FRIDAY, DECEMBER 9, 1898.

The president's message is a lengthy document. It gives a complete history of the war with Spain and the events as soon as peace is declared and other troops are sent to relieve us, but we are I cading up to it, and for this reason is well worth preserving as a work of ref-erence. The president gives no inti-some of us, but of the dimate is good for iters do not do so well. mation of his policy in regard to the government of our new possessions, government of our new possessions, but leaves that to congress, which body will have the matter to deal with. The as if they had fallen in battle, as they will have the matter to deal with. The recommendation of the secretary of war that the regular army be increased to 100,000 men is endorsed by the message, and the president says it is his purpose to muster out the entire volunteer army as soon as congress makes provision for the increased regular army. Altogether, the message is a good state paper from a president who does not attempt to dictate a policy, but is ready to carry out the wishes of the people, whose servant he really is.

An editor of a contemporary winds up an editorial, sayiug: "Having remembered the Maine without difficulty, will you please try and remember that year before last's subscription is still due?"

The GLACIER is in receipt of the general laws and joint resolutions and memorials passed and adopted by the late special session of the legistature, for which it is indebted to State Printer Leeds.

The results of judicious advertising are sometimes startling. A man advertised in a Eugene paper for a boy to learn the furniture business, and the next day his wife had twins, both boys.

Wm. Kennedy's Formula for Spraying. HOOD RIVER, Nov. 29, 1898 .- Editor GLACIER: Inclosed you will find the formula I used with success the past season in spraying, as follows:

Dissolve two pounds of commercial white arsenic and four pounds of carbonate of soda (washing soda) in two gallons of water and use one and onegallons of water and use one and one-half pints to a barrel of Bordeaux mix-ture (50 gallons.) The easiest way to make the solution is to put both the white arsenic and carbonate of soda in a gallon of boiling water and keep boiling about 15 minutes, or until a clear liquid is formed, then dilute to two gallons. One and one-half pints of this solution should be added to each barrel of Bordeaux mixture. If used without the Bordeaux mixture it is without the Bordeaux mixture it is liable to burn the foliage. As there is nearly always fungus to contend with; it is recommended that the two sprays be always combined when there is occasion to spray for the codlin moth or other insects. If a plain solution of white arsenic were used the foliage of the trees would be burned.

You will notice the formula calls for Bordeaux mixture, which has lime in it. If water is used there will have to be lime added. I used six pounds of fresh slaked lime to 50 gallons of water. First spraying just as the blossoms were falling and before the calyx

Mother: As a steamer leaves tomorrow apostles!" via Hong Kong, I will drop you a line. I am well and have gained about ten pounds since we came to Maulla. Am feeling fine. All the boys from Hood River are well, as far as I know. We are anxiously awaiting the outcome of the conference in Paris to know our fate. We all want to be ordered home willing to do our duty if we are wanted Those that drink are most apt to be sick. We have lost only 13 men so far.

From Manila.

MANILA, P. I., Oct. 18, 1898.-Dear

need be. Some of the other regiments have lost more. The boys of the different regiments have formed a base ball league, and our regiment has a fine team. An American firm has offered a silver cup for the champion club, so you see it will

help to pass the time away. I am looking for that camera to come in the next mail, but if it don't come I can buy some views of one of the boys in H company who has a camera. I have some small trinkets I think I will send by the next through mail. I hope you got the Spanish flags I sent.

was talking to a Catholic priest yesterday while I was on guard at the church of Recolestos. He said to me, after talking awhile in part Spanish and part English, "I have sentiment that I no speak to you good English." I thought his sentiment was about correct, but I could judge by that about how I talk Spanish. He said I would soon learn to speak it very well. A great many of the Spanish soldiers

A great many of the Spanish soldiers here say they are going to America as soon as they can get out of the Span-ish service. I am not a very large man but I am taller and heavier than nearly all of the Spaniards. Ben Wade is practicing for drum major and will, I think, make a good one. I will bring home some Mauser bullets to make bicycle whistles. They make fine whistles by taking out the powder and lead. Your loving son.

lead. Your loving son. CLARENCE ENGLISH.

The Apple as Medicine.

From the Humanitarian.

The apple is such a common fruit that few persons are familiar with its

remarkably efficacious medicinal properties. Everybody ought to know that the very best thing he can do is to eat apples just before going to bed. The apple is excellent brain food, because it has more phosphoric aicd, in an easily digestible shape, than any other fruit known. It excites the action of the liver, promotes sound and healthy sleep, and thoroughly disinfects the mouth. It also agglutinates the surplus acids of the stomach, helps the kidney secretion and prevents calculous growth, while it obviates indigestion and is one of the best preventives of diseases of the the throat. Next to lemon and orange, it is also the best antidote for the thirst and craving of persons addicted to the alcohol and opium habit.

Forest Preservation in Bohemia.

