Trade Conditions in the Leading Cities

Leiter furnished proof last week of the most convincing kind that his wheat deal is to be carried through to the last day of May. An enormous loan was made-\$9,000,000 of the choicest securities being used. The amount borrowed was away beyond any decided it was better financiering to pay interest on unused funds than to risk a demoralized money market at the very moment when borrowing might be necessary. Leiter now has days. As important as the financial arrangement was the completion of plans to hurry the grain controlled by him abroad and into consumption. Every bushel of contract wheat now at within the next four weeks. Up to loading Leiter wheat out of only one system of elevators—the Armour. The closing of additional shipping contracts with the east-bound roads for 3,000,000 bushels started loading at every elevator system in the city. On one day last week, cars were taking the Weare, the Counselman, the National, the Central and the Keith houses. That means the all rail shipments of 2,000,000 bushels per week. Some day this week, unless the opening of navigation is delayed beyond the expectation, the fleet of 80 vessels carrying 1,700,000 bushels of the Leiter wheat will start down the lakes toward Buffalo. Weather permitting, 3,000,000 bushels of wheat will start from Chicago this week eastward; will be at the seaboard by April 15, and will be off coast abroad by May 1, This Leiter movement of cash grain, now under way for 60 days, is evident- similar organization in each city; ly going straight into consumption without at all demoralizing the foreign markets. The spot No. 1 Northern at Liverpool Saturday was 7s 11d, equiva-lent to \$1.14 per bushel there, and which means better than 950 here in Chicago; and the spot No. 2 red there Seturday was 7s 71/6d, which at the low rates of freight paid by Leiter, is better

BENEFIT TO THE NORTHWEST.

Complete Success of the Mining and

Irrigation Congress at Baker City. The mining and irrigation congress which met in Baker City last week, will prove of much benefit to the Northwest. Much enthusiasm was manifested throughout its sessions, and when final adjournment was taken, it was with a feeling that the convention present necessities; but the wheat bull had been a success. It was Baker City's first experience in entertaining a crowd of that character, and its citizens had cause to be gratified at the result. The town surprised itself by its achievement. As the citizens and visthe funds in bank to pay for any possi-ble wheat deliveries during the next 60 informality came into the proceedings, and miners and capitalists got closer together, and the vastness of the mineral resources of the region was better appreciated. All felt a personal interest in mining and irrigation, and no Chicago will be on its way to Europe one was so wise that he did not get new and broader ideas, and perhaps the middle of March the railroads were more special knowledge of those matters so essential to the industrial development of the great Northwest.

The last day a consitution and bylaws for a permanent organization was reported, and, after some discussion, adopted. The name chosen was the Mining and Irrigation Congress; obwheat simultaneously at the Armour, ject, to promote and foster mining and irrigation enterprises and other kindred industries; the officers to be a president, a vice-president from each state, who shall choose the secretary and treasurer; the meetings to be held annually, at a time and place to be selected by the congress; the congress to be composed of delegates from Oregon, Utah, Colorado, Wyoming, Idaho, Washington, Montana, California and Nevada, to be appointed as follows: Seven by the governor of each state; one by the mayor of each city; three by each chamber of commerce, commercial club, board of trade or other three from each county, to be appointed by the county judge or chairman of the county board; three from each regularly organized mining district within the states. The committee on legislation will consist of two members from each state, who will present a written report at each annual congress.

When it came to selecting a place for the next meeting, J. F. Batchelder named Portland as the commercial and financial metropolis of the Northwest, where facilities for accommodating a great gathering and for a display of mining machinery and methods of reducing ores could be found. R. W. Paris proposed Boise as able to handle a big convention, it being more centrally located with respect to the mining states, being itself in the center of a vast region, whose chief industries the congress would relate to. C. A. Johns named Baker City. A dozen speeches were made by partisans of the different places. A ballot resulted as follows: Portland, 41; Boise, 14; Baker

Portland was made the unanimous choice.

