A carload of apple boxes was shipped from Smith's box factory, last week, to Idaho, and another carload is being made up to go in the same direction. R. P. Zelguth of Mt. Hood made final proof on his homestead at The Dalles last Friday. H. H. Tomlinson and O. Frodenburg were his witnesses. The following parties will start tomorrow for the hop fields of Yakima: I. C. Nealeigh and family, Mrs. Pierce and family, S. E. Wheeler and family, and Robert Foley. Mrs. Bartness has canned with the Acme Steam Canner over 100 quarts of fruit, peas, beans and fish without the loss of a single jar. Call and see the canner at S. E. Bartness. Brosius has placed the professional accounts of Dr. Brosius in the hands of Judge Kent for collection. All interested will please take notice. Mr. J. C. Holmes and family, who have been summering in Hood River and stopping at Mrs. Alma Howe's, returned to their home in Portland on Tuesday. Mr. Holmes is county clerk of Multnomah county. The editor was called on Saturday last, to witness a surgical operation performed by Dr. Ed Williams upon one of Ed Underwood's big and luscious watermelons. The operation was successful and proved satisfactory to all who witnessed it. Hon. W. P. Watson shipped two crates of peaches to Spokane at his own expense to advertise Hood River and show the fine quality of peaches that can be grown on sandy soil without irrigation. Mr. Watson claims to be the pioneer peach grower of the valley. Mr. H. H. Tomlinson of Mt. Hood has sold one-third interest in his saw mill to Bert Sandman, and the new firm will put in a turbine wheel and increase the capacity of the mill four times. Their single mill will also be put in full operation and will make shingles enough to supply the entire valley.

Amos Underwood and John Dark brought some rich specimens of quartz from their mine at McCoy creek. They report that big fires were burning while they were in the gulch, and the smoke was so heavy that it darkened the sun. The fire swept a section of country 20 miles long and 10 miles wide, from Nigger Head Rock to Table Rock on Lewis river. Mr. Underwood suggests that sheep men should sow grass seed in this big burn and it would make a good range for sheep.

Ralph Savage and Sam Elliot returned on Monday from a trip to Mount Adams, and succeeded in reaching the summit of that lofty peak August 28th. They made the ascent in 8 hours and 40 minutes from their camp just below the snow line. The book kept by the Mazamas in a copper box on the top of the mountain was missing and a small memorandum book was left in its stead. The neighboring snow peaks could all be seen and the view was magnificent. Mr. E. Quackenbush made the descent on the 27th.

Dr. Hines delivered his farewell sermon in the Methodist church last Sunday. The discourse was merely an informal talk to the congregation, in which he spoke feelingly of the friendships he had made during his two year's residence in Hood River and of his regret in leaving here. The Dr. and his estimable wife will occupy their home at University Park.

Mr. Fred Bailey had picked up and shipped 102 crates of blackberries up to Monday last from one-quarter of an acre of two-year-old vines, this being his first crop. He thinks there are 25 crates yet on the vines and that he will have blackberries till frost comes. The berries are of the Snyder variety and so far have netted him about 75 cents a crate.

The letters of Clarence English, from the Philippines, are always interesting. He is now on detached service at the general's headquarters, drawing maps, at which work he is proficient. He sent his mother a sketch of the barracks in which the Oregon regiment is quartered, which is well executed and shows that the boys have a nice place to stop in.

Dr. E. T. Carns was attacked with hemorrhage of the lungs on Monday and has since been lying in a critical condition at the Mt. Hood hotel, where he is attended by Dr. Shaw. Dr. Hollister came down on Thursday to consult with Dr. Shaw in regard to the case. Dr. Carns' better friends hope that he will soon be many again.

Hershner is expected home from his vacation today, Thursday. Dr. M. A. Jones will be in Hood River September 5th and 6th. What are you going to do with your prunes?

Corn Glucose, 4 1-2c per lb! The Glucose Sugar Refining Co. will soon issue a circular announcing it will sell rubber made from corn at 4 1/2c per pound.—Boston Daily Record.

With rubber made from corn and shoes made from paper, it would be harder than ever to pilot a successful shoe business.

Corn rubber may be all right, but PAPER SHOES NEVER! WE DON'T HANDLE THEM! We have good shoes at surprisingly low prices, much better than you would expect for the money. Also have the best shoes that money can buy, such as MAYER'S SCHOOL SHOES—prices higher in \$ \$ \$ and c c c, but cheaper in fact; and Rich's Julia Marlowe's, none better made.

## THE PEOPLE'S STORE.

A Hood River youth, while sitting in the depot Wednesday, annoyed a visiting passenger by shuffling his feet on the floor. The passenger stood the disagreeable noise as long as he could and then offered the boy a nickel if he would keep the racket up for half an hour. The boy accepted the offer and for half an hour he watched the clock and shuffled his feet, grinning the while and letting on as if he was having a glorious time. The passenger cheerfully gave the nickel for a dollar's worth of fun.

Bradley, photographer, has lately been at Viento taking views of that interesting locality for the Oregon Lumber Co.

Mrs. Stella Galvin, who has been visiting Mrs. May and family, left on Wednesday for her home at Toledo, Wash.

Sam Blowers is home from Sumpter. He says Sumpter is a lively town and a good place for business, but thinks there is no place like Hood River for a place of residence. Lawrence Blowers is prospering.

Charles J. Bradley of Montana is visiting his brother, D. Bradley.

Now that You are Putting Up Fruit The following letter will be of interest. The Williams & Brosius:

Belvidere, Ill., May 14, 1897.—Dear Sir: Some time ago I sent you a glass of jelly that had paraffine wax on top of it. My wife used wax last year to cover all her jelly and with the best results. It is a good deal quicker to apply than paper; also keeps the jelly from molding and growing tough on top. As you noticed, this jelly I sent you was as soft and nice on top as at the bottom, and if it had been covered with paper it would have been tough and leathery and very likely moldy. Our mode of application is to pour about 1/2 inch of melted wax over the top of the jelly and set it away for use. The glass I sent you was between 9 and 10 months old. J. S. JOSLYN.

## A Critical Time.

The packers at the battle of Santiago de Cuba are all heroes. Their heroic efforts in getting ammunition and rations to the front saved the day. P. E. Butler of pack train No. 3, writing from Santiago de Cuba, on July 23d, says: "We all had diarrhoea in more or less violent form, and when we landed we had no time to see a doctor, for it was a case of rush, and rush night and day to keep the troops supplied with ammunition and rations, but thanks to Chamberlain's Colic, Cholera and Diarrhoea Remedy, we were able to keep at work and keep our health; in fact, I sincerely believe that at no critical time this medicine was the indirect savior of our army, for if the packers had been unable to work there would have been no way of getting supplies to the front. There were no roads that a wagon train could use. My comrade and myself had the good fortune to lay in a supply of this medicine for our pack train before we left Tampa, and I know in four cases it absolutely saved life." The above letter was written to the manufacturers of this medicine, the Chamberlain Medicine Co., Des Moines, Iowa. For sale by Williams & Brosius.

Mr. W. H. Bishop came home from Moro last week.
