

Hood River Glacier.

FRIDAY, APRIL 28, 1896.

It is a settled fact that Hood River will have the national editorial association to entertain for a couple of hours on the 3d of July. According to the programme, the editors, on their way to Portland, will breakfast at The Dalles July 3d and then go by boat to Portland. They will take dinner at Hood River and remain with us for two hours. It is now in order for a meeting of citizens to be called to make arrangements for the entertainment of our visitors. From 800 to 1,000 people are expected to be in the excursion party. There will be work for everybody in helping to prepare the dinner and extending welcome to the visitors that will come from every state of the Union. Hood River may want to prepare some printed matter showing our resources and industries, and if so the matter should be attended to soon. A representative of the Oregon editorial association and the citizens committee of Portland was in Hood River last week and offered a plan to advertise the state. A book of 5,000 copies, to contain views and descriptive articles of the different sections, will be published and given to the editors as a souvenir of their visit. It will be handsomely printed and bound, the electrotypes made in Chicago, and no expense will be spared to make it a work that will be prized as well as a ready reference when the editors write up their trip. Space in this book is sold at \$50 a page. Another scheme thought well of by our people is to have printed an artistic folder, with illustrations, containing a write up of Hood River valley, and which can be mailed to any one asking information about the valley. These matters will have to be decided soon, and a meeting of the citizens of the valley should be called and the work commenced.

Our brothers of the press who visit Portland and Oregon in July will be tendered a reception worthy of the name. It is proposed to make their stay one round of pleasure from start to finish. The Portland press club has fabricated and promulgated the following itinerary: Arriving at Huntington via the Oregon Short Line, the delegates to the national editorial association will be met by the press club, Sunday July 2d, and will breakfast at Baker City, partake of one of Grandma Moura's celebrated dinners, spend a few hours in La Grand and run to Pendleton for supper. After remaining a few hours there, they will start for Portland, reaching The Dalles for breakfast, take boats to Hood River, stopping there for dinner; thence to Vancouver for supper, reaching this city in the evening. After the close of the session, July 7th, the time until the evening of July 16th will be spent in this city and state.—Portland Dispatch.

Another meeting of the Wasco County Forest Reserve Protection Association will be held at Dufur May 18th. The Dispatch, which is alive to the necessity of protecting our forests and water supply, invites Hood River to be represented at the meeting. It says, truly, "Our interests are the same; why not assist each other in protecting them?" The GLACIER hopes that Hood River will send a delegation to meet with the citizens of Dufur, to consider matters that affect our interests as much as any part of Wasco county.

The Oregon volunteers are expected to return from Manila about the 15th of June. A grand ovation will be given the regiment when it arrives in Portland, and every town in the state from whence the regiment was recruited will welcome home their volunteers in a befitting manner. Portland will have a big celebration on the 4th of July, and the Oregon veterans will be the great attraction in the parade.

The editor of the Rural New Yorker says he never goes to any hotel to eat but he calls for apples, and if he doesn't get them he intimates to the hotel keeper that that particular hotel is several years behind the times. He proposes that every one interested in the American apple follow his plan and thus bring home to hotel keepers the necessity of providing apples for their guests as well as tropical fruits.

The G. A. R. state encampment at McMinnville, June 20th, 21st and 22d, promises to be more largely attended than any previous encampment in the state. Among other attractions it is expected that the Second Oregon will participate in the parade.

Texas Strawberries.
There was an advance in the strawberry market yesterday on account of the better berries that are arriving and the further fact that there is such a heavy demand at Northern points for the fruit. Buyers from the North pay good prices and give the cash right on the spot. It is said that the fruit, that is going North this year, is much superior to that of any previous season as day from night, the berries being big, firm and luscious. It is also said that the average receipts of the farmers in the Alvin county are \$75 a day per farmer.—Galveston News.

C. R. Bone is going ahead with the work on the East Fork irrigating ditch. The part of the ditch east of Neal creek is all grubbed and ready for the ditch-

ing machine, except about one mile, and the company expects to have the water down as far as Lage's or Winchell's place in time for the irrigating season of 1896.

Patriotic Answer.
Answering the supposed question of a foreigner as to how many states there are in the Union, the Salt Lake Tribune eloquently says: "Forty-five states and some territories; they fill all the space between the two great oceans, and at one bugle call last summer, in every one soldiers fell into line, the tread of the thousands was like tolling the bells of destiny, and the flashings of their standards reflected back the sunlight through one-tenth of the sun's daily round. And they all speak one language, all sing the same songs; all turn all the shores of the nation's sea-shores, for in majesty, in latent power, in unapproachable splendor, there is no counterpart for them in all the records of the nations that have existed since nations were first organized on the earth."

G. D. Woodworth and wife are laboring energetically for the building of a U. S. church parsonage in Hood River. The first year the effort that built the handsome church structure in Locust Grove, Sherman county.—More Observer.

A nice strawberry ranch within two miles of town is for sale cheap. The owner wants to sell bad and go to the mines, where he thinks a fortune awaits him. Twenty acres of land, all kinds of fruit, good improvements. Address P. O. box 115, Hood River, for further particulars.
Peaches are killed, the strawberry crop is short, and there is but little prospect for apples. If anything should happen to the watermelons, we will begin to hear something about the black man's burson.—Columbia.

A couple named Newton Lord and Jennie Helge were married in an eastern town recently and the editor of the local paper was chief witness to the ceremony. The bride died of grief because she made use of the heading "Lord-Helge."
Miss Helen Gould, strange to say, has become famous without getting up before woman's clubs and reading papers or trying to make a name for herself in any other way.

GREAT WESTERN Feather Renovator.
Is cleaning feather beds and pillows at Hood River. Have your new feathers renovated to destroy the effective feather moth and also its eggs; your old ones for heating as well as cleanliness, for they will be good as new and as large. In house cleaning you clean up everything but the feathers. After sickness or death in the family, you clean up everything but the feathers. By having them renovated with this new and improved process your feathers will have more life and bulk, as an illustration: two pillows will be as large as three. Give us a trial and be convinced. Satisfaction guaranteed or no charges made. O. A. KAUN, Proprietor.
