FRIDAY, APRIL 29, 1898.

LATEST WAR BULLETINS.

Key West, April 27.—The Spanish gunboat Yigera is said to have engaged the American torpedo boat destroyer near Mantanzas, and got the best of the fight. The destroyer, however, was able to retreat but considerably disabled.

The monitor Terror made a capture off the coast of Cuba last night. The prize is the Spanish coast steamer Ambrosia Boliver. The cruiser Detroit came into port this morning towing the Spaniard, which had been turned over to her by the Terror. The steamer had on board \$80,000 in silver.

WASHINGTON, April 27.—Orders were issued today to recruit the regular army to its full war strength of 61,000.

As we go to press the boys are firing the big howitzer in honor of the first American

Victory!

PORTLAND, April 28.—Capt. Sampson's fleet bombarded the Spanish fort at Mantanzas and practically destroyed it with 25 eight-inch shots.

The Spanish returned the fire, but the American fleet was untouched.

There is evidence that much loss of life was inflicted on those within the fort.

A terrific storm has been raging on the Atlantic coast. Warships dragged their anchors. Communication is shut off.

The Grand Army Will Fall In.

Frank Reiser, department commander Oregon G. A. R., tendered the services of the members of the Grand Army to Governor Lord in the following communication, under date of April 22, 1898:

To W. P. Lord, Governor of the state of Oregon—Dear Sir and Comrade: Should the O. N. G. be called upon for the defense of the national government, we hereby tender you the services of the members of the Grand Army of the Republic of this department, for the defense of our coast, until such time as younger men could be drilled and prepared for active service.

Circular letters were sent to all the posts in the state asking them to notify the commander at once how many comrades could be depended upon to answer an emergency call. Canby post will respond with about 30 members, ready to march on 24 hours' notice. As most of the members live some distance in the country, they have not been informed of the tender of their services by the department commander, but the following comrades promptly enrolled their names when shown the circular letter:

L. Henry, J. B. Rand, O. L. Stranahan, W. T. Hansberry, S. F. Blythe, P. Spangler, Geo. P. Crowell, J. H. Dukes, J. W. Rigby, A. S. Blowers, C. J. Hayes, E. D. Calkins (lost), M. P. Isenberg, (alleged Antietam), Jos. Frazer, M. V. Rand.

A special meeting of Canby post, to muster new members, will be held tomorrow, April 30th, at 2 o'clock. All old soldiers not members of the post are requested to be present.

The rumor given out a few days ago that the United States would seize the Hawaiian islands as a war measure was evidently a war joke. These islands, 2,000 miles from our shores, with a mongrel population mostly opposed to being "seized," would have to be defended by our army and navy and might prove to be a source of weakness rather than of strength.

Orders issued to the Ninth New York require each man to carry a hairbrush, a whisk broom, 24 handkerchiefs and extra apparel. Pity the boys of the Ninth when they meet with some of our Western regiments.

Advices from Milton and Walla Walla state that the strawberry crop is very promising and these points will begin shipping about the middle of May. Milton will have about 12,000 crates.

The Rural Northwest says it is well for those intending to plant Kaffir corn to know that cattle are sometimes killed by feeding upon it.

Now that we have an expensive war on our hands, every lover of his country will rejoice (some secretly) that the good sense of the voters saved us from adopting free silver in the campaign of '96. Also, that the preceding administration had the nerve to sell bonds and keep our reserve fund up to the mark and our credit good.

Department Commander Reiser tenders the governor the services of the Grand Army to guard our coast de-

fenders in case of emergency. Old soldiers of the civil war would not be much good for marches nor for dress parade, but they could fill in all right for guard duty while young men are being trained in the art of war.

Hon. W. R. Dunbar, recently appointed register of the land office at Vancouver, has commissioned his resignation as U. S. land commissioner at Goldendale, to take effect May 19th. Mr. W. B. Presby will be his successor.

The Dalles Daily Mountaineer is now publishing the latest telegraphic dispatches up to the hour of going to press.

Correct.

HOOD RIVER, April 26, 1898.—Editor GLACIER: From every indication and the reports of the war, the best thing the United States can do is to call for a million men and commence drilling at once. We learned in the civil war that every call for troops was too small. Disciplined troops are too few; they saved the second battle of Bull Run from being as disastrous as the first, which I know from being an eye witness. E. D. CALKINS.

Arsenite of Soda.

Rural Northwest.

About a year ago we published the directions given by Prof. Kedzie of the Michigan experiment station for making and using the arsenite of soda spray. A number of our subscribers have reported to us that they used this spray last year as a substitute for Paris green, and were well pleased. Prof. Cordley of the Oregon experiment station gave it a trial and was wholly successful with it when he prepared the spray personally, but when it was prepared by others injury to the foliage sometimes resulted. The Ohio experiment station has just issued a bulletin in which the use of arsenite of soda as a substitute for Paris green is recommended. White arsenic in soluble form is said to cost about one-third as much as Paris green and it gives no trouble in the way of settling. If a plain solution of white arsenic were used the foliage of the trees would be burned. Following are the directions for preparing this spray:

Dissolve two pounds of commercial white arsenic and four pounds of carbonate of soda (washing soda) in two gallons of water and use one and one-half pints to a barrel of Bordeaux mixture (50 gallons). The easiest way to make the solution is to put both the white arsenic and carbonate of soda in a gallon of boiling water and keep boiling about 15 minutes, or until a clear liquid is formed, then dilute to two gallons. One and one-half pints of this solution should be added to each barrel of Bordeaux mixture. If used without the Bordeaux mixture it is liable to burn the foliage. As there is nearly always fungus to contend with, it is recommended that the two sprays be always combined when there is occasion to spray for the codlin moth or other insects.

