DEATH AND DESTRUCTION

Caused by Raging Forest Fires in Manitoba.

SETTLERS FIGHTING THE FIRE

Twenty Persons Were Burned to Death, and the Loss of Property Is Inestimable-Fires in Other Places.

Winnipeg, Oct. 11 .- The forests fires that have been raging in Manitoba close to the boundary line for the past ten days have broken out more furiously than ever. Ten or 12 persons are reported to have been burned to death, and the fire is rapidly spreading and crossing the boundary into North Dakota. Settlers have been fighting the flames for over a week trying to keep them from getting into the more thickly populated districts.

The flames are driving hundreds of wolves and coyotes into the open, and flocks of geese and ducks have been seen flying over the burning forests. Near Whitemouth, H. L. Laundry, a

trapper, was burned to death. A German woman living in a small

house near where the fire was the most furious yesterday is reported to have burned to death and her children are missing.

A dispatch from Whitemouth states the fire is spreading rapidly. Several settlers had close calls for their lives. A heavy wind drove ahead of it a mass of smoke which blinded them, and a long line of flames which consumed everything in their path.

East of Whitemouth the situation is very critical. The section foreman of Darwin and his wife and men were picked up by a freight train and brought to Whitemouth. Roadmaster Horner, on a handcar attempted to run from Darwin with his men, but nearly succumbed through suffocation, and was compelled to take refuge in a passing freight train.

All the telegraph poles for several miles east of the town are down and trains are tied up.

A Broken Head, Manitoba, dispatch says the country is on fire there. On both sides of Broken Head river much damage is being done. The smoke is so thick that it is impossible to see 20 yards, though there is no fire nearer than a mile.

Mr. and Mrs. Young, who live eight miles away, lost everything, and only saved their lives by standing in the river for 12 hours, when they were able to come onto the burnt ground after the fire had passed. Nearly every one in the path of the flames lost everything.

At Beauzjour, Manitoba, seven person have been burned to death. . Mrs. O. W. Thomas, her young son and a daughter, had a race with the flames for several miles. They had a team of horses, which they kept on the run. Sparks from the burning timber were blown into the dry ground of a prairie where they were compelled to cross, and soon they were surrounded by flames. The frantic horses started to run straight ahead into the burning timbers. Before they had gone far the carriage overturned and they were thrown down an embankment into a small creek. This probably saved their fives. They were badly burned.

A report from Morris, Manitoba,

WEEKLY MARKET LETTER.

Downing, Hopkins & Company's Review of Trade.

There has not been much doing in the wheat market during the past week. The visible supply decreased 1,690,000 bushels, and the exports from both coasts were equal to about 5,000,000 bushels. Crop reports from the Argentine are less favorable and the crop is reported damaged by frost. Should this report be confirmed, it will furnish a strong bull incentive to the Not the least important market. change in the situation is the decreasing receipts of winter wheat-sufficiently marked to offset the increased movement of the spring wheat crop. The export gales have not been large, but sufficiently so to show that our markets are on an export basis and that the demand continues constant. Local speculative conditions remain practically the same as during the previous week. The weakness in values is more apparent than real and results from lack of speculation and moderately increasing stocks. There is no sound argument for any decline in values at present. There are several arguments and many possibilities in favor of an advance. Should Russia prohibit exports or should any serious damage occur to the Argentine crop, extreme high values would obtain. Wheat is fully worth 90 to 95 cents under existing conditions, and as the speculative public become educated to the higher values now ruling renewed speculative

support and increasing export sales will carry values higher. Our corn market has been dull and uninteresting-devoid of any paritcular features or change in previous condiitons, except that farmers' sales of corn to arrive have fallen off to the minimum. Local sentiment has been and continues extremely bearish. Short sellers have taken advantage of every opportunity to depress values, but the market has developed a strong undertone and values have ruled higher than at the close of the previous week. Export clearances continue large and the cash demand, while still inadequate, shows some improvement. The depressing influence in the market continues to be the large stocks.

JIM AND JOHN.

Jim and John were townsmen and chums, and went out to see base ball. It was a red hot afternoon, and the bleechers were like frying pans at breakfast time. Jim had a bald head and John had a crick in the back. They sat for an underdone roast and laughed at everything. Jim's bald spot was a shining mark, like a brass door plate. A stray ball, fierce and sharp, from a false bat, struck the spot and ploughed a à false bat, struck the spot and ploughed a furrow. It dazed him, Jim's eyes and face hooked like a sick owl's, and John laughed. He laughed an hour straight along. The game ran late into twilight. Meanwhile John had shed his coat, and a cool damp draft got in its work on his back. The time came to leave, but John couldn't. He couldn't bend or get up. Lumbago had set in, in its worst form. He laughs best who laughs last and Jim had revenge. But they got down town to Jim's room, when he said, "Here's something all those ath-letes use for hurts and aliments, and it's the best known cure for lame back." He rubbed it on John's back and some on his rubbed it on John's back and some on his and comfortable from the use of St. Jacobs Oil, which Jim always kept in a handy place. He was a sport himself and knew what was best. They went to bed. John laughed in his sleep. Both rose in the morning frash as disigns: than lim laughed what was best. They went to bed. John laughed in his sleep. Both rose in the morning fresh as daisies; then Jim laughed at John

Nebraska's New Ballot Law.

