All those who want dental work of any kind done in good first-class shape will do well to call and see Dr. E. T. Carns and get his prices. Any one wanting to know what kind of a workman Dr. Carns is, can find out by asking his nearest neighbor, as his work is well known throughout the valley and his prices are as reasonable as any dentist in Wasco county. Plates, either upper or lower, just as cheap as the cheapest.  
A bear called at the camp of W. C. Stramban and party at Trout Lake one night last week. He was seen by Mrs. Barker, who thought it was a man, and around the camp. A hound, which the party had found in the woods where he had become entangled in the brush by a chain around his neck, went after the bear, and Brodin made tracks for the bear. Clarence English helped his speed by firing at him with his shotgun, loaded for birds.

The Oregon Lumber company's new steamer, "Pearl," was brought up from Portland last Saturday, and is now bringing the huge rafts of lumber and ties from their Washington mills. The Pearl is licensed to carry passengers and will no doubt carry many excursionists. The high speed engines in this boat furnish power in abundance and the Pearl is as speedy as any of the boats now on the middle river. Those who enjoyed the ride from Portland and up through the rapids at the Cascades, were Captain McNulty, William Eccles, Chas. T. Early and Jas. Taylor.

A meeting of the stockholders of the Hood River Fruit Growers' Union is called for August 14th, at 2 p. m. A meeting of citizens generally is called on same date, at 1:30 sharp, to arrange for holding our horticultural fair. A good attendance will be necessary, and every body is expected to attend the citizens' meeting. Hood River will have a good apple crop and we can have an excellent exhibit.

It pays to advertise. Sam Barlness was making inquiries, the first part of the week, about his step-ladder, which had disappeared from its accustomed place. He called at the GLACIER office and said he guessed he would have to advertise for it, but first would make a little further search. He had not gone two minutes from our office till he reported that he had found the missing ladder.

Dr. Brosius was called to Camas Prairie last Thursday. Herman Bersen's son Cleveland, 10 years old, broke his right leg, both bones above the ankle. He was chopping down a dead snag, when it fell too soon for him and caught him. The boy's injuries were attended to by the doctor and he will get along all right.

Dr. C. E. Locke, pastor of the Taylor street M. E. church in Portland, accompanied by his wife and daughter, Mrs. George S. Myers and other friends of Portland, made a visit to Mt. Hood this week, and were to ascend the mountain Thursday. They were highly delighted with this place.

Dr. M. A. Jones, accompanied by a friend of his, Dr. W. S. Murray of Portland, will take his summer outing this week. They expect to go to Gold-Burn by way of The Dalles and return home by way of Mt. Adams, taking in the fishing at Trout Lake.

Abel and Mel Foley struck a good job on the railroad in Sherman county and are working with their team. Reports from several of the Hood River contingent state that the wheat is not ripe in some neighborhoods and some of the boys had not yet got work.

The cooler for the Columbia Packing Co. is now in working order and is found to be a great improvement. Meat coming from cold storage in The Dalles means cold storage here. Tender and juicy meats are always found at the City Meat Market.

A. B. Jones, an experienced miner, formerly of Montana but now one of Hood River's leading strawberry growers, says he is ready to start for the Clondyke if anybody will pay his way to the mines.

Mr. S. J. Wickham left Hood River last Friday for his home in Iowa. Saturday a telegram was received here stating that his wife was dangerously sick and requesting his return.

In making application to prove up a homestead it is necessary to give the names of four witnesses; but only two of the witnesses will be required to go with you to the land office.

Mr. Hugh Gourlay has gone to Princeton to assume editorial charge of the Crows County Journal. His editorial will give that paper a new lease of life.

E. L. Smith and S. J. LaFrance attended the A. O. U. W. grand lodge in Portland last week. Mr. Smith attended the grand lodge D. of H.

Fifteen people are in C. R. Bone's camp at the toll bridge, and are enjoying their outing. They will remain in camp another two weeks.

Mr. George Booth, Florence Champion, Miss Murray and Mrs. Fletcher started yesterday for Mt. Hood. Tillet is taking a good many orders for nursery goods. His trees are first-class.

W. C. Iddings, now of Bonneville, is spending a few days in Hood River. The high winds for the past few days have switched off a good many apples. It is unlawful to kill grouse before September 1st.

A few of our citizens will not go to the Clondyke.

