A Resume of Events in the Northwest.

EVIDENCE OF STEADY GROWTH

News Gathered in All the Towns of Our Neighboring States—Improvement Noted in All Industries—Oregon.

An inspector of the postal department will be sent to Salem to establish a rural mail service in Marion county.

Many cherries are said to have fallen from the trees in Southern Oregon during the last week or ten days.

Growers in Linn county are cultivating their hops well, and the present outlook justifies them in hoping for fine crops.

The Coos bay creamery is receiving 12,000 pounds of milk per day, and it is expected the figures will soon be increased to 15,000.

The machinery for the Vale, Malheur county, flouring mill has been purchased. The mill will have a capacity of 50 barrels a day.

Grasshoppers about the size of a flea are so thick in the Fulton neighborhood, Umatilla county, that they raise in clouds whenever disturbed.

Harold Parker will soon start from Huntington with 30,000 head of sheep overlaid for Gibson, Foss & Co., to be delivered at some point in Nebraska. It will take about five months to make the drive.

The big ditch which has been in course of construction for several months for the Flick Bar Mining Company, in Baker county, has been completed, and mining will soon be commenced in earnest.

No steps will be taken to build a new courthouse in Coos county before the coming season. The defendant county has filed an answer to the complaint of those who are asking for an injunction to prevent the construction of the courthouse.

William Brenner, of Scio, and D. Wheeler, of Lebanon, are buying feed hogs near Scio for shipment to Nebraska. They have bought about 800 head, for which they paid from 2 to 2 1/2 cents a pound gross. Scio was a squealing center of industry last Monday, as wagon load after wagon load of pigs were brought in.

The railroad company in Jackson county brought suit against the county to restrain the collection of \$18,000 taxes, alleged to be due the county. With the Oregon & California company is joined in the suit the Southern Pacific Company, against which no taxes are assessed. As the Southern Pacific Company is a foreign company, this would give the federal courts jurisdiction, should that company remain a party to the suit.

The long-distance telephone has reached Astoria.

Salary warrants in Whatcom county sold last month for 98 cents.

The grand lodge of Masons will meet in Seattle on the 8th of June.

A shipload of rock from Bellingham bay has been received at Grays harbor for the lighthouse.

Thurston county fruitgrowers have organized under the name of the Olympia Fruitgrowers' Association.

George Alsip has strated up his brickyard in Ellensburg. He will make at least 100,000 bricks and more are needed.

The annual session of the State Teachers' Association will be held in New Whatcom from June 23 to July 3, inclusive.

The Stanwood creamery one day recently received 11,395 pounds of milk, breaking its best previous record by 2,000 pounds.

The question whether or not school districts shall furnish text books and supplies free to pupils will be voted on in Washington, June 12.

There are five sawmills, with an average capacity of 80,000 feet daily, and five shingle mills, cutting 500,000 shingles every day, tributary to Elma, in Chehalis county.

At a meeting of the directors of the city schools in Walla Walla, it was decided to add a month to the school term, which makes the term the same length as before it was reduced in 1893. The schools will therefore, close on the 18th of June this year.

The city treasurer of Everett at the last session of the council reported a deficit of \$2,397.94, for the first four months of the present year. The estimated receipts for the remaining eight months are \$14,550, estimated expenses, \$19,720.50; deficit for remaining eight months, \$5,170.50; total deficit for the year, \$7,568.44.

The mayor of Seattle, in his annual message to the council recommended that the social evil be regulated by restricting fallen women to a prescribed district; he urged a further reduction in city expenses, and that the city's revenue be increased by licenses. The merit system in force under the new charter law receives the mayor's hearty approval.

The Skamokawa creamery last month made 1,508 pounds of butter, and it is expected that double this amount will be made this month.

The remnant of last year's crop is being marketed in Garfield. After the requirements of reseeding and spring seeding, it is believed that from 5,000 to 10,000 bushels remain unsold in the territory tributary to Garfield. At present prices this will be a pleasant pick-up toward summer expenses. It was thought that scarcely a bushel remained in the farmers' hands.

WEEKLY MARKET LETTER.

Downing, Hopkins & Company's Review of Trade.

The past week has added materially to the previously strong position of wheat values viewed from the position of supplies and demand. The crop prospect as a whole retrograded, but more particularly in California, where drought and hot winds have caused a reduction in expected yield of at least 25 per cent, as compared with last year. Foreign crop prospects are much poorer, especially in France, where the estimated yield is 75,000,000 bushels smaller than last year, and conservative grain dealers predict large importations during the coming crop year. Values have been firmly held and while no material advance has occurred, the market has gained in strength and receives better support than during the previous week. The export demand is fair and improving. Interior supplies are rapidly diminishing, and it is now a patent fact that stocks will be reduced to the lowest possible point before the winter wheat harvest. Nothing but the absence of a generous speculative support prevents a material advance in values, but under existing conditions, the scarcity of supplies in America and the increased wants of importing countries, owing to short crops at home, crop failures in exporting countries other than America, the ultimate result must be higher values. The prospects of the spring wheat crop are good, but not sufficiently so to offset the short winter wheat crop, exhausted reserves and increased wants from abroad. The tendency of the market even without speculative support seems slowly but steadily higher.

