FRIDAY, MAY 20, 1898.

LATEST WAR BULLETINS.

WASHINGTON, May 18.—There has been no meeting yet between the hostile fleets in the neighborhood of Cuba. That was all that could be learned this morning at the navy department. If the department is aware of the location of the Spanish squadron, it is carefully concealing the fact.

Secretary Long this afternoon said: "It can be stated positively and officially that the Oregon is safe, but it cannot be properly made known where she is."

There is a reason to believe that the department was informed today that the Oregon had joined Sampson's fleet, though no official admission on this point has yet been made. It is believed the big battleship left Bahia on the 10th, or the morning of the 11th. The same average speed made on the way around Cape Horn would place her in the Windward passage today.

The complete isolation of Blanco from the outside world is now looked upon by the leading military and naval authorities as an essential move, and steps, it is said, will be taken immediately to cut the cables which leave Cuba at Santiago.

The cruiser Charleston got under way from Valjejo for Manila shortly after 10 o'clock this morning. Portland, May 19.—Sampson now has full sway. All restriction as to his movements are removed.

Bismarck says that we are wrong. He condemns the war outright and says we are insincere.

Gladstone died at 5 o'clock this morning.

From the Encampment.

THE DALLES, May 18, 1898.—Editor GLACIER: The delegation of G. A. R. and W. R. C. who intended to take passage by boat from Hood River to the Dalles to attend the encampment, met in the waiting room of the O. R. & N. and adopted the following resolution:

"Resolved, That we will travel to the Dalles by railroad for the following reasons: 1st. that we consider navigation on the Columbia exceedingly dangerous and uncertain and that the steamer Dalles City has been almost wrecked by wind and wave and that the Regulator has been seriously strained by overcrowding of G. A. R.'s; 2d, that the trip promises to be damp and detrimental to health; 3d, that our wife has a horror of sea-sickness; and, 4th, that the boat landed at the upper landing, a mile or more above where we were bravely waiting to risk all afore-said evils in order to prove our devotion to the cause of Fraternity, Charity and Loyalty, and as we could not wade or fly, we failed to get aboard."

Our thanks are due to worthy fraternal friends who made our waiting on the train so pleasant that we thought we were fortunate in being left. The encampment promises to be a complete success. We missed the mayor's address of welcome, which he thought was our good fortune.

The parade was regarded as the finest in the history of the organization.

Capt. Jackson of Hood River caught the enthusiasm and marched arm in arm with Idenberg and Cunningham, the noisiest Yank in the crowd. "Remember the Maine" bridges all chasms. Come up and renew your youth.

The barkeep at our hotel has plenty of time to play cards with the boys; it's not a political convention. T. J. C.

The Fruit Grower's Poem.

Hon. T. R. Coon in Pacific Farmer gives some practical advice in regard to gathering and marketing strawberries. Lack of space prevents our publishing more than the closing paragraph: The packer should be an artist. Who does not admire a well-packed crate of strawberries as it stands ready to receive its covering? How we contemplate again and again the accurate facing, with no stem or calyx visible—the glossy berries arranged in rows around the edges, all peers in beauty. An indescribable joy fills our being as we look and read. It is a fruit grower's poem. There is no doubt this kind of poetry has a commercial value. When fruit consumers can choose between poetry and prose it is remarkable how many prefer the poetry and are willing to pay a premium to get it. A dealer of long experience, in commending the fruit of a certain grower, said: "If the

fruit grower in Western America will ever learn that there is more in packing fruit than in raising it, then, and not till then, will there be profit in the crop."

Judge Bradshaw.

A correspondent of the Mountaineer pays this deserved tribute to Judge Bradshaw, candidate for circuit judge: His record is before us all. He has been tried and found faithful to the great trust imposed upon him. He dealt out justice fairly and firmly. He has manifested a profound knowledge of the law, even in the most intricate complications. His capability of judging of the merits of complicated legal technicalities is indeed admirable.

Portland did herself proud in the ovation given to the Oregon volunteers on their departure for the war on Monday. Business houses closed and the population turned out en masse to do honor to the brave men who have gone at their country's call. Flowers were strewn in the way of the soldiers as they marched to the union depot and were cheered by the throng.

The Revolutionary war cost \$135,193,703 and 30,000 lives; the war of 1812, \$107,159,000 and 2,000 lives; the Mexican war, \$74,000,000 and 2,000 lives; the Indian wars and other minor wars, \$1,000,000,000 and 49,000 lives, and the war between the states, \$8,500,000,000 and 544,000 lives.

To Cure Constipation Forever.

Take Cascarets Candy Cathartic. 10c or 25c. If C. C. C. fail to cure, druggists refund money.

Hairy Vetch.

Hairy Vetch, or vicia villosa, succeeds and it is said produces good crops on poor, sandy soils as well as on good land; grows to a height of four to five feet. It is perfectly hardy throughout the United States, remaining green all winter, and should be sown in the spring mixed with oats, spring rye or barley, or during August and September with winter rye, which serves as a support for the plants. It is the earliest crop for cutting, being harder and nearly a month earlier than scarlet clover. It is exceedingly nutritious, eaten with relish and may be fed with safety to all kinds of stock.
