Hood district last week and completed the assessment of that part of the valley. He says there will be quite an addition to the assessable property in that section. Buy one of those beautiful hammocks for sale at Denzer's and be relieved. Roll Rand has traded 125 acres of his farm and 11 lots next the Mt. Hood hotel for 123 acres of meadow land near Vancouver to Mr. Seward of that place. Mr. Seward desires to build and open a restaurant and lodging house in Hood River. J. D. It is the best remedy for croup I ever used." Williams & Brosius. Capt. Blowers is having the ground adjoining the Spring Water company's spring laid out in town lots and will soon place them on the market. This will be the most desirable residence property within the corporate limits. Don't think you can cure that slight attack of Dyspepsia by dieting, or that it will cure itself. Kodol Dyspepsia Cure will cure it; it "digests what you eat" and restores the digestive organs to health. Williams & Brosius. F. G. Ebb and R. J. Gorman of The Dalles were in Hood River last week and put in an Acetylene gas plant for C. T. Bouney. They are now arranging to light the stores of S. E. Bartness, G. D. Woodworth, Williams & Brosius and Dalles & Spangler. The body of Harper Hanson, who was drowned last August by the upsetting of a small boat in the Columbia river near Mosier, was found Tuesday morning, washed ashore near the boat landing east of town. Coroner Burts was notified, an inquest held, and the remains were identified by the clothing as those of young Hanson. The burial took place at White Salmon, Wednesday afternoon. If you suffer from tenderness or fullness on the right side, pains under shoulder blade, constipation, biliousness, sickness and head full, heavy and sleepy eyes, or if you are torpid and congested, DeWitt's Little Early Risers will cure you promptly, pleasantly and permanently by removing the congestion and causing the bile ducts to open and flow naturally. They are good pills. Williams & Brosius. The enterprising Portland Evening Telegram is offering to give a \$450 piano to the most popular school teacher in Portland. Voting coupons are printed in the paper every day, and the friends of the teachers cut out the coupons and send them to the Telegram with the name of the teacher of their choice. The voting contest will last till the first of July. Hood River is voting for two favorites, Grace Elliot and Mary Fowler. The price of the paper is 10 cents a week, and you have one vote for every copy of the paper you receive.

Monday morning the atmosphere in this vicinity was filled with a hazy substance that obscured the sun and the surrounding mountains. Everybody was puzzled to know how to account for the phenomenon. Some thought Mt. Hood was in eruption and even imagined they could scent the sulphurous odors that sometimes escape from fissures in crater rock on the mountain. The same phenomenon was observed at The Dalles, and it was the supposition there that it was caused by a strong east wind blowing dust from the plains of Eastern Oregon. H. H. Bailey has been engaged with a force of men, since the 10th of February, in clearing out the Improvement Co's ditch and leveling the same. In one place he had to lower the flume for half a mile from 6 to 20 inches. In another place he raised half a mile of flume from 2 to 13 inches. Owing to the bad weather it was not a very desirable job. Mr. Bailey expects to have the water flowing in the ditch by the first part of next week. The gauges are all made and will be put in next week. According to the Davidson Fruit Co., it is poor policy to use a pine crate for shipping fruit, as the pungent resin which penetrates and damages the fruit, particularly when shipped in refrigerated cars. The outside appearance of the crate is inferior also. We were shown a recent letter to the Davidson Fruit Co., from a Snake river fruit grower in which he said: "Your larch berry crates are O. K. I am tired of using Bull pine and will get some better sort if possible." The regular meeting of the Wasco County People's Forest Protective Association will be held in Dufur on Saturday, May 6th, at one o'clock, p. m. We will be glad to welcome as many of the citizens of Hood River valley as may be able to come. This subject we consider to be of vital import to each and every farmer in Wasco county; indirectly, if not directly, a question of interest to all business men of the county. I. D. DRIVER, President. James T. Cooper arrived, Sunday morning from Unatilla county, where he had a contract for shearing 2,000 sheep. Elmer Gribble and B. T. Young were with him. Mr. Cooper sheared 400 sheep in 5 1/2 days, at 7 cents a piece. He has sheared 113 in Montana in half a day. Tuesday he went to Lyle, where he will shear with the Murray boys of Camas Prairie. Jack Binns and C. A. Hickie have purchased an up-to-date graphophone and talking machine and will sell the valley for entertainments at all the school houses and mill camps. The programme of the entertainments will be interspersed with Irish songs and dances, Irish and negro speeches, and altogether they will put up a good show. Prof. B. C. Pallmann, hypnoidist, and Prof. Shattuck, ventriloquist, wizard and magician, will appear tonight, April 28th, in old armory hall. They come well