

A HINT FROM THE KLONDIKE

Joseph Ladue, the famous trapper and miner and the present owner of Dawson City, and for many years the agent of the Alaska Commercial Company, gives a hint to persons going to Alaska, and pays great compliment to a well-known article. He writes: "I have always used the Royal Baking Powder in Alaska and Northwest Territory, as no other gave equal satisfaction in that harsh climate. I also found my customers always insisted on having that brand."

An English prophet announces for 1898 the discovery of the north pole, the opening of communication with Mars, war in Europe, a revolution in South America, riots in London and the kidnapping of the young king of Spain. That South American event is reasonably certain to happen.

A LONG LOOK AHEAD.

The politicians are even now beginning to weigh the possibilities involved in the next presidential election. The papers are full of electioneering gossip, and various predictions as to the future which are somewhat too self-confident. But it is safe to say that a systematic course of Hostetter's Stomach Bitters will renew health in the malnourished, bilious, rheumatic, costive or nervous.

NERVOUS PROSTRATION.

"Will you kindly allow me," writes Miss MARY E. SAIDR, of Jobstown, N. J., to Mrs. Plunkham, "the pleasure of expressing my gratitude for the wonderful relief I have experienced by taking your Compound? I suffered for a long time with nervous prostration and general debility, caused by falling of the womb. It seemed as though my back would never stop aching. I could not sleep. I had dull headaches. I was weary all the time, and life was a burden to me. I sought the seashore for relief, but all in vain. On my return I resolved to give your medicine a trial. I took two bottles and was cured. I can cheerfully state, if more ladies would only give your medicine a fair trial they would bless the day they saw the advertisement, and there would be happier homes. I mean to do all I can for you in the future. I have you alone to thank for my recovery, for which I am very grateful."

Snow-Slide on Chilkoot Trail Carries Death Before It.

MANY PERSONS WERE INJURED

The Accident Occurred Between The Scales and Stonehouse—List of Known Dead.

Port Townsend, April 11.—A letter just received from Skagway, Alaska, dated April 3, says: At about noon today on the Chilkoot trail, between The Scales and Stonehouse, at least 31 men met death and a large number of others were injured more or less seriously in a snowslide. The dead were crushed under an avalanche of snow and ice which came down from the mountain side upon the left side of the trail about midway between The Scales and Stonehouse.

A list of the killed and wounded, as complete as possible at the hour of writing, is as follows:

Gus E. Zebarth, Seattle.
Frank Sprague, Seattle.
Steve Stevenson, Seattle.
C. H. Harrison, Seattle.
W. L. Riley, Seattle.
E. D. Atwood, New York.
C. Beck, Sanford, Fla.
L. Weidlein, Kansas City.
Mrs. Ryan, Baltimore.
John Morgan, Emporia, Kan.
F. M. Grimes, Sacramento.
Mrs. Anna Moxon, Jefferson county, Pa.
Ras Heggard, Baker City, Or.
— Atkins Idaho.
Tom Geffert, Seattle.
E. F. Miller, Vancouver, Wash.
Tom Collins, Portland, Or.
T. Lamer.

The seriously injured so far recovered are:
John C. Murphy, New York.
Walter Chappie, Dixon, N. D.
F. M. Holbrook, Portland, Or.
— Dahlstrom, residence unknown.
Fully 50 people were overtaken by the slide, and are either buried in the snow or scattered along the borders of the avalanche in a more or less injured condition.

The point at which the accident occurred is some five miles above Sheep Camp. The nearest telephone station is four miles distant. The Scales is some five miles above Sheep Camp. The telephone wires at that point were carried away by the slide. This fact makes it difficult to obtain further particulars at this time.

A blinding snow storm was raging all day upon the summit, and as a consequence many of those in the vicinity were making no attempt to travel. Zebarth, Sprague and Stevenson, of Seattle, were traveling together as partners, and were found side by side in bed.

