Terms of Subscription—\$1.50 a year when paid in advance; \$2 if not paid in advance.

FRIDAY, FEBRUARY 24, 1899.

It is evident that the scow saloon at Viento contributed to the death of Daniel McDonald. It might be well to inquire if there is no law to reach a man who is dealing out liquor by the drink without license on a river scow. When a liquor saloon pays a license to the county or to a town corporation it is privileged to deal out the stuff that will intoxicate and take away a man's senses, and the man who gets drunk at a licensed saloon and falls off a bridge and is killed has no one but himself to blame. The saloon is licensed to kill if its patrons choose to kill themselves directly or indirectly by imbibing too much at its bar. But a man who can evade the license laws of two states by floating his saloon in the middle of the Columbia river should be held responsible when a customer drinks too freely at his bar and loses his life in consequence.

Farmers of our valley will need to get in and hustle the coming season. Good times are coming their way. Fortune will knock at farmers' doors where she has been a stranger for years. Be prepared for her, for it may be a long time before she comes around again to knock at some of our doors. We will have a larger population than usual the coming summer and all will want to eat. Make an effort to grow something the market will demand. Grow enough clover and timothy to feed your own stock through the winter and have some to sell. Farmers should quit hauling hay from town; haul it the other way. Plant a good lot of vegetables; look after the small fruits, and let the cannery have something to do. There is not a farm in the valley but can be made to pay more than expenses the coming season. Irrigation ditches have made this possible.

The Oregon regiment is now in the field against the insurgents in the Philippines. Oregonians will be more than ever interested in the dispatches now. That our boys will give a good account of themselves, if called upon to fight the wily Filipinos in their jungles, no one at home has any doubt.

The creation of Wheeler county by the legislature makes Fossil the county seat of the new county. Wheeler county is 54 miles long and 30 miles wide and its territory is taken from Gilliam and Grant counties.

### From Manila.

We take the following extracts from letters received by Mrs. Geo. P. Crowell from her son, Clarence English, of Co. E, Second Oregon, in the Philippines. The letters are dated Dec. 16th and Jan. 9th:

The apples which were wrapped in paper all came in good shape, while those that were not wrapped were some of them spoiled. A good many of the boys got boxes of apples, and we all have lots of good things now.

I have secured some fine views with my camera and will send some home. We are having fine weather here now, like our Oregon summers, very cool at night. This morning (Dec. 16th) some of the boys felt chilly and were glad to put on their coats for awhile. I am getting along very well with my Spanish; can talk quite a little and understand more than I can speak.

The boys from Hood River are all well. One of the Dimmick boys visited us today.

I went with a friend, the other day, to visit a new club formed by the best class of Filipinos. They are all trying to learn English, and I am going to send over some of our best foot ball and base ball men to teach them the American games. They are crazy to learn them. In fact, they are wild to learn anything that is American and tell me they want the islands all annexed to the United States as a state.

The new recruits are buying up all the curos and it is hard to get anything in that line now.

The government is raising most of the Spanish ships that were sunk by Dewey at Cavite.

Some of the boys off the Monadnock visited our company last night and sang songs and danced jigs for further orders. The Oregon regiment is well liked by the entire navy and also by the regulars.

Jan. 9th.—We are expecting trouble now with the insurgents. They will not be satisfied until we give them a good thrashing, and we will do that in a hurry.

Sergeant Lee Morse was shot by mistake by one of M. company's boys on an outpost guard on the night of the 6th of January. He died instantly. The Filipinos had just been trying to break into the magazine, and the guards had fired several shots at them, wounding one in the leg. Morse and his captain went out to see what was going on, and Morse jumped down off the wall right in front of a sentry, who fired and Morse fell dead. It is too bad, but the sentry can not be blamed. I had a great experience with a centipede the other day. I had my shoes on, with no socks, and they were unlaced. I felt something crawling in my shoe and looked in at the ankle and saw a centipede crawl up and look out, then crawl around my ankle and clear around my instep, and then out through the lacing space in front on the floor, where I put my foot on him and held him until I got a pair of tweezers with which I caught him. I now have him preserved in alcohol.

Every one near me yelled to me to pull off my shoe, but I kept still and watched him till he crawled out. I did not get excited. The centipede was about three inches long.

Everything is becoming Americanized except the insurgents, and we'll fix them in a hurry when we once get at them.

### First Oregon Boy Killed

Washington, Feb. 22.—Gen. Otis has cabled as follows from Manila under this date:

The following casualties in the intrenchments were caused yesterday by the men exposing themselves to the enemy's fire:

First California—Sergeant Frank N. Turton, wounded slightly; Private Jas. P. Cassidy, killed.

