AN ISLAND THAT GROWS.

Once It Belonged to Missouri, but Now It Is Part of Kansas.

In the Missouri river, near Leavenworth, there is an island which has furnished the land law officers of the government a novel problem. This island was on the Missouri side when it was surveyed in 1858. Now it is a legal part of Kansas. But that is not the queer thing about it. Islands in the Missouri frequently shift their allegiance.

The trouble with this island is that it has been growing. When the government officers surveyed it, they found 500 acres, and that was the amount entered in the records. When two Leavenworth men, Skillings and Diffendorf, took out patents for the whole island the amount of land put in the patents was 500 acres. But the island has been growing through all of these years in a way Missouri river islands have a fashion of doing. There are now 1,400 acres in the island. A coalbed, it has been discovered, runs under the island, and that tends to make the land more valuable.

Recently squatters have tried to take possession of the surplus over and above the 500 acres claimed by the patentees. The later set up a claim to the growth. The land lawyers of the government, after taking plenty of time to think about the case, have decided that Skillings and Diffendorf are entitled to the whole island under their original patents.—St. Louis Globe-Democrat.

Jackson Park.

During the entire summer of 1894 the main exhibition buildings will stand in Jackson park. The public will be admitted everywhere in the park free. The work of beautifying the park will progress steadily. On the first day of the new year the park commissioners assumed control. All state and foreign buildings will be out of the north end of the grounds by May 1. The commissioners will at once begin the work of restoring that end of the park to its former appearance and continue to improve it. What may be done with the buildings the following year cannot be said. The board will take no action on that matter for some time.—Chicago Letter.

Ex-Cabinet Officers in the Senate.

There are an even half dozen ex-cabinet officers in the senate, and they comprise some pretty able men. Only one of the six is a Democrat, and that is Vilas of Wisconsin, who played the dual role of secretary of the interior and postmaster general during the first Cleveland reign. Proctor of Vermont was the warrior of the Harrison administration, Chandler of New Hampshire was secretary of the navy under Arthur, and Teller of Colorado secretary of the interior under the same regime. Cameron of Pennsylvania was secretary of war under President Grant, and John Sherman was President Hayes' financier.—Boston Advertiser.

What an ordinary man eats and the way he eats it would be enough to give dyspepsia to an ostrich—unless the ostrich were wise enough to assist his digestion from time to time with an efficient combination of vegetable extracts. Such a preparation is Dr. Pierce's Pleasant Pellets. They are the pills par excellence for those who sometimes eat the wrong things and too much. They stimulate action in all of the digestive organs. They stop sour stomach, windy belchings, heartburn, flatulence and cure constipation, biliousness, dyspepsia, indigestion, sick headache and kindred derangements.

Once used they are always in favor.

THE VANDERBILT CORRESPONDENT.

A View of the Woman Who Caused a Divorce in American High Life.

Nellie Neustretter, the correspondent in the recent Vanderbilt divorce case, is a rather tall blond woman about 25 or 26 years of age, said to have gone to Paris from Brussels and before that to have lived in Holland. Some say she is Swedish or half Swedish. She is described now as the luckiest woman in Paris and was, before Vanderbilt took her up, in rather hard luck, but was not known at any time to frequent queer places.

She is inclined to be reserved, quiet and shrewd. Prior to the Vanderbilt regime she was somewhat free, but held herself

well in hand and always estimated herself highly. She is not wonderfully handsome, but yet a commanding and rather striking woman in appearance. She is not known by the name of Nellie Neustretter at present. She is the mother of two children. One of these is very young; the other is little more than a year old.

The details concerning Mme. Neustretter's life may be freely published so far as she is concerned, for publicity is the staple which women of her class most ardently desire and thrive upon. There are hundreds of women like her in Paris and in many other European capitals. She is not the best of her class in appearance or in vogue. She may be called a middle class person in the society in which she moves. The foregoing account of her is sent from Paris to the New York World by one who had the advantage of personal observation.

Artemus Ward's Protector.
While in the show business in Pennsylvania Artemus Ward was put to sleep in an attic where the sash had been taken out for ventilation. In the night it turned cold. Artemus got up and was busy at the window. "What are you doing, Artemus?" his companion asked. "I'm so cold," he chattered. "I was hanging up some of these hoopskirts. I thought they'd keep the coldest of the cold out."—San Francisco Argonaut.

POOR INDEED!

The prospect of relief from drastic cathartics for persons troubled with constipation is poor indeed. True they set upon the bowels, but they do so with violence, and their operation tends to weaken the intestines, and is prejudicial to the stomach. Hostetter's Stomach Bitters is an efficient laxative, but it neither grips nor enfeebles. Furthermore, it promotes digestion and a regular action of the liver and the kidneys. It is an efficient barrier against and remedy for malarial complaints and rheumatism, and is of great benefit to weak, nervous and aged. As a medicinal stimulant it cannot be surpassed. Physicians cordially recommend it, as do their professional instrument fully borne out by popular experience. Appetite and sleep are both improved by this agreeable invigorant and alterative.

