## BRIEF LOCAL MATTERS.

Two joints of stovepipe for 25c at Denzer's. Miss Mary Underwood of Dufur is recovering from an attack of scarlet fever. Rev. Frank Spaulding went to Wasco on Monday to bring his family to Hood River. Mrs. C. T. Early of Viento has been visiting friends in Hood River during the past week. Rev. J. W. Jenkins will preach at the Valley Christian church next Sunday, both morning and evening. James Wishart, who broke his leg at Viento, about three weeks ago, and is now at his home at Mt. Hood, is improving nicely. E. H. Pickard, painter and decorator; estimates gratis; prices moderate; satisfaction guaranteed. Leave orders at Glacier pharmacy. Mr. and Mrs. William Rogers returned to their home at Salem on Tuesday, after a pleasant month spent with relatives in Hood River. Judge Wm. Adams, son of Dr. W. L. Adams, who has been successfully mining on the Upper Yukon for several years, has decided to locate permanently in Dawson City. Mrs. Bartness has canned with the Acme Steam Canner over 100 quarts of fruit, peas, beans and fish without the loss of a single jar. Call and see the canner at S. E. Bartness. E. D. Calkins returned from his Kluckit ranch on Sunday. He sold most of his hogs before he got started home with them. He says hogs are in great demand in that section. A certain fruit grower, who is too modest to let his name appear in print, with the help of his two oldest boys, Lula and Helen, picked and marketed over one ton of peaches last week. Cards are out for the wedding of Miss Anna Roberts and Mr. G. R. Stevenson, at The Dalles, September 22d. Miss Roberts is well known in Hood River. Mr. Stevenson is an extensive hop grower at Fulton, Oregon. Mr. Geo. T. Prather will attend to boxing and shipping samples of Hood River fruit and other products for the Portland exposition. Hood River will have room assigned for its products if they are gathered and forwarded. The pain of a burn or scald is almost instantly relieved by applying Chamberlain's Pain Balm. It also heals the injured parts more quickly than any other treatment, and without the burn in every case. It does not leave a scar. For sale by Williams & Brosius. S. W. Curran of Viento was in town on Monday on his way to Walla Walla to purchase teams to work on the railroad at Viento. He says ten men can get work for all winter, at \$1.75 a day, by applying at Dollarhide's camp at Viento. Board costs 60 cents a day. Mr. John Koberg brought in some samples of corn on Monday which he will send to the Portland exposition. There were eight or nine stalks that measured 18 feet in height, with massive ears containing 24 rows of kernels. The corn is the Early Mastodon variety. The samples would be hard to beat on the rich bottom lands of the Mississippi valley. Hood River still leads. The case in the county court on Monday, in regard to the petition asking for the annulment of the lease of Hood river to the Hood River Lumbering Co. called a good many of our citizens to the county seat. Among those who boarded the morning train on Monday were the following: W. J. Campbell, Judge L. Henry, C. L. Copple, Aud Winans and wife, C. A. Bell, Grant Evans, Elmer Rand, W. J. Smith, G. J. Gessling. Mr. B. Warren returned from his trip to Yakima last Sunday evening. He went there to look after his son William, who, it was reported to him, was acting in a manner not becoming the training he had received in a Christian home. Mr. Warren was glad to learn that the reports being circulated were mostly false. His son returned home with him. He would like the malicious falsehoods to stop, and if they are not stopped he may ask somebody to prove what has already been said. Mr. Warren found the Yakima country prosperous, but says it has its drawbacks, and he still likes Hood River better than any place he saw in his travels. A good deal of the Yakima country is covered with swamps and malaria is plentiful.

