William Tillet, while at White Salmon last week, learned that Captain Cook had commenced work on the new road from his place to the river. Piles were being driven for a wharf and boat landing nearly opposite the mouth of Hood river. About thirty men were employed on the work. Mr. Tillet brought over some fine samples of Capt. Cook's Yakima and Klukit apples.

The little daughter of Mr. Fred Webber, Holland, Mass., had a very bad cold and cough which he had not been able to cure with anything. I gave him a bottle of Chamberlain's Cough Remedy, says W. P. Holden, merchant and postmaster at West Brimfield, and the next time I saw him he said it worked like a charm. This remedy is intended especially for acute throat and lung diseases such as colds, croup and whooping cough, and it is famous for its cures. There is no danger in giving it to children for it contains nothing injurious. For sale by Williams & Brosius, druggists.

MASS MEETING.

We are asked to say that the written notices put up for the mass meeting Saturday are not quite broad enough in statement. The object of the meeting is to discuss and understand every interest of Hood River valley affected by the lease of Hood river, given to the Hood River Lumbering Co. This includes not only irrigation, but right of ownership in land, cordwood, posts, logs and every timber product.

CITIZENS WHO ISSUED CALL.

Prospects of a College.
A meeting of citizens of Hood River was held at the Congregational church Monday afternoon last and listened to an address by Rev. C. C. Poling on "Higher Education." After the address, Mr. Poling stated the Evangelical denomination desired to establish a college in some part of the state and suggested that it might be well to see what encouragement Hood River would offer to secure such an institution. On motion, Messrs. E. L. Smith, James Hanna, W. H. Bishop and S. J. LaFrance were appointed as a committee to canvass the town to secure the sentiment of the people on the subject. On Wednesday they made a partial canvass of the town, and while they found a unanimity of sentiment in favor of securing the college, yet owing to the scarcity of money, the indebtedness of our school district and other causes, the pledges of support were not so liberal as to offer much encouragement. The committee reported results of their canvass to Mr. Poling and will be governed by his suggestions as to future action.

The **Regulator** made a trial trip to the Cascades Thursday.
Until after new crop, Saturday only will be our grinding day.
HARRISON BROS.
C. P. Balch has recovered from the sick spell that kept him at St. Vincent's hospital in Portland for a long time.

Church Ventilation.

HOOD RIVER, Feb. 11, 1896.—Editor GLACIER: There is one thing in regard to the ventilation of our churches that should be enforced. If the organizations themselves are too lax in the enforcement, then the committee on health and police should attend to it. A card should be posted up so that the janitor could see it at every turn: "Never open windows on opposite sides of the room at the same time." This creates a draft that endangers the health of the audience, which it is powerless to prevent without disturbing the minister and hearers by a change of position to some other part of the room. The church should appoint a committee with positive instructions to knock the janitor down with a club for any violation of this rule, and then let all the church kneel down and pray for his reformation. If the janitor feels the necessity of lowering the windows one foot on each side of the church, in the name of common sense, drag them down two feet on one side.

Events of the Coming Year.

The coming year will be a period memorable in the history of the world, if but a part of the plans of the United States government and European nations is carried out. In the United States there will be the liveliest presidential campaign ever held, and the fifty-fourth congress, now in session, will furnish exceedingly interesting debates on the tariff and financial questions until June. There will be several exciting state elections and many great political speeches. Everyone will watch with interest the progress of the Venezuelan commission's inquiry, the results of the wars in Cuba, in South Africa, in Turkey, and the outcome of other complications now arising in the Old World.

It is a remarkable coincidence that at the beginning of a year of such rich promise of stirring news the greatest metropolitan newspaper in the United States—the **St. Louis Republic**—should reduce its price to \$6 a year, or to less than two cents a day. This low price now places the Republic within the reach of every one. Those who wish to keep posted on politics, trade, national and international affairs during 1896 should at once subscribe for it on these easy terms, in addition to taking their own local paper.
Newspaper readers who may think they cannot afford to take a metropolitan daily paper should at least subscribe for the **Twice-a-Week Republic**—104 papers a year—for only \$1 a year. It contains the best of everything that appears in the daily.

This is the old way—"the good old way"—of curing a cold. But it is inconvenient and only adopted as a last resort. There is another way, which is more convenient and quite effective. We refer to the **"White Pine Compound."** We have it in liquid form or in lozenges, handy to carry in pocket, and suggest you think of it when your next cold is coming on. Also, think of

G. A. R.

HOOD RIVER, Feb. 10, 1896.—Editor GLACIER: Canby Post, No. 16, G. A. R., Department of Oregon, of which you and I are members, has reason to feel proud of the prosperity awarded to it during the past year and the good omens of success given at its first meeting after the installation of its officers for the coming year 1896. The deputy inspecting officer from The Dalles informed us that we had about as many regular attendants as there were at The Dalles. At the meeting on the 1st of February an old soldier, over 80 years old, was initiated into the post. And for the benefit of the old soldiers who do not belong, we add that during the past year we have received four new members into the post, and that some \$60 has been disbursed to needy soldiers and their families direct through the post, while individual comrades have given of their substance to help the needy.

There are quite a number of old soldiers who do not belong to the post, or who have "folded their tents and quietly marched away." To such we would say, Come with us, and help in "preserving and strengthening those kind and fraternal feelings which have bound together the soldiers, sailors and marines who united to suppress the late rebellion," and still better, to assist by precept and example to define an intelligent patriotism. The tide of patriotic fever that carried us triumphantly through the costly and bloody struggle for the preservation of the Union has spent its force, a new generation has appeared upon the stage of action. To train the millions of new citizens to appreciate the meaning of patriotism is a duty and an honored privilege. "Eternal vigilance is the price of liberty." The work of training these minds should begin in childhood; a flag should float from every school house, and the doctrines, not the cant, of patriotism should everywhere be the language of the people.
All honor to the noble, patriotic band of ladies (the Woman's Relief Corps) who have given special attention to presenting the flag to our public schools all over our land and assisted in the ceremonies of raising and placing it upon our institutions of learning, where thousands of youthful eyes, as well as those dimmed by age, could behold, and, while admiring, say:
"Then hail the banner of the free,
The starry tower of liberty."
Comrades, what a field for doing good! Come with us, and kindle anew the fires of your devotion to your country and our national banner. And wherever on the earth's surface the eye of the American shall behold it, may he have reason to bless it. "On whatsoever spot it is planted, there may Freedom have a foothold, humanity a brave champion and religion an altar." Though stained with blood in a righteous cause, may it never be stained with shame, but always remain the joy and pride of the American heart.
C. J. HAYES.
