nowadays will show the work that is being done to prepare for the shipment of the strawberry crop of 1897. Mr. Smith has all the latest improved machinery for sawing and riveing the material for the boxes and crates, and keeps a force of about ten men con-stantly employed. This business is bound to grow with the increase of the acreage in strawberries, and if the de-mand for Hood River fruit keeps up, in a few years we may expect to see the Hood River box factory with scores of workmen on its pay roll.

Mr. E. D. Calkins has purchased the Stokes ranch, 8 miles west of Centerville, Wash., one of the best stock and grain ranches in Klickitat county. He will engage in raising stock, grain and froit. with a severe attack of rheumatism. Percy Shelley has been quite sick for the past few weeks, but is now quite

recovered. The basket social and donation for Rev. Moys at the Pine Grove was well attended, each one bringing with him a bountifiul supply of this world's goods. An interesting programme was rendered, consisting of singing and recitations. Among the latter was the "September Gale" by Mr. Porter, which, with his genius for initiation which, with his genus for infration and gesture, was greatly appreciated. Something out of the usual line were the caricature drawings in charcoal by Mr. G. C. Bushnell. The progress of the drawing was watched with great interest, which culminated in loud applause as the drawing reached comple-tion. The almond-eyed Celestial was drawn wearing a broad grin, when a few strokes of the pencil changed the expression to one of hatred and anger. Equally as good was the character from Wayback county, Conn., with his family umbrella and an immense carpet sack.