The watermelon social, given Tuesday evening at the home of Mrs. A. B. Canfield by the Congregational church, was a very pleasant affair. The time was passed in social conversation, and with a short musical programme of vocal and instrumental selections. A spelling match was given, the winner to get a prize from Mrs. Canfield, but the last six spellers missed the word caret—a mark over a letter—and the prize could not be given. After this the ladies served large slices of luscious watermelon. The evening's receipts amounted to about \$7. The funeral of Richard Gibbons, last Friday, was well attended by friends of the family. Interment was had in Idlewild cemetery. The deceased was 21 years old and died of consumption. Last spring he went to New Mexico, hoping to regain his health, but he was too far gone with the dread disease, and about a month ago he came home to die. The afflicted parents have a son with the Oregon regiment at Manila. Mr. Archibald A. Scheick of New York City will arrive in Hood River tomorrow. Mr. Scheick has been on the coast for a month or more. He owns considerable real estate in Hood River and always takes a deep interest in the affairs of the valley. He keeps posted by reading the GLACIER every week. Mr. W. R. Winans brought in samples of peaches grown on his place at the falls of Hood river. It has been a mooted question whether or not peaches could be grown that high up in the valley, but the samples he brought to town show that he can grow most excellent peaches. Mr. C. L. Copple went to Portland Thursday and returned the same day with Miss Daisy Cornell, who just recently has been able to leave the Good Samaritan hospital, where she has been under treatment for injuries received in a railroad accident in Colorado about a year ago. Mrs. Frazier, department president of the W. R. C. for Oregon, has written to Mrs. Cunningham stating that she would be here to inspect Canby W. R. C. on Sept. 28th. It is suggested that it would be a good plan to also hold the camp fire on the same date. Mr. Eugene Bush, ex-candidate for city marshal, ex-doorkeeper at the 4th of July celebration, etc., etc., will go to Portland next week and may remain there all winter. Eugene has been in Hood River for more than 20 years and is known by everybody. Miss Mella White of Cromley, Or., who will teach the 6th and 7th grades in Hood River public school, arrived on Tuesday evening. She is a graduate of the state normal school at Monmouth, and has had considerable experience in teaching. Mr. H. Haynes and Mr. Stayton, recently from Salt Lake, were in the valley last week, looking for a location. Mr. Haynes is a veteran of the civil war and served in the Second Pennsylvania cavalry. Dallas & Spangler are not getting excited over the prospects for the big mill, but are going along in the same old way selling goods every day to their many customers at the same old bedrock prices. Bob Wright, who is an old logger and has had a good deal of experience in driving streams, says he will endeavor to drive the logs in Hood river for the new mill company for 50 cents per 1,000 feet. When you would like to have a neat job of cobbling done, take your shoes to Welds, the veteran shoemaker, who learned the trade and can do as neat a job as you could wish for. Every man to his trade. The GLACIER forgot to mention last week that the Racket Store had a new porch. The old one was worn out by the Cuban junta that held all-day sessions on it during the first part of the war. If you know you are carrying around \$1.50 or more that belongs to the GLACIER don't be afraid to bring it in and get a receipt for it. We are able to stand a little prosperity. Mr. R. Pealer is still suffering from the effects of the grip. He wants to rent part of his farm and will give the right party a bargain, with a house to live in. Messrs. Hans Lage and Chris Davenport will start next Sunday for Des Moines, Iowa, to visit their old homes, and will be gone about a month. Mr. F. B. Barnes left on Wednesday for Wabam, where he has been engaged as principal of the Wabam school. He will have two assistant teachers. Mr. Steve Stensberry and wife, who have been guests at Paradise farm for two or three weeks, returned to their home in Portland yesterday. Mr. W. H. Bishop returned to Moro last week, and we see by the Moro papers that he has contracts for building two houses at that place. Charley Lloyd has returned to Hood River and is stopping with Tom Wickens. Charley has been in the Palouse country for some time. Mr. John Kelley brought to the GLACIER office some fine samples of his Gravenstein. Wealthy and Monmouth pippin apples. Wm. Kennedy has been appointed supervisor of road district No. 5, in place of Dan Smith, who removed to Illinois. Prof. P. A. Snyder started on Tuesday for Prineville, where he has been selected for principal of the public schools. Misses Ida Foss and Bess Isenberg will go to Monmouth to attend the state normal school, which opens Sept. 20th. Howard Isenberg has been appointed clerk for Chief Surgeon Cardwell at General Merritt's headquarters, Manila. Geo. F. Fisher and wife of Chenoweth came over on Sunday. Mr. Fisher went to Portland Monday. Mr. Claude Copple will start today for Eugene, where he goes to pursue studies in the state university. Copple's cash store is paying 20c a dozen for eggs in trade. White Rose flour 90c a sack. Miss Margarette Shelley commenced her second term of school at Kingsley last Monday. Wm. Yates, P. M., is authorized agent for all newspapers and periodicals. Miss Emma Cunningham is visiting her sister at Mt. Moriah, Mo. J. H. Shoemaker's fruit dryer is running full blast on prunes. M. V. Rand and family are moving to town for the winter. If you need building material, call on Denzer for prices. Miss Madge Warren returned from The Dalles, Tuesday. Regular meeting of Eastern Star tomorrow evening. See Denzer's new ad.

