They were standing before the white-aproned dispenser of refreshments, says a Chicago exchange, and one of the three invited the entire party to have something. The dispenser dealt out the order of the three, took the dollar offered in payment and handed back 35 cents in change. The other two, standing a short distance away, were not served, as there was a mistake on the part of the cashier. The bill amounted to less than a quarter according to the refreshments served the three. The host examined his coin and then looked surprised and grieved.

'I gave you a dollar, he said. "Was it a dollar? How much change did I give you?"
