#### THE CASE OF CLARK. conate Will Take it Up Next Thurs

Washington, May 5 .- The senate to day adopted the motion of Hoar to take up the resolution of the committee on elections declaring that Clark, of Montana, was not duly elected to the senate, and then postponed consideration of the question for a week. The army appropriation bill, after a rather spirited debate, was passed without division. The day closed with the passage of a number of privato pension bills, including bills to pension Mrs. Julia Henry, widow of the late General Guy V. Henry; General James Longstreet, Mrs. Margaret M. The house today, without division, passed the free homes bill, which has been pending before congress for a number of years. The bill provides that the government shall issue patents to actual bona fide settlers on agricultural lands of Indian reservations opened to settlement. These lands were taken up by settlers, who contracted to pay for them \$1.25 to \$3.75 per acre. By the terms of the bill, the government assumes the payment of the purchase price to the Indians and changes the existing law relative to agricultural colleges so as to insure the payments of the endowments which heretofore have come out of the sale of public lands in case of deficiency. These payments involve \$1,200,-000 annually. Of the 29,000,000 acres the enemy and the wounding of two in Indian reservations opened to settlement, for which the government is to rebels, 100 of them armed with rifles, pay or has paid \$35,000,000, about attacked Catarman, in Northern Samar, 8,000,000 acres have been taken and 2,000,000 are supposed to be still available for agricultural purposes. Manila, May 9 .- Telegrams received here from General Young report that Aguinaldo has rejoined the rebel General Tino, in the north and that they have reassembled a considerable force in the mountains. General Young desires to strike them before it rains, and asks for reinforcements. The tenor of the dispatch leads to the belief that himself saw portions of a deckhouse, General Young is confident Aguinaldo is with Tino, and it is presumed they

are preparing to fight. A detachment of the Forty-seventh regiment met and routed a band of the enemy between Legaspi and Riago, province of Albay, April 15. Two Americans were killed and five wounded, including two officers. The Filipinus lost heavily. The conditions around Legaspi and Sorsogon are re-

ported as considerably disturbed. The rebel attacks on the American garrison in Visayan islands recently have resulted in the killing of 280 of Americans. At daybreak, May 1, 400 in the vicinity of Catubig. Company F, of the Forty-third regiment, was garrisoned at the place. ## WRECKAGE OF A LINER.

Passed in Mid-Atlantic-Causes Anxiety in Marine Circles.

Chicago, May 9 .- A special to the

Record from Philadelphia says: Captain Campbell, of the British steamer Tenby, which arrived at Philadelphia today from Port Said, brings an account of wreckage passed at sea, which is causing great anxiety among shipping men. The captain believes a maritime disaster has occurred, in volving the loss of an Atlantic liner. The Tenby fell in with the wreckage mentioned at a point west of the mid-Atlantic and the lookouts observed a

bark flying distress signals, but it was

to far off and the sea too rough for the

steamer to lender any assistance. Toward sunset on April 30, when the Tenby was steaming slowly westward against heavy seas the lookout reported that her path was obstructed by floating timbers and spars for a considerable distance head. Captain Campbell pieces of planking, seemingly from a vessel's hull, and many minor objects, all of which seemed to have been in the water only a short time. There were steamer chairs and other fine furniture not generally carried by freight steamers. Night closed in as the Tenby resumed her voyage. The locality of the wreckage is given on her logbook at latitude 37 north, and be-

tween longitude 53 and 55 west. The next day, May 1, the bark was seen apparently in distress. She was a large, four-masted vessel, painted a slate color, and had several signals out. Soon after she was sighted she disappeared in the fog.

Captain Campbell said today that if the vessel was in need of assistance she was in a favorable position to receive it. Her situat on was directly in the track of shipp ng between New York

and the equator. He did not connect the wreckage pased with the bark in question, but many who heard the story are inclined to the opinion that the bark collided with and sunk another craft, of which only the wreckage remains. The bark is south of the path of Atlantic liners, and if the vessel which is supposed to have been lost is really an ocean greyhound, she must have been far out of her course when the collision occurred. On the other hand, the wreckage is directly in the line of the craft which ply between the northern ports and those of South America.

GENERAL GARCIA CAUGHT.

Next to Aguinaldo the Leading Filipino

Insurgent. Manila Bay, May 9 .- General Pantelon Garcia, the highest insurgent officer, except Aguinaldo, was captured yesterday by Lieutenant E. P. Smith, of General Funston's staff, in the town of Jaen, three miles northeast of San

Isidro, province of New Ecija. Garcia personally conducted the guerilla operations, and General Funston had spent weeks in trying to capture him, several companies beating the whole country at night. Often the Americans caught messengers bearing Garcia's orders. The people protected him and burned signal lights whenever the American soldiers appeared.

Recently General Funston surprised him and his staff while dining at Arayat at dusk. The Filipinos leaped through the windows and escaped, leaving their papers and everything except the clothing they wore. The strain of being hunted finally exhausted their endurance.

General Funston, who came to Manila to bid farewell to General Otis, will return and endeavor to persuade Garcia to secure the surrender of his forces which number several thousand, Most of them live in the mountains

Bee from Beaver City, Neb., gives further details of the Wilsonville tornado. Many farm houses were destroyed. The hailstones were as large as baseballs, and were driven through roofs. The twister appeared after the bombardment and took a northeasterly course. It was funnel shaped and did damage over a large area. Farmers west and north of Wilsonville were the greatest sufferers. Many people fled to their cellars. Mayor Forbids "Sappno." Leavenworth, Kan., May 8 .-
