The Advent Christian church will be taken down and rebuilt on J. W. Moore's place at Clover Dell. This church was originally built near Tucker, it is said, in the hope that W. A. Slingerland might be brought within the fold, but the good people of the congregation have been forced to give up his case as hopeless.

D. H. Clough reports that since the rains set in a great many foodstuffs have appeared among his strawberry plants. This fungus growth springs up from the middle of the strawberry plant and sometimes covers the whole of it. Upon digging up the plant he finds that the roots have turned black and seem to be dead, while the tops are green and appear thrifty. The ground probably needs a change of crop.

A member of the O. R. & N. engineer corps says that at a point on the road above Mosier is a fine sliding mud. Rocks keep sliding and raising up the ties and pushing the track towards the river. His party explored the top of the mountain, where they found the skull of a mountain goat within the horns of which they also found several petrified trees and parts of trees.

O. G. Hugbush, traveling man for Rasmussen & Co. of Portland, was in town last week. Mr. Hugbush is a graduate of the university of California. In telling of his college days he said he served three years at the blacksmith trade before entering the university. At his first appearance on the campus he was sporting a new pair of top boots with his pants tucked in and felt him sell some pumpkins. The boys caught on to his style and commenced to josh him. Two husky young fellows managed to run up against him, at the same time attempting to make it appear that the severe jolt they gave him was necessary to his style and that he was necessary to his style and that he was necessary to his style.

The Davidson Fruit Co. has purchased the Hood River box factory. Mr. Davidson attended the sale of this property in Portland recently and bought it in for a small advance over what it would have cost the company to procure a boiler and engine for the cannery. The company has renewed the lease on the Middleton building for another year, and at the end of that time expect to have a building of their own for the box factory. The box factory has now on hand 20,000 strawberry crates that were ordered by the Davidson Fruit Co. for the season of 1900. P. E. Bradford's lease will not expire till the 15th of next month, but as there are no orders on hand for boxes of any kind, he will likely relinquish his lease and turn the business over to the new owners before that time. Mr. Davidson promises that strawberry crates will be cheaper next year than they ever have been.

Hood River is not behind the rest of the country in having a representative in college foot ball. Claude Copple, who is attending the University of Oregon at Eugene, appeared on the gridiron for the first time about three weeks ago, and notwithstanding his short term of practice has come to be quite a formidable center on the varsity's second team. The GLACIER's devil, always noted for his capacity for yelling, we learn is captain of the rosters club. Noise is presumed to be one of the essentials of the game.

A great necessity exists for a hall in Hood River suitable for holding meetings. The A. O. U. W., in charge of the old school building, have decided to not let the rooms for meetings of any kind after existing engagements have been filled. The rooms will be kept for the exclusive use of the A. O. U. W. (G. A. R., W. R. C., K. of P. and D. of H. A. W. There is no other suitable hall for meetings. It might be a paying investment for some one to build a hall in some central locality.

It was reported a week or so ago that young Edwin Henderson of the 39th regiment had fallen overboard from a transport at sea and was drowned. Edwin's father received word from the war department last Sunday stating that the soldier drowned was Samuel J. Henderson of the 27th regiment. Mr. Henderson says he felt no uneasiness over the report, as none of his boys could be drowned in a little pond like the Pacific ocean. Like their father, they are all good swimmers.

The Rev. Iri R. Hicks Almanac.
There is no comparison between former editions, and this splendid almanac for 1900, now ready. Printed in beautiful color, on much finer paper, L. 128 pages, are packed with invaluable information on storms, astronomy and meteorology. It is illustrated with nearly 200 finest half tones and other engravings. This superb book would sell anywhere for fifty cents, but it costs only 25c a copy, and every subscriber to Rev. Iri R. Hicks' new famous paper, Word and Works, at \$1.00 a year, receives this elegant almanac as a premium. Word and Works is a recognized leader among the best family and scientific journals, while nothing of its kind can compare with the Hicks Almanac. One dollar a year is a nominal price for such unique and useful publications. Professor Hicks has justly and of necessity withdrawn his store and weather forecasts from all free almanacs, having generously given his time and labor free for nearly twenty years. Word and Works Pub. Co., 2201 Locust St., St. Louis, Mo.
