The members of the Belmont band contemplate giving a concert in the near future. After the Sunday school at Frankton school house, last Sunday, the rite of baptism was administered. The congregation proceeded to the lake just across the state road from E. D. Rev. F. L. Johns officiated.

White Salmon had shipped, up to and including last Monday, about 1000 boxes tomatoes. Monday's shipment amounted to about two tons. The price for the season has averaged about 65 cents per box. The principal growers of tomatoes at White Salmon are P. F. Bradford, John R. Rankin, C. D. Moore and J. P. Egan. These gentlemen are well satisfied with their returns and find there is more money in raising tomatoes than in raising strawberries, and will hereafter plant more largely of this favorite vegetable.

Last Wednesday morning J. R. Nickelson saw a tramp hide a lunch in a hollow oak tree near his shop. In about ten minutes he came with another, hid it in the same place, and struck out for more. Mr. Nickelson watched him till he was out of sight and then went and swiped the grub. The tramp soon returned with another batch, but finding that his bank had busted, looked for another place of deposit. But the tramp got even. When John went home to dinner and told his wife how he had fooled a tramp, she told him of a tramp she had given a cold lunch. On comparing notes, it was found that the same tramp called at Nickelson's house soon after he had discovered his loss from the hollow oak tree, and received a liberal handout.

The twice-a-week edition of the New York World has been converted into the three-a-week. It furnishes 6 pages of news, or eighteen pages every week, at the old price of one dollar a year. This gives 156 papers a year for one dollar and every paper has 6 pages eight columns wide or 48 columns in all. The three-a-week World is not only much larger than any weekly or semi-weekly newspaper, but it furnishes the news with much greater frequency and promptness. In fact it combines all the crisp, fresh qualities of a daily with the attractive special features of a weekly. We will give the GLACIER and the three-a-week World to cash subscribers for \$2.50.

Charles Chandler has a six-acre tract for hogs. He will sow part of it to clover, plant part to artichokes and set the balance to sweet apples. When this is done he will have a good place to raise hogs at a profit with very little expense. He is now building an apple house, the walls of which are made double and filled with sawdust. H. C. Hengst, C. H. Stranahan and himself are doing the work. When completed it will cost \$200.

There will be a Sunday school concert for foreign missions at the Odell school house, East Hood River, Sunday, Aug 25th, at 3 p. m. Friends from other parts of the valley have been invited to take part. All are invited, and it is hoped there will be a good collection to carry the glad tidings to those who "set in darkness," as well as a revival of enthusiasm for this work.

The engine of the gravel train that passes up and down the road every day, is constantly setting fire to the dry grass and fallen lumber along the track. One day last week Mr. E. Locke's buildings came near being burned, and Monday sparks from the engine set fire to the woods on the Morton ranch, just below Peter Cordes' place. The citizens in the neighborhood turned out and fought the fire for a couple of hours.

Mrs. A. W. Rains and niece, Velma Morse, started on their return to Kansas Tuesday. They expect to return before another year and make Hood River their home. Mrs. Rains has been engaged in teaching school at her old home for the past twelve years, and she is now called home to teach another term.

The reports of burning forests on the "Mt. Hood road" in the Portland papers may lead Portland people to think there is danger on the regular Mt. Hood road by way of Cloud Cap Inn. This is the main road to Mt. Hood and there are no forest fires on the road nor has there been any this season.

Rev. T. D. Gregory will preach his farewell sermon next Sunday in the evening at Hood River.

Cush Luckey and Fred Doremus went to Trout lake Saturday. They found the smoke so thick and the horse flies so numerous that they made a short stay and returned as far as Sandy Flat, where they found good fishing. They were successful in catching a good number of fish. A party of ladies and gentlemen arrived from The Dalles who lost their provisions, and Cush and Doremus had to share their fish and other grub with the new arrivals. This accounts for their not having any fish to share with their friends at home. At least this is Cush's story, but his friends consider it rather "fishy."

J. M. Hixson & Co. of Seattle, a firm which does a great business in shipping fruit to Alaska, writes H. C. Bateham as follows with regard to the coming demand for apples: "Spitzenbergs, we want all there are in Hood River. Every one wants Spitzenbergs, and no other place that I know of raises them equal to Hood River. Unless the bottom falls out of the apple market, if the growers of Hood River will give us their Spitzenbergs, we will get them more money for them than they ever got before."

There was a slight sprinkle of rain in Hood River Tuesday, but not enough to lay the dust. Wednesday the smoke cleared away sufficiently to allow Mt. Adams to be seen.

We Will Hold a Fair.

Pursuant to call of committee, the fruit growers met at Hon. E. L. Smith's office Saturday to consider the question of holding a fair at Hood River during the coming fall. Hon. E. L. Smith was elected chairman of the meeting and H. C. Bateham secretary.

After the chairman had stated the object of the meeting, Capt. Blowers moved that we hold a horticultural exhibition at Hood River. The motion was adopted, and Friday and Saturday, October 4th and 5th, selected as the date for holding the same.

The meeting then proceeded to the election of officers, and the presiding officers were elected to act as permanent officers of the exhibition.

On motion, the chair appointed an executive committee, consisting of seven members, as follows: W. J. Baker, John Parker, S. F. Blythe, George T. Prather, W. A. Slingerland, Mrs. E. L. Smith and Mrs. O. L. Stranahan.

On motion, it was decided to name the exhibit the "Hood River Horticultural Fair," and invite the co-operation of all nearby localities.

A committee was appointed to solicit subscriptions and arrange preliminaries, as follows: M. Willis, A. S. Blowers, Wm. Tillett, Mrs. J. N. McCoy and Miss Alice Cleaver.