SYMPATHETIC PAINS.

The different organs of the body are very sympathetic. One is very apt to feel the pain of another, and it is not always easy to locate the trouble exactly. A weak back not infrequently occasions a pain in the side, and one limb often aches out of sympathy for another.

ALLOCK'S POROUS PLASTERS are just the remedy in such cases. They are soothing in their effect, and draw out the pain so that the back or side or limbs are supple instead of stiff, and free to perform their functions. They have been tried by thousands and millions of people in every land, and with one uniform result, entire satisfaction. **BRAYBORN'S PILLS** will relieve rheumatism.

XPOSURE

to wet and cold is very often the first step to Pneumonia, Consumption, Rheumatism or other serious diseases. Often we say, "Oh, it's nothing," when really our health for years or for life is hanging in the scale. A cold is the thin edge of the wedge of disease. To keep it out is important—and time is everything. When your temperature has been suddenly reduced by wet or cold take a teaspoonful of

PAIN-KILLER

In a half glass of water or milk (warm if possible). Reaction begins at once, relief is immediate and you will have no cold, cough, sore throat or influenza to reckon with. This sounds easy, and is easy if you have the Pain-Killer at hand. Get a bottle and get acquainted. It kills all forms of pain and is worth its weight in gold. Sold everywhere, at 25 cents a bottle. Prepared only by **PERRY DAVIS & SON, PROVIDENCE, R. I.**

GENTLE ANNIE.

Gentle Annie was the girl who went forth when the spring-time came to gather wild flowers—daisies along the hillsides, and forgot her rubbers. She came back with wet feet, followed by the worst case of neuralgia she ever had. Fortunately she was told and had long known that for any kind of neuralgic affection, St. Jacobs Oil is the most remarkable remedy ever used. All the year round any one subject to such attacks should not fail to have it in the house. For all aches and pains which at all times beset us, there is nothing to equal it. Nerve pains especially are brought on by sudden changes of temperature, but the great remedy, applied promptly, will surely cure.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, a refreshing and truly beneficial property of a perfect laxative, effectually cleansing the system, dispelling colds, headaches and fevers, and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance. Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

That Tired Feeling

Is a certain indication of impure and impoverished blood. If your blood could always be rich and pure, full of the red corpuscles upon which its vitality depends, you would never be weak, or Nervous! Boils, pimples, scrofula, salt rheum, would never trouble you. But our mode of living, shut in all winter in poorly ventilated homes and shops, depletes the blood and there is loss of appetite, and weakness. Hood's Sarsaparilla is the standard remedy for this condition. It purifies, vitalizes and enriches the blood, overcomes that tired feeling, builds up the nerves and gives perfect health. Read this:

"Our daughter, Blanche, when four years of age, had a humor break out on her hands and feet, which our physician pronounced eczema. If the cold air reached her face or hands they would swell up, look almost purple, and headed blisters would form and break,

Discharging a watery fluid, and the burning and itching would drive her nearly wild. Unless we discovered her little hands she would tear patches of skin from her face and hands. We tried many doctors and many remedies, and at last gave the case up as hopeless. But our daughter, Cora tried Hood's Sarsaparilla. She took 5 bottles, and her face is smooth and soft as a baby's, the color of a rose petal. Her hands are soft and white, where four months ago they were blue and red, and calloused nearly like leather. I cannot express my gratitude by pen or mouth. It seems a miracle, and our friends are surprised."—MRS. ANNA L. CLARK, 401 E. 4th St., Duluth, Minn.

Hood's Sarsaparilla Is the Only True Blood Purifier

WE would not have expended HUNDREDS OF THOUSANDS OF DOLLARS along galvanizing, for which we made no extra charge, had there been more in it. Galvanizing consists in coating the strong but most perishable (in this respect) metal, steel, with the best and most durable zinc. We have had the best of the zinc, and we have nothing to do with them. The enormous cost of preparing to do galvanizing, and of doing it on a large scale, deters others. HOOD'S SARSAPARILLA SHEETS AND PUNCH AND RIBBON SARE THESE. IT AFTERWARD WHEELS OR WAGES MADE OF GALVANIZED SHEETS MUST QUIT FIRST BEFORE THE RIVETS, BOLTS, AND EDGES, AND ARE, THEREFORE, NOT SO GOOD AS PAINTED SHEETS. How many coppers can you get for your price for health. These pills supply what the system lacks to make it regular. They cure Headache, brighten the eyes, and clear the complexion better than cosmetics. They neither grip nor sicken. To convince you, we will mail sample free, or a full box for 50c. Sold everywhere.
