

FIFTY LIVES WERE LOST

News of the Wreck of the Clara Nevada Confirmed.

CAUSED BY BOILER EXPLOSION

Nothing but Some Wreckage Bearing Name of the Ill-fated Ship Found—Identity of Passengers Unknown.

Nanaimo, B. C., Feb. 21.—A special from Juneau, Alaska, under a date of February 12, confirms the news of the loss of the Clara Nevada, and says:

The cause of the disaster was doubtless the explosion of her boilers. Of 50 people on board none is believed to have been saved. The wreck was discovered by Customs Inspector Marquam, of Juneau, who ordered the Rustler to Lynn canal, where the burning vessel had been seen. Wreckage bearing the name of the ill-fated vessel was found, but there was nothing to show the identity of the passengers.

It is thought she carried about 20 passengers, of whom two or three were women. Several were bound for Seattle and the balance for Juneau. Frank Whitney, of Cripple Creek, Colo., was known to be one of the unfortunates. Al Noyes, of Juneau, is also supposed to have been on the Nevada. This is all that is known of the victims.

The first report of the loss of the Clara Nevada was brought here on Monday evening, by the crew of the steamer Islander, and was to the effect that on February 5 the inhabitants of Skagway, a town 30 miles south of Seward, saw the steamer off shore, ablaze from stem to stern, and that while the witnesses to the awful sight still watched the burning vessel a loud report, as of an explosion of boilers, was heard, and that afterwards nothing more was seen of the vessel or the luckless persons on board of her, but that the following day the beach in that vicinity was strewn with wreckage.

In the absence of details of the catastrophe there is no way of learning the identity of the passengers. The crew, according to a dispatch from Seattle, whence the steamer sailed on her fatal voyage, was made up substantially as follows:

- Captain, C. H. Lewis, of Portland.
- Pilot, Ed Kelly.
- First officer, — Smith.
- Second officer, Harry Bowen, of San Francisco.
- Purser, George Forster Beck, of Portland.
- Freight clerk, George Rogers.
- Chief Engineer, D. Reed, of San Francisco.
- First Assistant, Thomas Williams.
- Second Assistant, Moser, of Seattle.
- Carpenter, W. A. Jacobs.
- Assistant carpenter, L. Boyle.
- Steward, O'Donnell.
- Mess boy, Frank Bowen.
- Two cabin boys, Perkins and Butler, also known as Tascot.

There were also aboard, whose names cannot be learned, four quartermasters, two sailors, three firemen, three coal-passers, one night watchman, assistant steward, four cabin boys, three cooks (Chinese) and two helpers.

MISS WILLARD DEAD.

Founder of the W. C. T. U. Passed Away in New York.

New York, Feb. 21.—Miss Frances E. Willard, president of the Women's Christian Temperance Union, died shortly after midnight this (Friday) morning, at the Hotel Empire, this city. At the bedside of Miss Willard at the time of her death were her niece, Mrs. W. W. Baldwin; Mrs. L. M. Stevens, vice-president of the W. C. T. U.; Miss Anna M. Gordon, Miss Willard's secretary, and Dr. K. Hill.

Miss Willard had been ill for three weeks. There will be funeral services in New York city, and later in Evanston, Ill., Miss Willard's home, where the body will be taken.

(Miss Frances E. Willard, founder and for four years president of the World's Woman's Christian Temperance Union, and president of the National Woman's Christian Temperance Union 12 years, was born September 28, 1839, at Churchville, N. Y. She was a graduate of the Northwestern university, Chicago. She took the degree of A. M. from Syracuse university. In 1863 she was professor of natural science at the Northwestern female college, Evanston, Ill. In 1866-1867 she was preceptress of the Genesee Wesleyan seminary, Lima, N. Y., and in 1868-1870 she traveled abroad, studying French, German, Italian and the history of fine arts, visited nearly every European capital, and went to Greece, Egypt and Palestine. In 1871 she was president of the woman's college of Northwestern university, and professor of aesthetics; she was elected corresponding secretary of the N. W. C. T. U. in 1871, and in 1877 was associated with D. L. Moody in revival work in Boston. She became president of the Chicago Daily Post in 1878, and in 1879 was chosen president of the National Woman's Christian Temperance Union, which position she has since held. Miss Willard was an author of much distinction, and wrote a number of books.

Floods in Palouse.

Palouse, Feb. 21.—The Palouse river was higher today than it has been for years, and the lower part of the town was flooded. The water reached the floor of the bridge on Main street near the depot and covered the street to a depth of nearly three feet for several blocks from the bridge. Houses and barns on the flats were surrounded by water, and one family living near the depot was forced to move out, the water reaching almost to the windows of the house.

WEEKLY MARKET LETTER.

Trade Conditions in the Leading Cities of the World.