The time for holding the next meeting was fixed for the first Tuesday in December, 1898, after a long discussion, bringing out seasonable demands of placer and quartz mining and irrigation farming and after reference to a committee of three whose report was adopt-Albert Geiser, of Baker City, was unanimously elected permanent president of the organization. The following vice-presidents were chosen:

Oregon-Ole J. Olsen, Grants Pass; Idaho-State Engineer F. J. Mills, Boise; Washington-Dr. J. M. Boyd, Spokane: Utah-Thomas D. Lee, Ogden. The executive committee is composed of the following:

Oregon-Fred R. Mellis, Baker City, and J. F. Batchelder, Portland; Idaho —A. D. Morrison, Idaho Falls, and J. F. Hunt, Downey; Washington—G. B. Dennis and A. P. Curry, Spokane; Utah-R. S. Campbell, Salt Lake City, and R. C. Lund, St. George.

Members of the legislative committee: Oregon-C. A. Johns, Baker City, and E. J. Frasier, Eugene; Idaho-John C. Rice, Caldwell, and Edgar Wilson, Boise; Washington-J. J. Browne and Colonel Lindsley, Spokane; Utah—David Keith, Salt Lake City, and H. H. Rolapp, Ogden.

The governors of California, Nevada Colorado, Wyoming and Montana will be asked to make appointments for their respective states.

A committee presented resolutions to the effect that only questions pertaining to mining and irrigation should be disc; veal, small, 8c.

Poultry—Chickens, live, per pound, mediate action for a mineral exhibit at the Trans-Mississippi exposition from the several states represented in the congress; acknowledging appreciation heads, 7@8c;salmon trout, 12 16c; floun- of and extending hearty thanks to the ders and sole, 3@4c; tom cod, 4c; ling citizens of Baker City for the many courtesies and attentions received.

Captain Robley D. Evans, who goes into command of the war ship Iowa, vice Captain Sampson, has no rival for popularity in Washington, or in the navy department. The captain is quoted as having said recently that if he had his way "there would be nothing but Spanish talked in ---- for the next five years." Evans was in command of the Yorktown during the late trouble with Chile, and he wanted to blow Valparaiso off the earth because of the insults put upon America by the citizens of that town. But the navy department refused, and Evans was commended for the admirable self-restraint he exercised. Since then he has no love for Spain. Evans is generally known as "Fighting Bob" Evans, a pseudonym which he dislikes very much. He has a limp which he earned during his service with Uncle Sam in the '60s, and other marks of war on his person. Evans belongs to a Virginia family, and when the South seceded, his mother, without his consent, sent his resignation to Washington. The young officer, however, per-Butter—Fancy creamery, 19c; do suaded the department to abrogate it, seconds, 18c; fancy dairy, 17c; good and promptly rejoined the service. He has been in the navy 38 years

## How Are You

This Spring?

Can't get rested? Tortured with boils, humors? That is not strange. Impurities have been accumulating in your blood during winter and it has become impoverished. This is the experience of most people. Therefore they take Hood's Sarsaparilla to purify their blood in

L M. White, Salem, Or., says: "The members of our family have derived much benefit from the use of Hood's Sarsaparilla. My father was severely troubled with humor, but it readily yielded to Hood's Sarsaparilla."

Thomas A. Coleman, Davidson, Or .: Four or five years ago I had sores on my feet so that I was unable to wear shoes. I saw Hood's Sarsaparilla advertised to cure scrofula, and I procured two bottles. By the time I had taken

them my feet were well." Hood's Sarsa-Is America's Greatest Medicine. Sold by all druggists, \$1; six for \$5. Be sure to get Hood's.

Swallowing His Words.

Hood's Pills take, easy to operate, 250.