Thousands of people were encamped in the vicinity at the time, and were soon on the scene rendering such assistance as was possible. Upon receipt of the news, points below Dyea telephoned up to know if assistance was required, and received answer to the effect that 5,000 people were at work on the debris, and were only in each other's way.

All day Saturday and Sunday a southerly storm, with chinook wind, rain and snow, prevailed in this vicinity, and it is believed the softening of the snow on the mountain side by those agencies was the cause of the avalanche.

The quantity of snow and ice that came down in the slide is estimated at thousands of tons. It swept directly across the trail, which, notwithstanding the fact that the weather was unsuitable for travel, was thronged with wayfarers. The last vestige of the trail in the vicinity was wiped out of existence, and where it led is now a mountain of snow and ice.

Later reports bring the information that 31 bodies have been recovered. There was a preliminary slide at 2 o'clock in the morning. People were digging out their goods when the second slide occurred about noon.

List of Injured Increased.
A later dispatch via Victoria says: The horror of the Dyea trail is growing in magnitude hourly. As the work of rescue proceeds, it becomes more apparent that many more lives were lost than at first thought possible. It is now believed that between 50 and 100 men and women were killed by the avalanche. Many bodies will not be recovered until the summer sun melts tons of snow and ice that now bury them from sight.

Two or three thousand men are working in relays of as many as can stand side by side shoveling away the snow in search of the dead and dying. Twenty-two dead bodies have been recovered and identified, and 25 persons have been taken out alive.

Seventeen employees of the Chilkoot Railway and Tram Company, who went to the summit on the morning of the slide to work, are missing, and it is feared they are among the lost.

It is estimated that 10,000 tons of outfits are buried under the snow and ice. There were smaller slides before the death-dealing avalanche was started. About 2 A. M. a small slide occurred, which buried several cabins. The alarm was spread, and many people were endeavoring to work back to Sheep Camp when the big disaster occurred.

Dervishes Defeated.
Cairo, April 11.—The Anglo-Egyptian forces under General Sir Kitchener attacked and rushed Mahmoud's Zariha, the center of his fortifications, without a check. The attack was entirely successful, and the dervishes lost very heavily.

THE HORROR INCREASING.

Sixty-Nine Bodies Recovered and One Hundred and Fifty Still Missing.

Seattle, Wash., April 12.—Later details received here today from Alaska increase the horror of the avalanche on Chilkoot pass, instead of lessening it. Sixty-nine dead bodies have been thus far recovered, and the names of 150 missing persons have been reported as unaccounted for. It is barely possible that some of these succeeded in crossing the pass before the avalanche occurred. A conservative estimate is that between 75 and 100 persons were killed. The following is a list of those whose bodies have been found:

