have been

ness of expenditure of

clety's Accounts. NEW YORK, March 7 .- There is shortage in the accounts of the American Church Missionary Society, and the books of the organization have been found to be in such confusion that the make a detailed statement. The state-

FOUND A SHORTAGE.

ment implicates Rev. William A. New bold, of Montclair, N. J., and the treas-urer, Henry A. Oakley, of New York city. The fact that their accounts were in a muddled condition was discovered about a month ago, and at once a special committee was appointed to inves-tigate the matter. To-day a meeting of the executive committee was held. The

special committee presented its report in which it was stated that a shortage had been found. The report itself the committee refused to make public. Bishop Peterkin, of West Virginia, said to-night relative to the action of the executive committee : "The irregularities are such as war-

rant the removal of the secretary and treasurer from office. The society's ex-penditures are between \$25,000 and \$30,-000 a year, and the money is paid out mostly in small sums, making the auditing of the accounts extremely difficult. The society has not been entirely drip-pled by these irregularities, but they have extended over a period of five or six years. It is impossible to make a detailed statement. I would not like to call it defalcation, but I will say that hereafter the society would like its money handled in a different manner."

BUREAU WITHOUT A HEAD.

A Tangle in the Affairs of the Immigra tion Department.

WASHINGTON, March 7.-There is curious tangle in the affairs of the immigration bureau which cannot be straightened out until the president returns from his trip to North Carolina. By an act passed during the closing hours of congress, and which received hours of congress, and which received the president's approval, the office of superintendent of immigration was abolished, and the position of "commis-sioner-general of immigration" was created. No provision was made in the bill, which was drafted by the treasury lepartment, to continue in office Mr Herman Stump, of Maryland, the present efficient superintendent of immigration under the new title given to the duties of his office as "commissioner-general of immigration." The conse-

nuence is that the immigration bureau s now without an official head. Mr. Stump continues to exercise general supervision over the work of the office, but the official mail has to be signed by the chief clerk. When the president re-turns of course it will be entirely competent for him to make a recess appoint-ment designating "Superintendent" Stump as "commissioner-general," and if the senate, when it meets in Decem-ber, confirms the nomination everything will be all right. In the meantime, and

until the president returns and takes action, there is a vacancy at the head of the immigration bureau THE GOVERNMENT WON. A Case Involving Claims for Rebates of Tariff.

described as being beasts of prey, swin-dlers and pirates. Herr Richter protested against the president of the reichstag, Herr Levitzow, allowing such scandalous remarks to pass without censure, but Richter was himself rebuked by Herr Levitzow, who amid loud ap-plause from the members of the right said he could not permit his conduct in the chamber to be criticised. To this Herr Richter retorted : "If I have not a technical right to do

so, I have at least the moral right on my side." The discussion was then closed, and

after heated personal criticisms the proposal of Haas was rejected. Later the resolution of Von Hammerstein against Jewish immigration was rejected by a vote of 167 to 51.

CHANGED INTO A HORSE.

The Days of Witchcraft Have Been Renewed in Indiana.

BRAZIL, Ind., March 8 .- The days of witchcraft are revived at Brazil. Two the fullbloods and the halfbreeds, and months ago a man named Stapleton, aged 60, married a Miss Johnson, aged 16 years. Two weeks ago the wife left her husband, retarning to her parents, since which time she is controlled by a mysterious influence, under which she has spasmodic spells. They prey heavily upon her both physically and men-tally. She alleges that her husband has bewitched her, and seeks redress in the courts. The most peculiar phase of the phenomenal case is that by his black art, his wife alleges, the husband has transformed her into a horse, and rehe has ridden her, under the peatedly cover of darkness to the point of ex-haustion. The young wife's brother threatens the life of her husband, whose son has filed complaint praying that he be compelled to execute a bond for surety of the peace. The situation is becoming complicated and sensational.

The Nicaragua Canal.

WASHINGTON, March 8.-Congressman Money, of Mississippi, will visit Nicaragua the last of this month and travel over the route of the proposed canal. He says he is not satisfied with the provisions of the bill recently passed by the senate appropriating \$70,000,000 for work on the canal, inasmuch as it is not stipulated that the money should be entirely expended in the work of constructing the canal proper and might all, he claims, be thrown away in dredging the harbor of Greytown, which he declares would fill up again under the first "norther" that occurred. The sundry civil appropriation bill contains an item that \$20,000 may be used in the govern-ment's survey of the canal route.

given out, which pany, involving upward of 10,000 tons, is soon to be given out. There is pros-pect of a good deal of work in building iron. The steel rail trade continues slow. Still, Eastern mills took about 117,000 tons, including 12,000 tons for a Georgia railroad. Activity in pipe con-tracts continues, the Western mills weeping everything before them in

their own territory.

