

# Hood River Glacier.

FRIDAY, JUNE 5, 1896.

The vote in the second district shows Northup only about 2,500 votes behind Ellis. If the sound-money republicans had voted true to their convictions, Northup would have been elected by a handsome plurality. But the fear of electing a populist caused many a change to Ellis in every precinct outside of Portland. If Quinn is elected it will be a great victory for the populists, but it does not prove that a majority of the voters in the district are in favor of free silver. Nevertheless, in estimating the relative strength of the gold standard and free silver vote in the district, all the votes cast for Ellis, Bennett and Quinn will be counted for free silver.

The president vetoed the river and harbor bill, and on Wednesday it was passed over his veto by both houses of congress. Our statesmen would not allow the only work they have accomplished this session to be ruthlessly set aside by a presidential veto, and promptly rallied nearly unanimously to the "relief" of their constituency by voting to override the veto. Time was when men were sent to congress for their knowledge of the affairs of government and known ability as statesmen. Nowadays their ability to pile up appropriations higher than their predecessors ranks them as statesmen of the first magnitude.

Next to being popular yourself it is to have a name that is popular. It has been suggested that the reason John Michell ran ahead of his ticket was that a good many voters thought that a good many voters thought they were voting for John H. Mitchell for senator. Mr. Michell's name, like that of Judge Northup's, was misspelled and mispronounced all through the campaign. Michell is pronounced Meshell, with the accent on the last syllable. Judge Northup's name was more frequently printed incorrectly (Northup) than correctly, and some of our best speakers pronounced it with the r.

Under the Australian ballot law the number of voters in a precinct is limited to 250. West Hood River precinct having cast 263 votes at the recent election, it will be necessary to form a new precinct. As East Hood River precinct polled but 117 votes, the boundary lines might be changed so as to give the east precinct a part of the territory now included in the west precinct, and thus save for awhile the expense of a new precinct.

Major McKinley and his managers are said to favor the adoption of the Ohio convention's platform by the St. Louis convention. After hearing from the Oregon election, where the republican platform was patterned after the Ohio idea, they may learn that a platform that faces both ways is not always a howling success.

The vote of Hood River shows that our people like to vote for Hood River candidates. Messrs. Cradlebaugh and Gilbert, though not at present residents here, are well known by our citizens, and the handsome vote received by each is a flattering testimonial of the confidence reposed in them by their old neighbors.

The lower house of congress has voted that each member shall have a clerk throughout the year at a salary of \$100 a month. It is such proceedings that cause the election nowadays of the Vandeburgs and Quinns.

Returns from all the counties in the second district except Grant, Harney and Malheur, show the following result: Quinn, 10,257; Northup, 7,793; Ellis, 10,365; Bennett, 5,362.

**East Side Items.**

Mr. Chas. Wells has moved to his place on the mountain.

Mr. Boardman was home Sunday from the mill at Chenoweth, where he is working.

Mrs. Robertson will have several ladies up from Portland to spend the summer with her.

Clearing has commenced for the new church near the Pine Grove school house.

Harbison Bros.' mills started up Tuesday.

Supreme Deputy Sherwood has been secured by Hood River tent knights of the Macabees to address a public meeting at the Congregational church on the evening of June 11, 1896, on the principles and object of the order, this being the 15th anniversary of the order. All cordially invited.

Mr. Emile Schanno was in Hood River during most of last week inspecting orchards. He reports that Harbison Bros.' orchards show the best prospects for prunes of any he has seen in the valley.

All local express matter is now sent from Portland on the local trains. In consequence, our paper was not received till 11 o'clock, hence the delay in printing the GLACIER.

Joe Wilson's gauge at the railroad bridge registers a rise in the Columbia river of 82 inches for the 4 days and 14 hours ending at 7 o'clock this (Friday) morning.

One hundred and twenty crates of strawberries were shipped last night, 150 Wednesday night, and a total of 517 for the season.

It was reported on the streets yesterday that the republican party had the Quinn-ay.

The morning train from the East was several hours late this morning.