Andrew Anderson, San Francisco; E. D. Atwood, New York; Albert Augland, Tacoma; A. D. Bissell, Seattle; C. Breck, Sanford, Fla.; Walter Chappie, New York; Thomas Clark, Idaho; Thomas Cullen, Portland, Or.; Thomas Collenden, Kirkland, Or.; William Carroll, San Francisco; W. H. Dohlstrom, Lincoln, Neb.; — Durber; A. Doran, Tacoma; George Eggert, Portland, Or.; R. L. Easterbrook, Seattle; William Falke, San Francisco; T. Glenn, Spokane; T. Glenn, Portland, Or.; Weed Garrison, Seattle; Con Gephart, Seattle; W. Grimes, Atkins, Idaho; S. M. Grimes, Tacoma; Stanley Grimes, Sacramento; Preston Grizzley, Buffalo, N. Y.; C. R. Homer, Seattle; E. J. Hudson, Seattle; S. T. Hudson, Portland, Or.; E. P. Haines, Seattle; C. P. Harrison, Seattle; Harry Holt, Tacoma; Rosmus Hedeard, Baker City, Or.; E. R. Johnson, Spokane; H. Jueger; C. H. Kinney, Prescott, Ariz.; A. F. King, Tacoma; G. Leon; George Lewis, Spokane; G. J. Milton, St. Paul; J. R. Morgan, Emporia, Kan.; Mrs. Annie Moxon, Jefferson county, Pa.; John Merchant, Redding, Cal.; E. F. Miller, Vancouver, Wash.; Frank Miller, Butte, Mont.; C. L. McNeil, Elk River, Minn.; Sanford McNeil, Portland, Or.; J. C. Murphy, Dixon, N. D.; Austin Preston, Redding, Cal.; J. B. Pierce, Tacoma; J. Reese, Wisconsin; George Ritchie, Chicago; Mrs. W. L. Riley, Seattle; C. Rasmus, Colorado; John Reddy, Kansas City; George Riser, Seattle; Mrs. Ryan, Baltimore; Matt Schona, St. Paul; Joseph Smallwood, Portland, Or.; Gus Seaborn, Chicago; Steve Stevenson, Seattle; F. Sprague, Seattle; G. F. Smith, Tacoma; G. W. Smith, Woolley, Wash.; Jeff Soley, Idaho; O. A. Uler, Woolley, Wash.; L. Weidlein, Kansas City; O. M. Warner, San Francisco; — Wilhelm, Menlo Park, Cal.; Gus Zebarth, Seattle.

A fact that lends horror to the fearful tragedy is that it may never be known with any degree of accuracy just how many lives were sacrificed, who they were or where they came from. Many poor fellow lies buried where no human aid can reach him, and where his remains must rest until the summer sun melts the tons of snow and ice under which he lies buried.

Upon the crowded trail no record was kept of the living, toiling mass, braving hardships and facing death itself in the mad rush for gold. In the procession that daily passed were people from all parts of the world, unknown to one another.

The work of rescue has continued night and day ever since last Sunday, being gradually systematized and consequently meeting with better results. Thus far the work has been confined to the outskirts of the slide in the hope of rescuing those who are injured, but not yet dead. The main portion of the avalanche, which is estimated to be 50 feet deep and 150 yards long, has not yet been touched. If there are any bodies underneath they cannot be rescued in time to save life.

Four men were taken out alive after they had been buried for 19 hours. In many instances the bodies of the dead are not buried in the least, and appear as natural as in life, indicating that they were suffocated in the soft snow.

As soon as recovered, the bodies are carried to Sheep Camp, where an improvised morgue has been constructed. Some have been removed for interment or for shipment to relatives in the States.

The work of rescue has been orderly and systematic. A public meeting was held and committees were appointed to search for the dead and care for the wounded. All that can possibly be done to relieve the horror of the situation has been done.

The accident was one that could not have been foreseen, and it is one that is likely to happen at any time when like conditions exist, although it is stated that some warning of the impending disaster was given by the Indian packers, who are said to have deserted the trail when the heavy snow of Saturday and Sunday night set in. They refused to work for fear of slides.

The work of searching for the dead is to be continued as long as there is any hope of recovering any one, though it is feared that it must be discontinued before the whole truth is known.

Walter Chappie, of New York, and John C. Murphy, of Dixon, N. D., were alive when taken out, but died shortly afterwards.

Mrs. Moxon was in one of the small slides which preceded the large one, and was on her way to camp when overtaken by death. Her husband was rescued.

The federal troops at Dyea took an active part in digging out the dead. Many dead that were unclaimed have been buried near the scene of the disaster. Thirteen bodies reached this city today on the steamers City of Seattle and Australia. They were those of R. L. Easterbrook, S. Stevenson, J. R. Morgan, O. A. Uler, S. McNeil, A. F. King, Stanley Grimes, C. P. Harrison, G. F. Smith, L. Weidlin, Harry Holt, Gus Zebarth and F. Sprague.

Advices from Skagway state that there are many wild rumors there about additional slides, attended by loss of life, but none of them can be confirmed, and they are not credited.

Travel has again been resumed over the scene of the catastrophe.

