Afterwards, while sitting on his grandfather's lap, he looked up and asked, "Grandpa, did blight strike you on top of the head?"

Blame the "Devil."
PINE GROVE, Jan. 4, 1898.—Editor GLACIER: Your correspondent from this neighborhood has more than once made the statement that somebody by the name of "Fisk" is doing something or other hereabouts. In his latest he says that "Mr. James Fisk made some very appropriate remarks" at our Christmas tree entertainment. We were only a boy when Jim Fisk ran his notorious career, and can't remember much about him, but we are quite sure that he is as dead as Pharaoh and at least certain that neither he nor any other person by the name of Fisk lives in this neighborhood. The person who made those remarks was Rev. Jacob Peak.

The Holidays at Trout Lake.

TROUT LAKE, Wash., Jan. 3, 1898.
—EDITOR GLACIER: Perhaps it may interest some of your readers to learn how Trout Lake celebrated Christmas and New Year's. This part of the world, as is generally known, is more or less snow bound in winter and not much heard from, but nevertheless people here know how to enjoy life. Christmas was celebrated by a dance at Julius Houk's residence, where all enjoyed themselves and did full justice to the bill of fare. All were invited to celebrate New Year's at the residence of Hon. R. A. Byrket. Upon arriving there we were assured of a good time when we found that Harry Sellinger was master of ceremonies. As sleighing was never better in the history of Trout Lake, we were bound to have a sleigh ride on New Year's day, and a good long one, too. We left Coat Bros' ranch at 1 o'clock, and after a good long run the party came to a halt at Mr. Stadlerman's place, where we received our mail and refreshments and were soon ready for another spin to the lower end of the valley, returning to Stadlerman's in time for supper. Supper over, we lost no time in preparing the room for a dance. When we had danced to our heart's content and ready to go home, all declared it was the happiest New Year's day of their lives. No. 3.

Use of School Houses.
The state superintendent of schools writes to the county superintendent of Sherman county in regard to the matter of controlling a school building, as follows:
Permit me to say that the board of directors hold the school property in trust for the use of the public schools. They have no jurisdiction over said property farther than that. It is their place to care for the school property and to provide for its use for school purposes. The board has no legal right whatever to lease the property or any part of the property to any other person or persons for any other enterprise that would not be in harmony with the school work. This opinion has been rendered at different times, and I have based it upon careful discussion of the matter with other persons in authority in the building, to whom I should go for advice. It is inadvisable at times for the directors to allow the use of the school house for Sunday school, church services or for lyceum purposes, but these all pertain to the moral welfare of the district. All other arrangements in my opinion are null and void under the law.

Beauty, Utility and Value
Are happily combined in Hood's Sarsaparilla coupon calendar for 1898. The lovely child's head in an embossed gold frame, surrounded by sprays of flowers in mosaic, the harmonious play in blue with clear figures, and the coupons by means of which many valuable books and other articles may be obtained, make up the most desirable calendar we have ever seen. The first coupon article is Hood's Practical Cook's Book, a handsome, useful volume of 350 pages. Ask your druggist for Hood's coupon calendar, or send 6 cents in stamps for one to C. I. Hood & Co., Lowell, Mass.
