Aguinaldo's private secretary.

meet at Columbus, O., this week.

The Bank of Athens, Athens, Ga.,  
has gone into the hands of a receiver.  
Speaker Reed's rules in congress  
will not be disturbed to any great ex-  
tent.

All doubt has been removed regard-  
ing the practicability of the enterprise  
by the adoption of Honolulu, Midway  
and Guam as relay stations on the long  
line, and by the discoveries made from  
the naval-survey ship Nero as to the  
character of the ocean bed between  
these points. The sounding instru-  
ments of this ship disclosed an abyss  
in the Western Pacific over five miles  
deep, but a slight divergence from a  
straight line fortunately developed a  
route avoiding this insuperable obstacle  
to laying a working cable. At another  
point, on the same stretch between  
Midway and Guam, a submerged moun-  
tain over 13,000 feet in height was dis-  
covered, and a reasonably level road  
around this was found.

The physical practicability of the  
line now having been assured beyond  
doubt, it only remains for congress to  
weigh the military necessities and com-  
mercial advantages to accrue from the  
construction and operation of the sys-  
tem. It was represented to congress  
at its last session that the revenue to be  
expected from the Pacific cable would  
not attract private capital unless it  
had a connection with Australia, Japan  
and China, as well as with San Fran-  
cisco, Honolulu and Manila.

For that reason it was deemed indis-  
pensable that the United States should  
own Strong Island, in the Caroline  
group, or a cable landing there to in-  
sure the working of a loop to Australia.

The absence of this may deter any  
corporation from undertaking the opera-  
tion of a cable across the Pacific with-  
out a heavy subsidy.

On behalf of Admiral Dewey and  
his officers and men, Washington at-  
torneys have asked the court of claims  
to find that the amount of bounty  
due them is \$382,800, of which

Governor Roosevelt favors Wood  
for the governorship of Cuba. He has  
induced President McKinley to agree  
with him on all points, but the ques-  
tion of immediate appointment. This

gress.

get it in Germany resulted in failure.

that it obscures the actors in theaters.

cisive results are attained.

by the Americans, but Aguinaldo's  
whereabouts is as much a mystery as  
before.

Official returns are very slow in Ken-  
tucky. Both the Democrats and Re-  
publicans claim a victory, and a con-  
test is sure.

the Yaquis in which the Indians were  
repulsed, but not without considerable  
loss to the Mexicans.

Orders were issued in London for  
an additional five thousand troops to  
sail for South Africa between Novem-  
ber 10 and November 18.

The Union Iron Works, of San Fran-  
cisco, is said to have been absorbed by  
the Seligman syndicate, the gigantic  
shipbuilding trust recently formed.

and leave this country. They disap-  
prove of the allotment plan. Mexico  
has given them a grant of 8,000,000

nual report, favors the naval reserve.  
He believes that it should be reorgani-  
zed in connection with the regular  
navy establishment.

Relations between Japan and Russia  
are strained. The trouble is over  
Corea, and the Mikado's government is  
thought to be anxious to try conclu-  
sions with the czar.

A long-lost will has turned up, and  
with it the prospect that the estate of  
the late Andrew J. Davis, the Montana  
millionaire, will again burden the re-  
cords of the Montana supreme court.

Gen. John Bidwell, of Chico, Cal.,  
who led the first party of whites over  
the Sierras into the golden state, is  
still hale and hearty at the age of 80.

Official estimates of the wheat crop  
in France place the yield at 846,600,-  
554 bushels this year. This is a falling  
off of 25,098,963 bushels from last year.

Gen. Lawton, who has been describ-  
ed in a newspaper biography as  
able "to drink any man under the  
table," tells a correspondent in Manila  
that he never drank a drop of liquor.

## TRANS-PACIFIC CABLE.

The Route Crosses Deep Abysses and  
High Mountains.

New York, Nov. 13.—A special to  
the Tribune from Washington says:  
Rear-Admiral Bradford has com-  
pleted the official naval project for a  
trans-Pacific submarine cable between  
San Francisco and Manila in time to  
supply congress with all the essential  
information at the opening of the next  
session that will permit intelligent con-  
sideration of the subject and prompt ac-  
tion for the inauguration of the great  
work.

All doubt has been removed regard-  
ing the practicability of the enterprise  
by the adoption of Honolulu, Midway

## A TERRIBLE BATTLE

Fought to Compel Venezuelan  
General to Surrender.

