Hood River Glacier. for this sesson. Their modes of buying SATURDAY, APRIL 20, 1895.

President Cleveland, in a letter to the business men of Chicago, declining to attend a sound-money demonstration in that city, opens the campaign for the advocates of sound money against the 16-to-1 free coinage of silver agitation. He said that he sympathised with the object of such a demonstration, bnt consideration for the dignity of his office would not, in his judgment, permit him to attend. He was glad to see the demonstration made, he said, as he considered it high time a cam-paign of education were begun to offset the demonalizing tendencies of the promulgation of the propaganda of free and unlimited coinage of silver, permit him to attend. He was glad to free and unlimited coinage of silver, the ultimate result of which he holds

would be silver monometalism. This, he holds, would be followed or attended by business depression and finan-

cial demoralization. It would, he says, even if it made money more plenty, increase the price of the neces- P saries of life. He calls attention to the workingman, that he would be the greatest sufferer, and to the farmer he says that the better prices he would obtain for his products would be more P than offset by the increased cost of what he had to buy. In short, he advises the people to take a sober second thought-to look into the financial question. Conservative study and action he commends to them, and when they have done this he says he will D have no fear of the action they will take-sound and safe currency will be their decision.

Hood River strawberry growers are not all working together harmoniously. P The Oregon State Union will be represented here by a local manager, the Hood River Fruit Union will ship independently of the state union, and independent buyers and shippers will be in the field. But this only shows that our strawberries will be in demand. They are known in the markets of the mining states east of us, and even to the Missouri river cities and Chicago. Hood River berries have shipping qual ities that berries from no other section possess. We seem to have the sol and climate to give them the righ flavor and grow solid berries that will stand shipment to distant markets and arrive in better condition than berries grown near by. Our growers take pride in careful picking and seeing that none but sound berries are packed and shipped. Fruit put up in attractive shape will always sell for enough more to pay for the extra care in packing. Returns this year will be made to each grower, individually, and every one who stamps his name on a crate of berries should use great care in packing, and see that it is done right. If you have had no experience in packing strawberries, go to your neighbor for pointers and learn.

try soliciting for the strawberry crop will sell without any trouble.

the first few days, when the fruit will Work and Methods," as follows: sell for fair prices, and then what? The cry comes, "Market down!" and then our fruit will not justify packing and shipping to market.

a special interest to a discovery recently made by File Clerk Walter H. French, among the archives of the house of representatives, says the Washington Post. The discovery is in the nature of a petition to congress preferred in 1819 clearly foreshadowing the modern system of sleeping cars. The petition is all the more interesting because the power of steam used in the

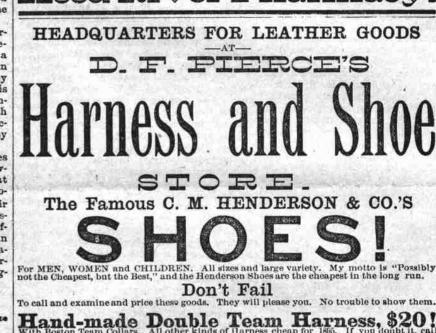

propulsion of railroad trains at that time was still in its infancy and wrapped more or less in vague mystery. The

"The memorial of Benjamin Dearborn, of Boston, respectfully represents: That he has devised in theory a mode of propelling wheel carriages in a manner probably unknown in any country, and has perfectly satisfied his own mind of the practicability of conveying mails and passengers with such celerity as has never before been accomplished, and in complete security from robbery on the highway. "For obtaining these results he relies

on carriages propelled by steam on level railroads, and contemplates that they can be furnished with accommodations for passengers to take their meals and their rest during the passage, as in a packet; that they be suf-ficiently high for persons to walk in them without stooping, and so capa-cious as to accommodate twenty, thirty or more passengers and their baggage."

LINDSAY & CO.,

D. F. PIERCE, Hood River, Or.

ing Co. and the Nelson-Morris Packing Co .- are powerful enough to control the market. The producer is not greatly benefited by the rise, while the trust will make millions. The senatorial investigating committee discovered how these companies manage to keep down the price to the producer. Early every morning before the cattle market in Chicago opens, representatives of these three firms come together and agree upon the quantity of first-class beef which each company desires each day. If one company is short, it agrees to pay at most 5 cents and others respectively agree to pay 41 and 4 cents, A cattle owner will come into the mar-Morse. ket and receive an offer of 5 cents from the short packer. He will refuse and make his offer to other cattle buyers. He will at once discover that one agrees

to pay him only 41 cents a pound and the other only 4 cents a pound. He is therefore compelled to return to the that he cannot use it. short meat packer and accept the original bid.

The war between China and Japan is ended and a treaty of peace was signed in žimonosaki April 16th. The terms of the treaty include the independence of Corea, Japan's retention of the conquered places, Japan's reten-

tion of the territory east of the Liau river, permanent cession of Formosa, and an offensive and defensive alliance between China and Japan.

