The twice-a-week edition of the New York World has been converted into the three-a-week. It furnishes 3 papers of 6 pages apiece, or eighteen pages every week, at the old price of one dollar a year. This gives 150 papers a year for one dollar and every paper has 6 pages eight columns wide or 48 columns in all. The three-a-week World is not only much larger than any weekly or semi-weekly newspaper, but it furnishes the news with much greater frequency and compactness. In fact it combines all the merits, fresh qualities of a daily with the attractive special features of a weekly. We will give the GLACIER and the three-a-week World to cash subscribers for \$2.50.

M. V. Harrison and family left on Wednesday morning train for Eugene. Mr. Harrison had made all arrangements to go to Portland and engage in the commission business, but during the first part of the week he received a letter from Eugene offering him a good position in a dry goods store in that city, and he accepted. Mr. Harrison has long been one of Hood River's most prominent and enterprising citizens, and the departure of himself and family will be generally regretted by the community. We wish him abundant success in his new home.
Saturday morning, while John Kelley was driving down the road from Dr. Adams' place towards town, his horse took fright and started to run. Mr. Kelley was unable to check him before he collided with Peter Hinrichs wagon, who was driving up the hill with a heavy load. A front wheel of the wagon was demolished and one of the shafts torn off.
Walter Mayes, aged about 14, one of the boys who have been herding the town cows during the summer, died of typhoid fever Tuesday. About a month ago he was thrown from his pony and received injuries that at the time were not considered serious. But while suffering from the accident he was taken with typhoid, which caused his death. He was a worthy young fellow, and his family have the sympathy of the community.
Van Johnson brought in some sample apples for the GLACIER, Saturday, and not finding us in, left them at the butcher shop. Council Proceedings.

The common council met on Tuesday evening last. The following bills were allowed and ordered paid: M. V. Harrison, \$9; J. H. Dukes, \$9; S. F. Blythe, \$3.50.
Committee on streets and public property reported that they had caused the stock pound to be built at the north end of Fourth street. Report approved and accepted.
Bartmess called attention to the needs of the town for a system of sewerage and drainage, and moved that the matter be referred to the committee on streets and public property to devise a system for the needs of the town, and to report at the next meeting. Carried.
Morse urged that steps be taken towards securing a better supply of water for the town.
Morse introduced ordinance No. 13, to amend section 1 of ordinance No. 11, so as to permit stock to run at large except during the months of December, January, February and March, and between 8 p. m. and 6 a. m. of each day. Ordered enrolled.
The recorder was instructed to ascertain the expense of certain legal opinions on several questions of law, and to take such action in regard thereto as he may be instructed by the judiciary committee. These questions relate principally to the authority and power of the council over the streets of the town.
A communication from H. C. Coe, asking leave to lay water mains and laterals in the streets of Hood River, was laid on the table until the next meeting.
Morse moved that the committee on fire and water be instructed to make necessary preparations to advertise for bids for a water supply for the town, to report at next meeting. Carried.
The union picnic at Belmont was not largely attended for the reason that the young people were engaged in gathering and pecking fruit. But the programme was carried out and those in attendance report a very pleasant time. The Belmont band furnished good music for the occasion.
The business men of The Dalles held a meeting Tuesday evening and decided to hold a fair. A committee of eight was appointed to solicit subscriptions.
Mr. and Mrs. E. B. Dufur have been spending their summer vacation on the headwaters of Fifteen-mile creek, where the fishing is good. Mrs. Dufur caught over 200 fish. The Mountaineer says she is an expert angler, "and while Hon. E. B. Dufur can file answers, demurrers and special pleas to the jurisdiction, etc., his better half is more of a success when it comes to enticing the speckled beauties from their native haunts."
A fire at The Dalles Sunday morning destroyed the barn of Thomas Johns & Co. Six valuable horses perished and \$5 tons of hay and two acres were burned. T. M. Denton, Jr., was arrested soon after the fire and is charged with burning the barn.
Digest of Land Decision.
Furnished by W. D. Harlan, Land Attorney, Washington, D. C.
The sale of land shortly after making proof and the issuance of final certificate does not warrant a presumption of bad faith.
The issuance of a placer patent, on a record which shows that there is no known lode or vein within the placer claim, precludes the subsequent allowance of a lode entry within said limits while said patent is outstanding. The right of a co-owner should be asserted as an adverse claimant. The actual use of land for mining or milling purposes contemplated by section 2337, R. S.
No vested rights are secured through filing a declaratory statement, and a sale of the land thereafter by the claimant, prior to final proof and entry, defeats his rights to purchase said land, and an entry thereof made in his name must be canceled.
DIED.