### Off for the Clondyke.

Joseph A. Wilson and W. A. Langille left Hood River the first part of the week for Portland, where they will outfit for the Clondyke gold fields and take passage on the steamer George W. Elder, which sails for that port to-day for Juneau. A man named McIntyre will join them in Portland. The three men are staked by men in Portland for a two-years' stay in the mines, and the sum of \$5,000 was deposited in Ladd & Tilton's bank for their use, \$2,500 of which they will use to buy their outfit and take them to the mines, and the balance will be at their disposal next spring. They will purchase a complete outfit and go prepared to make their own lumber to build boats to help them over the lakes and navigate the rivers. From Juneau they will go overland by way of Chit-chat Pass to the Yukon and the mines on the Clondyke river in the British Possessions. Mr. McIntyre is a boat builder, and his services will be needed when the party reaches the lakes and again when they descend the Yukon. Both Langille and Wilson have had experience in roughing it in the mines and mountains of the coast. Mr. Langille has for several years been the guide on Mt. Hood, and made the ascent of that snow-capped peak for the fiftieth time only last Sunday. They go well prepared and determined to overcome all obstacles in that inhospitable region and bring back fortunes, and every one who knows them hopes their fondest expectations may be realized. Houses were taken with them from Hood River, which will be used to carry their packs from Juneau as far as horses can go on the trail, when they will be slain and their carcasses utilized to feed the dogs that will be required to draw their packs on sleds for the balance of the journey. Mrs. Wilson accompanied her husband as far as Portland, and from there will go to the home of her parents in Pennsylvania, to remain till her husband's return.

Mr. Ross, a prominent Chicago lawyer, while making a tour of the Pacific states, took in the scenery along the Columbia river, last week, and a trip to Trout Lake. Mr. Ross spent the night with John DeLano, the genial proprietor of the Maple hotel at White Salmon, and then left with a party of Portland tourists for the lake. Ross' trip was left at the Maple hotel. Next day the stage driver was instructed by Ross to bring his "telescope" from the hotel. The hotel proprietor made a complete search of Ross' valise and reported that the "telescope" could not be found, that it wasn't there. The Chicagoan was in serious need of a change of clothing and again sent by the stage driver for his "telescope." Detman, with the assistance of his wife, again emptied the contents of the valise and searched in vain for the missing "telescope." Upon the stage driver's second return without it, Ross gave him to plainly understand that he wanted his valise, and wanted it bad.

W. T. Hibbard and Fred Howe have formed a partnership in the livery and draying business.

Miss Alice Cleaver is improving but is still confined to her bed.

Doug. Langille came in from the Mt. Hood mines Wednesday evening and went to Portland on the train Thursday morning. He was sent for by his brother William to take charge of Cloud Cap Inn, but it seems Doug has a better thing in the mines and will return next Monday. Walter Thompson, who went to the mines after him, will return with him. Station Agent Henn will spend part of his vacation at these mines and will probably return with Mr. Langille. Jim Langille received the newspapers containing the glowing accounts of the miners returning from the Clondyke but was unmoved by them and will stay with his claim.

Rev. L. Gray, the Lutheran minister of The Dalles, is visiting Hood River.

"Travel to Eastern Oregon by the 'blind baggage' route is increasing." The fastest flowing river in the world is said to be the Suttle, in India, with a descent of 12,000 feet in 180 miles.

Go by Balloon.  
"The best and quickest way to reach the rich gold fields of Alaska is by balloon," said Professor Rufus Gibson Wells, M. D., physician and scientist, of St. Louis. "I propose to construct a balloon that can be propelled at a great rate of speed and can be utilized to live in after the gold fields have been reached. The balloon will cost, fully equipped, from \$15,000 to \$20,000."

Professor Wells is the St. Louisian who offered to carry war supplies to the Chinese by balloons. He has had a varied experience as a balloonist, and claims to have made over 500 ascensions far more dangerous than would be a voyage to the Alaska gold fields by balloon.

There will be union temperance meeting given at the United Brethren church on Sunday evening, August 1st. Special music has been prepared and addresses will be given by Drs. Hines and Elliot, also Rev. Merrill. All are invited.

Black Rot in Oregon.  
All the fruit in a six-acre peach orchard of Zierolf brothers, 10 miles south of Corvallis, is a total loss as the result of what is supposed to be the black rot. There was every promise of an abundant yield, and the fruit was fast maturing. Within a few days a black rot, beginning at the core and eating outward, destroyed everything. The early harvest was lost. If attacked, the later varieties yielding in turn, the disaster. The orchard is situated on a hill and between the Long Tom and Willamette rivers, and very near their junction, and is protected on all sides by heavy timber. No other peach orchards in the vicinity, so far as known have been similarly affected.
