Mr. James Perdue, an old soldier residing at Monroe, Mich., was severely afflicted with rheumatism but received prompt relief from pain by using Chamberlain's Pain Balm. He says: "At times my back would ache so badly that I could hardly raise up. If I had not gotten relief I would not be here to write these few lines. Chamberlain's Pain Balm has done me a great deal of good and I feel very thankful for it." For sale by Williams & Brosius, druggists.

If it required an annual outlay of \$100 to insure a family against any serious consequence from an attack of bowel complaint during the year there are many who would feel it their duty to pay it; that they could not afford to risk their lives, and those of their family for such an amount. Any one can get this insurance for 25 cents, that being the price of a bottle of Chamberlain's Cholera, Cholera and Diarrhoea Remedy. In almost every neighborhood some one has died from an attack of bowel complaint before medicine could be procured or a physician summoned. One or two doses of this remedy will cure any ordinary case. It never fails. Can you afford to take the risk for so small an amount? For sale by Williams & Brosius, druggists.

Mr. J. A. Newell came up from Portland on Wednesday to join his family, who are summering in the Barrett district. Mr. Newell was a candidate for justice of the peace in East Portland at the recent election and was defeated by only three votes. A recount gave his principal competitor 12 votes ahead; but the principal competitor acted as a member of the returning board and actually counted himself in. Mr. Newell believes enough legal votes were thrown out to elect him and has filed a contest. Mr. Newell is an old soldier and served with Lieut. Cushing in some of his daring adventures in Charleston harbor and at Wilmington.

The management of the two fruit unions here have agreed to use but one agent in each market, who shall have entire control of the Hood River strawberries. C. R. Bone will control all distribution and markets in Montana; W. B. Webber of Salt Lake will be the only agent for Hood River berries at that point. A. W. Erik of Denver will be the agent for that section. H. Cartan of Omaha will be the agent for the district tributary to Omaha and control all shipments of Hood River berries with Mr. Coon. It is agreed that berries shall be held at even prices and none consigned to commission houses but delivered to creditors.

There is a good deal of complaint about white pickers refusing to work on Sunday. Our growers have not yet discovered how to keep their berries from ripening on Sunday, and if the vines are not gone over and the berries picked every day, there are too many ripe ones and the loss is considerable. For the reason that squaws, Chinese and Japs are always ready for work seven days in the week, they are preferred to white people by some of our largest growers.

Hon. E. L. Smith, president of the state horticultural society, left on Monday, accompanied by Mrs. Smith. Peyton, Dell Rand and A. P. Bateman.

On Button's ranch there is in use an aerator of the same pattern as the one in use on Gov. Morton's fancy cattle farm at Ellerslie. Gov. Morton supplies the Waldorf in New York city with gilt-edged dairy products, and the Mt. Hood hotel at Hood River will not be behind the Waldorf.

Mr. S. J. LaFrance will start next week for San Francisco, where he will again enter the service of Kohler & Chase, the well-known dealers in musical instruments. He has rented his farm to Mr. Gore, who has had charge of it since last fall.

The map of J. E. Scobee's orchard, which has been on exhibition at Geo. Crowell's store, was drawn by G. C. Bushnell. It is very neatly executed and shows that Mr. Bushnell is no amateur at this kind of work.

Joseph A. Wilson on Tuesday sold a piece of land containing about 50 acres, lying at the mouth of Hood River, to the Hood River Lumber Co. for \$500. The land is now covered with water. In 1891, Mr. Wilson bought it for \$50. John Castner pitched for the Portland base ball club, last Sunday, in a game with the Seattle club. The Oregonian says he pitched a winning ball for eight innings. The game stood 10 to 11 in favor of Seattle.

London Purple is chiefly arsenite of lime, a residue obtained in the manufacture of aniline dyes. It does not contain quite so much arsenic as Paris green, and by being a by-product, it is not so constant in its constitution.

Paris Green is chiefly arsenite of copper. The insecticide efficiency of Paris green depends upon the amount of arsenic acid present, which is somewhat variable, ranging from 54 to 61 per cent in an analysis of five samples obtained in the market.

Paris Green and London Purple are both dangerous poisons and are particularly in the province of the pharmacist, for he is the poison retailer and usually the only one having the facilities for guaranteeing their quality.
