The directors of the Hood River Fruit Growers' Union wish to announce that they expect to be doing business at the Union warehouse during the strawberry season, the same as in preceding years. They have made arrangements for supplying crates as usual, and have encouraging reports from the markets. Increased facilities for handling the business will be furnished by the railroads and if the growers will stand by the directors there is no reason why the season should not be one of the most successful in the history of the valley. All reports and rumors that the Union is "going out of business" are untrue so far as the directors are concerned.

Christian Guler and wife have purchased, of E. L. Smith, the old Stoller ranch at Trout Lake, near the base of Mt. Adams. They are arranging to build a new house and barn this season, in order to more comfortably accommodate their guests during the coming summer. He has cabbage and cauliflower plants ready to set out, and has fine lot of tomatoes, celery, tobacco, sweet potatoes and other plants coming on. He finds that plants do best when taken from the hot bed and set at once in the ground, not earlier than 4 o'clock in the afternoon.

"An Evening With American Writers," at the U. B. church last Friday night, entertained a full house. Footography.

For a number of years we have practiced footography. It is not a profession, it's a combination of art and business. It is the knowledge of feet and the art of fitting them right bit.

We have learned a good deal about feet, shoes and leather, also shoemakers; and some of them don't know as much as they ought to; but there is one at least that knows how to make a shoe that is the easiest thing you ever put your foot in, and at the same time the most elegant. You may think you cannot get a stylish fit that will be comfortable, but that's a mistake. We can fit everybody [with some style of the famous "Julia Marlowe."]