In a newspaper interview Mr. Armour is quoted as saying that wheat will go to \$1.50 if the leather party do nothing but sit still. Assuming that the short interest in May is as large as conjectured, it is impossible to eliminate that interest other than by delivering the wheat or buying it back from the clique. If the latter sit still on their long line it will leave the shorts large in a trap. They plunge about, and one set of shorts may cover off another set, but the shortage will still remain. Mr. Leiter and his lieutenants are firm in their belief that wheat ought to go much higher on its merits, and as time goes on they are confirmed in their prediction. Of course the great mass of traders believe that wheat is already too high, and that it never would have been selling at present prices but for the Leiter manipulation. It must be conceded, however, that Leiter is now more strongly entrenched than at any other time since he began the deal. At one time he was deserted by his allies, they having sold out on him almost to a man. The market reacted about 4c on this selling, but it soon became stronger than ever, and the young speculator now has a firmer grip on the situation than at any time since his famous campaign was begun. A good many able and experienced commission men think he will ultimately come to grief, but as he has successfully overcome many seemingly insurmountable obstacles encountered in the past six months, perhaps it is as well to concede that he is apparently not in need of a guardian and may worry through to the end as well as he has in the past. Even if he should drop a million or two of the family would not become objects of charity, and as it is the Leiter money that would be lost others need not sit up nights and borrow trouble over the impending calamity. As soon as it was known that Leiter had arranged to ship his wheat out of Chicago it was stated in our market letter that this clearly outlined his policy, and it would be best for all concerned to govern themselves accordingly. Ever since the market has been rushing upward, and there is no indication that it is anywhere near the top. In fact Leiter says it has just begun to advance. Though more than two months away the May deal is now as erratic as the December was near its culmination.

Northwest receipts are still falling off, being 165 cars less than last week.

Portland Market.

- Wheat—Walla Walla, 77@79c; Valley and Bluestem, 80@81c per bushel.
- Flour—Best grades, \$3.75; graham, \$3.30; superfine, \$2.25 per barrel.

- Fresh Fruit—Apples, 50c@51c per box; pears, 25@75c per box; oranges, navel, \$2@2.75 per box.

San Francisco Market.

- Wool—Nevada 11@13c; Oregon, 12@14c; Northern 7@8c per pound.
- Hops—12@c@16c per pound.
- Millicuffs—Middlings, \$2.20@2.50; California bran, \$20.50@21.50 per ton.
- Onions—silverskin, \$2.50@2.75 per cental.
- Eggs—Store, 11@11@c; ranch, 12@13c; Eastern, 18@19c; duck, 14c per dozen.
- Cheese—Fancy mild, new, 10@c; fair to good, 7@8c per pound.

COOK INLET TO THE YUKON

Need of a Railroad to the Interior of Alaska.

Among the many railroad schemes projected for the Yukon and the interior of Alaska this season, the one that is receiving careful consideration among promoters is a line from Cook Inlet over the glacier and down the Tanana river.

The subject is one that engages the attention of railroad men of the Coast. Several surveying parties, it is reported, will be sent early to the North for the purpose of ascertaining as soon as possible the most feasible route from the coast to the interior. The Lake Teslin and Stickeen river route has received a good deal of attention recently, and every move of the surveying parties is closely watched by the Canadian Pacific. This road will certainly be among the first to penetrate the wilds of Alaska at the first favorable opportunity. It is not expected that any of the great transcontinental systems are contemplating an extension, but any traffic connection it could form would, it is understood, be most welcome. It is not unlikely that if an overland route to Dawson should ever become possible, the British road would be the first to offer its help in backing the project.

The Portland Telegram says that P. J. Stone, a prominently-known man of the Northwest, who is now in Alaska, after looking over the situation carefully, believes that it is quite practicable to get a line through to the river in American territory. The importance of a railroad in developing the vast resources of the interior, increasing the output of the mines, insuring an adequate food supply to the miners of the Yukon, and, incidentally, helping to make the entire country tributary to the Coast cities prosperous, is treated in a recent letter. As a route he suggests from Prince William sound to some point on the Yukon, within American territory, and advises that the value of such a construction be immediately brought to the attention of congress by memorial.

What this country needs most is a railroad from some point on the Yukon, in American territory, to Prince William sound, on Cook Inlet. Of course, I know nothing about the route to be traversed by such a railroad, or the engineering difficulties that have to be encountered, but I think that it might be a serious character that they are not of the Yukon.

The mountains in the northern portion of this continent are so insignificant that the whole country may be considered one vast plain. The same may be said of the northern part of Asia and of Europe, and where I have traveled, explored and prospected, it would seem strange, indeed, if the country between here and Cook Inlet was an exception to every other part of the world in this high altitude. Besides, enough has been found out from actual observation to make it pretty certain that there are no serious difficulties. There is sufficient timber along the line for all the purposes of construction and operation, and the snowfall is not such as to seriously interfere with railroad traffic, and to my mind a railroad is needed in this country more than was ever needed in the whole history of railroading throughout the world.

