#### The Smashed Slate.

Hood RIVER, Nov. 16, 1896.-Editor GLACIER: I received a letter a few days ago from one of my personal friends, and who, by the way, was a supporter of Mr. Bryan in the recent campaign.

Being a gentleman of considerable influence politically, he commanded more than ordinary notice among the leaders of the fusion party. During one of his visits to Chicago he had access to the "sanctum sanctorum" in the popocrat head quarters. While there and in consultation with the managers, he noticed a paper on the floor of the sanctum and picked it up. Upon reading it he discovered that it was of some importance, as it proved to be a forecast or partial slate of Bryan's cabinet and a few of the most important ap-Miss Graham will open a select school for the benefit of those who wish to attend during the winter. There will be classes in both common and high school studies. Special attention will be given to took-keeping, in which the "Tablet System" will be used.

The beautiful snow came again last of Bryan's cabinet and a few of the most important appointments to be made in the event of his success at the polls. He says in his letter that the original is in the handwriting of Chairman Joking Jones, and for that reason he sent me only a copy. Thinking it might be of interest to the readers of the GLACIER, I hand you a copy of some of the principal apyou a copy of some of the principal appointments. Upon looking over the list, I am sure you will be impressed with the peculiar adaptability and "eternal fitness" of each to each.

The list is headed with Senator Ma-rion Butler, known in the Tar Heel state as Mary Ann Butler, for secretary of state; Gen. Coxey of Ohio, of on-to-Washington fame, secretary of the treasury; Ex-Gov., or Bloody Bridles Waite of Colorado, secretary of war; Senator Tillman of South Carolina, of Batcham. He will probably engage in fruitgrowing, so he can be considered an orthodox resident of Hood River.

Last night was the coldest we have had for two years. The thermometer at Bartmess', at 7 o'clock this morning, stood at 3 degrees below zero. Other thermometers showed 6 below.

Cold weather has diminished the attendance in the primary department of our school, but there has been increasing interest—in coasting—in the higher departments.

an explanation which is due me as well as m friends and the public. It has been currently reported upon the streets and at public places that I signed the petition of Capt. Dukes for postmaster at Hood River. Now, the facts are these: Capt. Dukes asked me to sign a petition for fixing a road, and understanding it to be for that purpose, I signed it without reading it. Witnesses were present when the petition was presented and signed by me. Imagine my surprise when I was told I signed Capt. Duke's petition for his appointment as postmasterast Hood River. I stoutly denied it, but when I asked to see the petition, found that I had signed it for a road petition. I, however, crased my name. I wish further to state, and it has been well understood since last June, that if Major McKinley was elected president, I was a candidate for postmaster of Hood River. I am still a candidate, but thought I would wait until it was certain that Mr. McKinley was elected before I circulated my petition.
