All those who want dental work of any kind done in good first-class shape will do well to call and see Dr. E. T. Carns and get his prices. Any one wanting to know what kind of a workman Dr. Carns is, can find out by asking his nearest neighbor, as his work is well known throughout the valley and his prices are as reasonable as any dentist in Wasco county. Plates, either upper or lower, just as cheap as the cheapest.
One day last week, while Mr. E. C. Rogers was driving down the steep hill below Antonio Wise's place with a load of wood, the brake of his wagon gave way and the heavily loaded wagon was forced upon the horses. Both horses fell and were pushed along on the ground for some distance before Mr. Rogers could turn out to one side and stop the wagon. The neck yoke fortunately did not break, or the horses would have been killed, and Mr. Rogers, who was on top of the load, might have fared badly.

The social at Belmont, Saturday evening, was, as Belmont socials invariably are, a success. The young people of Belmont very creditably rendered a short musical and literary programme, after which each boy purchased a package, containing an apron and a young lady's name; the apron was to be hemmed by the purchaser, while the ticket entitled him to a half-interest in the contents of the young lady's lunch basket. And by the way, when it comes to preparing a lunch of such a variety of delicious delicacies, the Belmont girl has her equal yet to be found. Prizes were given for the apron hemming. Mr. Frank Davenport secured first prize, and the printer's devil was awarded the "booby". The proceeds of the evening were for the benefit of the M. E. church.
The huge hornets' nest that ornamented the front cornice of the GLACIER office is gone. Some boys who had long been watching for a chance to destroy the nest found their opportunity when Mr. Dallas was away, and late Thursday evening of last week they secured a long pole and punched off the nest. Mr. Dallas, who owns the building, had taken much pride in the work of the hornets and hoped they might not be disturbed till they had completed their building. Then he intended to plug the entrance and apply a coat of varnish to the nest, which would have preserved it as an ornament to the building.
Mr. A. B. Jones has leased his ranch to Wm. Tillett. Mr. Jones will go to Grand Forks, B. C., in two or three weeks, or as soon as a gold-saving machine now being constructed for him at Milton is finished. He is interested in some placer diggings in Grand Forks that are rich in fine gold, but the gold can not be saved without the use of quicksilver. He is confident that the machine recently patented by the man at Milton will prove a success in mining "flour" gold. He will return to Hood River this fall. Mrs. Jones and children will visit with her sister at Brookfield for a month or so.
Mr. S. R. Reeves, who has had charge of the Mt. Hood hotel in Hood River for the past year, will vacate the premises with the expiration of his lease today. Mr. C. A. Bell, owner of the building and furnishings, will again assume charge. Mr. Reeves will make a tour of the Northwest, and if he finds a place in need of a first-class hotel keeper he may be induced to go into the business again. In the meantime Mrs. Reeves will go to some near-by summer resort and take a much-needed rest for a month or more. Mr. Bell will keep up the reputation of his hotel in a manner to suit his patrons.
The Drano correspondent of the Skamania Pioneer says Joe Aleck, the notable man and bearer of the Chewnot mail, is 70 years of age, and is yet as straight as an arrow, and though he has braved the rugged steeps of life throughout these years he has all the spring and agility of an acrobat. He is the proud exponent of plain fare, simple life and our splendid mountain climate.
Dallas closed up his store and took a day off last week and went to Mount Hood. He was greatly missed by everybody in town. It seemed like every man, woman and child in the place called at the GLACIER office, next door, to ask "Where's Dallas?" Business is at a complete standstill when Dallas is gone. No place then to borrow tools.
George McIntosh has discovered that tangle foot fly paper wrapped around apple trees is the best trap for the codlin moth. After it is once put on, sticky part next to the tree, it is not necessary to inspect the traps during the season. If it could be prepared in bands suitable for wrapping trees, it might prove a valuable remedy in preventing the ravages of this pest.
G. J. Gessling, H. Henn and M. P. Isenberg will accompany Doug Langille back to McCoy creek, and from there will go on a prospecting trip to the north of Mt. Adams into the Cle Elum country. Parties wishing to borrow money would do well to wait till these prospectors return. They will take along an extra horse to pack in the nuggets.
The apple crop along Phelps creek is generally good. At J. W. Connell's place there is no codlin moth, and his Baldwin apples, though not a full crop, will be fine. On this place is a Russet apple tree, said to be 45 years old, that will yield probably 25 or 30 boxes of apples, and there is no sign of codlin moth on the tree.
The protracted meeting announced to begin in the Valley Christian church August 8th has been postponed till August 24th. Elder J. W. Jenkins will be assisted in the meeting by Robert Cople, who has been attending college at Eugene the past year. Elder Jenkins will preach at Dufur on Sunday.
Richard Kirbyson came home last Saturday from Kingsley, where he has a good job harvesting that will last a month. He is working for Henry Mayhew, who was to start his header Monday last. He returned to Kingsley Sunday. Mr. Burdick went to the same place on Sunday.
Three young ladies from Newport, Ky., Miss Stewart, Miss MacMahon and Miss McCannell, who came to the coast with the Christian Endeavor excursion, are the guests of Mrs. T. J. Watson. They will go to Mt. Hood and climb to its summit before they return to their homes.
A prospector who was grub staked by Bert Rankin came in last Saturday with some rich specimens of gold and silver bearing quartz and reported that he had found a big ledge 25 miles this side of McCoy creek. The quartz was about the same kind as that found by John Dark.
C. M. Woffard and Lou Morse came in from Trout Lake last Thursday and went back Saturday. They report the population at that summer resort increasing daily. Superintendent Gilbert and family will join them in camp after the institute closes.
Mrs. F. C. Brosius and children left Saturday via San Francisco by steamer State of California, for an extended visit to relatives in Nebraska. Dr. Brosius accompanied them to San Francisco.
Joseph Frazier, jr., Eben Boorman and Mr. Gregory went to Sherman county, last Friday, to help Mr. Woodworth harvest his big wheat crop.
Parties returned from Trout Lake and other resorts in the mountains report the mosquitoes plentiful and industrious.