The new ballot law of Nebarska, passed last winter by the legislature, is causing some confusion, as it revolu-tionizes the manner of arranging the ballots. The tickets will be printed in separate columns, with a pictorial device at the head, and not a single column, with the names of the candidates arranged alphabetically, as heretofore. The choice of judges and clerks of election is also vested in the county judges. The changes are so radical as to create a fear of trouble at the November election.

ITEMS OF INTEREST.

Taking off the hat or cap as a sign of reverence or respect was mentioned in the time of Caesar.

In Larue county, Kentuky, it is said that Charles Williams has grown a bunch of white blackberries.

It is said that in the best districts of China the tea crop will average from 300 to 400 pounds per acre.

Bears have been so thick around Idaho that it has been said there was a bear for every bushel.

Over 4,000 frozen rabbits are annually exported to the London markets from Victoria, Australia.

The one thing for which lace paper may be used and be considered good form on a table is for cheese.

Marriage at midnight, the ceremony being performed by a coroner, is the last Kansan eccentricity reported.

The tea plant is said by Chinese writers to have been cultivated in that country from at least 3,000 B. C.

The gossamer iron made at Swansea, Wales, is so thin that 4,800 plates are needed to make an inch of thickness. Near Alvord, Iowa, a can of stamps

which were stolen, from the postoffice at Lester, in that state, two years ago, was plowed up recently.

What Neglect Leads To.

ON THE SAILOR BOY. A Crowd Who Were Glad to Get Away

From St. Michaels. Port Townsend, Wash., Oct. 11,-

The schooner Sailor Boy, Captain Peterson, arrived at 1 o'clock this afternoon, direct form St. Michaels, having left there September 19. The Sailor Boy brought nine passengers from St. Michaels, who came to spend the winter rather than endure the hardhsips incident to semi-camp life at St. Michaels until the river opens in the spring. The returning passengers had gone north on the steamers Eliza Anderson and Merwin. Their names are: Q. Barnum, of Murray, Idaho; Dr. Proot, of Michigan; Dr. Frost, of New York; Kaufman, of Chicago; Anderson, of Chicago;; Kappapal, of Sioux City, Ia.; Robinson, of San Francisco, and W. H. Churchill, of New York city. All the returning passengers agree that St. Michaels will never be

popular as a place of residence. Captain Peterson says the Yukon

river was still open to navigation when he left, but water was so low that boats of over 15 inches draught could not cross many bars which showed at irregular intervals in the river's course, and as a result all efforts to go up the river this fall will be fruitless. Captain Peterson does not think either Captain Frank Worth's or Mayor Wood's boats will be able to go to Dawson City before next June, notwitstanding the fact that both were all ready to make the attempt when the Sailor Boy left.

The Sailor Boy did not sight or hear anything of the schooner Bryant, which broke loose from the tug Holyoke off Kadiak island in a severe storm, September 20.

There had been no news direct from Dawson City received at St.. Michaels for four weeks previous to leaving, and no news can possibly be brought by river before next summer, as ice was already forming in the salt water at the mouth of the river, and the fresh water must certainly have been frozen to a considerable thickness at that time. "In a month form now," said he, "I

do not believe there will be 100 persons at St. Michaels, as nearly everybody is preparing to come back. A great many will come down on the Portland. But a majority left ere this on the schooner Novelty, which was discharging cargo at St. Michaels when we left. The captain of the Novelty will bring down all those having sufficient money to pay their board on the trip, no fare being charged. This is done simply as an act. of charity and in the interests of humanity. Many persons have not money sufficient to even pay for their board on the schooner, and unless they can sell their outfit for eash, will be forced to remain at St. Michaels during the

winter. Mayor Wood, of Seattle, manager of the Humboldt expedition, and D. K. Howard, who had charge of the Eliza Anderson party, are practically prisoners in the hands of their irate passen-gers. Only the presence of the United States troops under Lieutenant-Colonel Randall is expected to avert serious trouble.

The feeling against both Wood and Howard is said to be bitter in the extreme, and the miners have appointed committees to guard both, and see to it that they do not get out of their reach. Thomas K. Clark, of Seattle, who was

'There is no chance for the Wood party to get any considerable distance up the river, although they had everything ready to make the start September 19, the day we left. The men are disgusted and disheartened. They are quite likely to do something desperate before spring. Without exception, they seem to blame Wood for all their misfortunes, and it would not be surprising if he were made the victim of their wrath. I would not be surprised to hear of the death of Howard at the hands of the miners. The feeling against him is growing more bitter every day. The passengers of the Eliza Anderson paid their fares and freight to Dawson, but the Anderson was abandoned at Dutch harbor, and the passengers were landed at St. Michaels by the schooner Baranoff, with no prospect of getting fother this winter. Then Howard announced that the expedition was a failure, and that he would not feed them till they reached Dawson, as his contract demanded. His declaration

Artesian Water in Sahara. One of the most important results of the Egpytian expedition up the Nile

has been the discovery that by sinking deep wells water may be found in the desert in many places where its presence had not been suspected. Not only will this give a secure basis for military operations, but it is possible that water may be found in sufficient quantities to serve for irrigation, in which case the Sahara may be turned into a flower garden. Its aridity comes from no material sterility of the soil, but simply from lack of moisture.