The following were killed during a reconnaissance this morning in the vicinity of San Pedro Macarti: First Washington—Private Joseph H. Cardington, Christian E. Horn, H. D. Hazard, Corporal W. B. Tucker, seriously wounded.

Second Oregon—Killed, EDWIN W. HAMPTON, Co. H.

Three men of the First Nebraska were wounded.

The Portland Telegram of Feb. 22d says: Edwin W. Hampton, the first Oregon soldier to be killed in action in the Philippines, was a son of John Hampton, a furniture mover, who lives at 397 San Rafael street.

The deceased was 20 years old last October, and had lived in Portland since he was 4 years of age. His father moved here from Nebraska 16 years ago, and has raised his family in East Portland, where the dead soldier was well known and very popular.

The first intimation of the death of his son that Mr. Hampton had was when a Telegram reporter called at his house at 2 o'clock this afternoon.

The blow was a sad one to the father and his five children. They had a letter from the son last Saturday, in which he said he was well and as well contented as one could be in Manila. He said that he would like to be at home, but was willing to remain there as long as his services were needed.

The news was doubly surprising to Mr. Hampton, from the fact that Co. H had been on duty at the custom house. When he read in the newspapers that the Oregon boys had been ordered to the front, he consoled himself with the thought that the company his boy was in would not have to go.

He recently sent some Spanish flags and several curios home to his father, which are highly prized by the Hampton household.

### The Soldiers Monument.

Hon. W. L. Bradshaw, of The Dalles, has been appointed manager of the soldiers monument fund for this county and has appointed committees to go to the citizens in person, to solicit funds to erect the monument to the brave Oregon boys who lost their lives in the recent war. The following extract from the Oregonian, of a short time ago, will give a clear idea of the workings of the monument committee:

"To the citizens of Oregon: When our country demanded the services of citizens in upholding the honor of the flag, none responded more promptly or more earnestly than did the young men of Oregon. As they marched away they were our pride, and carried with them our love and admiration. When the regiment returns many who marched away will not be in the ranks; they died in the service of their country."

"Let us at once erect a monument in memory of those who have died. Let us have it completed so that when the soldiers return they can assist in the ceremonies of dedication."

"The soldiers' monument committee has been organized to take this work in hand. A leading citizen from each county in the state has been placed on the committee. Each county will be under the management of the committee from that county."

"It is the aim of the organization to make this work popular by placing the subscription within the reach of all. There will be a local solicitor in each precinct or school district, selected by the county committee, where persons can leave their name and cash and have it forwarded to the secretary of the committee. Each person contributing 25 cents will receive by mail a copy of the monument edition of a new unique history, well worth the money. Everyone can afford to subscribe 25 cents for a worthy cause."

Hon. E. L. Smith has been selected by Judge Bradshaw to receive subscriptions from the citizens of Hood River.

### Horticultural Institute.

A horticultural institute of great importance to all our fruit growers will be held at Hood River Friday and Saturday, March 3d and 4th. The following eminent specialists will be present: Prof. A. B. Cordley, entomologist; Prof. E. R. Lake, horticulturist; Prof. A. B. Lickenby, grasses; Prof. G. W. Shaw, U. S. chemist; Hon. Jas. Withycombe, Hon. W. W. Phillips.

Among the subjects that will be discussed are: Spraying and insect pests; grasses for the orchard; the fertilizer for the horticulturist; packing fruit for the Eastern markets, etc.

These gentlemen come to us free of expense, and all fruit growers who wish to be well informed will undoubtedly be present and greatly profit thereby.

### To The Public.

I want to let the people who suffer from rheumatism and sciatica know that Chamberlain's Pain Balm relieved me after a number of other medicines and a doctor had failed. It is the best I have ever known of.—J. A. Dodgen, Alpharetta, Ga. Thousands have been cured of rheumatism by this remedy. One application relieves the pain. For sale by Williams & Brosius.

A home literary society has been organized at Frankton and will meet this Thursday evening at B. E. Gerking's residence. Women suffrage is the question.

Written for the Glacier.

### Take Up the White Man's Glory.

Take up the White Man's Glory—  
Republic of the Free—  
Repeat the bloody story  
Of Empire's tyranny.  
Build mighty ships and cannon,  
Beat plowshares into swords,  
Renounce your God for mammon  
In loud defiant words.

Take up the White Man's Glory,  
Ye men of many creeds—  
What though your hands be gory  
With blood of savage breeds,  
Call greedy motives duty,  
Delude the simple mind;  
Let few divide the booty,  
The mass with promise blind.

Take up the White Man's Glory,  
Thou nation strong and free,  
Republican and Tory,  
In name of Liberty;  
With "Maxim," "Krupp" and "Gatling"  
In rhythmic melody,  
And musketry a rattling  
Concordant harmony.