## What Next?

### Corn Rubber, 4 1-2c per lb!

The Glucose Sugar Refining Co. will soon issue a circular announcing it will sell rubber made from corn at 4 1/2c per pound.—Boston Daily Record.

With rubber made from corn and shoes made from paper, it would be harder than ever to pilot a successful shoe business.

Corn rubber may be all right, but PAPER SHOES NEVER! WE DON'T HANDLE THEM! We have good shoes at surprisingly low prices, much better than you would expect for the money. Also have the best shoe that money can buy, such as MAYER'S SCHOOL SHOES—prices higher in \$\$\$\$ and c c c, but cheaper in fact; and Rich's Julia Marlowe's, none better made.

## THE PEOPLE'S STORE.

Chaplain McCabe will lecture on the "Bright Side of Life in Libby Prison" at The Dalles, Sept. 22d. An effort is being made to have the bishop deliver his lecture in Hood River. Roy Shoemaker returned home from Goldenude yesterday. The Hood River Cannery. The Davidson Fruit Co. has canned over 400 cases of fruit, or about 10,000 quart cans, since starting their cannery last May. The company has put up strawberries, blackberries, peaches and pears. Strawberries require the most labor and blackberries the least. Messrs. Davidson and Bateham have realized very little from their cannery venture so far, but they have learned a good deal. They had to experiment a good deal to learn the best processes of putting up the different kinds of fruit. The expert they employed to give them instruction knew the business thoroughly but he had a habit of striking for higher wages whenever he thought his employers needed his valuable services the most. Over \$100 worth of his work spoiled and had to be thrown away. Blackberries, supposed to be the most difficult of all the fruits to can, are now put up without the loss of more than two or three cans in a thousand. Next season the cannery will be better prepared and able to handle more fruit. They intend to can more blackberries, and Mr. Davidson says the company can afford to pay 2 cents a pound for the fruit. After the price goes down in the Montana markets before a profitable figure for shipping, our fruit growers will still be able to realize something on their blackberries by bringing them to the cannery. The company intends by another year to have a fruit dryer in operation with capacity sufficient to dry all the prunes in the valley. The label that decorates the cans of the Davidson Fruit Co. is a thing of beauty and must add materially to the sale of the fruit. The company finds it can put up fruit for \$3 a case, f. o. b.

**Hattie Bell Wrecked.**  
While attempting to enter the locks on Tuesday, the Hattie Bell, a steamer of the D. P. & A. N. Co. had leased for temporary use, was caught in a swell and forced against the Oregon shore almost at the same spot the Regulator was wrecked some time since. The steamer carried a good number of passengers and considerable freight, but all on board was saved. Capt. Hossford, owner of the vessel, was at the wheel at the time of the accident and was successful in beaching the boat so that the 75 passengers could get off safely, but the freight is all under water. However, there is a scow near the wreck, on which the freight can be loaded and saved. It is feared the boat is a total wreck, as it is down so that the water is several feet deep on the lower deck, and the current is very swift, so that the hull is liable to be beaten to pieces on the rocks.