ALMOST INSIDE OUT.

The stomach that is not turned thus by shaking up on the "briny wave" must be a well fortified one. The gastric apparatus can be ren red proof against seasickness with that sto achie so popular among travelers by sea and land—Hostetter's Stomach Bitters. It defends the system against malaria and rheumatism and subtues liver complaint, constipation and dyspepsis.

To make white soup use veal for stock, and beef for brown stock; to color amber soup use a little burnt sugar, just enough to make the desired amber shade.

AN OPEN LETTER TO MOTHERS. We are asserting in the courts our right to the exclusive use of the word "CASTORIA," and "PITCHER'S CASTORIA," as our Trade Mark. I, Dr. Samuel Pitcher, of Hyannis, Massachusetts, was the originator of "PITCHER'S CASTORIA." the same that has borne and does now bear the fac-simile sign sure of CHAS. H. FLETCHER on every wrapper. This is the original "PITCHER'S CASTORIA" which has been used in the homes of the mothers of America for over thirty years. Look Carefully at the wrapper and see that it is the kind you have always bought, and has the signature of CHAS. H. FLETCHER on the wrapper. No one has authority from me to use my name except The Centaur Company of which Chas. H. Fletcher is President. March 8, 1897. SAMUEL PITCHER, M.D.

Persons who suffer from the cold should wear loose clothing in chilly weather, remembering that two thin garments retain more heat than one thick one.

\$100 REWARD, \$100.

The readers of this paper will be pleased t The readers of this paper will be pleased to learn that there is at least one dreaned disease that science has been able to enre in all its stages and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional dis-ease, requires a constitutional treatment. Hall'a Catarrh Cure is taken internally, acting directly, upon the blood and mucous surfaces of the sys-tem, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it halfs to cure. Send for list of testimonials. Address, F. J. CHENEY, & Co., Toledo, O. Sold by druggists, 75c. Hall's Family Pills are the best.

If you should spill grease on your floor cover it at once with corn meal or try baking soda. Moisten the soda and rub it on the grease spots with a cloth.

HOME PRODUCTS AND PURE FOOD.

All Eastern Syrup, so-called, usually very light colored and of heavy body, is made from glucose. "Tea Garden Drips" is made from Sugar Cane and is strictly pure. It is for sale by first-class grocers, in cans only. Manufac-tured by the Pactwice Coast Syrup Co. All gen-uine "Tea Garden Drips" have the manufac-turer's name lithographed on every can.

For binding of cut and wounds always use linen, not cotton, as the fibres of cotton are flat and apt to irritate a sore place, while those of linnen are perfectly rounded.

says a fire has been raging there, and that one family of five persons is known to have perished.

The Kankakee Marsh Fires.

Valpariso, Ind., Oct. 11 .- The Kankakee marsh fires are spreading in this county, although the farmers have given up all other work and are fighting it at all hours of the day. Several houses were destroyed last night. The big marsh near Assinong caught fire last night, and the flames swept over acres of land, destroying everything in their path. Residents of Hebron, Koutz and Kinman are badly frightened, as it is feared the fire may sweep across the heavy ditches which have been dug.

Michigan Marsh Fires.

Niles, Mich., Oct. 11.-East and north of this city the marsh fires continue. Farmers have fought the flames night and day for a week, and are utterly exhausted. They have moved their household goods to places of safety and have sacrificed their homes. Game which inhabited the marshes has been driven to the city. Near Berrien Springs, on what is known as the Big Meadow, the fire has swept over like a prairie fire, and hundreds of acres of potatoes have been roasted in the hills. The fire is the worst that has occurred in this vicinity since 1871.

Fires in Wisconsin.

Kenosha, Wis., Oct. 11 .- Prairie fires in Sommers and Bristol counties caused by sparks from passing engines destroyed considerable property belonging to the farmers. All kinds of means have been adopted to stay the advance of the flames. In some cases where the fire was apparently extinguished it continued to burn the surface.

Whole Fields of Corn Burned.

Decatur, Ill., Oct., 11 .- Forest fires are raging over the entire Northwestern part of this county. Fields of shocked corn have been swept by the flames.

St. Louis, Oct. 11 .- John Jackson, employed in the Tudor iron works in East St. Louis, was terribly burned last night while at work. He was guiding a red-hot bar of iron as it came out of the rollers. Suddenly the bar twisted, and before Jackson could escape, had pushed him against a heavy stand, where, by the force of the rollers it slowly encircled him. The smoke and the odor of his burning body filled the room. Before he was rescued he was terribly burned.