**The Election.**  
Returns from the state show that the republicans have elected their candidate for supreme judge and will have a good majority in the legislature, which will stand about as follows: Republicans, 59; populists, 15; democrats, 6.  
The result on the state ticket, so far as returns are received, shows the following vote: Bean, 35,338; Burnett, 16,494; Gaston, 22,371.  
The result on the congressional vote is still in doubt. Vandeburg and Tongue are running neck and neck in the first district and Ellis and Quinn the same in the second. It will take the official canvass to decide. Northup carried Portland by 1200 plurality.  
Pennoyer is elected mayor of Portland.  
Sherman county gave Cradlebaugh 331 and Jayne 387. In Gilliam county their vote was about even. Crook county returns have not been received, but the vote of Wasco and Sherman elects Jayne, and Cradlebaugh suffers defeat along with the balance of the democratic ticket.

Following is the official returns of WASCO COUNTY.  
For Congress—Bennett, 1009; Ellis, 895; McKereher, 31; Northup, 266; Quinn, 446.

**Condition of Fruit.**  
The Oregon Weather and Crop Bulletin for the week ending June 1st reports the condition of fruit as follows:  
There can now be no denying the fact that the frosts of the fore part of April and the cool rains have seriously injured most varieties of fruits. Of the prunes, the Italian appear to be the most seriously injured. One correspondent reports that in his 40-acre prune orchard there is not a bushel of fruit. Some orchards will have a fair crop of prunes, while others will have none at all. The current season is one of those phenomenal ones, for it is a very rare occurrence that fruit is injured by the weather in Oregon. The peaches and apricots have been more seriously injured than the prunes. The pears have been injured, but yet not so very seriously; in some sections the trees are fairly filled with pears. The apple crop has also been affected, and this is a most unusual thing in Oregon. The cherry crop has been injured in some localities, while in others the trees are fairly well filled. Cherries are growing rapidly and will begin to ripen within the next two weeks. In 1895 cherries were ripening on June 1st, and on June 5th ripe Oregon cherries were in the market. All the fruit has been injured by the weather, yet it must not be understood that this means a failure of the crop. There will be no market yields in any hill fruits, yet there will be fruit of all kinds and to spare. The small fruits and berries have not been injured. Grapes have been backward, but they are now growing rapidly. Some vines have made six inches growth during the past week. Strawberries are ripening rapidly, and before the close of the current week Oregon strawberries will be plentiful. Raspberries, blackberries and gooseberries are, as usual, most prolific.

It may not be, perhaps, the correct thing to tell a large number of voters, but it is a fact nevertheless, that there is not enough intelligence used in the ballot booth. A person who does not possess enough intelligence to cast his vote correctly under the Australian ballot system without botching, bungling and having a sample ballot already marked for him previous to entering the booth should be deprived of the privilege.—Troutdale Champion.

**Old People.**  
Who require medicine to regulate the bowels and kidneys, will find the true remedy in Electric Bitters. This medicine does not stimulate and contains no whisky nor other toxicant, but acts as a tonic and alternative. It acts mildly on stomach and bowels, adding strength and giving tone to the organs, thereby aiding Nature in the performance of the functions. Electric Bitters is an excellent appetizer and aids digestion. Old people find it just exactly what they need. Price 50c and \$1 per bottle at Hood River Pharmacy.

The beauties of our election laws were well illustrated yesterday when a lot of transients who were employed on the Oak Grove ditch were allowed to vote and one of the oldest residents of The Dalles was disfranchised because his family is temporarily living outside the city. If Oregon needs one thing more than another it is a strict registration law.—Mountaineer.

**Two Lives Saved.**  
Mrs. Phoebe Thomas of Junction City, Ill., was told by her doctors she had consumption and that there was no hope for her, but two bottles of Dr. King's New Discovery completely cured her, and she says it saved her life. Mr. Thos. Eggers, 139 Florida st., San Francisco, suffered from a dreadful cold, approaching consumption, tried without result everything else, then bought one bottle of Dr. King's New Discovery and in two weeks was cured. He is naturally thankful. It is such results, of which these are samples, that prove the wonderful efficacy of this medicine in coughs and colds. Free trial bottles at Hood River Pharmacy. Regular size 50c and \$1.

**Irrigating Notice.**  
Owing to the limited amount of water that can be furnished for irrigation, the Hood River Spring Water Co. has adopted the following regulations:  
Parties living south of Oak street will irrigate from 5 to 6 o'clock, p. m., and those living north of same street, from 3 to 4 p. m. In irrigating, the regulation half-inch nozzle must be used, and the water applied in the form of spray or sprinkle and in no other manner.  
All water for irrigating must be applied and paid for before using.  
Any violation of these rules will subject the parties so offending to forfeiture of the privilege of irrigation.