Valley Improvement Co.
At a meeting of the board of directors of the Valley Improvement Company, held last Saturday, Capt. A. S. Blowers resigned as member of the board and its president and was thereupon elected trustee for the company. H. H. Bailey was elected president in his stead. C. A. Bell offered his resignation as director, manager and vice president, stating that as he was about to again assume charge of his hotel, he would not have time to attend to the management of the company. His resignation was accepted to take effect August 7th, and Frank Davenport was elected a director and general manager. H. F. Davidson offered his resignation as director and secretary, which was accepted to take effect August 5th, and W. H. Bishop was elected to fill the same offices. Bonds are now being issued to pay all bills against the company. These bonds are covered by mortgage on the capital stock. As soon as the ten-year bonds are taken, these temporary bonds will be called in. The company is in good shape, the ditch is already earning money, and these ten-year bonds will be a good investment. The board of directors have done well in looking after the interests of the company and those who have placed their money in this work, and one and all deserve great credit for their efficiency and the work they have accomplished.

Stamped by the Alaskans.
Mr. J. M. Pettengill of San Francisco was in Hood River Sunday and was shown over the valley by W. J. Baker. Mr. Pettengill was on his return from a pleasure trip to Alaska, where he visited the cities of Juneau and Sitka. He says the Alaskans simply dropped everything and made one grand rush for the Clondyke gold fields. Juneau, a bustling town of 3,000 or 4,000 people, diminished to but a little over 1,000 population. Business men sold or gave away their buildings and goods for a mere song; men threw up steady jobs in the near-by mines, where they received \$3.50 a day and upwards, and here on account of cheap freights on the ocean vessels. The big stamp mills at Juneau, he says, turn out over \$1,500 in pure gold per day, and there is enough ore in sight to keep the mills running at the same rate for the next eleven years. An idea of the immense power of the stamp mills can be gotten when the ore averages but two or three dollars to the ton.

Quarterly Meeting.
The fourth quarterly meeting of the M. E. church of Hood River will occur next Sunday. Dr. Hines will preach at 11 a. m., and Rev. R. Warner, P. E., at 8 p. m., and administer the Sacrament. All are cordially invited.

Card of Thanks.
Mr. and Mrs. P. Sinnott wish to return their heartfelt thanks to the people of Hood River for their kindness during their sad bereavement, the sickness and death of their child.

H. B. Andrews of Omaha, who is here buying cattle, made a trip to Mt. Hood last Thursday. He likes this country and says if he can dispose of his property in Nebraska he will make Hood River his home.

O. B. Hartley went to Trout Lake, last week, and bought a carload of beef cattle for Mr. Andrews.

Have you seen Tillett's trees? If not, and you intend planting this coming fall, call at his nursery and pick out the trees you want.

Mr. and Mrs. Simms of Portland came up last week and are visiting with Miss Mary Frazier.

W. J. Campbell came down from Sherman county last week and returned with a load of apples and other fruit.

Ed Berth, who has a job with a threshing machine at Dufur, was laid up three weeks with measles at that place.

Mr. Bert Langille is manager of the business at Cloud Cap Inn during the absence of his brother Doug.

Tom Robertson of Portland, who visited Sam Eliot for a week, returned home Tuesday.

Rev. A. W. Ackerman preached an interesting sermon in the Congregational church last Sunday, a good-sized congregation being present. The church looks well after the three coats of calcimine put on by Mr. Jos. Frazier.

Last week the GLACIER stated that Paradise farm was for rent. The ink was hardly dry on the paper before there was a rush to rent the farm. E. L. Rood and J. W. Emmel got there first and gained the prize.

Judge Henry and family and F. E. Jackson and family started this morning for Trout Lake, to be gone two weeks.

H. H. Bailey, Harry Bailey and John Reed went to Mt. Hood last week, and returned by way of Cascade Locks, following the mountains and going west of Mt. Defiance. They discovered seven lakes on their way and a four-foot vein of coal.

Mrs. C. L. Henderson returned to Hood River last Saturday and is occupying her residence on the Henderson place.

It heals everything except a broken heart, may be said of DeWitt's Witch Hazel Salve. Piles and rectal diseases, cuts, burns, bruises, letter, eczema and all skin troubles may be cured by it quickly and permanently. Williams & Brosius.

There is a time for everything, and the time to attend to a cold is when it starts. Don't wait till you have consumption, but prevent it by using One Minute Cough Cure, the great remedy for coughs, colds, croup, bronchitis and all throat and lung troubles. Williams & Brosius.

"I craved but One Minute," said the public speaker in a husky voice; and then he took a dose of One Minute Cough Cure and proceeded with his oratory. One Minute Cough Cure is unequalled for throat and lung troubles. Williams & Brosius.