No More Indian Soldiers.

The last of the Indian companies of the United States army, stationed at Fort Sill, O. T., is to be disbanded. This marks the end of the effort to make efficient soldiers out of the warlike aborigines of the frontier. At first the experiment bade fair to be successful. Several companies, both of cavalry and infantry, were organized in command of white officers who had manifested particular friendliness for the Indians. The young braves liked the jaunty uniforms, and promptly mastered the intricacies of military evolutions. They became men of mark in their tribes. But soon the rigid discipline and the enforced absence from their homes and families became irksome. They began to neglect their duties and to appear first indifferent, then sullen and mutinous. One by one the Indian troops and companies have been disbanded until there remained only the command at Fort Sill, composed of fifty of Geronimo's Apache warriors. Though they will cease to be regular soldiers of the United States, these Indians will not leave the military service. They will probably be retained, as other former soldiers have been, as scouts, in which capacity the red braves have had ample experience in our Indian wars, and, indeed, have proven themselves indispensable auxiliaries.—Boston Journal.

Ants With Human Habits.

The German traveler Von Ihering has discovered in Brazil a species of ants which have regular summer and winter resorts. In winter they live on the ground, in summer in big nests constructed on trees, in order to escape the danger of inundation when the snow melts and the rivers rise.

No More Hot Boxes.

One of the most wonderful of recent inventions is a roller bearing for car wheels which does away with the use of lubricants. There will be no more hot boxes. One wheel has had a test of 170,000 miles in the West without the application of a drop of oil.

Some English reporters now take notes at night by the light of a tiny incandescent lamp attached to the waistcoat.

Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper and rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the only remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

VICTORIA'S DIAMOND JUBILEE

Completion of 60 Years as Sovereign to Be Observed in Portland, Oregon.

In all parts of the British empire the celebration on the 21st and 22d of June will be universal, and the British residents of Oregon are not going to be behind any other state in showing their loyalty, by practical charity and rejoicings.

The British-born residents of the United Kingdom residing in Portland are getting in readiness to celebrate the 60th anniversary of the reign of her majesty, Queen Victoria, during the present year.

On June 21st, 1897, Queen Victoria will have occupied the British throne just 60 years, the longest reign yet recorded for a British sovereign. This period has been one of the most prosperous the English people have experienced. Her majesty is associated with the happiness of the nation in an inseparable manner, so that the periods of her career are noted as events of the national life.

The respect and affection of subjects born during her reign is to be shown by notable celebrations in every part of the world.

In Portland the different British societies have had under contemplation for some time arrangements for the occasion. Members have been notified and committees appointed to confer on the subject. Mr. James Laidlaw, British consul for the port, called a meeting recently for the purpose of securing concerted action. About 50 persons responded, which will give a fair idea of the number of British-born people in Portland when the per cent of a certain class that can be induced to attend a called meeting of this nature is considered.

An organization was perfected, Mr. Laidlaw being made president; Donald Macleay, J. C. Robinson, William Macmaster and William S. Sibson, vice-presidents; R. Lea, Barnes, treasurer, and William R. Mackenzie, secretary. At a subsequent meeting a general committee of 25 was appointed.

At subsequent meetings of the general committee resolutions as under were adopted:

"That the chairman appoint a finance committee to collect funds to commemorate the event, the funds so collected to be used for such purposes as a subsequent meeting shall determine. "That the object for which funds are to be collected by the committee shall be the endowment of a bed or beds in the Good Samaritan hospital, for the use of persons of British birth, and to be called 'Queen Victoria's Diamond Jubilee Bed.'"

In conformity with the foregoing, we have now to appeal to the British-born residents of the state of Oregon for funds to carry out the purposes set forth in the resolutions. We do so with the utmost confidence that our appeal will meet with a hearty response from all parts of the state, feeling sure that no more noble commemoration of this diamond jubilee year can be had, nor one more characteristic of her majesty, Queen Victoria than to provide in perpetuity a place where the destitute sick can receive the comforts and attendance they require free of all expense.

The object is not a local one, but the benefits will be open to persons otherwise eligible from all parts of the state, and we feel certain that amongst the thousands of British-born resident in Oregon there is not one who would not freely contribute according to the measure of his ability.

As an indication of what funds are required, it may be mentioned that the cost of endowment of one bed is \$3,500.

JAMES LAIDLAW, Chairman, on behalf of the finance committee.

Subscriptions may be sent to R. Lea, Barnes, Esq., treasurer, Bank of British Columbia, Portland, Oregon; to the secretary, William R. Mackenzie, room 208 Worcester block, Portland, Oregon, or to any member of the committee.

The plan outlined by the general committee consists of having a concert in the O. N. G. armory, Monday evening, June 21, Mr. Francis Sealy having been appointed chairman of the concert committee. It is also the intention to have a banquet at the Hotel Portland, Tuesday evening, June 22, Mr. Percy H. Blyth having been appointed chairman of the banquet committee. All the net proceeds from the concert and the banquet are to go to the hospital fund.

