For every quarter in a man's pocket there are a dozen uses; and to use each one in such a way as to derive the greatest benefit is a question every one must solve for himself. We believe, however, that no better use could be made of one of these quarters than to exchange it for a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, a medicine that every family should be provided with. For sale by Williams & Brosius, druggists.

Rev. J. W. Jenkins preached the memorial sermon at the Valley Christian church last Sunday. The largest congregation we ever saw in the valley assembled to hear him. The large building was filled till there was no longer standing room, and over two hundred persons on the outside were unable to gain admission. The sermon was a masterly effort and was intently listened to and appreciated by all present. Over thirty members of the Grand Army were in attendance.

Mr. D. P. Davis, a prominent liveryman and merchant of Goshen, Va., has this to say on the subject of rheumatism: "I take pleasure in recommending Chamberlain's Pain Balm for rheumatism, as I know from personal experience that it will do all that is claimed for it. A year ago this spring my brother was laid up in bed with inflammatory rheumatism and suffered intensely. The first application of Chamberlain's Pain Balm eased the pain and the use of one bottle completely cured him. For sale by Williams & Brosius, druggists.

O. W. Butts, commission man of Omaha, writes to H. F. Davidson in regard to the Leslie strawberry crate, advising the use of the square box in shipping long distances. A little two-year-old child of Frank Davenport was tossed by the family cow Tuesday afternoon. The children were playing upon the bridge over the flume near their father's house, where the cow, heretofore regarded as perfectly gentle and peaceful, came along on her way across the bridge. Finding the child in her way she picked it up on her horns and tossed it about ten feet in the air. In its fall the child struck on his head on a plank that projected over the flume, and falling in the flume, floated down until rescued by workmen near at hand. The child received a severe contusion on the temple and was bruised on the lips by the horns of the cow. The gentle old family cow has since been deborned.

A pound box of strawberries was sent from Hood River by express to Portland last Friday, the first of the season. The express charges amounted to 35 cents. A commission man bought the box for 50 cents and placed it in his window along with California berries, where it showed up handsomely in comparison. A clerk in the store, not knowing the history of the box of berries, sold it to the first purchaser that came along for 25 cents. Fifty cents was offered for the box by Mr. C. R. Bone before it left Hood River.

Mr. S. C. Zeigler of White Salmon captured the \$6 prize given by the Oregon Fruit Union for the first crate of strawberries from this locality. The crate was brought in Monday and turned over to the Hood River Fruit Growers' Union. As it is the policy of this union to make as much as possible for the growers, this crate was promptly turned over to the Oregon Fruit Union, and the prize of \$6 was drawn and placed to the credit of the grower. It was shipped to Denver.

Having no brake and being a novice at riding the wheel, he lost control of it and was thrown off while going at a rapid rate. The front wheel of the bike was wrecked.

The warm weather is causing considerable anxiety among our strawberry growers. It is feared that both the Snake and Columbia rivers will come with their volumes of melted snow at about the same time and inundate our railroad, which would prevent the marketing of our strawberry crop.

London Purple

Is chiefly arsenite of lime, a residue obtained in the manufacture of aniline dyes. It does not contain quite so much arsenic as Paris green, and by being a by-product, it is not so constant in its constitution. According to an analysis by the chemist of the U. S. department of agriculture, it has 43 per cent arsenous oxide. A later analysis by the chemist of the Vermont agricultural experiment station, it has

Arsenic (arsenous ox.) parts 46.73
Iron and alumina 24.35
Sulphuric acid 1.31
Nitrogen 1.53
Moisture 3.57

Paris green and London purple are both dangerous poisons and are particularly in the province of the pharmacist, for he is the poison retailer and usually the only one having the facilities for guaranteeing their quality. We keep only the best qualities.

