THE ILLS OF WOMEN

And How Mrs. Pinkham Helps Overcome Them.

Mrs. MARY BOLLINGER, 1101 Marianna St., Chicago, Ill., to Mrs. Pinkham:

I have been troubled for the past two years with falling of the womb, leucorrhoes, pains over my body, sick headaches, backache, nervousness and weakness. I tried doctors and various remedies without relief. After taking two bottles of your Vegetable Compound, the relief I obtained was truly wonderful. I have now taken several more bottles of your famous medicine, and can say that I am entirely cured. Mrs. HENRY DORR. No. 806 Findley St .. Cincinnati, Ohio, to Mrs. Pinkham:

For a long time I suffered with chronic inflammation of the womb, pain in abdomen and bearing-down feeling. Was very nervous at times, and so weak I was hardly able to do anything. Was subject to headaches, also After do toring for many months with different physicians, and getting no relief, I had given up all hope of being well again when I read of the great good Lydia E. Pinkham's Vegetable Compound was doing I decided immediately to give it a trial. The result was simply past belief. After taking four bottles of Vegetable Compound and using three packages of Sanative Wash I can say I feel like a new woman. I deem it my duty to announce the fact to my fellow sufferers that Lydia E. Pinkham's Vegetable remedies have entirely cured me of all my pains and suffering I have her alone to thank for my recovery, for which I am grate ful. May heaven bless her for the good work she is doing for our sex."

PROGRESS OF CATAPHORESIS.

Medical Illustration of What Can Be Done With Electricity.

In dentistry no subject is more discussed than the painless filling and extraction of teeth. Regarding the former Dr. Thomas H. White, when seen in his office at 2711/2 Morrison street, near Fourth, said:

That teeth can be filled absolutely without pain is a positive fact, which is demonstrated most every day in my office. Teeth that are so sensitive that the patient cannot endure an instrument to touch them can be made thoroughly insensible to pain or feeling in from 10 to 20 minutes, and can be then filled or treated with ease. Yes, electricity is a great boon to mankind. Just think of taking the nerve out of a tooth in 10 minutes from the time of the application of the electricity without the slightest knowledge of it by the patient." The late method of bridge work invented by the brother of Dr. White is a great improvement

TORNADO AND FLOOD.

Swept-Property Loss Heavy.

Coasts of Georgia and South Carolina

Savannah, Ga., Oct. 4 .- For 15 hours, from 8 o'clock this morning until 6 o'clock tonight, Savannah has been in the grasp of a West Indian tornado. During the day the wind blew

atively little damage, the loss of property among the sea islands of the Georgia and South Carolina coasts is believed to be heavy.

For miles in every direction around Savannah the towns along the rivers are submerged. Only one fatality has so far been reported—the drowning of a negro while attempting to reach the land from a small island near Thunderbold-but heavy loss of life is feared on the South Carolina sea islands, where such fearful loss of life occurred during the great tidal wave of 1893. The conditions now are similar to those during that storm. Owing to the sub-merged country and the isolated location of the islands, no news can be had from them until the water subsides.

For eight miles north of Savannah the entire country is a lake, with only the hummocks visible. At noon the water was eight feet above the highest tide. Driven on shore by the northeast storm, it filled up on the islands, swept over banks, and dams, carrying away the remnant of the rice crop that was The nests of the termites or white left by the August storm, and had not been gathered, and wiping out farm The loss to ricegrowers alone will be from \$50,000 to \$75,000. Of the entire rice crop along the Savannah or diluted with pure air, is regarded river, valued at \$250,000, all but about 15 per cent was lost in this and the pre-

ANOTHER HORROR SHIP,

Surgeon Protests Against Overcrowding

Santiago de Cuba, Oct. 4.-Surgeon Major Seaman, of the transport Obdam, declares that there will be a repetition of the awful horrors that have characterized the voyage home of the other transports if more sick soldiers are sent on board the vessel for transportation to New York. He says that when the Obdam left Porto Rico many on board were sick, yet the first quartermaster refused to furnish wine for their use, but supplied them with hardtack and canned food, saying that he had no authority to furnish wine. Surgeon Seaman said he would hold him responsible should any deaths occur, and finally succeeded in obtaining suitable food for those who were ill. He asserts that the ship has every man that she can carry, and that if she reaches New York without any deaths occurring, she will be lucky.

Hearing that a number of other sick surgeon-major made a protest, and tickets, who stand on the street corners stated that he was informed by General Lawton that his protest showed lack of discipline, and that an officer had been appointed to see how many additional men the Obdam could carry. Surgeon Seaman says he will cable to Surgeon-General Sternberg a protest, disclaim. ing responsibility for whatever may happen.

Mayor McCleary, of Santiago, is endeavoring to compel the merchants to sell necessaries of life at reasonable

MILLION DOLLAR FIRE.

Serious Blow to the Town of Colorade Springs-Eight Blocks Burned.

Colorado Springs, Colo., Oct. 4. This city had a visitation of fire this afternoon which threatened for four hours to destroy the entire business district. The wind was blowing at the rate of 45 miles an hour from the southwest when the fire started at the Denver & Rio Grande treight depot, at the foot of Cucharis street, at 2:10 P. M., and the flames spread with great rapidity. A strip four blocks long from north to south, and two blocks wide from east to west, has been burned over, but at this hour the conflagration is believed to be under control. The cle, a hair receiver, or rather a new flames are still leaping high over the burnt district, but the wind has died gilt lined, and there's a hole in the low fishing fleets, and men on them down, and there is no doubt that the fire engines, which have come from Denver and Pueblo in response, to appeals for aid, will be able to confine the flames within the present limits.