"While I was at Moscow," writes a traveler, whose words are reproduced by the Detroit Free Press, "a volume was published in favor of the liberty of people. In this book the iniquitous conduct of the public functionaries, and even of the sovereign, were cen sured severely. The book created in-dignation, and the offender was at once taken into custody. After being tried in a summary way, he was condemned to eat his own words. A scaffold was erected in a public square, the imperial provost, the magistrates and the physicians of the cear attending, the book was separated from the binding, and the margin cut off. The author was then served, leaf by leaf, by the provost, and was obliged to swallow this unpalatable stuff on pain of the knout, more feared in Russia than death. As soon as the medical gentlemen were of the opinion that he had eaten as much as he could with safety, the transgressor was returned to prison. This punishment was renewed the following days, until after several hearty meals, every leaf of the book was actually swal-

### IT WILL PAY.

It will pay to carefully read the descrip-tive advertisement of Alabastine appearing in this paper, explaining the difference be-tween those goods and kalsomines. Consumers should bear in mind that Alabastine is unlike all the various kalso-mines sold on the market under different names. Alabastine stands pre-eminent and alone as a durable wall coating, and all consumers in buying should see that the goods are in packages and properly labeled.

Captain Cuttle in Safety.

Many are the prayers that are breathed for those that have gone forth to brave the dangers of the open ocean, remarks a writer in The Illustrated American, yet catastrophes on record have occurred in still water within sight, almost within touch of land. The Episcopal prayer book contains a formula of prayer for those at sea, which may perhaps include those that are upon the waters of rivers or anchored in harbors. The horrors that have occurred within close range of land make more grewsome than humor-ous the remark of Captain Cuttle, who, when in a stress of weather, under close-reefed foresails, with the hatches battered down, used to retire to his cabin and murmur as he sipped his standing; and, what is best of all, it grog, "God help the poor creatures on shore tonight!"

HOME PRODUCTS AND PURE FOOD.

All Eastern Syrup, so-called, usually very light colored and of heavy body, is made from glucose. "Tra Garden Drips" is made from Sugar Cane and is strictly pure. It is for sale by Grat-class grocets, in cans only. Manufactured by the Pacific Coast Syrup Co. All genuine "Tra Garden Drips" have the manufacturer's name lithographed on every can.

King is the most ancient of titles. It, or its equivalent, is found in every known language.

I believe my prompt use of Piso's Cure prevented quick consumption.—Mrs. Lucy Wallace, Marquette, Kans., Dec. 12, '95.

Pictures can be adjusted at any height by a new device consisting of a rod with a flat hook at the upper end to fasten it on the molding and a series of ratchet teeth on the back side of the rod, with a sliding member to engage the teeth and support the picture.

## SHARE INTO YOUR SHOES.

Allen's Foot Ease, a powder for the feet. It cures painful, swollen smarting feet and instantly takes the sting out of corns and bunions. It's the greatest comfort discovery of the age. Allen's Foot-Ease makes tight-fitting or new shoes feel easy. It is a certain cure for chilblains, sweating, damp, callous and hot, tired aching feet. We have over 10,000 testimonials of cures. Try it today. Sold by all druggists and shoe stores. By mall for 25c. in stamps. Tria package FREE. Address Allen 8. Olm sted, Le Roy, N. Y.

The largest hotel in the world is the Waldorf-Astoria, in New York city, a \$10,000,000 establishment, built by millionaires for millionaires.

Work in the Patent Office.

In 1897 there were received 45,061 applications for patents, and in addition a large number of applications for designs, trade-marks, etc. Patents granted numbered 23,729, including designs; 65 patents were reissued, 1,671 trade-marks registered and 14 labels and 16 prints. The number of patents that expired was 13,926. The total expenditures, \$1,23,843; the receipts over expenditures, \$252,798. The total balance to the credit of the patent office in the treasury of the United States January 1, 1898, was \$4,970,488.

In proportion to population more patents were issued to citizens of Connecticut than to those of any other state one to every 786 inhabitants. Next in order are the following: Massachusetts, District of Columbia, New Jersey, Rhode Island, New York.

To residents of England 706 patents were issued; to residents of Germany, 551; Canada, 286, and France, 22.

The number of applications received for examination during the year was greater than for any other in the bistory of the office. Applications awaiting action December 28 last numbered 11,382, due to the inadequacy of the office force. For the 10 years beginning in 1840 the average number of application was 1,186, and for the eight years beginning with 1890 it has grown to 41,479 per year.

THAT SETTLES IT.

