THE GOULD ESTATE. Hood River Glacier. A Report to Be Made on the Expense of Administration. PUBLISHED EVERY SATURDAY MORNING BY

New York, June 20.-Surrogate Ransom has granted the application of George J. Gould and other executors of the estate of the late Jay Gould, to send back to David McClure, the appraiser, the question of the appraise-ment of the estate, so that a report can be made on the expenses of administration. Mr. McClure, as appraiser, reported some time ago that the value of the personal property was \$80,943,-580. The real estate was valued at about \$2,000,000. The appraiser de-BARBER SHOP ducted the sum of \$6,000,000 from the

personal property as an indebtedness of the estate to George J. Gould. After deducting other payments, the total value of the residuary state was placed at \$73,224,567.

The present deficit of \$48,400,950. however, is lkely to be reduced by cutting off expenditures about \$5,000,000 for the full fiscal year. Notwithstanding this showing for the year's operations, there is no expectation from any source of an extra session of congress or another bond issue before the regular meeting in December. Today the gold apolis, \$6,500, and the other four attorreserve is about \$99,500,000, with an available cash balance of nearly \$184,-000,000, which is regarded as ample to meet all ordinary demands.

The spirit of confidence and security which pervades the treasury department at this time is largely due to the provision in the last bond contract of the entire estate causing the litigaobliging the syndicate to protect the gold in the treasury from withdrawals for export. The ability of the syndicate to carry out this provision has been amply demonstrated during the last several months, when the rate of exchange has at times ruled far above the export per cent. This obligation cannot be discharged until December next. At the present time the syndicate owes the government about \$7,500,000 on its contract, and while the entire issue of bonds has been taken in London, deof the house of representatives, today carriage, which he had expressly built. liveries will be made only as fast as

General Harrison's Fee.

Richmond, Ind., June 20.-The first authentic information with regard to the fees charged by the attorneys in the great Morrison will case, in which ex-President Harrison was so long engaged here, has just been given to the public. General Harrison received \$16,000; Ferdinand Winter, of Indianneys for the plaintiff \$7,500 each. The attorneys for the defense will receive the following: Congressman H. J. San Francisco's Streets.

San Francisco, June 20 .- City offcials are filing with Registar Broderick their estimates of what it will cost the various departments during the next fiscal year. Superintendent of Streets Ashworth filed a modest request for \$1,485,933 to properly conduct his office. Of this amount \$32,-500 is for salaries, and the rest goes for improvement of streets and public squares. The fight for good streets recently inaugurated by the wheelmen is at the bottom of the whole thing, and if this amount is allowed San Francisco cyclists will have the best streets in the country to ride over.

He was certain there was a strong feeling in Canada that their interests were inadequately watched at present. Therupon Sir William Harcourt promised to consider whether papers could not be submitted and whether the governments could allow a full discussion of the bill. Bowles then withdrew his motion that the bill be referred to a select committee.

DRINK AND SPECULATION.

They Cause the Downfall of Omaha's City Treasurer.

Omaha, June 20 .- City Treasurer Henry Bollin is a defaulter. Experts are checking his books. The facts of the shortage became known this morning, and Bollin at once dsappeared, leaving a note to his family saying that bondsmen, who are liable to the looking for the man. Tonight he was located in a suburban roadhouse drunk. the dozen mining sections. He was heavily armed and when the officers appeared he attempted to draw a revolver with which he declared he intended to end his life. He surrendered without a struggle. He is now in his bondsmen's hands. They assert they will give him a chance and will settle his shortage in full.

Bollin has been drinking heavily of late and has also lost money in stock speculation. Today, after the police had surrendered Bollin to his bondsmen, they called a conference of the city officials. Bollin declared that his would check up all right. He admitted that he had drawn from the cash accounts, but insisted the deficiency could not be more than \$10,000. Tonight, Controller Olsen, after a hurried checking of Bollin's accounts, reported a shortage of \$15,288 outside the amount said to be lacking in the account at the Midland State bank. The deposited blanks indicated Bollin had \$19,000 deposited there, while the actual deposit was only \$10,000.