"This country possesses an abundance of what all the rest of the world needs, and all the rest of the world sorely in abundance what the people are sorely in need of here, that is, something to eat. There never was a winter in this country when there was a deficiency of food, and this winter promises to be at least 100 per cent worse than any preceding one, and it is more than likely that this winter will be still worse in this respect.

"From what I can learn it seems impossible that the supply of food can keep pace with the increase of population, and I cannot see how there can be any doubt but that a railroad over the route mentioned would be taxed to its full capacity, as the country produces nothing but gold, and all the necessary comforts and luxuries of life and anything else that may be wanted must come from without. One of the results of the construction of such a railroad would be an enormous increase in the production of gold."

Not the Only Riches.

Unless the Canadian government repeats its regulation of last fall, restricting the size of claims to 100 feet, there is not likely to be very much prospecting on British territory this year. The miners regard a double claim to the discoverer, and a 100-foot claim to each subsequent locator as inadequate compensation for the risks which they take in the Klondike country. If the mission of the committee recently sent to Ottawa with a petition for a modification of the regulations proves unsuccessful, there will be a big exodus of miners to American territory. As a result the vast area westward from the Alaska Northwest boundary to the Behring sea, northward to the Arctic ocean, and southward to the Pacific will be thoroughly prospected.

The miners will be overlooking some rich British ground in the basins between the headwaters of the Klondike and the Mackenzie, and in the vicinity of the Big Salmon, the Stewart, the Pelly, and the Hootalingua, but there is just as rich ground on the American side, and the more liberal American mining laws promise larger results. Already, there are 1,800 men on Minoc creek. Other Alaskan streams which will receive attention from disgruntled Klondikers are Birch creek, Tanana river, Koyukuk river, Copper river, Porcupine river, Kosokwim river, and their tributaries, and the streams flowing into Kotzebue sound.

The advice of William Ogilvie, the Canadian surveyor, that miners who start over the passes between March 1 and 20 will reach Dawson as soon as those who start now, will be unheeded.

CHINKS IN A MUSS.

Whatever may be the matter with China and other countries, it is said that for the reason that most of them have so little to feed upon and so very much hard work to do they suffer greatly with neuralgia. It is doubtful if they could suffer more than our people do, owing at times to the extremely damp, chilly atmosphere in winter, which seems to have a peculiar influence upon the nervous system so as to produce this affection, but happily for our comfort and the cure of the pain, St. Jacobs Oil is recognized as its sovereign remedy. With pain produced from cold there is an absolute need of the warmth and strength which St. Jacobs Oil gives, and through this means it performs its office promptly and surely.

If an Egyptian dies before the same day the funeral must take place the next day. If death occurs after noon, the funeral may not be delayed after the next day.

CUSTOMS CASES DECIDED.

The general appraisers of goods passing through the Custom House have made several decisions lately which, until passed upon by the Secretary of the Treasury, will hold good. But while there is stability in that quarter, no system falling in strength can be properly sustained without the aid of Hostetter's Stomach Bitters, a genial tonic and remedy for malaria, rheumatism, dyspepsia, constipation and biliousness.

The largest telegraph office in the world is in the general postoffice building, London, over 3,000 operators being employed.

SHAKE INTO YOUR SHOES.

Allen's Foot-Ease, a powder for the feet. It cures painful, swollen smarting feet and instantly takes the sting out of corns and bunions. It's the greatest comfort discovery of the age. Allen's Foot-Ease makes tight-lacing or new shoes feel easy. It is a certain cure for chilblains, swollen feet, callous and hot, tired aching feet. We have over 10,000 testimonials of cures. Try it today. Sold by all druggists and shoe stores. For mail for 25c. in stamps. Trial package FREE. Address Allen S. Olmsted, Le Roy, N. Y.

According to Nilsson, the zoologist, the weight of the Greenland whale is 100 tons, or 324,000 pounds, or equal to that of 88 elephants or 440 bears.

AN OPEN LETTER TO MOTHERS.

We are asserting in the courts our right to the exclusive use of the word "CASTORIA" and "PITCHER'S CASTORIA," as our Trade Mark. I, Dr. Samuel Pitcher, of Hyannis, Massachusetts, was the originator of "PITCHER'S CASTORIA," the same that has borne and does now bear the fac-simile signature of CHAS. H. FLETCHER on every wrapper. This is the original "PITCHER'S CASTORIA," which has been used in the homes of the mothers of America for over thirty years. Look carefully at the wrapper and see that it is the kind you have always bought, and has the signature of CHAS. H. FLETCHER on the wrapper. No one has authority from me to use my name except The Centaur Company of which Chas. H. Fletcher is President.

