The several additions to Hood River of worthless lots give our section a black eye when the delinquent tax roll is printed. The county should buy in these lots and sell them in acreage tracts for what they will bring to any one who can make use of them for pasture.

Williams & Brosius.

Mr. Smith informs us that contributions are coming in slowly for the soldiers' monument fund, considering the praiseworthy object in view. The Women's Relief Corps were the first to respond, with a generous subscription of five dollars. If our noble sons can lay down their lives for their country, we, at home, every one of us, can certainly afford to contribute from 10 to 25 cents each to erect a suitable monument as a memorial of their patriotic sacrifice.

She—"Henry, I do not understand all of this great talk."

He—"Well, I'll tell you. When I put my arm around your waist, that's protection; and when I take a kiss and you recover it, that's free trade; and if you keep it and give me one in return, that's reciprocity. See?"

She—"Oh, yes, I see; and I think reciprocity is all right; don't you?"

He—"Of course I do, for Hood River's best and leading business house is named 'Reciprocity.'"

Photography.

For a number of years we have practiced photography. It is not a profession, it's a combination of art and business. It is the knowledge of feet and the art of fitting them right.

We have learned a good deal about feet, shoes and leather, also shoemakers; and some of them don't know as much as they ought to; but there is one at least that knows how to make a shoe that is the easiest thing you ever put your foot in, and at the same time the most elegant. You may think you cannot get a stylish fit that will be comfortable, but that's a mistake. We can fit anybody with some style of the famous "Julia Marlowe."

THE PEOPLE'S STORE.

Chas. Walters of White Salmon, an old fruit grower, left at this office a jar in which are numerous codlin moth in the larva or pupa state. It will be interesting to note their development. Mr. Walters says he rarely finds any larva of the codlin moth under the bark of trees; only where the trees are wrapped with a close texture of woolen or cotton cloth will you find them under the bandages. He recommends spraying just as soon as the blossoms fall, and then again in two weeks, or before, if it rains. A third spraying should be given three weeks later. He has known 75 per cent of an apple crop to be saved by two sprayings, but it is safer to spray three times, and often if rain intervenes.

A dead body was found floating in the Columbia river Wednesday morning. Judge Prather, acting coroner, summoned a jury and held an inquest. It was found that he was a man about 25 years old; 5 feet 7 inches high; sandy beard and brown hair; dressed in black overalls, cotton shirt, flannel under shirt, cotton drawers, coarse gaiter shoes; had \$1.25 in his purse, a tin box of salve in his pocket. Rural Free Mail Delivery. Editor GLACIER:—Several times during the past winter I have seen statements in the papers concerning the successful operation of the rural free mail delivery system which is contemplated in some states and which it contemplates extending into new fields. According to last week's Oregonian a special postal agent, now in California, will soon head for Oregon with a view to establishing such routes where conditions seem to justify a trial. Thickly settled communities like ours, that get up petitions and make united efforts are of course the ones most likely to receive the prize. Daily mail would be greatly appreciated by the many intelligent people of this valley, and it would be a great satisfaction to see the matter taken up and energetically pushed by competent persons. The hearty support of every citizen can surely be depended upon.

R. E. HARBISON. [Hon. E. J. Smith has interested Congressman Moody in the matter of getting free mail delivery for the valley. A petition should be started at once. Hood River valley, being thickly settled with small farms, offers advantages for this free delivery system not possessed by many communities in the state.—Ed.]

Married. In Hood River valley, May 7, 1899, by Rev. J. L. Herlander, William F. Gaston, recently from Arkansas, and Miss Mary C. Kiser.

When Mr. Kiser asked D. S. Kiser for the hand of his daughter, consent was given on condition that he would walk to The Dalles, 22 miles, for the license and back again the same day. The young man readily assented. Next morning, bright and early, he struck out for the county clerk's office, and the old man went along to see that he fulfilled the contract to the last step. Arrived at The Dalles, the young man exhibited signs of collapse, but the old man seemed fresh as they started on the return trip. He said no man could have his gal who couldn't walk to The Dalles and back to Hood River in a day. The prospects ahead for the young man "whispered hopes" and he got his second wind on the home stretch, while the old man got the tired feeling and was completely winded before they crossed the divide to home. Frequent stops were necessary to enable the old man to brace up, and at daylight next morning they arrived home, and the bride was won. Success to the happy couple. May they live long and prosper.

These are the days when the Ben Davis apple reigns supreme on every fruit stand—big, bright, red and saucy, with never a fleck or a blemish. The vendors rub and polish them till they shine like a June sunrise. Where are all the Baldwins, Jonathans, Spitzenbergs and other varieties that have been loving it over the Ben Davis? They are all gone, and only the Ben Davis remains. It was thought it had been so crushed under its load of abuse that it could never hold up its head again. But here it is, as smiling and aggressive as ever, with people admiring them, and housewives vying to buy them in the same old way.—Ranch and Range.

The new spring bonnet is said to be a stunner. It will have a cow catcher in front, a tail board behind, a flower garden on top, and a bunch of grass on one side and a bird's crass on the other. The whole will be elaborately banded together with crushed ribbons and topped off with a very abundant millinery bill.

The following advice is given girls for the year 1899: Don't hang around the depot unless you are going away or meeting friends. Don't go to church and take a back seat with your escort and whisper and giggle during the services. Don't be loud, boisterous and slangy. Stand on your dignity; do not form acquaintances quickly; do not carry your heart in your sleeve, and don't throw yourself into the arms of every good-looking actor or well-dressed stranger that comes to town. Be womanly, be modest, be thoughtful and serious at times; don't unsex yourself and thus lose woman's sweetest charm. Don't regard your long legged brother as a nuisance; don't turn up your nose at your old-fashioned father and his poor grammar; and do not play a "hot time" on the piano when your good mother is having a "hot time" on the wash-board.

Thirty-five Italians made application to the court at White Plains, N. Y., for naturalization. They had been coached by a political boss named "Boss" to all questions after giving their names and ages. Accordingly, the first applicant, to the question, "Will you bear arms against the United States?" "Will you join the anarchists?" "Would you assist a foreign power against the United States?" promptly and smilingly answered "Yes!" He was rejected, and the judge announced the disposal of all but two in the same manner.
