

# Wood River Glacier

FRIDAY, FEBRUARY 23, 1900.

The late cold snap with snow, was welcomed by fruit men. There has been no injury to fruit at Hood River so far this winter, and the prospect for a full crop is excellent. The strawberry vines were covered with a good coating of snow when we had our coldest weather—16 degrees above zero. In the Willamette valley, in some places, it is feared that where the strawberry vines were in bloom when the late cold snap came on there will be no fruit. Some early patches in Hood River showed a few blooms, but not enough to cause any serious damage.

Col. J. W. Redington has again assumed editorial charge of the *Pepper* Gazette. The Gazette is one of the leading newspapers of Eastern Oregon, and under Col. Redington's charge will furnish good clippings for exchanges. He sings a versatile pencil, and a vein of humor is readily discernible in his writings. Col. J. Watermelon Redington helped to make the history of Eastern Oregon and we are glad to be able to welcome him back to the haunts wherein he made his record as printer, journalist, Indian fighter, ranchman and humorist.

The coming institute, to be held in Hood River Feb. 26th and 27th, should have the undivided attention of our farmers and fruit growers. The learned men from the agricultural college and experiment station devote their whole time to investigations for the benefit of the agriculturist and horticulturist, and the results of their investigations cannot help but benefit all who are interested in these industries. Turn out and be prepared to give your experiences in matters that will be discussed.

Gov. Stanley is to confront a novel method of attack in the pending Kansas campaign. A Stafford photographer is fitting out stereoscopic outfits for use in the school houses of the state, and the chief picture will be one taken of the Governor while in the act of taking a drink in a Leavenworth joint. The photographer says he will see to it that this picture is shown in every school house in the state for the benefit of the Kansas prohibitionists who voted for Stanley.

The Antelope Herald is crying out against high taxes and unequal assessments. How are we going to remedy the evil, brother? Certainly not by electing the same gang to office every two or four years. The people should call for a new deal.

Latest dispatches from the war in South Africa state that the Boers are falling back at all points, and it is rumored that Ladysmith has been relieved.

The senate has passed the Indian war veteran pension bill.

Letter from the Philippines. MANILA, P. I., Jan. 15, 1900.—Mrs. C. L. Henderson, My Dear Grandmother: I promised to write you a letter a long time ago, so will keep my promise now. As you know, I am a soldier, which I will probably be all my life. Only a private, but as proud of my position as I would be if I were a non-commissioned officer. Some day in the far future I may be higher than the ranks, but as yet am only a private—in the eyes of my superiors only a tool which will be in their hands just a few months, and why not use it to raise them higher and higher in the world? I have been in only one fight, and have just commenced to get over the effects; still I feel that the war here is far from being over and hope to see at least one good fight. Soldiers have been killed in almost every engagement we have had. In one fight at the water works I saw 43 dead men going to town. Only the other day I was down on the dock and saw an enormous pile of boxes that contained corpses. What a shame that they don't send them home to their folks! Deaths are so common here that no one notices a funeral. Hundreds die every day.

I saw a terrible deed last night while passing in front of a saloon. One of the boys of the 11th cavalry and one poor lad from the 20th regiment, a nice, clean, well-dressed fellow, were sitting at a table drinking beer. It seemed to be something serious, as I noticed they were both angry, and I stopped to see what was up. After receiving much abuse from the 11th man's tongue, the 20th punched him on the jaw and knocked him down. As the 11th man staggered to his feet he picked up a tool which he held in his hands and struck the 20th on the head. I cried to the boys to watch him. I thought he was diving after his gun. (When I saw a fight was going on, with a soldier's curiosity I entered the joint.) But to everybody's horror he whipped out an enormous dagger and with an oath and a curse like him and cooly drew his iron and backed me up. I didn't know what second I might get my fill, and I tell you it made me feel good to know I had at least one man to back me. Suddenly the doors were burst open and in rushed twenty guards. The doors had been closed and at the same time pulled my gun in the saloon all this time had kept up a continuous growl, and as the guards rushed in they saw it was their last chance and with a wild yell rushed at the would-be murderer with cries of "Lynch him!" "Shoot him!" but the guards clapped a pair of handcuffs on the bayonet and soon had the prisoner. When I saw all was safe I ordered the bugler to blow the ambulance call, and soon an ambulance came dashing up. With the help of hospital men I got him into the ambulance and he was taken to the hospital. The ambulance men were unable to drive him back, and when an attempt was made to do so, an attempt was made to do so.

Mount Hood Notes. The weather was cold for a few days and the mercury went down to zero at this place, with about 6 inches of snow. Allen Macrum, who was in the hospital for a few days, returned home last Tuesday. He says Mt. Hood is good enough for all.

We hear that the settlers are building the bridge across the east fork of Hood river.

The King's club has about winked out, as it is hard to get a setting. We had one set of a new fireman.

E. Henson says the voters are coming into register very slowly. Better not put it off too late, boys.

It takes some of our boys two days to make the trip to Hood River and return, on horseback. Never mind; the weather will be better in a short time and we will fix the roads; then—well, we can't guess what excuse then.

White Salmon Side. Mrs. A. H. Jewett spent several days in Portland last week and returned home last Wednesday evening, accompanied by Miss Savage of Portland, who expects to visit at White Salmon.

L. C. Bently, the mail carrier to Glenwood, received serious injuries while en route with the mail several days ago. He was thrown over a log by his horse, and his back was badly sprained. He went to The Dalles with Mr. Luckabee and remained there for medical treatment.

Mrs. Eliza Pugh of Wasco spent several days at White Salmon, visiting friends and relatives.

Rufus Byrket and Will Rankin came over from the logging camps at Hood River, last week.

