The packers at the battle of Santiago efforts in getting ammunition and rations to the front saved the day. P.E. Butler of pack train No. 3, writing from Santiago de Cuba, on July 23d, says: "We all had diarrhoea in more or less violent form, and when we land-ed we had no time to see a doctor, for it was a case of rush, and rush night and day to keep the troops supplied with ammunition and rations, but thanks to Chamberlain's Colic, Cholera and Diarrhoea Remedy, we were able to keep at work and keep our health; in fact, I sincerely believe that at one critical time this medicine was the indirect savior of our army, for if the packers had been unable to work there would have been no way of getting supplies to the front. There were no roads that a wagon train could use. My comrade and myself had the good fortune to lay in a supply of this med-icine for our pack train before we left Tampa, and I know in four cases it ab-solutely saved life.