It is said President Cleveland aspires to a third term. We don't believe it. No one knows better than Cleveland himself that he could not be elected a third time. It is part of the unwritten law of the republic that no man shall hold the office of president a third time, and the man does not live who could be elected by the people to a third term.

This will be a fruitful year for Hood River. Thousands of young apple etc., promise a big crop. The yield of strawberries will be enormous, and if

Odell School-house Items. [Written by the Pupils.]

Supt. Shelley, while pruning his or-chard with his pocket-knife, Monday, cut his hand across the back so badly

Mr. Young has moved on his new place by the Odell school house.

Mr. Roberts has set out two thousand apple trees, fifteen feet apart, on the Odell place.

Mr. Henry Wilson is very sick again. Mr. E. L. Smith is fencing his farm with a wire fence.

Don't Stop Tobacco.

The tobacco habit grows on a man until his nervous system is seriously af-fected, impairing health, comfort and happiness. To quit suddenly is too se-vere a shock to the system, as tobacco, to an inveterate user becomes a stimulant that his system continually craves. Baco-Curo is a scientific cure for the tobacco habit, in all its forms, carefully compounded after the formula of an eminent Berlin physician who has used it in his private practice since 1872, without a failure, purely vegetable and guar-anteed perfectly harmless. You can use all the tobacco you want, while taking Baco-Curo, it will notify you when to stop. We give a written guarantee to

permanently cure any case with three boxes, or refund the money with 10 per cent interest. Baco-Curo is not a substitrees will bear for the first time, and tute, but a scientific cure, that cures peaches, pears, prunes, plums, cherries, without the aid of will power and with no inconvenience. It leaves the system as pure and free from nicotine as the

strawberries will be enormous, and if fair prices rule, Hood River will be all right. Stand Together. HOOD RIVER, April 15, 1895.—Editor

One man like McKinley Mitchell, who finds a market for 80 carloads of Oregon potatoes, is worth a dozen who write long newspaper articles on how to develop this state.—Salem Journal. The city of The Dalles has sold bonds to the amount of \$60,000, which realized \$65,840.

The legislature of Nebraska has appropriated \$200,000 to purchase seed grain and food for the drouth-stricken farmers in the western part of the state.

Strayed or Stolen.

From my cauge, one light bay horse about 15 hands high no brands; a small bell on when he left. Also, one dark bay, or brown mare, branded H on left stiffe, and with a doi on right stiffe; halter head-stall on. Horse 6 years old, mare 7. I will pay \$5 reward for their return to my place, near Tucker's Mill. ap20 A. W. KING, Hood River, Or.

To Fruit Shippers.

To those desiring to ship strawberries, and who want boxes or any information, I will state that I will be at the warehonse of the Oregon Fruit Union every Saturday till the shipping season begins, and then will be there daily. N. C. EVANS, [a29] Local Manager.

Chance of a Lifetime.

According to the French narratives of the war in Tonquin, the Chinese generals were deficient in strategy; but the rank and file fought so desperately, with such utter disregard for life, that they generally won the battles, and the campaigns ended in French re-

T

Extant:

treats. Admiral Courbet covered himself with glory by his operations on the River Min, which ended in the destruc-tion of the Chinese arsenals and shipyards, but the admiral had to make all haste to withdraw his force; if he had delayed, not a ship nor a man would have escaped, says the San Francisco Argonaut.

So at the conflict on the island of Formosa. The speed with which the French landed was outstripped by the speed with which they reembarked. French officers who have seen the Chinese in the field shake their heads when foreigners talk lightly of their military prowess. In fact, the question speaks for itself. Given a practically indefinite number of fighting

men, every one of whom is ready to die on the field, it goes without saying that it cannot be overcome by a weaker force.

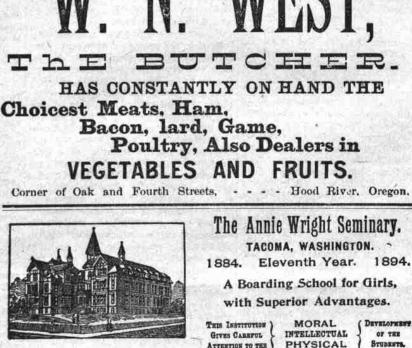

Awed by a Glass Eye.

One of the many superstitious fears that render the laborers from sunny Italy so generally docile was recently taken advantage of by a shrewd Irish foreman employed on a public job. There was a misunderstanding likely to result in a general strike, and he assembled the men together, listening patiently to their statement of griev-ances. When they concluded, he called to his side the bookkeeper of the contractor, a man with penetrating dark eyes, one of them quite still because it was artificial. The foreman stated with emphasis, the only terms upon which he would compromise, and the bookkeeper kept his "evil eye" fixed on the crowd. The terms were accepted without a murmur, and the crowd hastily dispersed. The book-

controversy. Chinese Marksmen.

The accuracy of the Chinese marksman is marvelous, when it is remembered the gunstock rests on the hip. In this way he brings down with great facility birds on the wing, and even the snipe, whose zigzag course renders them difficult to spot with the western fowling piece. In addition, too, he

uses no explosive cap, but fires it with lighted fuse.