Glen Fabrick, principal of the White Salmon school, returned from Stevenson last week, where he has been attending the teachers' examination.

The Home Mutual Improvement club met at the home of C. M. Wolfart's last Saturday evening. A very pleasant evening was spent in the gymnasium. Owing to weather a number of the members could not be present.

Mr. Ward's sister and family arrived from California last Sunday. They expect to visit relatives in White Salmon several weeks.

Miss Lillie Moore of Gloucester county, New Jersey, is visiting her brother, C. D. Moore and expects to remain for a couple of months.

Jas. O. Pugh returned from a Portland hospital, where he had a successful surgical operation performed.

A dance will be held at Thomas' hall, Biggin, this Thursday night.

EDITOR GLACIER: We discover in the column of the GLACIER edited by the board of directors of the Hood River Fruit Growers' Union, that "Competition against specialties is the principal thing which the Union is intended to accomplish." We are glad that the present board of directors so frankly announce the policy to be pursued. X. Y. Z.

H. R. F. G. U. (Articles appearing in the GLACIER under the name of H. R. F. G. U. are furnished and edited by the board of directors of the Hood River Fruit Growers' Union.)

The Hamilton County Fruit Growers' Union of Tennessee reports that the average of strawberries this year will be reduced 40 per cent.

The Shippers Association of Villa Ridge, Ill., last year, handled 101 cars strawberries, 59 cars grapes, 14 cars beans and 65 cars tomatoes, cantaloupes and cucumbers, besides a large amount by local freight. Their estimate for 1900 is 100 cars of strawberries.

Hood River may come up to the above record in quantity but the quality of our fruit is recognized everywhere.

It is a good indication when our growers recognize the necessity of intelligent cooperation in marketing our fruit. Let us agree on this point for the sake of dollars and "cents."

After the busy season is over it would not cost so much to hire a hall and have a real fraternal quarrel on some other subject—just for amusement, you know.

Best Food for Intellectual Thought. No man can vote intelligently unless he thinks intelligently. In this time of "wars and rumors of wars" the greatest aid to intelligent thinking and the best food for intelligent thought is that newspaper which is the greatest and best. Important. An intelligent understanding of the policy of a nation or great political party is something to be desired, and it is the duty of every citizen to thoroughly inform himself upon the leading topics of the day. The *Semily Weekly Republic* is the greatest and best of all newspapers. Its telegraphic and cable news service excels that of any other paper. It prints the news news fully; not imaginative occurrences, but domestic and world-distant, fully authenticated facts. The policies of the great political parties are now being formed and the candidates discussed. Now is the time to subscribe for the best medium of keeping in touch with the whole world, the *Semily Weekly Republic*.

No less worthy of attention is the *Republic's Sunday Magazine*. It is replete each issue with the best of special articles written by the best of literary talent. Its beautiful illustrations have already made it famous and their quality and quantity will be preserved. New features of absorbing attraction are illustrated and enlarged upon in a manner equal to the high priced magazines. Events of current interest are set forth in entertaining style. There is humor in its pages, too, and for the benefit of the ladies the latest Paris fashions are each week exquisitely illustrated and described. The *Republic's Sunday Magazine* is standard. The subscription price of the *Semily Weekly Republic* is \$1 per year. The *Republic's Sunday Magazine* \$1.25 per year. Both papers are sent by mail at the very low price of \$1.50 for one year. To secure this low rate both must be ordered and paid for at the same time. Address all orders to The *Republic*, St. Louis, Mo.

Report of Grand Jury. Following is the report of the grand jury for the February, 1900, term of circuit court:

We have been in session six days, and have examined seven cases, and returned six indictments, and one not true bill.

We have examined the clerk's, sheriff's and treasurer's offices, and find the books and records well kept, and the business of these offices well conducted as far as we are able to determine.

We have investigated the selling of cigarettes to minors, and believe the law has been violated, and we recommend that the law be strictly enforced.

From information laid before the grand jury we find the county poor well cared for.

We extend our thanks to A. A. Jayne, district attorney, and W. L. Bradshaw, judge, for their instructions to us which have aided us in the discharge of our duties.

We further recommend that the county court have the books of the county officers examined by an expert before the expiration of each term.

J. L. KELLEY, Foreman.

Cure for Small-pox. A cure for small-pox and scarlet fever, which the Rev. Adirondack Murray claims to be infallible as fate, is composed of one grain of sulphate of zinc, one grain of digitalis (commonly known as fox glove) and a half teaspoonful of sugar. This to be thoroughly mixed with two teaspoonfuls of water and four ounces of water added. The dose for adults is one teaspoonful every hour and for children smaller doses according to age. Murray says: "The medicine is harmless and is recommended by the best schools in Paris. I have cured my children of scarlet fever and others of small-pox when doctors said the patient must die. Either disease under this treatment will disappear in twelve hours. If the countries would compel their physicians to use it, their world would be free of pest houses."

W. G. Steel, editor of the Oregon Native Son, was married to Miss Lydia A. Hatch of Tacoma, Feb. 16th.

The Arlington Advocate gives the "retort courteous": "The Antelope Herald lumped its back up in great shape last week because we called it exchange. Next time, when we copy from them, for fear of hurting the editor's feelings, we will put his name at the end of the article in big caps."

"After doctors failed to cure me of pneumonia, I used One Minute Cough Cure and three bottles of it cured me. It is the best remedy on earth for whooping cough. It cured my grandchild of the worst cases," writes Jno. Berry Logan, Pa. It is the only harmless remedy that gives immediate relief. Cures coughs, colds, croup and throat and lung troubles. It prevents consumption. Children always like it. Mothers endorse it. Williams & Brosius.

The Dalles has failed to get its wool-scouring mill, but its citizens have not given up the effort to get that or something better.
