Mr. Ed Ramsey is working with Donnelly's bridge gang at Mosier. His son George sails his boat up to Mosier every Saturday when there is wind to bring his father home, as they live on the Washington side. "My boy came home from school one day with his hand badly lacerated and bleeding, and suffering great pain," says Mr. E. J. Schall, with Meyer Bros' Drug Co., St. Louis, Mo. "I dressed the wound and applied Chamberlain's Pain Balm freely. All pain ceased, and in a remarkably short time it healed without leaving a scar. For wounds, sprains, swellings and rheumatism I know of no medicine or prescription equal to it. I consider it a household necessity." The 25c and 50c sizes for sale by Williams & Brosius.

Jack Binns arrived home from Sherman county Wednesday. He reports threshing about completed, and the rest of the Hood River boys will be ready to come home about next week. He drives a fat span of horses to a new back of latest pattern, and has bought an interest in a combined threshing. The town of Rufus is booming. Freighters hauling wheat are camped there every night and make times lively.

On the trip up the Willamette valley, Mr. Bartness left Portland Friday noon and ran to Salem that evening. Left Salem at 10 o'clock Saturday and arrived at Eugene, 85 miles, by dusk same day. They report having had a delightful time and will look forward to making the trip over again.

Letter from W. A. Langille.
MT. HOOD, OR., Sept. 20, 1897.—Editor GLACIER: The following letter was received by the Portland gentlemen interested last week:
Dear Boys: We are still on the trail and will be for 8 or 10 days yet. We are now camped 12 miles from tide water, with all our stuff, except one load, 10 miles further on. Tomorrow we will move camp to within 10 or 11 miles of Lake Bennett, or Shallow lake, and come back for more stuff left behind the summit about 2 miles.
Talk about your trails! This is the blindest trail any one ever took horses over. It is a good 40 miles from water to water, and rocks, mud and roots to no end. We had to send the horses in to be shod. The last trip we lost seven shoes and the calks are off all the others. It costs only \$1.50 a shoe, or \$5 a horse. Their backs are sore in places and they are getting a little thin, but are still in good shape, and if they come in tonight, are all alive. There are dozens of dead horses lying along the trail; some killed going over bluffs, some with broken legs, etc. We have our son-of-a-gun of a hill yet to cross, where several horses have been killed, and if we make this one trip safe over that, the rest from the summit down is fair going, and we will be able to pack 200 pounds. So far, 150 to 175 pounds has been a load. Many pack only 100 pounds. From morning till noon 300 horses loaded passed us here, and there are hundreds behind who do not reach us.
We have no boat yet. Our plan is to get over first and see if we can't buy a boat that has been ordered by some one else who has not gotten over. The saw mill man will not hold them at all if they are not there at the time ordered for. If the weather is anything like decent, we can sell the horses for enough to pay for the boat, and more too. They are selling now for \$100. If we get \$50 we will be in good luck. If we had had 10 horses we could have been in there before this and sold our horses for good money. I gave Dr. Siddall the little brown mare from Hood River, and he sold her for \$150. I gave Leadbetter Cook's roan and kept the rest. The sore-eyed, rat-tailed appaloose Lew made so much fun of will take 200 pounds and walk up or down anything; one of the best we have, but will kill herself if we don't get away from the cliff soon. The bob tail from The Dalles fell three times on the first hill, and we thought he was a goner and left him; but next morning he went fine and is as good as anybody's horse; in fact, there is not a train on the trail that will do better work than ours, but it takes all three of us to tend them.
We have only had two or three real bad days, and we were out in them, crossing the summit, and it rained through our leather coats like it would a flour sack and could enough for any one.
MacIntyre is getting thin, but Joe Wilson is standing the trapping fine. On the lower trip, up here, it took 25 15 hours or more to a round trip not over 7 or 8 miles, it being a blockade with down horses in the way, all day long. The constant fear of losing a horse keeps up a nervous strain that tires and makes us cross as bears. We lost four days this week by the trail being blocked for repairs and sending the horses in to be shod. Those four days would have put us to the lake in less than a week from now. With no bad luck we will be there the 8th of September, anyway.
Sooville, the New York World correspondent, is sending out some good articles, and if you get the papers you will see myself and our train. He is an all-right fellow and would like to go in with us. He has his wife along. He is the correspondent the Spangards drove out of Cuba. He spent nearly \$2,000 for powder, tools, etc., to fix a cut off on the Turtle Back, on another man's say so, and all the men in camp couldn't fix it; he staying in camp with us the night before.
Mac has been gone two days and is not in yet with the horses. Send word to Hood River that we are all O. K. and getting along with the best of them. Yours truly, W. A. LANGILLE.

Our School.
The public school of Hood River opened last Monday. The teachers are Prof. P. A. Snyder, principal; Miss Grace Graham of the intermediate department; Eliza Stevens, primary department. The attendance the first day was 116—a gain of 16 over last year. The school starts off under most favorable auspices. The teachers seem determined to do their part towards making it a prosperous year for the school. Prof. Snyder has drawn up a course of studies and rules governing the school, which he has sent to Prof. Gavin at The Dalles and to President Chapman of the state university, for criticism. When returned to him the school board will have the same printed, and the school will have something to go by in its daily routine. The Hood River school will hereafter be on the list of schools of the first class, and its graduates will then be entitled to enter the state university without further examination.

The Baby Show.
Elaborate arrangements are being made for the baby show to be held in connection with the Hood River fair, Saturday afternoon, October 9th. Two silver medals will be awarded, one to the best baby under 6 months old and the other to the best between the ages of 6 and 18 months. Thirteen babies were entered for prizes at the fair two years ago, when Clyde Howard Arnold, 8 months old, got first prize and Richard Yates second. Bring in the babies. Yours might win a prize.

Vive Cameras and Photo Supplies.
A fine stock on hand. Vive cameras are much improved—\$5 size holds 18 glass plates or 50 cut films or any combination of same; \$7.50 size holds double. Nothing like them for satisfaction in snapshots.

Toledo Weekly Blade.
Every intelligent family needs, in addition to their local paper, a good national weekly. The greatest and most widely known general family newspaper is the Toledo Weekly Blade. For thirty years it has been a regular visitor in every part of the Union and is well known in almost every one of the 70,000 post offices in the country. It is edited with reference to a national circulation. It is a republican paper, but men of all politics take it, because of its honesty and fairness in the discussion of all public questions. It is the favorite family paper, with something for every member of the household. Serial stories, poetry, wit and humor; the household department (best in the world); young folks, Sunday school lessons, Talmage's sermons, the farmstead, the question bureau (which answers questions for subscribers); the news of the week in complete form, and other special features. Specimen copies gladly sent on application, and if you will send us a list of addresses we will mail a copy to each. Only \$1 a year. If you wish to raise a club, write for terms.