recommended and a good entertainment is promised. Reserved seats, 50c, for sale at Glacier Pharmacy; general admission, 25c. Denzer and Bradley have renovated the old armory hall and put in a stage and scenery. This hall is the most convenient hall in town for entertainments, and now that it is put in shape and will be kept in first class order, the talents of the citizens are due the proprietors. E. E. Blodgett, upholsterer and furniture repairer, mattress maker, repairs all kinds of furniture, stoves and gasoline stoves, umbrellas, etc.; keys fitted; does all kinds of fine mechanical work and chair recaning. Carriage trimming in all its branches. Champion building. Dr. H. K. Hines of the Portland University will occupy the pulpit of the M. E. church next Sunday April 30th, both in morning and evening. The list has many friends in Hood River and all will be glad to hear him preach. The strawberry crop is very promising. Never was there a prospect for a better crop in Hood River. The abundant blossoms are of good size, which promises good sized berries. The season is a week or more late. Hon. Enile Schanno has sent a lot of copies of the Report of the Board of Horticulture to Hood River for distribution to the farmers. They can be procured at La France's and at E. L. Smith's office. G. J. Gessling has finished the assessment of Hood River valley and made 708 assessments with an assessed valuation of \$238,000. This is outside of railroad, telegraph and telephone companies. John Hullt, late of Grass Valley, has opened a harness shop in the Odd Fellows building. He makes a specialty of making harness and shoes and has a good stock of harness on hand. Mrs. R. R. Allard, teacher of the primary department in Barrett school, was laid off two days this week on account of sickness. Ray Imbler, of Prof. Howe's room, taught in her absence. Miss Mella White returned to her home in Polk county on Monday. Harold Hershner went with Miss White and will spend several weeks with his grandparents. The People's Store moved into their new quarters last week and are now better prepared than ever to accommodate the public in their line of goods. Luckey & Foley have a contract to haul wood for C. T. Bouney, which will keep them busy all summer. They commenced on the work Monday. The infant child of Mr. Barber, O. R. & N. agent at Viento, died at that place Sunday evening and was buried in Idelwilde cemetery, Tuesday. Mrs. H. C. Bateham and Mrs. J. L. Hershner are in Portland this week in attendance at the Portland association of Congregational churches. E. E. Savage has purchased 2 1/2 acres of land of Capt. Blowers, situated on the hill above the spring of the Spring Water Co. Rev. Frank Spaulding goes to Moro, Sunday, to help in the dedication of the new M. E. church at that place. Miss Grace Graham will start for Chicago, the first of May, to spend the summer with a sister at that place. Wm. Alexander has moved up from Vancouver and will run the boarding house at Woodworth's mill. The L. L. L. Co.'s gang will play the Hood River base ball club next Sunday at 2 o'clock. Miss Minnie Elton returned to her home at The Dalles on Saturday. Wild sunflowers are getting to be a rare thing on the commons.

Strawberry Crops.—We learn certain parties outside of Hood River are offering to furnish crates at apparently lower figures than are quoted at this point. We desire to caution growers against the use of crates made of pine or fir, or of hallocks made of fir or cotton wood. These woods give an odor to the berries that renders them objectionable. The only wood obtainable that is suitable for crates or hallocks is spruce, such as is being furnished to the growers by the union. The use of pine or cotton wood would be sufficient ground for refusing to accept such crates for shipment. A few pine crates in a carload not only spoils the contents of the crate but also affects the entire contents of the car. The growers can ill afford to sacrifice on price of berries to save a cent or two on crates. HOOD RIVER FRUIT GROWERS' UNION. Ed Underwood and son Willie of White Salmon, were seriously injured on Tuesday by a runaway team. They were plowing, and something going wrong with the harness, were fixing it, when the team became frightened at a gust of wind blowing the leaves about. Both got to the horses' heads, but they could not hold them. The horses trampled the two men and both were hurt, the father seriously. Dr. Shaw was called and found that Mr. Underwood had four ribs fractured, one rib perforating the lung. The doctor called again on Wednesday and found him much better, with chances in favor of his recovery. Blodgett is in town and ready for business with a full line of harness, collars, whips, sweet pads, etc. First class repairing a specialty. Prices to suit the times. All work left in my care will receive prompt attention. Give me a call and get prices. Respectfully yours, T. L. BLODGETT. C. D. Moore brought over a nice box of asparagus, which is for sale at the City Market. Uncle Oliver Bartness caught a Dolly Varden salmon in Hood River Thursday morning, which measured 30 inches in length. Sam Blowers is in the agricultural implement business with C.D. Henrich. Something of interest to every one in our advertising columns today. Summer Term of Normal School.
