Suit was brought Monday in Justice Soebes' court by Thos. Hendricks against Henry Prigge to recover \$16 on a contract for grubbing a piece of land. Defendant claimed the work was never performed, and defendant claimed he was at all times ready to do the work. The justice allowed plaintiff \$6.40. C. P. Heald appeared for plaintiff and M. P. Isenberg for defendant. We understand the case will be appealed to the circuit court.

The O. R. & N. Co., always alert to the welfare of their patrons, have decided to discontinue the mixed passenger and freight train leaving Portland in the morning, returning in the evening, and substitute a regular passenger train which will run daily including Sundays: Leaving Portland 8:00 a. m., arriving Dalles 12:15 p. m., and returning to Portland 6:30 p. m. About April 15th this train will carry an elegant observation car, and low rates for the round trip will be placed in effect.

Two Japs came to Hood River Tuesday morning looking for contracts for berry picking. Wishing to go to White Salmon to see Mr. Moore, they arrived at the boat landing just as the Regulator was backing out. Thinking the steamer would take them to White Salmon, they hailed her and were taken aboard. She was on her down trip and had already made her landing at White Salmon, so they must have been put off at Underwood's, where they were really further from White Salmon than when on this side of the Columbia.

Dr. Morgan had a lively runaway Saturday morning. He had hitched his horse to the buggy at the barn, and as he got into the vehicle the horse started to run and soon became unmanageable. In making the turn of the street by the residence of Bert Graham, the buggy upset and the doctor was thrown violently to the ground and was picked up insensible. His face was scratched and cut in several places, and his arms and legs were considerably bruised, but no bones were broken. The buggy was badly wrecked. The horse was recently brought from Crook county and the doctor had driven him but a few times. He is a handsome animal, but is for sale cheap.

The steamer Regulator bursted her throttle plate Monday morning as she was getting ready to leave The Dalles, and did not make the trip to the Cascades on that day. W. J. Baker was at the Hood River landing early with a load of apples and waited till 10 o'clock on the boat, and then had to ship by rail to Portland. John Rankin brought two calves from White Salmon for shipment to Portland. He sent them down on the 3 o'clock train after telegraphing for a permit.

S. E. Bartmess and Grant Evans made the trip to the forks of the river Saturday on their bikes. On their return they went out the Mt. Hood road to the toll bridge, and then back to town, arriving before dark. The distance traveled was 43 miles. Sunday they went up on the west side of the valley, and on the return trip came from Crapper's into town in thirty minutes.

S. J. LaFrance returned from Walla Walla Saturday. While there he visited the large orchard of 400 acres belonging to Dr. Blalock. The doctor also has 40 acres in strawberries. Mr. LaFrance says fruit in the Walla Walla valley is not so far advanced as it is at Hood River.

N. C. Evans, A. N. Rahm, C. A. Ross and others are building a flume to irrigate their farms from Hood River Supply company's ditches. The flume begins at the same place as the one made last year, which is in the neighborhood of the Heald, Cook and Rand farms.

Fisherman's Luck.

A party consisting of Dr. Watt, Elmer Rand and Mr. Stewart went to Neal creek fishing on Sunday last. They crossed Hood river at John Parker's place, where Mr. Parker has a boat for crossing the river, with a rope stretched across to propel it by the hands. The party made the crossing all right on their way out, but on their return, when they reached the middle of the river, the strong current caused the boat to fill with water and Mr. Rand, who was propelling the boat, was thrown out; the others holding to a small rope thrown over the cable. Mr. Rand went down in about seven feet of water, but managed to swim to the shore, after being tossed about over the bowlders by the icy waters for some distance down the stream. The other two men were left in the boat holding the rope and unable to move the boat either way. They were compelled to stand there in the water for about one hour, until Mr. Rand went to Mr. Parker's house and returned with rope and help to pull them to shore.

A Tough Story.

The season for fish stories has opened, and the Roseburg Review does not propose to take a back seat. It comes to the front with this statement: "D. P. Fisher caught five sturgeon in his nets a few nights ago, and has three of them tied up now to the river bank near town. A rope passed through holes in their gills is tied back of their heads, holding them very securely, and as the fish are stout, sturdy fellows, about six feet in length, Mr. Fisher ties them to his boat frequently and allows them to draw him around over the river, this being very much easier than rowing."

The Law is All Right.

HOOD RIVER, May 2, 1895.—Editor GLACIER: The new horticultural law which W. L. Adams speaks disparagingly of in your last issue was made and passed for the benefit and in the interests of fruit growers, and gives very general satisfaction.

Being in the nursery business myself more than in fruit growing, it will make me considerable additional expense for inspection, etc., but notwithstanding this, I am heartily in favor of the law, for it will build up the fruit interests. The law of itself will not kill caterpillars, but for this reason it should not be trampled in the dust, which is the way I advised the doctor to apply the dust to his caterpillars.

The new law goes into effect May 5th, and it is to be hoped that all our fruit men will stand by the commissioners in enforcing and upholding it.
H. C. BATHAM.

DON'T STOP TOBACCO

IT'S INJURIOUS TO STOP SUDDENLY and don't be imposed upon by buying a remedy that requires you to do so, as it is nothing more than a substitute. In the sudden stoppage of tobacco you must have some stimulant, and in most all cases the effect of the stimulant, be it opium, morphine, or other opiates, leaves a far worse habit contracted. Ask your druggist about BACO-CURO, it is purely vegetable. You do not have to stop using tobacco with BACO-CURO. It will notify you when to stop and your desire for tobacco will cease. Your system will be as free from nicotine as the day before you first took your first chew or smoke. An iron-clad written guarantee to absolutely cure the tobacco habit in all its forms, or money refunded. Price \$1.00 per box, or 3 boxes (\$3.00) treatment and guaranteed cure, \$2.50. For sale by all druggists, or will be sent by mail upon receipt of price. SEND SIX TWO-CENT STAMPS FOR SAMPLE BOX. Booklets and proofs free.
Eureka Chemical & Mfg. Co., La Crosse, Wis.

OFFICE OF THE PIONEER PRESS COMPANY, C. W. HORNICK, Supt. ST. PAUL, MINN., Sept. 7, 1894.

Eureka Chemical and Mfg. Company, La Crosse, Wis.—Dear Sirs: I have been a tobacco fiend for many years, and during the past two years have smoked fifteen to twenty cigars regularly every day. My whole nervous system became affected, until my physicians told me I must give up the use of tobacco for the time being, at least. I tried the so-called "Koly Cure," "No-To-Bacco," and various other remedies, but without success, until I accidentally heard of your "Baco-Curo." Three weeks ago today I commenced using your preparation, and today I consider myself completely cured. I am in perfect health, and the horrible craving for tobacco, which every inveterate smoker fully appreciates, has completely left me. I consider your "Baco-Curo" simply wonderful, and can fully recommend it. Yours very truly,
C. W. HORNICK.