INDIANS IN WASHINGTON.

Delegations From the Osages and Nez Perces at the Capital.

WASHINGTON, March 8 .- The delega tion of Osage Indians from Oklahoma had a long talk to-day with Commissioner Smith at the Indian bureau. There were two factions represented, Major Henry B. Freeman, the agent of the Osages, and an interpreter, accompanied them. They wanted the tribal lists purged, claiming that many per-sons not entitled to enrollment had been placed on the list by corrupt means, and sought to have the offspring of the union of white men and Indian women, born after the passage of the act of 1888, recognized as Indians instead of whites as the trading privileges of their reserva-tion. The bureau of officials will cooperate with them as far as possible in purging the lists, and will make an investigation of the matter through an inspector.

A Mammoth Public Library.

NEW YORK, March 8 .- The proposition to establish within the limits of the city a great public library by the consolidation of the Astor and Lenox libraries with the Tilden trust fund began to take tangible shape to-day, when the trustees of the Tilden fund voted unanimously for the plan. The matter of consolida-tion will be brought up at a special meeting of the trustees of the Lenox library to be held the early part of the week.

The Negroes Walking Back.

NEW ORLEANS, March 8 .- The Alabama and Georgia negroes, who a short time ago were induced by a syndicate, which pretended to have secured concessions of land and exclusive privileges from the Mexican government for the benefit of the colonists to emigrate to Mapima, Mex., are walking back to Ala-bama and Georgia. Many have arrived at San Antonio without food or money. money within fifteen days.

beso of the military department war-tural work the outlook is quite pleasing with reference to tonnage. The Delas ware bridge of the Pennsylvania com-ware bridge of the Pennsylvania comade will be required to place it again on an even footing. The committee find that, owing to disorders occurring in territorial days, the legislature saw fit to establish a one-fifth of a mill tax on the assessed valuation of property in the state, to go into what is termed the mil-itary fund. The entire receipts from this tax wers formerly expended under, no restrict ons, but upon obtaining state-hood it became necessary, because of constitutional provisions, to make a specific appropriation from this fund for the maintenance of the military organization. The limits set by previous legislatures as to the amount of money to be expended seems to have been utterly ignored, and the past two legislatures Ignored, and the past two registatires have found it necessary to meet defi-ciencies caused by the failure of the ad-jutant-general to keep within the bounds set by them. The last legisla-ture appropriated \$80,000 for the main-tenance of the militia for two years— two loss faced was . This was \$40,000 for each fiscal year. This was believed to be sufficient to keep the National Guard at a high standard of excellence, provided ordinary care, frugality and common business prudence were exercised by the chief military staff officer in whose hands the affairs of the militia are practically intrusted. We find, however an absolute lack and absence of economy, and no inclination whatever to keep the expenses within the appropriation.

> The Case Against Stanford's Estate. SAN FRANCISCO, March 7.-Lewis D.

McCusick, who has received his appointment as special counsel in the government's suit against the Stanford estate to recover its pro rata of the Pacific railroad debt, said this morning he had no idea when the action would be begun. No complaint has yet been filed in the case, and it is not known whether the attorney-general will have it drawn up here or in Washington. Until the complaint is prepared the government's plan will not be known.

California Militia to Be Paid.

SAN FRANCISCO, March 7 .- The longdelayed payments to the members of the National Guard for field services during the late strike are to be made. General Chadbourne expects that the warrants and check books will arrive from Sacramento in a few days, and then the force of clerks under his com-

NEW YORK, March 7 .- Among the decisions handed down to-day in the United States circuit court of appeals was one which was a signal victory for the government, the decision in question being in the case of the United States

against E. Rosenwald & Bro., importers. The judgment of the lower court in favor of the importers is reversed, and the collector's classification of Sumatra tobacco, on which the case hinges, is sustained. The case is unusually important, because the refunds claimed by

importers of Sumatra tobacco under the tariff of 1883, still unpaid, amount to over \$1,000,000. The decision may enable the government to prevent any re-covery at all by the importers. In adlition it will probably prevent any future. similar claims for refunds.

Queer Pulpit Utterances.

Boston, March 7.-The Rev. W. H. Smith, of South Acton, one of the leading Universalist ministers, declared that new parishes, and were muzzled by circumstances. He said: "I think when a rich man hears that a number of peo-

ple have been killed in a mine he rejoices. That is the spirit among the rich. Then the rich are over-reaching, taking advantage of the poor in every direction. I believe we shall yet have a war in which every man will carry the most approved gun and go out hunting for rich men as they do for squirrels."

