The committee on fire and water reported a further proposition from A. S. Blowers regarding the leasing of his water works. The council decided to consider Mr. Blowers' proposition as a committee of the whole, and if advisable, to make a counter proposition.

Ordinances 9 and 10 were passed. A lively discussion was had over the proposed stock ordinance. The original was changed so as to leave out some of the more stringent features, and owing to these changes, final action was deferred until the next meeting of the council.

A Handsome Design. M. V. Harrison has gotten up a design for a label for Hood River strawberry crates. It is a representation of the Clark's seedling strawberry, with the outline of Mt. Hood in the background.

If the apple trees have arrived from the nursery and are shriveled, you will gain no time by getting them at once. Lay them on the ground in a damp cellar or cover with moist soil.

W. J. Smith of the Hood River White Factory sold Mr. Jacobson of White Salmon 325 appleboxes last fall. Failing to get his pay he last week sued for the money. The justice's court at White Salmon. It seems that Jacobson sent by an apple buyer named Hamilton for 225 of the boxes, and at another time sent by a neighbor for 100. Mr. Smith had witnesses who testified that the boxes were ordered by Jacobson through these men, who had other business in Hood River, to save himself the trip during the busy season.

Defendant claimed by his testimony and witnesses that he did not order the boxes, and although he used them and received pay for his apples, the jury decided in his favor.

Dr. E. J. Thomas, a former resident, who left us about three years ago, was in Hood River during the week. Dr. Thomas has been agency physician on the Colville Indian reservation, near Fort Spokane, Wash., for a couple of years. He recently resigned and concluded to go to the Willamette valley. His wife preceded him and purchased a drug store at Monmouth. The doctor had a fine horse, and rather than give it away in that country where horseflesh is so cheap, decided to drive as far as Hood River in his buggy. He arrived here Monday evening and left on the Regulator Thursday morning.

The doctor is looking as if life in that far-off country agreed with him. His many friends were glad to see him. Patrons of the Portland and Dalles accommodation train will be pleased to learn of the change made in the passenger equipment. The O. R. & N. Co. has replaced the former one combination car carried with a straight baggage car and an elegant lately remodeled first-class coach and smoker. This arrangement virtually gives a day passenger train between Portland and Dalles, leaving Portland at 8:00 a. m., arriving at Dalles 1:00 p. m., and returning, leave Dalles at 2:00 p. m., arriving at Portland 7:00 p. m. daily, except Sunday. The through passenger train still retains its old schedule, leaving Portland at 7:00 p. m. for the East and leaving Dalles at 4:00 p. m. for Portland.

Saturday morning Percy Adams was driving home the cows from the pasture. He had along his 22-calibre rifle, and when a cow lagged behind he would shoot in her direction, the whistling of the bullets serving to head off the cow or start her along. By this means the boy saved many a step. But in trying to see how close he could come to the cows without hitting them, he missed his aim and hit the best cow in the herd, striking her in a vital spot, and she dropped dead.

Dr. Julius Rathmel, a young Frenchman and traveler, is coming here Hood River country. A woman who lived near "Tucker's Mill." At making bread displayed much skill. "Peacock" is the name of the flour she'd use. All other kinds she ever refused. The consequence was, that some what might, she always had bread that was light and white.

The motto is: Buy Peacock flour. Your wife will be happy and never look sour; your children will always be rosy and well; Hanna & Wolfard sell "Peacock" to sell.

Earl and Meigs Bartmess have two tame digger squirrels that have become great pets. One of them was allowed to escape from the cage, last week, through the carelessness of a neighbor, but it stayed around in the neighborhood of his cage, and Thursday morning the boys managed to capture it and return it to its mate. The squirrels are quite tame, and it is fun to see them take nuts and acorns from their hands to the boys and store them away in their pouches or set up rights and devour them, holding the nuts between their fore paws.

The plasters who are shooting grouse down along the state road had better look a little out, or the members of the Rod and Gun club will look after them. One day last week, while Elmer Campbell was out looking for his horses, a grouse came flying over from the direction of the Columbia and fell dead in the road in front of him. He picked it up and found it had been shot in the neck.