The Antlers hotel, one of the largest in the West, three lumber yards and two blocks of business houses have been destroyed. In round numbers the loss is estimated at \$1,000,000, and insurance at one-half of that amount.

San Juan de Porto Rico, Oct. 8.-The meeting of the military commission yesterday was private, and no news was given out regarding what transpired. The American troops now occupy fully two-thirds of the island.

New Steamship Line.

Vancouver, B. C., Oct. 4 .- The Canadian Pacific railway will establish another trans-Pacific line. The steamers Tartar and Athenian, of over 4,500 tons, will run between Vancouver and Vladivostock, the termini of the trans-Canadian and trans-Asian lines, respectively. The Athenian will sail first, loading here and then proceeding to Seattle and Portland, where grain will probably be placed on

An Overworked Brain.

From the Record, Pierceton, Ind.

Determined to rise in his chosen profession as an educator, Ernest Kemper, of Pierceton, Ind., overtaxed himambitious, his mind was always on steadily from 50 to 70 miles an hour. his work. From early morn until late While the bity escaped with compar- at night he continually poured over his

"Burned the candle at both ends." constitutions, can keep up under such a strain.

In addition to his studies, Mr. Kemper was teaching school some three miles from his home. Finally, his excessive study and the exposure of going to and from school in all kinds of weather undermined his health.

He was taken to his bed with pneumonia and his overworked brain almost collapsed. For several weeks he was seriously ill.

Catarrh had taken root in his system and his mind was in a delicate condition. He was sent to Colorado where he spent three months without receiving any benefit. Then a noted special-

The time required for Niagara to cut its gorge has been variously estimated at from 7,000 to 35,000 years.

Latest for the Tollet Table. The newest arrangements for Milady's tollet table is that tiresome artivariation on it. It is of chased silver, Land-Crabs of Cuba.

These creatures are larger than a sea-crab, and live entirely on the land. They run with great speed, even outstripping a horse. At seasons of the year they migrate in large bodies from one side of the island to the other, in ielf mentally and physically. He was columns sometimes half a mile wide, and so dense as almost to stop a carriage on the road they may be crossing. These columns overcome every obstacle in their direct line of march, even high mountains. It is supposed that these Few persons, even with the strongest migrations are prompted by the instinct of propagation, as the crabs seek the sea shore, deposit their eggs, and cast off the old shell. These crabs are so common about the city of Matanzas that the inhabitants often receive the sobriquet of "cangrejo." They are frequently found in the houses, and in some cases even under the beds.

There is a species of conch which makes similar marches through the country in immense bodies. These are called pirates, from a very curious habit they display. This oreature, which resembles a snail, has the ability of detaching itself from the shell, which, for some reason, it temporarily leaves at times; and while its house is thus vacant, another, passiing, will back its body, tail foremost, into the empty shell, and keep possession.

The Pony Express.

At first the schedule was fixed at 10 days, an average of eight miles an hour from start to finish. This was out down to eight days, requiring an average speed of 10 miles. The quickest trip made was in carrying President Lincoln's inaugural address, which was done in seven days and 17 hours, an average speed of 10.7 miles per hour, the fastest time of any one rider being 120 miles, from Smith's Creek to Fort Churchill, by "Pony Bob," in eight hours and 10 minutes, or 14.7 miles per hour. Considering the distance and difficulties encountered, such as hostile Indians, road-agents, floods, and snowstorms, and accidents to horses began to improve. When he had taken and riders, the schedule was maintained to an astonishing degree. The service created the greatest enthusiasm not only among the employee, but also in the ranks of stage employes, plish. Mr. Kemper says his catarrh freighters, and reisdents along the has entirely left him; he is strong route. To aid a "pony" in difficulty was a privilege, and wee be to the man

Uncle Sam's Watch Doctor. At the United States naval observatory is an expert official at the head of a department-probably the most perfect of its kind in the world-whose duty is to keep in hand for the use of the navy thoroughly tested chronometers, a work which requires much care and attention six months in the year. For this purpose, says The New York Sun, a temperature room is connected with the chronometer and time service department, in which the testings are made, under the influence of a hydrometric condition of the atmosphere. Comparisons are made daily between 11 and 11:40 o'clock, morning, with the mean time standard clock, and the errors and rates are worked up once a week, from these mean rates calculations being made and comparisons to the nearest quarter of a second. The temperature is closely observed each day and recorded for the previous 24 hours by a chrnomethic thermometer, and by self-registering maximum and minimum thermometers. The room is heated by circulation of hot water, the fuel being gas, and is cooled by an ice refrigerator when a temperature is required below that of the outside atmosphere. For the six colder months the temperature room is kept within a range of two degrees.

It is said that western capitalists are con-templating the organization of a great bicycie company, which hopes to make first-class wheels and sell them as low as \$10. Whether this be true or not, the fact remains that Hos-tetter's Stomach Bitters is a first-class remedy for the stomach, liver and blood, and the price puts it within everybody's reach to be well and strong. For fever and ague it is a specific.

In Sweden there are floating canneries. They are small vessels, which follow fishing fleets, and men on them can the fish while they are fresh.

can the fish while they are iresh.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c..
