

Eat in Haste

And suffer at leisure. When your abused stomach can no longer cheerfully and properly perform its duties, a few doses of Hood's Sarsaparilla are like fresh water to a withered plant. This medicine tones the stomach, restores digestive strength, creates an appetite and with a little care in diet, the patient is soon again in perfect health. Try it and you'll believe it.

New French Microphone.

A new microphone is being exhibited before the French Academy of Sciences. It detects at a great distance the approach of a ship, whether an armored vessel or a torpedo boat, and gives its warning with great clearness. It is to be subjected to tests at Cherbourg. Some years ago Commander Banaro proposed an instrument which he called a hydrophone and by which he was able to hear at a distance of a mile or a mile and a half vibrations produced by a screw of a torpedo boat, or the more regular beat of the screw of a large battleship. It consisted of a water-tight box, the vibratory plate being inside to prevent the pressure of the water from acting upon it too directly. The wires from the transmitter were carried first to a float to make sure the transmitter would be continually immersed; from the float the wires were carried to a receiver on a ship or on the shore. Thus with two or three miles of wire it became possible to receive warning of the approach of a vessel from four to five miles distant.

Steel Sleepers in Switzerland.

The St. Gothard Railway Company, in Switzerland and Italy report very satisfactory results from the use of steel sleepers on their lines. In 1882, when the road was opened, it was laid with wood sleepers, but as these have had to be replaced, it has been done with steel instead, and at the present time 70 per cent of the road is laid on steel ties. The sleepers weigh 163 pounds each, are 8.65 feet long. The cost, when new, with attachments, is \$1.95, which, allowing for the value of the old material and the cost of laying, is reduced to \$1.62 per sleeper, which is a saving of 7 per cent over wood sleepers. The line is a heavy one, and the trains are hauled at express speed. The engines weigh 100 tons each. The cost of steel ties in the end is less than that of wood. In tunnels, wooden ties are preferred, as they are not liable to rust, but in other places the deterioration due to rust is absolutely insignificant.

TO MRS. PINKHAM

From Mrs. Walter E. Budd, of Patchogue, New York.

Mrs. Budd, in the following letter, tells a familiar story of weakness and suffering, and thanks Mrs. Pinkham for complete relief:

"DEAR MRS. PINKHAM:—I think it is my duty to write to you and tell you what Lydia E. Pinkham's Vegetable Compound has done for me. I feel like another woman. I had such dreadful headaches through my temples and on top of my head, that I nearly went crazy; was also troubled with chills, was very weak; my left side from my shoulders to my waist pained me terribly. I could not sleep for the pain. Plasters would help for a while, but as soon as taken off, the pain would be just as bad as ever. Doctors prescribed medicine, but it gave me no relief.

"Now I feel so well and strong, have no more headaches, and no pain in side, and it is all owing to your Compound. I cannot praise it enough. It is a wonderful medicine. I recommend it to every woman I know."

TROOP TRAIN WRECKED.

Two Soldiers Killed and Five Badly Hurt.

Birmingham, Ala., Aug. 30.—Two enlisted men of the Sixty-ninth New York volunteers were instantly killed, and one was fatally and four seriously injured in a wreck which occurred on the Louisville & Nashville, near here, tonight. The killed are: Peter Farley, private, company G, New York city. Frank Glennon, quartermaster sergeant, company G, nephew of Colonel J. E. Duffy.

The train was carrying the Sixty-ninth New York to its new camp at Huntsville. It left Fernandina, Fla., at 1 o'clock yesterday afternoon, three or four hours after the time set for its departure. The train wrecked was the first section. It was going at a high rate of speed. Ten miles north, the engine and tender jumped the track, derailing five cars, which rolled down a steep embankment. The soldiers claim the train was running too fast around a curve. The injured were brought here, and are being given every attention at the infirmary.

STARVING IN THE STREETS.

Death of the Niece of the Queen Regent of Spain.

Washington, Aug. 30.—Wanda Von Speno Bodenback, claiming to be the niece of the queen regent of Spain, the baroness and count of Stirenburg, Austria, and heir to the throne and sole heir to a fortune of 20,000,000 francs, is dead in New York.

Baron P. de Lange, of Austria, is authority for this statement. He visited the Thirty-seventh street police station today and exhibited a certificate signed by Dr. McGregor to the effect that Wanda Von Speno Bodenback had died of heart disease Saturday morning. The baron explained to the police that two days ago he accidentally met Wanda Von Speno starving in the streets of New York. The story he told was to the effect that the parents of the girl, who was 18 years of age, betrothed her from infancy to an old man. She ran away with a handsome young man, a member of one of the highest social families of Russia. In this country her lover deserted her. Not understanding English and unable to make a living, she slowly starved to death.

The Baron de Lange says the girl died of a broken heart. She had been so weakened by her terrible experience that she could not stand the ordeal of meeting her old friend.

GOVERNOR MATTHEWS.

Fingale, Ind., Aug. 30.—At 6:30 o'clock this morning, at the quiet Meaharry homestead, where he was taken immediately after his sudden affliction, ex-Governor Claude Matthews passed away peacefully, surrounded by his wife and all the other members of his immediate family. There was a prayer service, accompanied by the singing of hymns, at the bedside of the dying ex-governor.

Mrs. Matthews was very much affected, and stated that she would give anything in the world if her husband would manifest, by a single word, his faith in Jesus. In the course of the service, asked the dying man if he believed in Jesus. The answer was as plain as anyone could articulate. It was "Yes."

The three physicians regarded this as miraculous, as all agreed that the particular brain affected by paralysis was that governing the speech, and the governor would have probably never talked had he lived. It was the only word he spoke after he was stricken. He immediately lapsed into a profound coma, from which he did not recover.