Paris Green

Is chiefly arsenite of copper. The insecticidal efficiency of Paris green depends upon the amount of arsenous acid present, which is somewhat variable, ranging from 54 to 61 per cent in an analysis of five samples obtained in the market. The chemist of the Maine state college found 54, 55, 54, 55 and 40 per cent of arsenous acid respectively. It is a very stable compound, does not readily suffer deterioration and may be safely kept in ordinary containers, in a cool, dry place.

How to Treat a Wife.

First, get a wife; second, be patient. You may have great trials and perplexities in your business, but do not, therefore, carry to your home a cloudy or contracted brow. Your wife may have trials, which, though of less magnitude, may be hard for her to bear. A kind word, a tender look, will do wonders in chasing from her brow all clouds of gloom.—To this we would add, always keep a bottle of Chamberlain's Cough Remedy in the house. It is the best and is sure to be needed, sooner or later. Your wife will then know that you really care for her and wish to protect her health. For sale by Williams & Brosius, druggists.

W. C. T. U. Convention.

The fourteenth annual convention of the Woman's Christian Temperance Union met at Newberg, Oregon, May 19th to 21st. The Friends' church presented a gala appearance, with its profuse decoration of flowers, banners and flags. At the opening of the convention Mrs. L. A. P. White, who organized the first union in the state, led the morning devotion. President Narcissa White Kinney opened the business session and the convention was organized for work. There were 124 delegates in attendance. Reports from county presidents and state superintendents show good work done in all lines, with an increase of 500 new members in the past year. During the convention one gold and one silver medal contest was held. Miss Nerven Wright of Newberg won the gold medal and Mrs. Dr. Eddington of Wasco, Sherman county, won the silver medal. The election was most harmonious and pleasant, all the old officers being re-elected. The following resolutions were adopted, after which the convention adjourned to meet at Albany one year from next October.

Mrs. W. H. Bishop,
County President.

With thanksgiving and praise we acknowledge the goodness of our Heavenly Father in leading and guiding us through another year; in opening before us doors of opportunity to us; in quickening us by His spirit, and, in reliance upon the spirit for direction, we will obey the command, "Go forward," with unflinching trust in the infinite fatherhood of God. By making the gospel of the golden rule our standard of daily living, we must let our lives testify to the truth of His promises, and we must have a reason for the faith that is in us. We believe God created man and woman in His own image, and therefore we believe in one standard of purity, in the equal right of all to hold opinions and to express the same in the home, on the platform, in the pulpit and in the ballot.

We believe in a living wage, in equal wages for equal service; in justice as opposed to greed; in peace on earth, good will to men; therefore, be it

Resolved, That we reaffirm our belief in the pledge, as an expression of definite commitment to the cause of total abstinence, and as an educator of public sentiment. We believe alcoholic beverages to be hurtful in any and all forms, and will use all means in our power to create sentiment favorable to the principles of total abstinence.

We condemn the license system, both high and low; we believe in, and shall work for, the prohibition of the liquor traffic, as we consider that the only protection for the home and the youth of our land.

We commend the influence that has made it possible for the saloons to be closed on Sunday in several of the states, but we greatly deplore the general laxity of the enforcement of laws, especially those pertaining to Sunday, gambling and tobacco, not only because we believe such laws are for the best interests of our state, but also because we believe any such lack of enforcement is a disgrace to our state—a most evil example to the rising generation.

We believe it to be the duty of all temperance men to crystallize and demonstrate their temperance principles at the ballot-box. And we, as women, heartily concur in the resolution adopted by the general assembly of the Prohibition Party of America, namely:

"No political party has a right to ask or ought to receive the support of Christian men so long as it stands committed to a license policy, or refuses to put itself on record in open hostility to the saloon."

We unite to the overflow of our sympathies toward the sufferers in Armenia. The terrible atrocities committed by the Turks have touched our hearts, and we are in full sympathy with all efforts that shall grant to the oppressed in that land civil and religious liberty.

We recognize in the different young people's societies strong allies in all moral reform, especially thanking God for the strong position taken by the International Society of Endeavor and other kindred organizations in favor of temperance and good citizenship.
