

Looking for a Substitute.
The condition of the rubber trade brought about by the increased demand and the many new uses for rubber, has excited a great interest in the possibility of inventing a substitute.

In England a substitute called "oxilin" was claimed to be a substitute, and a clergyman of Denver, Colo., invented a substitute called "perchoid" for which the same claim was made.

These substitutes are identical in their composition, being made from linseed oil, the composition known as linoleum being the suggestion of both inventors, but the oil in the new composition is not fully oxidized, litharge being used and currents of cold air. Continued experiments yielded a more and more elastic substance, and it was found that with sulphur quite similar effects were produced, comparatively, as with rubber. Oxilin and perchoid can also be vulcanized, but in no case was it able to fulfill all the requirements of rubber. For bicycle tires it has been found to serve quite well, but it lacks the life and durability of rubber. Oxilin and perchoid can be produced at a cost of from 5 to 6 cents per pound, and this fact, coupled with the price of rubber at 80 cents per pound, and that the claimed substitutes have not been introduced with such favorable competing prices, shows conclusively that it is not likely to affect the present condition of the rubber market. Latter discoveries have worked veritable miracles, but it does not seem at all likely that a good substitute for rubber will be discovered soon.

KLONDIKE.

The cold is as bitter in many sections of our western country as any freezing corner of Klondike. Twenty degrees below zero is not an uncommon condition of winter weather, and by reason of this intense cold, rheumatism has its best chance to grow painfully intense and chronic in its continuance. We need not, therefore, borrow an idea of cold from Klondike. What we want is the best cure for rheumatism, and anywhere and everywhere, whether in freezing cold or melting heat, St. Jacobs Oil is known, valued and used as the Master Cure of this universal plague of mankind. The proof of its efficacy can always be produced, and its efficacy in the cure of the disease goes on in all conditions of weather.

Sea weeds do not draw nourishment from the soil at the bottom of the sea, but from the matter held in solution in sea water.

THE GOVERNMENT'S DOMAIN.

The commissioner of the general land office has submitted his report to the secretary of the interior. Compared with last year, it shows a decrease of 3,228 homestead entries, aggregating 578,225 acres. Quite proportionate to this is the falling off in general health when no effort is made to reform irregularity of the bowels. This can easily be accomplished with the aid of Hostetter's Stomach Bitters, also a remedy for malaria, dyspepsia, rheumatism and liver trouble.

In Massachusetts nearly 200 miles of state roads have been built under the direction of the state highway commissioners.

FIBROID TUMOR

Expelled by Lydia E. Pinkham's Vegetable Compound.

Mrs. B. A. LOMBARD, Box 71, Westdale, Mass., writes: "I have reason to think that I would not be here now if it had not been for Lydia E. Pinkham's Vegetable Compound. It cured me of a fibroid tumor in my womb."

"Doctors could do nothing for me, and they could not cure me at the hospital. I will tell you about it:

"I had been in my usual health, but had worked quite hard. When my monthly period came on, I flowed very badly. The doctor gave me medicine, but it did me no good. He said the flow must be stopped if possible, and he must find the cause of my trouble."

"Upon examination, he found there was a fibroid tumor in my womb, and gave me treatment without any benefit whatever. About that time a lady called on me, and recommended Lydia E. Pinkham's Vegetable Compound; said she owed her life to it. I said I would try it, and did. Soon after the flow became more natural and regular. I still continued taking the Compound for some time. Then the doctor made an examination again, and found everything all right. The tumor had passed away, and that dull ache was gone."

It can be truthfully stated that such a result can be accomplished by no other remedy upon the market, and forcibly proves the peculiar virtue of the Vegetable Compound

CONSUMPTION

TORTURED BY THUGS.

A Coos County Farmer Held Over a Blazing Fire.

Myrtle Point, Or., Feb. 14.—Two masked thugs yesterday extorted \$180 from Levi Grant, an aged farmer, who lives near here, by holding him over a blazing fire till he disclosed his hiding place. After they left, Grant managed to crawl a quarter of a mile from his cabin in search of assistance, but finally fainted from the excruciating pain his burns caused him. He was brought here by a neighbor, who found him lying by the roadside, and his injuries were dressed. It is hardly likely that he will survive.