Take up the White Man's Glory  
In God's and Commerce's name  
(The reconciliatory),  
Heed not the blood and shame;  
List not to piteous pleading  
When son from mother parts,  
Nor count the million bleeding,  
Yearning, sorrowing hearts.

Take up the White Man's Glory,  
Heed not the warning cry  
Of statesmen wise and hoary,  
Your duty is to die  
In lands where fevers ravage;  
Upon your head a ban,  
Redeeming soulless savage,  
Half monkey and half man.

**Hood River Public School Column.**  
School Directory—State Superintendent, J. H. Ackerman; county superintendent, C. L. Gilbert; Board of Directors Dist. No. 3—C. M. Wolfard, chairman; N. C. Evans, S. Cox, Clerk, Geo. T. Prather, Principal, R. B. Allard; second intermediate, Media White; first intermediate, Grace Graham; primary, Eliza Stevens; vocal instructor, Anne C. Smith.

"The one great thing needed in our schools, public or private, is that spirit of humanity and culture which shall make their life healthy, happy and progressive, the well spring of an upright, true cultured manhood and womanhood and a willing, working, watchful and faithful citizen."—Harris.

### SCHOOL HAPPENINGS.

We are glad to note that a great many of our students have learned that there is little time to waste, the proof of this being the fact that a great many are improving their time by working right ahead upon some one or two chosen studies during vacation.

Prin. Allard handed each member of the 8th grade a carefully condensed outline for the final "review" in geography, on Thursday last, in order that they might be at work upon it during the vacation.

Pupils have been busy this week examining and comparing grade reports. A fine crayon drawing of the Maine was framed and hung in the school building a few days since.

A number of light repairs are being made in and about the school buildings this week.

That "cleanliness is next to godliness" perfumes the very atmosphere of the school building since Janitor Rand's latest raid.

The outlook for the 4th and 5th grades is an extremely large attendance. With open weather many pupils, of all grades who were prevented from attending by inclemency of weather, will return.

Prin. Allard received a "machete" and Spanish pistol from his brother, D. C. Allard of Co. L, second Oregon Vols., at Manila. They will be placed in the Travers' Book and Curio club room for some time.

Another move is on foot to add 30 choice volumes to the school library.

### GENERAL ITEMS OF INTEREST.

New York has just passed London and has become the first seaport in the world, the position London held for centuries.

Switzerland is at present putting forth remarkable efforts of railroad construction.

Dr. Ricca of Belgium has made vast improvements on apparatus used in wireless telegraphy, and claims that he can make the presence of a vessel, in a fog, known to another at a distance of 30 miles and can telegraph real messages 7 miles.

Cause of Germany's rise as a commercial nation is said to be due to expert direction and thorough teaching.

### SWISS OPINION.

While the Great Republic of the West is teaching many useful things to the old world, in the way of freedom, educational advancement and commercial progress, its influence is being felt in other ways as well. Heretofore we have been looked upon as a nation whose chief aim was making money, but now we are recognized as a potent element in higher civilization. The press of Switzerland contain frequent and intelligent articles concerning our public school system, our colleges and universities, our hospitals, our asylums and those depending upon public or private charity for support. To these institutions are given the highest praise. Much also has been said in recent publications in the way of praise about our public libraries.

### PURPOSE OF THE PUBLIC SCHOOL.

The purpose of the public school, as seen in its origin and history, is intellectual culture, and those methods can only have a strong and lasting hold upon the public mind which best promote it. However pleasing and attractive the work may be, however we may for the time command the public ear, and listen delighted to its praise, that system and those methods alone must win in the end and enjoy a lasting reputation which continue to read forth pupils with a higher intelligence, a better knowledge, a clearer understanding and a more thorough scholarship than their fellows.

### PLEASANTRIES.

At a recent concert, the conclusion of which was the song "There's a good time coming," a farmer rose in the audience and said: "Mister, you couldn't fix the date, could you?"

Hobson kissed me when we met—  
It was at a large reception;  
I was one of them, yet  
I'll admit, without deception,  
That although I'm fat and fair,  
Forty, too, and love has missed me,  
I can die without despair—  
Hobson kissed me.

When hens lay soft shelled eggs it in dicates overfeeding.

# An Oyster

Stays in his shell and only comes out to get in the soup. We are not an oyster, and yet we attend strictly to our own business. Come and see us. You will always find our lath string out and our stock the largest and best selected of any in town.

Don't forget that we buy more of the farmers' produce than all others here combined.

**G. D. WOODWORTH.**  
Dealer in General Merchandise, Farm Implements, Lumber, etc.  
Hood River, Oregon.