With the bloom and beauty of the season, its balmy airs and delightful temperature, we feel like living with new life, and are therefore often very careless in taking care of ourselves. It is this forgetfulness that lays us liable to attacks of rheumatism, the more liable because we think there is little danger of its coming on, but rheumatism is an easy thing to take and sometimes a hard thing to get rid of unless we take the advice of others and learn that the best way pos-sible is to use St. Jacob's Oil. It has been used so long as a sure cure that this advice is given in good faith from the testimony of thousands.

If an Egyptian dies before noon the funeral must take place the same day. If death occurs after noon the funeral may not be delayed after the next day.

## ABOUT CHANGE OF LIFE.

"I suffered for eight years, and could find no permanent relief until one year ago. My trouble was Change of Life. I tried Lydia E. Pinkham's Vegetable Compound, and relief came

never had anything help so much. I have better health than I ever had in my life. I feel like a new person, perfectly strong. I give the Compound all the credit. I have recommended it to several of my friends who are using it with like results. It has cured me of several female diseases. I would not do without Mrs. Pinkham's remedies for anything. There is no need of so much female suffering. Her remedies are a sure cure."-MRS. ELLA KRINER, Knightstown, Henry Co., Ind.

By the way, the leading druggists tell us that the demand for Lydia E. Pinkham's Vegetable Compound is simply beyond their power of underdoes the work promptly and well.

There died recently in the village of Mauvages, Alsace, a man by the name of Becu, who is the last of the family from which Mme. du Barry sprang. Her real name was Becu, and she was born in Vaucouleurs, a short distance from Mauvages.

It is said that one person in 800 is blind to the X rays: that is, when looking through the fluoroscope they cannot see the bones of the hand, coins in a book, etc. This is no doubt analogous to color blindness.

## AN OPEN LETTER TO MOTHERS.

We are asserting in the courts our right to the exclusive use of the word "CASTORIA," and "PITCHER'S CASTORIA," as our Trade Mark. I, Dr. Samuel Pitcher, of Hyannis, Massachusetts, was the originator of "PITCHER'S CASTORIA," the same that has borne and does now bear the fac-simile signature of CHAS. H. FLETCHER on every wrapper. This is the original "PITCHER'S CASTORIA" which has been used in the homes of the mothers of America for over thirty years. Look Carefully at the wrapper and see that it is the kind you have always bought, and has the signature of CHAS. H. FLETCHER on the wrapper. No one has authority from me to use my name except The Centaur Company of which Chas. H. Fletcher is President. March 8, 1897. SAMUEL PITCHER, M.D.

George Sewell Boutwell, the youngest man ever elected governor of Massachusetts, and now the oldest of her exgovernors, has just celebrated his 80th birthday. It is 47 years since he was

There are 805 miles of street railways in St. Louis now, and they carry 100,000,000 passengers a year.

chosen governor.

## Ask Your Doctor

what effect alum has upon the stomach. Then make up your mind whether you will put any more low-price baking powder into your husband's or children's food.

Schilling's Best is pure cream of tartar and soda. Nothing else.

Want to Feel What They Are Eating. The inhabitants of Sikas, Turkey, owing to the oppression of the tax gatherer, who, the more industrious he finds them the more he demands, and that out of proportion to the means, the top for its passage in unwinding. hand-to-mouth existence. Their principal food is made from unsifted whole wheat, that has been threshed on the ground by means of a drag drawn repeatedly over it by oxen, and ususally has a large admixture of dirt and stones. The people prefer this to fine grade flour, because they say they can feel they are eating something.

## GREAT BENEVOLENCES.

In the great cities of the United States the condition of the metropolitan poor is constantly being ameliorated by the grand benevolences of wealthy people. Sanitary reforms are frequently suggested and carried out with earnestness and intelligence. Among sanitary reforms those produced by Hostetter's Stomach Bitters in dyspeptic stomach, disordered liver, bowels or nervous system are very conspicuous.

The Sadbury river aqueduct in 859 days, has delivered 15,857,300,000 gallons to Chestnut Hill reservoir, and 35,500,000 to Lake Cochituate.