Grant is a widower, 75 years old, and lives alone on a farm, his dwelling being about a quarter of a mile from the road, and hidden from it by a tall poplar hedge. He was sitting by the fire last night, having removed his shoes preparatory to going to bed, when one of the windows was smashed in with a bludgeon and he was suddenly seized from behind by a masked man, while a second confronted him and demanded his money. As soon as he found breath to speak, he protested that he had none. The thugs then lifted him bodily and held him over the fire that was blazing on the broad hearth, till he screamed for mercy and promised to give them all the money he had if they would release him. He was taken from the fire and allowed to take out his purse, but when his torturers found that it only contained \$40, they thrust him back into the fire and held him till, in his agony, he told them where \$140 more was hidden. They quickly found this and made their escape, leaving him writhing on the cabin floor. A search is being made for the robbers, but thus far without result.

CANNERS COMBINE.

Organization of Columbia River Packers Formed.

Portland, Or., Feb. 14.—Formal papers were signed here yesterday and an organization perfected of what is to be known as the Columbia River Canneries Company. The incorporators are J. O. Hanthorn, B. A. Seaborg and T. B. McGovern. The capital stock is fixed for the present at \$500,000, but it is understood that this may be increased as the business of the company shall require. It is stated by the incorporators that the company starts off with all financial arrangements made to enable them to put up as large a pack this season as may be deemed advisable. They further state that selling arrangements have already been consummated with the firm of Delafield, McGovern & Co., of New York, which insures a market for at least 100,000 cases of this spring's catch of salmon.

Provision is also made in the by-laws of the company for the future admission of other packing concerns on the Columbia river, at such times and on terms agreed to by the original incorporators. The canneries which will be controlled and operated by the new company this season are among the largest and best equipped on the river. It is understood that a number of the small packers have not joined the organization, though a large majority of the trade in Columbia river fish will be under its control.

SALTER WORDEN'S CASE.

General Belief Is That Sentence Will Be Commuted.

San Francisco, Feb. 14.—Governor Budd has as yet taken no official cognizance of the confession and plea for mercy made by Salter D. Worden. Before it was made he had reprieved the death sentence of the condemned man, postponing the date of execution from February 11 to June 15. As stated at the time, this was done chiefly for the purpose of giving several medical experts an opportunity of examining into Worden's mental condition, the plea of insanity having been set up by his counsel. His voluntary confession is regarded as a virtual abandonment of this plea, and it is on his personal appeal for clemency that the governor is now expected to act. The prevailing impression is that Worden will not die on the gallows, but will receive a commutation of sentence to life imprisonment.

Battle With Amazons.

Cincinnati, O., Feb. 14.—A Times-Star special from Vanceburg, Ky., says: At Escalopia, this county, this morning, Constables Cropper and Thacker attempted to arrest an old lady named Crowe, who was at her home with several grown-up daughters. Before the officers realized it, one of the girls flew at them like an enraged tigeress, with a big knife, dangerously wounding both officers. By this time, the old lady and another daughter drew revolvers and the officers realized it was a fight for life. The battle raged for a few moments, and after the smoke had cleared, Mrs. Crowe was found dead and shot to pieces, and one daughter was dead. Those who survived are in a dangerous condition.

Million Dollar Fire.

New York, Feb. 14.—Levi P. Morton's seven-story office building, with frontages on Nassau and Ann streets, known as the Nassau Chambers building, was destroyed by fire last night. The firemen had a hard battle, and, for three hours there was every prospect of a great conflagration. Every fire company in the city from Forty-ninth street to the Battery was called out. The World says that the loss from all sources will reach \$1,000,000.

WEEKLY MARKET LETTER.

Trade Conditions in the Leading Cities of the World.

There was uniform strength in all speculative markets during the past week. Chicago May wheat sold from 94 3/4 to 95 3/8; May pork, \$10.80 per bbl to \$10.75; Liverpool and foreign markets up in proportion. The American visible supply decreased 388,000 bushels during the week and now totals 35,634,000 bushels compared with 46,658,000 bushels last year. In 1897 the decrease for the corresponding week was 1,227,000 bushels. The amount on passage increased 1,400,000 and the world's shipments were 5,801,000 bushels, of which America contributed 3,420,000 bushels. The first of the year wheat stocks at Buffalo, Boston, New York, Philadelphia and Baltimore were 8,615,000. At the close of last week there were 6,092,000 showing a decrease of 2,523,000 bushels for the five weeks. During this time exports of wheat alone from the four points named were 8,018,000. These figures show that the four points received 3,495,000 more than can be accounted for, except on the theory that the wheat was shipped direct from Ohio. Pennsylvania, New York, Maryland, Virginia, and other territory immediately tributary to those seaports. It will surprise the trade to learn that Atlantic ports are receiving weekly about 700,000 bushels from points outside of the visible. All along the line wheat seems to be coming from unexpected sources. The movement in the Northwest is increasing and dumbfounded even the bears. However, Mr. Leiter seems to hold prices up and we would not be surprised to see a further advance.