Ministry Threatens to Resign.

Vienna, June 19 .- The semi-official Freedmanblatt today announces that the ministry for Austria, presided over by Prince Alfred Windischgratz, has decided to resign directly the German ment.

Colfax, Wash., June 20 .- It is estimated that 1,000 men have gone from various parts of Whitman county into the mining regions within the past three months prospecting. Men who have heretofore worked on farms in the capacity of hired help found little or no demand for their services. At wages ranging from 50 to 75 cents a day, they managed to procure a stake to fit out for a prospecting trip. Many small farmers as soon as their crops were in, also picked up to go in search

for gold, expecting, unless they found something more profitable, to return in time to care for harvesting their crops. Even boys, who are out of employ-

ment for a few weeks, go to the Snake river placers and wash sands for the vellow metal, which, in most cases yields a fair remuneration for the labor expended. Almost every day during April and May, could be seen passthe hour had come for him to die. Street-Car Line Sued.

Chicago, June 20.-M. A. Vizansky began suit against the North Chicago Street Railway Company in the superior court for \$5,000 damages for injuries received in being put off one of the company's cars by the conductor. The plaintiff, who is a peddler 70 years of age, says he boarded one of the company's cars, and when the conductor came around he handed him five pennies. The conductor did not want pennies, and demanded a nickel, but accounts with the Midland State bank the plainfiff told him that pennies were legal tender for any debt. The conductor said he would have his fare in some other form or the plaintiff would get off the car. Vizansky refused to get off, and the conductor, he says, put him off and threw his basket of wares into the street.

En Route to Tacoma for Deportation. Chicago, June 19 .- United States Deputy Marshals E. W. Bothwick and James E. McMahon, of the southern district of New York, arrived here yesterday having in charge Lee Yuen, a Chinaman they are taking to Tacoma to ship back to China. They took their prisoner to the Harrison street station, where he remained during the day, departing with the officers last night on a west-bound train. Lee Yuen came to America when 15 years old, remained several days and returned to China. He came back after the Chinese registration law was adopted and was arrested in New York just after he had opened a laundry on Mott street. A long and bitterly-fought contest over the constitutionality of the restriction law resulted in a decision by Commis sioner Shirleds, of the southern district of New York, in which it was held that Lee Yuen, despite former residence in the United States, came under overflow badly. INTERNATIONAL GAMES.

Challenge Sent From England to the American Universities.

London, June 19 .- The challenge sent by the athletic clubs of Oxford and Cambridge universities to the athletic clubs of Yale and Harvard are due to reach New York June 20. One copy was sent to the captain of the Yale Athletic Club and another to the captain of the Harvard club. The challenge suggests an autumn meeting, which may come before or after the events already agreed upon by the London Athletic Club and the New York Athletic Club, as may hereafter be deemed wise. The challenge is sent subject to all preliminaries being satisfactorily arranged. It was suggested that the programme contain the following events:

Flat races, 100-yard dash, quartermile run, half-mile run, one-mile run and three miles run; hurdle races, 100 yards, one according to English rules and one according to American rules;

high jump, long jump, hammer throw, and weight putting.

"Fishing on the Lower Columbia has continued good during the past vestigating committee, today filed with week. Up to Wednesday returns at the clerk of the United States supreme all the canneries were good, fish averaging fifteen to the boat with an average weight of twenty-nine pounds. Since then, however, they have continued to fall off, and the day's returns since were the dullest for several weeks. Traps are not running at all well. Seining continues to improve, and will no doubt show good results from

now until the end of the season. The chinooks are all of a splendid color. with flesh plump and firm. The middle river canneries are averaging 150 cases of fish per day. At the cascades and dalles work still continues very slack, and nearly all that is being done is being accomplished by seines. Bluebacks are gradually beginning to appear in the river, but cannot attain anything like the ordinary proportions before the close of the season. Steelheads are showing up a little better every day. Prices on Columbia river salmon continue to hold firm everywhere, with increased demands notably in the extreme Eastern centers. British Columbia canners report no pros-

pect of a catch till July. The few now being packed on the Fraser are ntilized for cold storage."