SICKNESS IN THE ARMY. Efforts to Improve the Condition of the Soldiers—Governor Hastings Plan.

Cincinnati, O., Aug. 30.—About the middle of last week, Governor Hastings, of Pennsylvania, raised \$5,000 in cash in 30 minutes in Philadelphia to equip a hospital train to bring home the sick of Pennsylvania regiments from Chickamauga. A train of 18 hospital cars was equipped and started for Chickamauga, with astounding promptness. Tonight it arrived homeward-bound with 211 Pennsylvania soldiers, 15 New Yorkers, one Ohio and one Rhode Island soldier, and left with its overjoyed freight an hour later for Pittsburgh. Both on the down trip and the return, Governor Hastings devoted his personal attention to all the details of transportation. Arriving at Cincinnati tonight, he filed 164 telegrams to friends of soldiers, and to those preparing for their reception in Pennsylvania. At Chickamauga yesterday he took the sick from hospitals, against the protests of officials, who wanted them to wait for a transcript of their muster-rolls. Fourteen soldiers, too ill to leave, were left in the Red Cross hospital.

Poisoned at a Barbecue. Hillsboro, Mo., Aug. 30.—Over 80 persons were poisoned at a barbecue given at Morse Hill, and but for the prompt action of doctors, it is probable several deaths would have occurred. Over a score are in a serious condition. It is believed some one placed paris green in the meat.

May Be Investigated. Washington, Aug. 30.—A report was in circulation today that Surgeon-General George M. Sternberg, of the army, had asked Secretary Alger to order a general investigation of army department of the army. Secretary Alger said tonight that such a request had not reached him, and Surgeon-General Sternberg refused to say whether he had asked or intended to ask for a general investigation of his department.

Chronic Rheumatism.

From the Industrial News, Jackson, Mich.

The subject of this sketch is 56 years of age, and actively engaged in farming. When 17 years old he hurt his shoulder and a few years after commenced to have rheumatic pains in it. On taking a slight cold or the least strain, sometimes without any apparent cause whatever, the trouble would start and he would suffer the most excruciating pains.

He suffered for over 20 years, and the last decade has suffered so much that he was unable to do any work. To this the frequent occurrences of dizzy spells were added, making him almost a helpless invalid.

In all Sorts of Weather.

He tried the best physicians, but without being benefited and has used several specific rheumatoid cures, but was not helped. About one year and six months ago he read in this paper of a case somewhat similar to his which was cured by Dr. Williams' Pink Pills, and concluded to try this remedy.

After taking the first box he felt somewhat better, and after using three boxes, the pains entirely disappeared, the dizziness left him, and he has now for over a year been entirely free from all his former trouble and enjoys better health than he has had since his boyhood.

He is loud in his praises of Dr. Williams' Pink Pills for Pale People, and will gladly corroborate the above statements. His post office address is Lorenzo Neely, Horton, Jackson County, Michigan.

All the elements necessary to give new life and richness to the blood and restore shattered nerves are contained in a condensed form, in Dr. Williams' Pink Pills for Pale People. All druggists sell them.

Who the Carlists Are.

A number of readers are curious to know what is meant by the frequent reference to the fear of a "Carlist uprising" in Spain. At the death of King Ferdinand of Spain, in 1833, his 3-year-old daughter, Isabella II, succeeded to the throne, though Carlos, Ferdinand's brother, claimed to be entitled to the honor under the salic law, which provided that no female should go to the throne as long as any male descendant of the King was living.

This law, however, had been revoked by Ferdinand, who had no children at the time, but six months after his death a daughter was born, and she became queen to the exclusion of Carlos. The Carlists, hence, who are called Carlists, have since persistently insisted that, by right of succession, the throne belongs to them, and for over 50 years Spain has been subject to Carlist uprisings, which have simply meant a number of unsuccessful wars, the destruction of property, and general public unrest. The Carlists have found their strength in what are called the Basque provinces, dominated mostly by the clergy, who believe in the divine right of kings and of kingly succession. The inhabitants of the Basque region are largely shepherds and farmers. They are good fighters, and have been the main strength of the Carlist forces. A strong sentiment in favor of a republic exists in the cities, where the people have been led to independent views by education, reading and travel. It is unnecessary to say that between what are called the Republicans and the Carlists there is a strong antipathy, for their aims are radically different. In 1873 Spain was a republic, and the people owe to that brief period of a republic government many of the liberties which they now enjoy.—Leeds Weekly.

HAS NOT SLEPT FOR FIVE YEARS.

It is reported that a man in Indiana has not had a hour's sleep for five years. He constantly walks about, unable to rest, and is now little more than a skeleton. Not a single locomotive in the United States has been provided with this gas, which is rather a surprising thing, considering the fine light it gives.

To Renew the Lobster Supply.

The United States government is making great efforts by scientific propagation to restock the coast waters of Maine with lobsters, says a Bangor dispatch in the New York Sun. The United States fish commissioners' schooner Grampus, which has been at work along the coast for several months, has collected 1,750 seed lobsters from which 18,000,000 eggs have been obtained and hatched out at Gloucester, Mass. Of these fry about 5,000,000 have been released in Casco Bay and others are to be distributed at various places from Portland eastward.

The fry are very small, but through the thin and transparent shell can be seen the perfectly formed lobster with the eyes especially prominent. Constant changes of water are necessary to keep them alive. It is likely that a lobster hatchery will soon be established on the Maine coast, and before many years these shellfish will be as plentiful and cheap as ever they were.

DEAFNESS CANNOT BE CURED.

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; none cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