MAKES A FORTUNE IN EGGS.

Everybody Laughed at This Man, But Success Came to Him.

Nearly every man who has come out of Dawson during the past two months or more has had something to say of the "frozen egg man." They met him at various points between the Chilkoot summit and the Yukon river, trudging along with one companion and four dogs, pulling a cargo of frozen eggs bound for the Klondike. Eggs at Dawson are worth a dollar or more each and this high price proved such an incentive to a Portland man that he resolved to freeze a lot of them and take them in. The egg man has been the source of no little amusement for the Klondikers who have come out. They have frequently laughed at his foolhardy speculation and often predicted his failure. He has been a prolific land-mark and one of the stock questions which Klondikers have asked each other here has been, "Where did you meet the egg man?"

The egg man has sold his eggs and returned with a sack which many a Klondiker might well envy. His name is Charles Vest.

Mr. Vest left Portland last October on the steamer Elder. Before leaving he obtained 1,743 dozen eggs. He broke and packed them in tin cans, holding one gallon each, or six dozen. The cans were sealed, frozen and put in ice. They weighed 2,025 pounds in cold storage.

With one man to help and his dogs Mr. Vest hurried the eggs up to Sheep camp and buried them in the snow. He put four cans in a sack and tied the sack over the dogs' backs. Each dog carried 28 pounds in this way. Once over the summit the cans were piled on sleds, pulled by the dogs and the journey continued.

Several adventures befell Mr. Vest and his companion on the way. On December 21 they stopped at a cabin and bought supper and lodging. They bought some moccasins of one of their hosts. In the morning one can of the eggs, now becoming more and more precious, was gone. Mr. Vest had his suspicions but had no evidence. He asked his host about the missing can but got no satisfaction, although his suspicions were confirmed. There were others camping at the cabin and from these two or three days later Vest obtained corroborative evidence as to the guilt of the suspect. The thief had gone towards the coast but Vest followed him and took him before the police. Confronted with the evidence of his crime the fellow confessed. The police decreed that the man should be punished by giving up his outfit to the man he had wronged. This was done and Mr. Vest got \$185 per dozen for the can of eggs.

At Thirty-Mile river an adventure of a different sort overtook the egg man. A raft was built to float down the river. Vest stayed on shore to line the raft down and his companion was aboard the raft. The ice at one place was not strong enough to support Mr. Vest's weight and he was forced to let the line go. The raft went spinning down the river at a fearful rate, the anxious owner running along shore to keep up with it. Suddenly a rock rimmed with ice appeared in the track of the raft. In a moment the raft had dived under the ice, the rider had jumped for his life to the rock and the cargo had spilled into the swift stream.

It was bitter cold, but the situation was desperate. Vest did not ponder long upon what to do. He plunged into the stream and pulled out the sacks one at a time. To do this he had to run along and into the stream for a mile and a half. His clothes froze to him, but he saved his eggs. Then he went back to his companion and threw out a rope and towed him ashore. Three men who happened to be camping near by gave the two wet men shelter until they had dried and warmed themselves.

Sixty-five miles further down Vest reached the Big Salmon where Major Walsh was camping. Major Walsh wanted supplies and he bought Mr. Vest's eggs at \$3 per dozen. The eggs yielded \$5,211, which, added to the \$1,110, amounted to \$6,321 as the total product of Mr. Vest's undertaking.

Ordinary dogs will pack from 30 to 50 pounds and stand the work all right, day in and day out.

A party of 12 from Champaign county, Ill., with 40 trained dogs, will sail shortly from Tacoma for the Alaskan mines.

Dawsonites say they want letters and papers from the outside world worse than food. They have received no regular mail since August.

There are several toll bridges on the Skagway wagon road to the summit, which will assist materially in relieving the prospector and miner of his surplus cash.

AN OPEN LETTER TO MOTHERS.

We are asserting in the courts our right to the exclusive use of the word "CASTORIA," and "FITCHER'S CASTORIA," as our Trade Mark. I, Dr. Samuel Fitcher, of Hyannis, Massachusetts, was the originator of "FITCHER'S CASTORIA," the name that has borne and does now bear the fac-simile signature of CHAS. H. FLETCHER on every wrapper. This is the original "FITCHER'S CASTORIA" which has been used in the homes of the mothers of America for over thirty years. Look carefully at the wrapper and see that it is the kind you have always bought, and has the signature of CHAS. H. FLETCHER on the wrapper. No one has authority from me to use my name except The Centaur Company of which Chas. H. Fletcher is President.
