The concert given last Friday night by Mrs. Heald and her pupils, the Glee club and others was in every way a success. Hood River has musical talsuccess. Hood River has musical talent of a high order, and these concerts should take place offener. The Glee club was at its best. The songs by Messrs, La France and Lewis were well received, and both gentlemen were encored. Mrs. Heald at the piano is always good, and Hood River is fortunate in having such an accomplished

teacher of music. In our last issue we mentioned that Joseph A. Wilson built the watering trough at Spring branch. We have since been informed that J. R. Rankin donated the lumber, George T. Prather furnished the Irons and Mr. Wilson did the work. Mr Prather says that when he was supervisor he tried to keep the trough in repair, but teamsters, when watering their teams, would allow the tongues of their wagons to jam it out of place. One day he fixed up the trough in good shape, and before night C. P. He of the same day it was knocked down. Thursday.

Thursday there was hauled through the streets of Hood River on a heavy wagon a sail-boat that looks big and strong enougt to make an ocean voyage. On inquiry we learned it was the handlwork of young Harry Hansberry, who was hauling it to the river. He has named it the "Sea Gull." We learn that the boy never saw a boat the use of tools.

Hood River will celebrate the gal-Independence, good music, a base ball game between the Dafur and Hood River clubs and a big crowd. We will have a good old-rashloned 4th of July.

Wednesday, in front of the post office, we overheard George W. Backus and Grant Evans bragging on their respective potato patches, and in company with C. Welds, the artist who looks after the soles of Hood River, we built before he started on this one, but be has finished a piece of work that would do credit to workmen skilled in 100 square feet of land, one-half of which is in garden and the other half in fruit trees. His potatoes are finecoming fair. But what drew our at all tention more than the potato patch acre he has 200 bearing fruit trees-apples, pears, prunes, peaches and cherries. The trees are all thrifty looking and stand so close together that the limbs intertwine and form a delightful shady grove. Our prohibition friend with us suggested that it would make a splendid beer garden, but we don't taink Mr. Backus will act on the suggestion, though his name would fit for that kind of an institution. Enreka Chemical and Mg. Company, La Crosse, Wis.—Dear Sirs: I have been a tobacco field for many years, and during the past two years have smoked fifteen to twenty clears regularly every day. My whole nervous system became affected, until my physicians told ma I mustalive up the use of tobacco for the time being, at least. I tried the so-called "Keely Cure," "No-To-Bac." and various other remedies, but without success, until Laccidentally learned of your "Baco-Curc." Three weeks ago today I commenced using your priparation, and today I consider myself completely cared. I am in perfect beatth, and the horrible craving for tobacco, which every invelerals smoker fully appreciates, has completely for me.