Russia's Great Railway.

Sunday Welcome.

The great trans-Siberian railway has been called "the back-door way to China." It is another magnificent proof of the persistency and greatness of Russian statesmanship. The czar is pushing this great enterprise in a speedy completion. He "needs it in his business." It is gratifying to Americans that their countrymen are furnishing much of the material and equipment for this monster railroad. Many locomotives have already been shipped from this country, and Russian engineers are already on the way hither to place an order for 4,000 more. Full equipments of railroad machine tools have been sent from the United States to Vladivostok. Our exports of agricultural implements to Russia have also been immensely increased lately. In 1893 they were 9,000 tons; in 1894, 24,000; in 1895, 37,000, and probably in 1897—the exact figures are not obtainable—they were 75,000 tons. Siberia is an immense country. It is not altogether the barren waste that many suppose it is. Vast quantities of wheat and other grains can be raised there. Within a generation this great trans-Siberian railway will be connected with one from Portland via the peninsula of Alaska, by railway boats across Bering strait. The progress of the world is in its adolescence.

The Human Electric Battery.

The superstition that human beings should sleep with their heads to the north is believed by the French to have for its foundation a scientific fact. They affirm that each human system is in itself an electric battery, the head being one of the electrodes, the feet the other. Their proof was discovered from experiments which the Academy of Sciences was allowed to make on the body of a man who was guillotined. This was taken the instant it fell and placed upon a pivot free to move as it might. The head part, after a little vacillation, turned to the north, and the body then remained stationary. It was turned half way round by one of the professors, and again the head end of the trunk moved slowly to the cardinal point due north, the same result being repeated until the final restoration of organic movement.

It is known that the iron rails of railroads are usually more durable when laid north and south than in other directions, the greatest wear from magnetism being when they are laid due east and west.

"Simpkins was given an egg at the restaurant today that had a distinct 'W' marked on it." "That must refer to the Spanish war." "That's what Simpkins thought until he opened it. He says it was the war of 1812."

Beauty Is Blood Deep.

Clean blood means a clean skin. No beauty without it. Cascarets, Candy Cathartic clean your blood and keep it clean, by stirring up the lazy liver and driving all impurities from the body. Begin to-day to banish pimples, boils, blotches, blackheads, and that sickly bilious complexion by taking Cascarets—beauty for ten cents. All druggists, satisfaction guaranteed, 10c, 25c, 50c.

"Did you talk war at your progressive euchre club this afternoon?" "Talk war? No; we had it."

The city of Havana contains a population of 230,000.

The "Cabinet Member's Wife."

The authorship of the much-discussed "Inner Experiences of a Cabinet Member's Wife," printed in the Ladies' Home Journal, will be revealed in the June issue of that magazine, when the name of Anna Farquar will appear as the author. It is surmised that the domestic experiences described in these letters were those of Mrs. W. H. H. Miller, wife of the attorney general in President Harrison's cabinet—since Miss Farquar is known to be a personal friend of the Miller family. She is now connected with the editorial staff of the Boston Transcript.

School Moneys.

The April apportionment for 1897, \$1.15 per capita. This year it is \$1.40. The apportionment to Hood River districts and those near by is as follows:

No.	Amount	No.	Amount
2	\$187.20	41	\$87.80
3	345.40	42	68.80
4	192.80	43	108.80
5	164.80	44	108.80
6	96.20	45	100.40
7	148.00	46	127.00

A Short History of the War.

Uncle Sam: "Gilt!"
Sagasta: "Nit!"
And then they fit,
And Spain quit.
Boston Globe.

Educate Your Bowels With Cascarets. Candy Cathartic, cure constipation forever. 10c, 25c. If C. O. C. fails, druggists refund money.

S. E. BARTMESS.

Summons.

In the Circuit Court for the State of Oregon for the County of Wasco. Mary Catherine Kiser Backus, plaintiff, vs. To Joseph Backus, the above-named Defendant.

In the name of the state of Oregon, you are hereby required to appear and answer the complaint filed against you in this suit in the above entitled court on or before

Monday, the 23d day of May, 1898, that being the first day of the next regular term of said circuit court following the expiration of the time prescribed in the order heretofore made for the publication of said summons; and if you fail to appear and answer said complaint, for want thereof the plaintiff will apply to the court for the relief prayed for therein, to wit: for a decree forever dissolving the bonds of matrimony heretofore existing between the plaintiff and defendant, and that plaintiff may retake and assume her maiden name, and for such other and further relief as the court may deem just and equitable.

The service of this summons is made upon you by publication thereof in the Hood River Glacier, a newspaper of general circulation, published weekly in Wasco county, Oregon (by order of Hon. W. L. Bradshaw, Judge of said court, which order was duly made at chambers, in The Dalles, Oregon, on the 6th day of April, A. D. 1898), for seven consecutive issues thereof.

JOHN LELAND HENDERSON, Attorney for Plaintiff.