After the many centuries during which the torests of Bohemia have fur-

nished fuel and building material for a dense population it is said that they retain nearly their primeval area. This is due to the forethought of the government in ordaining that as trees are cut down others shall be planted to fill the vacancies. The wood is mostly pine. Trees are constantly being cut, but wherever a clearing is made small

teams about 25 days to harvest Judge major slipped and fell into a mud pud-Wellhouse's big crop of apples. dle and in a fit of anger he exclaimed dle and in a fit of anger he exclaimed: 'Jesus Christ!' (not a very appropriate name.) The sentry called out: 'Cor-poral of the guard, turn out the twelve anosties!' "

Have Decided

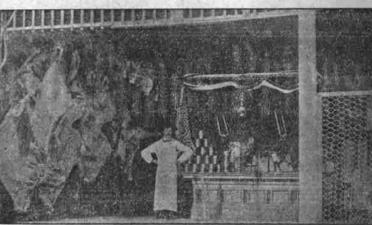

To close out my stock of Shoes More than two thousand dollars worth of shoes will be slaughtered. Come early and get your pick of the stock at prices that are almost like giving them to you.

I mean exactly what I say, that the entire stock goes at prices lower than you ever heard of before. I have an immense stock of Shoes coming from the East, and I must close out what I have before they arrive.

Don't let your neighbors get all the bargains, for I will slaughter Shoes as long as there are any in sight-but only for CASH.

Big Kansas Orchards.

Judge Fred Wellhouse, the "apple king of the world," gave the Topeka Capital some statistics of his big orchards. Wellhouse & Son own 1,647 acres of apple trees, and the total yield this year will not exceed 4,000 bushels. Judge Wellhouse thinks the failure this year was caused by the long stretch of cold, wet weather at the blooming time last spring. The firm owns three or-chards in Kansas—a young orchard, not yet in bearing, containing 410 acres; an orchard of 437 trees planted from 1876 to 1879 and enother of 800 trees plant orchard of 437 trees planted from 1876 to 1879, and another of 800 trees, plant-ed in 1890. The latter yielded all the apples raised by Wellhouse & Son this year. The following varieties were represented in the yield: Jonathan, Missouri Pippin, Ben Davis, York Im-perial and Gano. The old fashioned Jonathan apple is next to the Ben Da-vis and Missouri Pippin in the estima-tion of Judge Davis, and this year the Jonathan proved a steady winner with was offered \$7 a barrel for the lot-a of pneumonia. This same modest profit of \$3 per barrel. The will cure a lame back in a f firm refused the offer and are holding Sold by Williams & Brosius. tor a higher price. This will give some idea of the strong demand for good ap-

ples this year. It will interest fruit growers to learn of the different varieties of apples raised by Wellbouse & Son. The name and acreage of each variety are as follows:

It will also be of interest to note the yield of these big orchards for every year since the first one began bearing. The yield in bushels for each year is here given:

1830 1.3	94 1890
	87 1891
1882	37 1892
	88 1893Failure
1884	26 1894
1885	
1886	
1887	
1885	
1889	09

This makes a total of 417,000 bushels

rees are planted the next spring.

These new trees are raised from the seed in small inclosures scattered in the mountains and are thence transplanted.

To Cure Constipution Forever.

Take Cascarets Candy Cathartic, 10c or 25c, If C. C. C. fail to cure, druggists refund money.

New Peach Pest in Michigan.

New Peach Pest in Michigan. Michigan has developed a new peach pest, which arrests the growth of the fruit when it is about the size of a hazelnut, thus producing a crop locally known as "little peaches." It was first noticed about two years ago, and this year its ravages were alarmingly exten-sive. So far no remedy has been found for it, though expert investigation and experiment are not wanting. In Saug-atuck township during the present atuck township during the present season more than 400 trees were affected.

Educate Your Bowels With Cascarets Candy Cathartic, cure constipation forever. 10c, 25c. If C. C. C. fall, druggists refund money.

Pains in the chest when a person has a cold indicate a tendency toward Jonathan proved a steady winner with the Pippin. The firm recently sold the 1,500 bushels of Jonathans to a To-peka commission house for \$4 per bar-rel. In a short time the latter firm of pneumonia. This same treatment will cure a lame back in a few hours.

A good thing to remember, when you order goods from a department store in a big city, is that that store does not pay one cent towards keeping up your to wn, your schools, nor does it pay any county tax. You are simply robbing yourself when you can get the same goods from your local dealer, who helps to pay all your taxes, besides be-ing a liberal contributor to the support of your churches public works etc. of your churches, public works, etc. -Moro Observer.

The wife of an English clergyman has made a collection of all the buttous placed in the offertory bags during the last two or three years, and has fastened them to cardboard in various cunning shapes of animals, birds and flowers. As a bazaar is shortly to take place in connection with the church she has had these button pictures pho-topraphed and copies will be on sale at the exhibition.

Chamberlain's Colic, Cholera and Diarrhoea Remedy can always be de-Judge Wellhouse says the demand for apples is practically without limit. In 1890, the year of the big yield, his crops brought him \$3 per barrel and netted \$54,000. In 1880, with a very small crop, the price received was \$1 per bar-rel. In 1890 it took 200 hands and 30 \$100 + 200 +