It is hoped that many British-born residents throughout the states of Oregon and Washington will come to Portland and join in the celebration. Any information desired by out of town residents will be gladly furnished on application to the secretary or any member of the general committee. As this is the only means we have of reaching our friends outside the city, it is to be hoped that they will correspond early and give us their co-operation.

A Gentleman's Weight.

A stranger upon being presented to Speaker Reed asked his weight. "Two hundred pounds," was the reply. "You must weigh more than that," said the candid visitor. "No gentleman ever weighs more than 200 pounds," responded the speaker, solemnly.

A French florist has offered £1,200 to any one who can produce a plant which will yield blue roses.

A Perfumed Stage Effect.

At the Royal Opera at Budapest a new ballet has been produced called the "Red Shoes." In the course of this ballet a dance called the "Rosenwaller" takes place, the dancers representing white, red and yellow roses. While the dance is in progress a delightful perfume of roses fills the whole house. This is ingeniously effected by means of sprinklers, which send through the ventilators an exceedingly fine spray of rose water.

WARMTH FOR COMFORT.

An old cat loves a sunny corner and a long nap, and this is natural and wise. The genial warmth of the sun lulls to rest, and while asleep, it may be curative to the cat's few ailments. Soreness and stiffness come upon us suddenly and put the machinery of the body out of gear. St. Jacobs Oil goes suddenly to work upon the trouble, and with its warmth, like warmth to the old cat, it lulls the pain to sleep, drives out the cold, softens the stiffened muscles, lubricates the machinery, and in a short time puts the whole body in good working order. Soreness and stiffness are not much to cure by the use of St. Jacobs Oil, but, if neglected, they take the form of rheumatism which gives a great deal more pain.

Strengthening Chambergurg. It is stated that 1,000,000 francs are shortly to be expended upon new defense works on the isle of Pelee, at Chambergurg.

A DANGEROUS LETHARGY.

The forerunner of a train of evils, which too often culminates fatally, is lethargy, or lethargy of the kidneys. Not only is Bright's disease, diabetes, gravel, or some other dangerous integral disease of the organs themselves, to be apprehended, but dropsical effusions from the blood, rheumatism and gout are all traceable to the non-removal from the blood by the kidneys of certain impurities. Hostetter's Stomach Bitters depurates the blood, renders the kidneys active and prevents their disease.

Legal Status of Dogs.

The owner of a valuable Newfoundland dog in New Orleans sought damages from a railroad company for killing it. The case turned on the validity of an act of the Louisiana legislature, recognizing dogs as personal property only when placed on the assessment rolls. The supreme court sustains the law and refuses damages, since the dog was not assessed, incidentally defining the law in regard to dogs in general as follows: "The very fact that they are without protection of the criminal laws shows that property in dogs is of an imperfect or qualified nature, and that they stand, as it were, between animals ferae naturae, in which, until subdued, there is no property, and domestic animals, in which the right of property is complete. They are not considered as being upon the same plane with horses, cattle, sheep and other domestic animals, but rather in the category of cats, monkeys, parrots, singing birds and similar animals kept for pleasure, curiosity or caprice. Unlike domestic animals, they are useful neither as beasts of burden, for draft, nor for food."

About twenty-two acres of land are necessary to support one man on flesh meat.

PHYSICAL MANHOOD

This is the age of physical perfection. It is also the age of physical weakness. While one man avails himself of every opportunity to develop and expand his manly vigor, another is passing his chances to improve his mind and body, and easily falls into the excesses which are always in his path, to the destruction of his vital powers.

Stanwood, Wash., November 20, 1896. DR. A. T. SANDEN: Dear Sir—Before using your Belt I was troubled with chronic dyspepsia, constipation, liver complaint, etc. pain in the kidneys, and I will say with all seriousness and truth that I am greatly benefited and entirely cured, and will say that all suffering from the above will find great relief in the use of the Sanden Electric Belt. Respectfully, R. B. DOUGLASS.

For the Kidneys, Liver and Urinary Organs.

There is only one way by which any disease can be cured, and that is by removing the cause, whatever it may be. The great medical authorities of the day declare that nearly every disease is caused by deranged Kidneys or Liver. To restore these, therefore, is the only way by which health can be secured. Here is where

Too Much Knife!

The use of the surgeon's knife is becoming so general, resulting fatally in such a large number of cases, as to occasion general alarm.

Mr. William Walpole, of Walshtown, South Dakota, writes: "About three years ago, there came under my left eye a little blotch about the size of a small pea. It grew rapidly, and shooting pains ran in every direction. I became alarmed and consulted a good doctor, who pronounced it cancer, and said that it must be cut out. This I would not consent to, having little faith in the indiscriminate use of the knife. Reading of the many cures made by S. S. S., I determined to give that medicine a trial, and after I had taken it a few days, the cancer became irritated and began to discharge. This after awhile ceased, leaving a small scar, which finally dropped off, and only a healthy little scar remained to mark the place where the destroyer had held full sway."
