The Power of Thought.

The power in man to think is the essence of his soul. Thought can destroy, thought can save. Prentis Milford said: "Thoughts are things." Can you see this thought called things? Women eat so little and so irregularly that it is a wonder it has never occurred to Uncle Sam that they would make good soldiers.

THEY WANT TO TELL

These Grateful Women Who Have Been Helped by Mrs. Pinkham.

Women who have suffered severely and been relieved of their ills by Mrs. Pinkham's advice and medicine are constantly urging publication of their statements for the benefit of other women. Here are two such letters: Mrs. Lizzie Beverly, 258 Merrimao

St., Lowell, Mass., writes:

"It affords me great pleasure to tell all suffering women of the benefit I have received from taking Lydia E. Pinkham's Vegetable Compound. I can hardly find words to express my gratitude for what she has done for me. My trouble was ulceration of the womb. I was under the doctor's care. Upon examination he found fifteen very large ulcers, but he failed to do me good. I took several bottles of Lydia E. Pinkham's Vegetable Compound, also used the Sanative Wash, and am cured. Mrs. Pinkham's medicine saved my life, and I would recommend it to all suffering women." Mrs. Amos TROMBLEAY, Ellenburgh

Ctr., N. Y., writes: "I took cold at the time my baby was born, causing me to have milk legs, and was sick in bed for eight weeks. Doctors did me no good. I surely thought I would die. I was also troubled with falling of the womb. I could not eat, had faint spells as often as ten times a day. One day a lady came to see me and told me of the benefit she had derived from taking Lydia E. Pinkham's medicine, and advised me to try it. I did so, and had taken only half a bottle before I was able to sit in a chair. After taking three bottles I could do my own work. I am now in perfect health."

The past three weeks have brought about a very decided change for the better in grain freights, although there has been comparatively nothing doing from San Francisco. The bulk of the season's shipments will undoubtedly be made from Oregon, and it appears likely that Washington will come next, the yield of California grain being small in consequence of the drought. The increased activity has tended to harden freights, but on the whole changes during the month have been unimportant and the demand scarcely as great as previously.

So far, nothing has been done by the administration toward curbing the insurgents in their operations, save verbal representations from the American commanders to Aguinaldo, which it has been pointed out to him that it would be good policy, in view of the probability of the annexation of the islands by the United States, to pursue a course that would not be obnoxious to the United States. But the situation is now realized to be critical. So far as the Spaniards are concerned, perhaps they can be left to take care of themselves, but the foreign residents at Iloilo are differently regarded.

Character From Sorrow.

Over and over again the old truth omes back to us, that no man is good for much till he has suffered a great sorrow. The baptism of pain is one of the instrumentalities which God uses for purging away the dross of our natures and making us fit to be partakers of the inheritance of the saints in light. Not those who have escaped the flery trial, but those who have gone through are to be envied. God knows what is one affliction and then another upon us. Sometimes, because He sees it to be necessary, He lifts the very floodgates, and allows wave after wave of misfortune to sweep over us. If we have the right stuff in us, we shall be helped and not harmed by these seeming calamities. - Christian Advocate.