He closed by quoting: "The republic is a delusion, freedom a dream and the song of liberty a funeral dirge." The other clergymen have expressed their disapproval of Mr. Smith's remarks.

Chinese General Beheaded by His Men. LONDON, March 7 .- Under date of Tien Tsin, to-day, the Times publishes a dispatch saying that disturbances are increasing. One of the Chinese generals in the Shan Tung province was be-headed by his soldiers for attempting to

suppress pillage. Similar troubles are reported at Hunan and Liao Yang, near Moukden, which is probably taken.

Coxey and Debs.

MASSILON, O., March 7. - Promptly pon his return from the convention of Populist editors in the West, Carl Browne hired four more office-rooms and the Coxey presidential campaign moves bravely on. The suggestion that a ticket reading Coxey and Debs would be in accordance with the eternal fitness of things meets with favor.

Illahee, Reuben and Leland.

The Salem, Or., postmaster has been directed by the postal department to discharge one carrier from his force.

remonstrance petition is being signed to be forwarded to the postmaster-general. The telephone system from Spokane to Coeur d'Alene is to be extended to

Helena and other Montana points, twenty-five miles of wire being put under ground in crossing the Coeur d'Alenes. Captain Maltby has sent the What-

com, Wash., board of trade some sam-ples of Wilson hybrid tobacco raised on his farm at Lynden. This year he and G. L. Ramsdel will raise about ten acres of the Havana variety.

H. B. Williams, Frank Cook et al., have filed articles of incorporation for the American Patriotic Memorial As-sociation of Whatcom, Wash. The object of the association is to furnish gratuitous instruction to the children of soldiers and sailors who served in the war.

The Tacoma, Wash., committee in charge of the army-post matter has de-cided to report in favor of a half-dozen sites as follows: East Side of American Lake, west side of American Lake, Span-90 per cent of ministers were looking for new parishes, and were muzzled by cir-Whyte's place, Edison site, near Albert and Point Defiance.

> Olympia people are determined to resent to the utmost the action of Tacoma's newspapers and chamber of com-merce in regard to the continuance of work on the capitol, and business men are correspondingly grateful for Seattle's Iriendliness on what is to Olympia the all-important question.

A compromise has been effected in the affairs of the Aberdeen, Wash., bank, and joint receivers have been appointed by the superior court. In consequence the appeal has been withdrawn, and the receivers are now hard at work endeavor-ing to straighten out the tangle. The receivers are: J. P. Carson, of Monte sano, and Eugene France, of Aberdeen. Both are well-known business men, and depositors can rest satisfied that their interests will be protected in every way possible

Senator Campbell's bill, which is prac-tically for the relief of the city of Tacoma, Wash., in permitting an extension of the water system, passed the senate, and was immediately transmitted to the nouse and passed there. Two years ago the city of Tacoma at a special election appropriated \$300,000 for the extension of its water system to Pattison springs. These did not have the capacity supposed, and as the money was voted for a special purpose it was impossible to extend the system in any other direction without another vote of the people. The bill is for the purpose of again submitting the matter.

THE BIG YACHTS.

Aluminum-Steel Plates for the Cup Defender at Bristol.

BRISTOL, R. I., March 8 .- The first shipment of aluminum steel plates for the cup defender arrived to-day from the Pittsburg Reduction Company's Works. There were thirteen of these plates, each 13 feet 6 inches long, 1 foot 9 inches wide and one-quarter of an inch thick. The center section of the bronze keel plate, 12 feet long, also arrived at Bristol to-day. The larger end of this is 23 inches in width and is 15 inches wide at the narrow end. Its weight is 938 pounds. The total weight of the keel plate will be 2,200 pounds, with a total length of three sections of 34 feet 9 inches. Work is being rushed along, notwithstanding the sickness of De-signer Nat Herreshoff.

A Circus Frenk Dead.

COLUMBUS, Ind., March 8 .- Grimes Austin, the "wild man from Madagascar," is dead. He had long white hair and large eyes with a scarlet tinge. Exhibited with a circus in a steel-barred cage, dressed in skin garments and fettered like a wild beast, he beame a drawing card and traveled extensively with Barnum and others. He leaves an es-tate worth \$40,000.

Assessors to Meet.

SPOKANE, Wash., March 6 .- A convention of county assessors of Eastern Washington will be held in Spokane March 15. The purpose will be to determine an equitable basis for an assessment of personal property, with particular reference to livestock. The assessors agree that the valuation fixed on the west side of the mountains for highgrade horses and cattle cannot be justly applied to range stock on the east side,