FOREIGN FLEETS BOMBARDED

The City of Puerto Cabello Was Devastated, and 650 Persons Were Killed or Wounded.

Puerto Cabello, Venezuela, Nov. 14.—  
General Parades, a former commander  
of the army of ex-President An-  
drade, who had refused the demand  
made upon him by General Castro and  
the de facto authorities to surrender  
the town, even when this was rein-  
forced by the request of the British,  
American, French, German and Dutch  
commanders, surrendered this morning  
at 10 o'clock after a terrible battle.

The aspect of the city is one of ruin  
and devastation, and it is estimated  
that upward of 650 persons were killed  
or wounded during the fighting. Dr.  
Braisied, of the United States cruiser  
Detroit, and the other surgeons of the  
various warships in the harbor are min-  
istering to the wants of the wounded.

General Ramon Guerra led in the  
land attack upon the town and the po-  
sition of General Parades on Friday  
night. Desultory fighting continued  
until Saturday morning about 4 o'clock,  
and then a fierce struggle ensued. Gen-  
eral Parades made a stubborn defense,  
but General Guerra forced an entrance  
into the town at 5 o'clock yesterday.

As early as 3 o'clock Saturday morn-  
ing the fleet arrived and began a bom-  
bardment, but the range was too great,  
and the firing proved ineffective. Gen-  
eral Parades held the fort on the hill  
and Fort Libertador until this morn-  
ing.

REPORTS OF BATTLES.

Sharp Work Done in the Vicinity of  
Kilnberley.

London, Nov. 14.—This morning's  
news from the seat of war in South  
Africa continues fairly satisfactory.

The official cables are not very detailed  
with regard to the Belmont incident,  
which, except for the loss of Colonel  
Keith-Falconer, was not a very serious  
affair.

There are signs of greatly increased  
Boer activity in Natal and along the  
western frontier. All the dispatches  
tend to show that the British are hold-  
ing out ably. Colonel Baden-Powell  
reports that all was well at Mafeking  
on November 4, while nothing ad-  
verse is heard from the latter point,  
and confidence is felt in General  
White's ability, previous experience  
having shown that the Boer artillery is  
not very effective.

It is believed that the Boer retreat  
will be made over the Drakensberg  
range into the Zoutpansberg district,  
where preparations for provisioning and  
maintaining the Boers is said to have  
been made for the last stand, and  
where it will be difficult to dislodge  
them. Already it is rumored that they  
are in straits for food around Lady-  
smith, and may, therefore, be obliged  
to abandon the siege.

Dispatches from Estcourt say it has  
been ascertained that the British have  
laid concrete beds for firing the Lydite  
naval guns, showing that there is no  
foundation for the fear that the Lydite  
ammunition at Ladysmith has been ex-  
hausted. It is also reported from the  
same quarter that some fires have been  
seen in Ladysmith, indicating that the  
Boer bombardment has been, to some  
extent, effective.

Eight Killed by Powder Explosion.

Santa Cruz, Cal., Nov. 14.—An ex-  
plosion occurred early this morning in  
the glazing house of the California  
powder mill. Four cylinders, contain-  
ing 15,000 pounds of powder, exploded.  
A small amount was fuse powder and  
the rest blasting powder. The explosion  
wrecked the mill, blew down miles  
of fencing, destroyed the saltpeter  
warehouse, broke panes of glass in Sup-  
erintendent Peyton's residence, some  
distance away, and extinguished the  
electric lights in Santa Cruz. The  
body of Patrick Hughes, night watch-  
man, was found. No cause for the ex-  
plosion can be ascertained.

Gang of Desperados Broken Up.

Chicago, Nov. 13.—A counterfeiting  
outfit and safe-blowing tools were un-  
earthed by the police at 216 Huron  
street. Mr. and Mrs. Harry Fay, the  
occupants of the flat, were arrested.  
The police say they have broken up a  
gang of desperados that have become  
exceedingly lively in Chicago of late.

The woman confessed that she and her  
husband were counterfeiters, and also  
implicated a man known as Fred  
Rogers. Captain Porter, of the secret  
service, took charge of the implements  
and the spurious coin. The prisoners  
will be taken before the United States  
commissioner.

Six Men Were Killed.

Flagstaff, Ariz., Nov. 14.—One  
white man and five Navajo Indians  
k