Spring Humors

That tingle on your arm, those eruptions, itching and burning hives, just as surely indicate impurities in the blood, which should have prompt and careful attention, as do boils, carbuncles, ulcers, scurf rheum and the severest forms of scrofula. Hood's Sarsaparilla cures all humors of the blood of every form and degree.

That Tired Feeling
So common in the spring, is also due to the weak, thin, depleted condition of the blood. Make your blood pure by taking Hood's Sarsaparilla and you will be strong and ready for work, will have good appetite and good health. Try Hood's Sarsaparilla this spring.

"I feel it my duty to let people know how much good Hood's Sarsaparilla did for me. My health was poor and I had doctored and taken medicine, but found no relief, so I thought I would try Hood's Sarsaparilla. After taking two bottles I felt better and I kept on taking it and now

I am well. I think it is the best blood medicine in the world."—C. W. CARBY, Prineville, Oregon.

"I Am an Old Soldier,
My whole system being out of order and my right side partially paralyzed. I was under a doctor's care most of last winter. I have tried various remedies and realized

only a temporary relief. I have been taking Hood's Sarsaparilla and Hood's Pills, and can truly say that I have derived more real benefit from them than from anything I have tried. I intend to continue taking the medicine so long as it lasts.

Such Good Results.
I intend also to have Hood's Pills in the house. I cannot speak loud enough in their praise. Along with Hood's Sarsaparilla I recommend them to my friends and for the benefit of suffering humanity at large. My wife has been greatly helped by Hood's Sarsaparilla, being all run down and her system much out of order. My two little boys, aged two and four years, recovered quickly from the effects of diphtheria by taking Hood's Sarsaparilla, which rid them of their troublesome sores and symptoms of the trouble. They now appear well and hearty. I shall always praise Hood's Sarsaparilla."—W. F. BUNNERT, Storkey, Oregon.

That Hood's Sarsaparilla is the best spring medicine is proved by its constant medicinal power to purify, enrich and vitalize the blood.

British Postal Reforms.
Numerous reductions of charges and extensions were made by the British postoffice during 1897. Postage on domestic letters was made one penny for four ounces, with an additional half-penny for every two ounces. Thus in Great Britain it costs only 3 cents to send a letter weighing six ounces, while in the United States it would cost twice as much. Merchants are allowed to inclose bills with goods sent by parcel post. Most important was the completion of the transfer of the trunk telephone system of the United Kingdom to the postoffice department. During the year the deposits in the postal savings banks increased about \$35,000,000.

The Ingenious Man.
He was a very ingenious man. He had made an invention which was of great value. He thought so, at least, if the world did not, and he had his invention patented. It was a combination camp stool, cane and umbrella. The cane was the usual form of the invention. At a big parade nothing could be more convenient, and for an ordinary, unexpected rainstorm, what could be better? A man is sure to have his walking stick with him.

It was not so long after the invention had been perfected that the man was out walking with his wife, and a sudden shower came up. There were no cars accessible, and the only thing to do was to run, and the unlucky pair did this with a vengeance, reaching the house hot, uncomfortable and pretty wet.

"Well, we are here at last," said the man, drawing a long breath of relief.
"Yes," said the wife, disconsolately, "but I think I have ruined my new bonnet. And, John Smith," she added, suddenly, with a little scream, "what do you think you have done?—You had that old invention of yours—your camp-stool-umbrella affair—in your hand all the time ready for an emergency, and forgot to use it!"
The man tells the story and thinks it is a great joke.—N. Y. Times.

Destructive Australian Ants.
The roof of the Australian museum at Sydney, which has been destroyed by termites or "white ants," had to be replaced with a covering composed largely of steel and copper. Recently it was discovered that these destructive little creatures had also ruined the underpinning of one of the most important floors of the museum. The work of the termite is peculiar in that it is carried on in the interior of the timber and does not reveal itself until the structure is about to fall to pieces.
