The pot hunters are again slaying the beautiful big gray squirrels that have come back recently to make their home in the woods near town. The man who would kill these pretty creatures, that do no harm to crops, is lost to all sense of the beautiful. They are not good eating, as they feed mostly on the burrs of the pine. The digger squirrels, which forage on fruit and farmers' crops of all kinds, are much better for the dinner pot.

Mr. Clyde T. Bonney has placarded the public roads in all directions with his advertisements, and has sent them as far as Mt. Hood, Mosier, White Salmon and Camas Prairie. By judicious advertising Mr. Bonney is making his business known far and near, and it all tends to build up Hood River.

When farmers come from a distance to bring their beef cattle and other products to Mr. Bonney's market, they learn that Hood River is a good place to trade in other lines, and they may be expected to do their trading here instead of going to The Dalles or Portland.

Belmont will celebrate Halloween by holding a social that is expected to outstrip anything of the kind ever held in that fun-loving and sociable community. Every one attending the social is expected to swipe the clothing worn on the occasion. The programme for the entertainment will consist of songs, and in place of recitations each one will give an account of how he or she managed to swipe the outfit of clothing in which they appear. Everybody is talking about the social, and it is bound to be a big success in point of numbers.

Swiping has already commenced, and it is said that one Belmont girl has lost her switch of chestnut-colored curls and has no idea who swiped it. It will be the greatest event in Belmont since the war broke the country up and scattered the Belmonters all around.

No-To-Bac for Fifty Cents. Guaranteed tobacco habit cure. Makes weak men strong, blood pure. 50¢. All druggists.

A well-known detective has said that no matter how perfect a man's disguise might be, certain technicalities in speech would disclose his identity. We don't suppose, for instance, that Mr. J. H. Shoemaker, by any assumption of wigs, costumes or cosmetics, could help remarking, "You understand the idea I mean to convey," nor that H. H. Bailey would cease to remark, "As the fellow says," nor his son Fred, "That is," nor Mr. P. Isenberg would say to his auditor, "Now I want to tell you," W. J. Campbell would insist on "laying all jokes aside," and Commissioner Evans would ejaculate, in his forcible manner, "Oh, rats!" And there are others.

The O. R. & N. is using a dredger to fill in the ravine at bridge 113 below Con Repp's place. A sand pump is being put in at bridge 114. Now, while you are talking about your big yields of spuds, let us hear from Hard-scrabble, or anybody who can beat the above.

How to Prevent Croup.

We have two children who are subject to attacks of croup. Whenever an attack is coming on my wife gives them Chamberlain's Cough Remedy and it always prevents the attack. It is a household necessity in this country, and no matter what else we run out of, it would not do to be without Chamberlain's Cough Remedy. More of it is sold here than all other cough medicines combined.—J. M. Nickle, of Nickle Bros., merchants, Nickleville, Pa. For sale by Williams & Brosius.

Three Doctors in Consultation.

From Benjamin Franklin.

"When you are sick, what you like best is to be chosen for a medicine in the first place; what experience tells you is the best, to be chosen in the second place; what reason (i. e., theory) says is best to be chosen in the last place. But if you can get Dr. Inclinatum, Dr. Experience and Dr. Reason to hold a consultation together, they will give you the best advice that can be taken."

When you have a bad cold Dr. Inclinatum would recommend Chamberlain's Cough Remedy because it is pleasant and safe to take. Dr. Experience would recommend it because it never fails to effect a speedy and permanent cure. Dr. Reason would recommend it because it is prepared on scientific principles, and acts on nature's plan in relieving the lungs, opening the secretions and restoring the system to a natural and healthy condition. For sale by Williams & Brosius.