March 5, 1897. SAMUEL PITCHER, M.D.

The largest hotel in the world is the Waldorf-Astoria, in New York city, a \$10,000,000 establishment, built by millionaires for millionaires.

It costs \$5.74 per million gallons to pump water to Chestnut Hill reservoir, Boston. The engine pump 8,938 on one pound of coal.

After being swindled by all others, send us stamp for particular. King Solomon's Treasure, ONLY REMOVER of many strengths. MASON CHEMICAL CO., P. O. Box 747, Philadelphia, Pa.

To prevent Trolley Accidents.

To prevent accidents on trolley cars the trucks are provided with forked frames, which extend on each side of the wheels and end in small wheels, resting on the track to push a person out of the way if he falls under the car, the wheels being so small that they will not pass over anything lying on the track.

Safety Lamp.

To prevent the explosion of oil when a lamp is upset a plug of cork is fitted around the wick tube to form a tight joint with the reservoir tube when the burner is in position.

A fibrous preparation of steel, made in the same manner as the so-called "mineral wool," by passing an air blast through molten steel, is coming into use for cleaning, polishing, etc., instead of sandpaper.

Two New York men have invented an electric dental mallet for use in hardening tooth filling, the tool having a central bar, which slides back and forth as the current is made and broken.

In 1774 Philadelphia was the largest town in the American colonies. Estimates of the population, which are all we have, differ widely, but it was probably not far from 30,000.

Adding pencils are being made which have a pencil register plate set in the side of the pencil case to be raised by pressing the point of the pencil against the paper or desk and register any number of points.

PISO'S CURE FOR CONSUMPTION

DURABLE WHERE ALL ELSE FAILS. Best Cough Syrup. Tastes Good. Use in time. Price 25c. Sold by all Druggists.

A New Charm.

Evidently women have tired of the rabbit's foot as a charm, for they are now wearing a turkey's foot mounted in gold or silver, either as a chatelaine ornament or as a pin. Just what luck the turkey's foot is supposed to carry with it is not known even to the enterprising jewelers who are selling these trinkets like hot cakes. It gives the average man a shiver to meet a pretty, dainty-looking girl with her Ascot tie held in place by a big turkey's foot, held with outspread toes and long, skinny shank. He is apt to remark, not what will women be wearing next, but what women they be wearing. Everybody who knows anything about it at all knows that the only rabbit's foot which has occult power is the foot of a molly cottontail that has been "killed in the full" of the moon at 12 o'clock at night in a graveyard by a red-headed nigger." A certain young woman who wears one of the charmed, but by no means charming, turkey's feet, says the foot is no good unless it belonged to a big fat gobbler which has been saved by the owner for some special occasion and stolen by a straight-haired darkey new at midnight when the moon is new.

Kitchen Table.

A handy device for kitchen use is a table having the top of a series of shelves attached to a tilting frame by which the row of shelves can be raised to a vertical position and used as a cupboard.

The Oldest Bank Note.

The oldest bank note in the world was printed in China in 1368—32 years before Gutenberg, the reputed inventor of printing, was born. It was issued 300 years before bank notes were circulated in Europe.

Notwithstanding all the efforts of inventors, no one has been able to discover a substitute for leather. For shoes, belting, harness and a thousand other uses, "there's nothing like leather."

A resolution appropriating \$5 to purchase a copy of the Bible was recently introduced in the Georgia legislature, it having been discovered that there was no copy of the book in the state library.

HOME PRODUCTS AND PURE FOOD.

All Eastern Syrup, so-called, usually very thick and of heavy body, is made from glucose. "Tea Garden Syrup" is made from Sugar Cane and is strictly pure. It is for sale by first-class grocers, in cans only. Manufactured by the PACIFIC COAST SYRUP CO. All genuine "Tea Garden Syrup" have the manufacturer's name lithographed on every can.

Double-Ended Toe Clips.

Double-ended toe clips are being made in England for use on bicycles, the toe pieces extending on opposite sides of the pedal and balancing in any position.

CATARH CANNOT BE CURED

With local applications, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quick medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials, free.

WOMAN TO WOMAN.

Women are being taught by bitter experience that many physicians cannot successfully handle their peculiar ailments known as female diseases.

When the woman of to-day experiences such symptoms as backache, nervousness, lassitude, whites, irregular or painful

menstruation, pains in groins, bearing-down sensation, palpitation, "all gone" feeling and blues, she at once takes Lydia E. Pinkham's Vegetable Compound, feeling sure of obtaining immediate relief.

Should her symptoms be new to her, she writes to a woman, Mrs. Pinkham, Lynn, Mass., who promptly explains her case, and tells her free how to get well.

Indeed, so many women are now appealing to Mrs. Pinkham for advice, that a score of day secretaries are kept constantly at work answering the great volume of correspondence which comes in every day.

LAME BACK.
